Company Overview

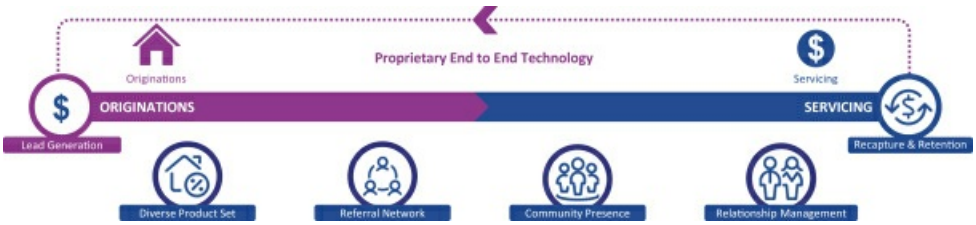
We are a growth-oriented mortgage company that employs a relationship-based loan sourcing strategy to execute on our mission of delivering the promise of home ownership in neighborhoods and communities across the United States. Our business model is centered on providing a personalized mortgage-borrowing experience that is delivered by our knowledgeable loan officers and supported by our diverse product offerings. Throughout these individualized interactions, we work to earn our clients' trust and confidence as a financial partner that can help them find their way through life's changes and build for the future.

We believe our business would be difficult to replicate. Guild was established in 1960 and we are among the longest-operating seller-servicers in the United States. Over the course of our operating history, we have navigated numerous economic cycles and market dislocations. We have also expanded our retail origination footprint to 31 states within the United States, and we have developed end-to-end technology systems, a reputable brand, industry expertise and many durable relationships with our clients and members of our referral network.

We have adapted to changes in market conditions by remaining dedicated to what matters most to our business: building relationships with our clients and referral partners in an effort to create "clients for life." We have made it a priority to extend the lifecycle of our client relationships with a persistent focus on the client experience to drive our long-term performance. As a result of our client-focused strategy, during the twelve months ended June 30, 2020, we had an overall recapture rate of 61%. Recapture rate is calculated as the total unpaid principal balance ("UPB") of our clients that originated a new mortgage with us in a given period, divided by the total UPB of our clients that paid off their existing mortgage and originated a new mortgage in the same period. This calculation excludes clients to whom we did not actively market due to contractual prohibitions or other business reasons.

Our business model benefits from the complementary relationship between our origination and servicing segments which, together, have propelled our performance through interest rate and market cycles.

Our Business Model



- Our origination strategy focuses on increasing purchase-mortgage business and providing a superior personalized mortgage-borrowing experience that encourages our clients to return to us. This strategy allows us to generate consistent origination volume—calculated as the total dollar volume of loans originated—through differing market environments, contributes to our servicing segment and facilitates business from repeat clients.

- Our in-house servicing platform creates opportunities to extend our relationship with clients and generate refinance and purchase volume that replenishes run-off from our servicing portfolio. In coordination with our portfolio recapture team, our loan officers handle recapture activity for their existing client base directly, rather than outsourcing that function through a call center. This approach creates a continuous client relationship that we believe encourages repeat business. In addition, our scalable servicing platform provides a recurring stream of revenue that is complementary to our origination business.

In 2007, seeing an opportunity to expand the Company's sales and production strategy and grow its market share, a management-led partnership that included a majority investment from McCarthy Capital acquired the Company from its founder. Our senior leadership team continues to own a meaningful percentage of our business. Upon completion of this offering, our senior leadership team will own approximately % of our Class A common stock (or %, if the underwriters exercise in full their option to purchase an additional shares of Class A common stock from the selling stockholders). As a result, we believe that the economic interests of senior leadership are substantially aligned with those of our stockholders.

Following the acquisition of the Company from its founder in 2007, we embarked on a growth strategy focused on prudently expanding our geographic footprint beyond the West Coast. Through steady organic growth and a series of targeted acquisitions, we grew our annual origination volume from $1.4 billion for the year ended December 31, 2007 to $27.8 billion for the twelve months ended June 30, 2020, and grew our servicing portfolio from $2.5 billion of UPB as of December 31, 2007 to $52.8 billion of UPB as of June 30, 2020. Unless otherwise indicated, the UPB of our servicing portfolio excludes any subserviced loans. Furthermore, we grew our share of the U.S. residential mortgage origination market from 7 basis points for the year ended December 31, 2007 to 94 basis points for the twelve months ended June 30, 2020, based on our origination data and market data from Inside Mortgage Finance. We expect to continue to expand our business in the geographic areas in which we already serve our clients, as well as in new markets throughout the United States.

Guild's Annual Origination Volume and Market Share

(1) CAGR is equal to the compound annual growth rate of Guild's annual origination volume for the year ended December 31, 2007 through the twelve months ended June 30, 2020.

Our productivity today, and our ability to scale in the future, is made possible by our purpose-built technology platform that provides an end-to-end solution for prospecting, application gathering, underwriting, compliance, quality control, servicing and client retention. Our experienced loan officers use this technology platform and our custom-built client relationship management system, Guild 360, to find new clients, close new loans and enhance and expand existing client relationships. Guild 360 provides a comprehensive view of the client lifecycle, identifying lead generation opportunities in an effort to anticipate client needs for refinancings and new purchases. In addition to improving the productivity of our own employees, our technology has empowered the five businesses we acquired at least two years ago to increase origination volume by an average of 29% in the second year post-acquisition.

We recognize that the mortgage borrowing process is not one-size-fits-all. We understand that preferences with respect to how and when mortgage borrowers would like to interact with their lender are varied: sometimes, clients want to self-serve on the internet, while at other times, they prefer to speak in person or talk over the phone. For example, according to a 2019 survey of recent and prospective homebuyers conducted by PricewaterhouseCoopers, although digital interactions are more popular earlier on in the lending process, borrowers prefer in-person or over-the-phone interaction during later stages of the borrowing process. Our business model provides clients with both a comprehensive digital interface and an experienced team that delivers high-tech, high-touch client service, allowing clients to engage with us in whatever format and frequency provides them the most comfort and convenience.

Our business has generated a profit each year since 2008, and our net income has grown substantially over this time period. For the six months ended June 30, 2020, our total net revenue was $604.3 million, net income was $110.8 million, annualized return on equity was 48.5% and Adjusted Net Income was $238.2 million. For the same period, Adjusted EBITDA was $325.8 million and annualized Adjusted Return

on Equity was 104.4%. For the fiscal year ended December 31, 2019, our total net revenue was $712.9 million, net income was $5.6 million, return on equity was 1.3%, Adjusted Net Income was $139.1 million, Adjusted EBITDA was $201.5 million and Adjusted Return on Equity was 32.8%. For information on how we use these non-GAAP measures and a reconciliation of them to their most comparable GAAP measures, see "*Summary Historical Consolidated Financial and Other Data*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations—Non-GAAP Financial Measures*."

Market Opportunity

We believe our proven growth strategy, deep referral network and personalized client service position us to capitalize on opportunities resulting from the following market conditions.

Large Addressable Market

Mortgage loans are the largest class of consumer debt in the United States. According to the New York Federal Reserve, there was approximately $10.2 trillion of residential mortgage debt outstanding as of June 30, 2020.

From 2007 through the year ended December 31, 2019, annual first-lien residential mortgage originations in the United States have averaged approximately $1.8 trillion and, over that period, conventional conforming or government mortgages accounted for approximately 82% of first-lien residential mortgage originations in the United States, according to Inside Mortgage Finance. Guild's product offerings include both conventional conforming and government-eligible loans, and such loans have constituted over 90% of our cumulative origination volume from 2007 through June 30, 2020.

Demographic Trends and Borrower Preferences Support our Focus on Mortgage Purchase Volume and First-Time Homebuyers

From 2007 through the year ended December 31, 2019, annual purchase-mortgage volume in the United States averaged $0.8 trillion and on average accounted for approximately 47% of annual first-lien residential mortgage volume, according to Inside Mortgage Finance. Over the same period, first-time home buyers accounted for 46% of annual mortgage purchase volume, according to a March 2020 study published by the Consumer Financial Protection Bureau (the "CFPB").

Over the next decade, according to Inside Mortgage Finance, approximately 45 million people will turn 34, the median age of a first-time home buyer, potentially generating increased demand for mortgage purchase loans. Our focus on purchase-mortgage business and personalized client service could position us to capitalize on this market opportunity, because younger generations of first-time and repeat homebuyers often choose to communicate with their lenders in-person. According to a 2019 Ellie Mae study, 79% of Millennial and 78% of Generation X consumers reported meeting with their lender in person often or sometimes.

Frequency of In-Person Communication With Lender

The Mortgage Industry is Highly Fragmented

According to Inside Mortgage Finance, since 2010, non-bank lenders have increased their share of annual first-lien residential mortgage originations from approximately 16% to more than 50%, and the aggregate share of loans originated by the top 10 originators fell from 73% to 42%, as the largest national banks reduced their presence in the mortgage sector. Further, the top five companies in the retail mortgage market comprised only 17.3% of total originations in 2019, according to Inside Mortgage Finance. This market fragmentation creates significant opportunity for us to continue to grow.

We believe that our employees' local presence in the communities that we serve and our long-standing referral networks position us to succeed in a large, fragmented market. We believe that many borrowers, and first-time homebuyers in particular, rely on recommendations from real estate professionals, homebuilders, current and past homeowners, financial planners and other members within their communities to identify their mortgage lender. Our local presence positions us to capture origination volume generated by such referral networks and to provide expertise and advice to borrowers that is specific to the communities in which they are looking to purchase homes.

Considerable Barriers to Entry

The residential mortgage industry is characterized by high barriers to entry. Mortgage lenders must obtain approval from Freddie Mac, Fannie Mae and Ginnie Mae and maintain various state licenses in order to originate, sell and service conventional conforming and federal and GSE-backed loans. In addition, sophisticated technology, origination and servicing processes and regulatory expertise are required to build and manage a successful mortgage business.

Over the course of our long operating history, we have developed strong relationships with Freddie Mac, Fannie Mae and Ginnie Mae, as well as state regulatory authorities. We have also invested heavily in

our technology and in developing our infrastructure and internal processes. Furthermore, our management team has an average of 24 years of experience managing through various market and regulatory environments. We believe these long-standing relationships, and the time and resources we have dedicated to developing our brand and infrastructure, provide a competitive advantage and position our business for continued success.

Our Strengths

Differentiated Access to Purchase Loans Enables Durable Origination Volume and Attractive Margins

Our strategy has generated significant origination volume, including a high percentage of purchase money volume. Over the five years ended December 31, 2019, we have originated more than $84.1 billion of total volume, including $61.4 billion of purchase volume. Our purchase volume represents 73% of our total origination volume over that period, compared to 58% of total origination volume in the United States, according to Inside Mortgage Finance. Further, Guild achieved a higher purchase mix than the industry average each year since 2007. We believe our focus on purchase loans makes our business more stable by making it less sensitive to interest rate changes and less dependent on refinance activity, which enhances our ability to generate more consistent returns through market cycles.

Purchase Origination Volume As a Percentage of Total Originations

(1) Average based on periods shown in the chart above.

We source a majority of our loans through an established referral network of realtors, builders and other partners (our "referral partners") with whom we have developed longstanding relationships over years of positive interactions. This network provides us with direct and frequent leads for loans to homebuyers who are seeking a personalized experience and access to our diverse product offerings, including affordable lending solutions designed to serve the first-time homebuyer market. Our loan officers educate our clients

on the unique aspects of the products that we offer and help them to identify the product that will best suit their needs. This tailored and interactive approach to the lending process helped us achieve Money Magazine's Best Mortgage Company for First Time Home Buyers award in 2020. Further, we believe our focus on service over price, and the value we provide to our clients, has enabled us to generate attractive gain-on-sale margins.

Proven Track Record of Navigating through Market Cycles and Executing on Growth Strategies

We have demonstrated our ability to adapt and successfully operate through various market conditions and interest rate environments. Since 1960, we have operated through eight recessions and a wide range of housing market conditions, consistently evolving our risk management framework and operating culture in order to continue serving our clients. We have been profitable each year since 2008, and we believe our track record is largely due to our expertise in the mortgage market, nimble operating style and balanced business model.

Following the acquisition of the Company from its founder in 2007, we shifted our focus to actively growing our origination franchise and scaling our servicing portfolio. In the 12 years since then, we have grown annual origination volume by 19 times and our servicing portfolio dollar volume by 21 times, using a combination of organic and inorganic growth strategies. Through productivity gains from our evolving technology platform, recruiting new loan officers and executing on our targeted acquisition strategy, we have grown in our existing markets and also expanded into new geographies. The success of our acquisition strategy has also supported our profitability.

Our Strategy is Tailored to Address Homebuyer Needs and Promote Deep Referral Network Relationships

We believe that borrowers often prefer to work with people and companies that are present in their neighborhoods and are able to deliver customized solutions to fit their specific needs. Understanding these unique needs is the reason we feel it is vital to be in the communities we serve, living and working with our clients and members of our referral networks.

We provide an individualized lending approach, a broad product set and the operational and regulatory expertise required to meet our clients' needs. Through our decentralized fulfillment model, we perform underwriting and closing services on a regional basis, which allows us to recognize and adapt to the intricacies of each region and build relationships between our fulfillment team and our local loan officers. Our origination processes are designed to deliver reliable service and on-time closings.

We believe that our referral networks and local community presence position us to succeed in a highly fragmented market. Our local presence positions us to capture loan volume generated by these referral networks and provide tailored advice that acknowledges the fact that purchasing a home is an emotional life decision and borrowers have varied preferences with respect to the mortgage lending process. We provide our clients with the opportunity to engage with us in whatever manner they may prefer—whether that may be in person, online or over the phone. Our technology platform furthers our ability to deliver reliable service and on-time closings by creating milestones and swim lanes to provide clear accountability with respect to meeting closing deadlines.

Internally-Developed Technology Platform Underpins Loan Officer Productivity and Fosters Repeat Business

We leverage our robust technology platform and coaching program to increase our loan officers' productivity and overall recapture rates.

Our technology platform provides loan officers with end-to-end support from client acquisition to loan closing and client retention. Our loan officers benefit from our custom-built technology platform and our data repository, which has been developed over the course of our long operating history. We continue to build our data repository through our ongoing origination activity, and we have added data from more than 525,000 transactions since January 1, 2010. By utilizing this data to further develop our platform and to curate suggested customer touchpoints, we foster a balanced combination of personalized and digital strategies for lead nurturing, as well as client education and communication, that we believe gives our loan officers a competitive edge.

In addition, our technology platform adds substantial value to loan officers that cannot be replicated or transferred to our peers. This helps us to generate strong loan officer loyalty and benefit from high retention rates among our top performing loan officers. The loan officers responsible for 71% of our production volume over the last five years are still with the Company today.

This technology-focused approach to managing client relationships, coupled with our loan officers' strong referral networks and other relationships within their communities, has contributed to the increase in our overall recapture rate from 37% for the year ended December 31, 2017 to 61% for the twelve months ended June 30, 2020. In addition, for the year ended December 31, 2019, Guild's portfolio recapture volume—calculated as the dollar volume of originations for existing retail clients who refinanced or received a new purchase mortgage during that period—totaled $4.9 billion, which resulted in a 26% purchase recapture rate, a 64% refinance recapture rate and a 56% overall recapture rate—outperforming the average overall recapture rate of 25% for large independent mortgage lenders participating in the Mortgage Bankers Association and STRATMOR Peer Group Roundtables Program (Spring 2020). We believe our ability to achieve purchase and refinance recapture rates in excess of market averages is a testament to our innovative platform and business model.

We also empower our loan officers through the Company's coaching program, Elevate, which is designed to support loan officers at each stage of their careers and provides a roadmap to develop highly productive partnerships with referral networks. The program is taught by our highest producing loan officers and allows participants to learn effective solutions from their peers that are in the market originating mortgages on a day-to-day basis. The program also furthers our goal of creating a collaborative culture by engaging our national sales team to share best practices with their peers around the country. Participating loan officers have consistently achieved increased average productivity following participation in the program.

Strong Culture Set by Experienced Management Team

At the heart of our Company is our culture, grounded in strong values, innovation, creativity and collaboration. We believe our culture sets us apart and is the backbone of our success. It has enabled us to continuously innovate and evolve to navigate the dynamic mortgage market.

Guild is an inclusive organization and encourages open and honest dialogue across employees, clients and partners. We have a diverse leadership team that fills key roles in each of our business lines. Our leadership team has an average of 24 years of industry experience, has worked at Guild for an average of 21 years and includes top performers from the businesses that Guild has acquired. We have high employee retention, as well as a successful recruiting program, because we empower our employees, maintain a culture that supports collaboration and development and provide our employees with the tools and resources they need to be successful.

We also believe strongly in supporting the communities in which we operate. To that end, Guild and its employees give back to the neighborhoods and communities we serve through sustained investment of time and resources, including through our Guild Giving Foundation.

Further, our management team is well respected across the mortgage industry and has developed strong relationships with our financing counterparties, our referral networks and the investors to which we

sell the majority of the loans that we originate—Fannie Mae, Freddie Mac and Ginnie Mae. Because of these relationships, we often have unique opportunities to work on, and shape, pilot programs for new products. This allows us to stay at the leading edge of product development, provide our clients with a broad solution set and further develop our relationships with stakeholders critical to the success of our business.

Our Growth Strategies

We have increased our origination volume from $1.4 billion for the year ended December 31, 2007 to $27.8 billion for the twelve months ended June 30, 2020. Our strategy has proven to be scalable as we have further penetrated many of our existing markets and expanded our presence across the United States. We believe that we are well positioned to continue capturing additional origination business through our well-recognized brand, internally-developed technology platform and differentiated position in the purchase market.

Increase Our Market Share in Existing MSAs and Continue Building Our Team of Loan Officers

We are a top-10 lender in 26 of the 50 largest metropolitan statistical areas ("MSAs") in which we operate according to CoreLogic, and our share of total origination volume has grown by 14 times over the last 12 years through June 30, 2020, based on our origination data and data from Inside Mortgage Finance. Our hands-on approach in local communities has allowed us to continually capture increased business as we strengthen and broaden our relationships in the MSAs in which we operate. Our ability to improve the productivity of our existing loan officers through more effective use of our technology platform and our talent development programs further supports our growth efforts.

We believe we can continue to generate growth by adding loan officers to our team with recruiting efforts that leverage our reputation for providing the tools, data and support that allow loan officers to develop their business. We focus on recruiting the right loan officers to the Guild team, namely those who we believe will not only add incremental origination volume but will also fit well with our culture and further our mission to be a trusted partner for our clients. By maintaining our strong culture and continually developing our loan officers using our proprietary coaching program and technology platform, we have been able to efficiently scale our business.

Expand the Geographic Footprint of our Business

Our retail operations cover 31 states, with our largest presence on the West Coast. By continuing to execute our growth strategy, we believe we can grow our geographic footprint to include all 50 states over the long term.

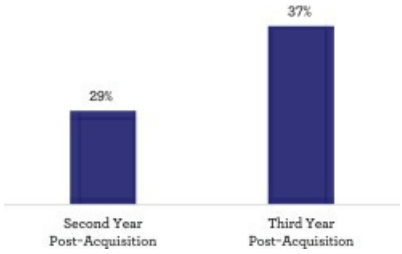
(1) Indicates MSA market share only for states where the Company operates in-state retail locations.

Over the last 12 years through December 31, 2019, we acquired six businesses with 391 loan officers. To identify targets that fit best with Guild, we look for independent lenders who share our values and our commitment to innovation, creativity and collaboration. We prefer to partner with lenders that have a strong foothold in their market and a clearly defined approach to sustaining that success. We have also thoughtfully structured our past acquisitions to include an earn-out component designed to minimize up-front premium paid and ensure an attractive return on investment. Following an acquisition, we fully integrate each business operationally, on-boarding the acquired business to our platform, while allowing its management team to continue executing the strategy that has been successful for them in the past. After a target business has been integrated into the Guild platform, we strive to support growth organically in the same way we do in our existing MSAs. We also strive to generate synergies and support profitability by improving execution and increasing gain-on-sale margins for the businesses that we acquire. For the four businesses that we acquired at least three years ago, originations increased by an average of 37% in the third year following those acquisitions. We believe this demonstrates the soundness of our approach to acquisitions and our ability to successfully integrate acquired businesses into the Guild organization.

Average Increase in Volume per Acquisition



Given the fragmented nature of the mortgage market, we believe we can continue to generate meaningful growth through acquisitions. There were more than 900 independent mortgage lenders in the United States as of December 31, 2019, according to a June 2020 report published by the CFPB. We

believe this provides a large pool of potential targets for new acquisitions. Over the twelve months ended June 30, 2020, our share of mortgage originations accounted for 94 basis points of total residential mortgage originations in the United States, with our market share in the states where we have our strongest presence reaching more than 5%.

Enhance Productivity and Ancillary Fee Opportunities through Continued Investment in our Technology Platform

The mortgage industry is continually evolving, and our technology platform has been built to adapt with the market and our strategies. Our technology platform is the backbone of our regulatory efforts and the processes we use to effectively and efficiently onboard, underwrite, close and service mortgages. These functions are essential to providing outstanding client service and running our business efficiently. We continue to invest in our technology platform, and we believe our investment will continue to enhance our productivity and allow us to differentiate ourselves in the market place as it has to date, with the average number of loans closed per producer per month increasing from two during the year ended December 31, 2007 to ten in July of 2020. As of June 30, 2020, we employed 67 programmers and 92 other technology professionals who maintain and develop our systems.

Monthly Loan Closings by Job Function(1)

Additionally, using our data repository and adaptable technology platform, we have an opportunity to identify and offer our client base relevant ancillary products, such as title, property and casualty, life and umbrella insurance and other products and services complementary to the mortgages that we originate. Ancillary product offerings like these could increase the value of the services that we provide to our clients, further solidifying our position as a trusted partner in their financial decisions, and also create an opportunity to earn ancillary fee income through sourcing high-quality, timely and actionable referrals to insurance companies and other potential partners.

Summary of Risk Factors

You should consider carefully the risks described under the "*Risk Factors*" section beginning on page 28 and elsewhere in this prospectus. These risks could materially and adversely affect our business, financial condition, operating results, cash flow and prospects, which could cause the trading

price of our Class A common stock to decline and could result in a partial or total loss of your investment. These risks include, among others, those related to:

- changes in macro-economic conditions and in U.S. residential real estate market conditions, including changes in prevailing interest rates or monetary policies and the effects of the ongoing COVID-19 pandemic;
- disruptions in the secondary home loan market and their effects on our ability to sell the loans that we originate;
- changes in certain U.S. government-sponsored entities and government agencies, including Fannie Mae, Freddie Mac, Ginnie Mae, the Federal Housing Administration (the "FHA"), the U.S. Department of Agriculture (the "USDA") and the U.S. Department of Veterans Affairs (the "VA"), or their current roles;
- the effects of our existing and future indebtedness on our liquidity and our ability to operate our business;

- changes in accounting rules, tax legislation and other legislation;
- risks related to our being a public company; and
- risks related to our Class A common stock, our dual class common stock structure and this offering.

Our Principal Stockholder

Following the completion of the reorganization transactions and this offering, MCMI will own 100% of our issued and outstanding Class B common stock and will control approximately % of the combined voting power of our outstanding common stock. As a result, MCMI will control any action requiring the general approval of our stockholders, including the election of our Board of Directors, the adoption of amendments to our certificate of incorporation and bylaws and the approval of any merger or sale of substantially all of our assets. Because MCMI will control more than 50% of the combined voting power of our outstanding common stock, we will be a "controlled company" under the corporate governance rules for NYSE-listed companies. Therefore we will be permitted to, and we intend to, elect not to comply with certain corporate governance requirements of the NYSE. For more information on the implications of this distinction, see "*Risk Factors—Risks Related to our Class A Common Stock and this Offering*," "*Management—Controlled Company*," and "*Principal and Selling Stockholders*."

Two members of our Board of Directors serve as members of the investment team at McCarthy Capital: Patrick Duffy, the Chairman of our Board of Directors, serves as the President and Managing Partner of McCarthy Capital and Mike Meyer serves as the Portfolio Director of McCarthy Capital. Implications of Being an Emerging Growth Company

We qualify as an "emerging growth company" as defined in the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"). As an emerging growth company, we may take advantage of specified reduced disclosure and other requirements that are otherwise applicable generally to public companies, including:

- presenting only two years of audited financial statements in addition to any required unaudited interim financial statements with correspondingly reduced "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" disclosure in this prospectus;
- not being required to comply with any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements;
- reduced disclosure about our executive compensation arrangements in our periodic reports, proxy statements and registration statements;
- exemption from the requirements to hold non-binding advisory votes on executive compensation and stockholder approval of any golden parachute payments not previously approved; and
- exemption from the auditor attestation requirement in the assessment of our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, as amended (the "Sarbanes-Oxley Act").

We may take advantage of these exemptions until we are no longer an emerging growth company. We will remain an emerging growth company until the earliest of (i) the end of the fiscal year following the fifth anniversary of the completion of this offering, (ii) the first fiscal year after our annual gross revenues exceed $1.07 billion, (iii) the date on which we have, during the immediately preceding three-year period, issued more than $1.0 billion in non-convertible debt securities, or (iv) the end of any fiscal year in which the market value of our common stock held by non-affiliates exceeds $700.0 million as of the end of the second quarter of that fiscal year (and we have been a public company for at least 12 months and have filed one annual report on Form 10-K). We may choose to take advantage of some, but not all, of the available exemptions. We have taken advantage of certain reduced reporting obligations in this prospectus. Accordingly, the information contained herein may be different than the information you receive from other public companies in which you hold stock.

In addition, the JOBS Act provides that an emerging growth company can take advantage of an extended transition period for complying with new or revised accounting standards. This allows an emerging growth company to delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to avail ourselves of this exemption and, therefore, while we are an emerging growth company we will not be subject to new or revised accounting standards at the same time that they become applicable to other public companies that are not emerging growth companies.

Recent Developments

COVID-19 Pandemic

Business Operations and Liquidity

We continue to closely monitor the economic impact resulting from theCOVID-19 pandemic. Although we experienced record origination volume and increased profit margins in our origination segment during the six months ended June 30, 2020, the COVID-19 pandemic has had a negative impact on the financial results of our servicing segment. The federal government enacted the CARES Act, which allows borrowers with federally backed loans to request a temporary mortgage forbearance. As a result of the CARES Act forbearance requirements, we have recorded, and expect to record additional, increases in delinquencies in our servicing portfolio. As of June 30, 2020, the 60-plus day delinquency rate on our servicing portfolio was 3.5%, compared to a 60-plus day delinquency rate of 1.5% as of February 28, 2020. This increased delinquency rate on our servicing portfolio may require us to finance substantial amounts of advances of principal and interest, property taxes, insurance premiums and other expenses to protect investors' interests in the properties securing the loans. These advances and payments, coupled with increased servicing costs and lower servicing revenue, have negatively affected and will continue to negatively affect our cash position. Additionally, we are currently prohibited from collecting certain servicing-related fees, such as late fees, and initiating foreclosure proceedings. As a result, we expect the effects of the CARES Act forbearance requirements to reduce our servicing income and increase our servicing expenses.

As of August 31, 2020, approximately 4.70% of the loans in our servicing portfolio had elected the forbearance option compared to the industry average of 7.16%, as reported by the Mortgage Bankers Association. Of the 4.70% of the loans in our servicing portfolio that had elected forbearance as of August 31, 2020, approximately 27.6% remained current on their August payments. We believe our portfolio has performed better than the industry average because of our in-house servicing capabilities and timely response to the COVID-19 pandemic and that our performance is a testament to the strength of our client relationships. Our in-house servicing team and local loan officers continue to work with our clients to understand forbearance plans and determine the best paths forward for their unique circumstances. By maintaining relationships with our clients throughout the loan lifecycle, and supporting our clients during times of uncertainty, we position ourselves to capture future business.

Employee Safety

We are also continuing to focus on the wellbeing and safety of our employees. Since March, we have moved to a remote working environment for the majority of our employees and, for those that are coming into our offices, we have instituted additional health and safety precautions, such as restricting visitors, providing masks and mandating more frequent sanitizing of our offices.

Increased Liquidity

During the three months ended June 30, 2020 (the "second quarter of 2020"), to support our increased loan origination volume, we increased the capacity of our existing loan funding facilities by $165.0 million, of which $90.0 million represented a temporary increase in capacity. Subsequent to June 30, 2020, we increased the capacity of all of our existing loan funding facilities by an aggregate amount equal to $739.0 million, of which $90.0 million represented a temporary increase in capacity. We added one additional loan funding facility during the second quarter of 2020 with a total facility size of $100.0 million, for which we subsequently increased the capacity by $100.0 million during the three months ended September 30, 2020 (the "third quarter of 2020"). As of the date of this prospectus, the aggregate available amount under our loan facilities was approximately $2.9 billion.

During the second quarter of 2020, we renewed one of our MSR notes payable and increased the aggregate amount available under that MSR note payable by $27.0 million. In the third quarter of 2020, we renewed another MSR note payable and increased the aggregate amount available under that MSR note payable by $15.0 million. In addition, in September 2020, we drew down $22.0 million under one of our MSR notes payable. See *"—Liquidity, Capital Resources and Cash Flows"* for further information regarding our funding facilities.

The extent to which the COVID-19 pandemic affects our business, results of operations and financial condition will ultimately depend on future developments, which are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and actions taken by governmental authorities and other third parties in response to the pandemic. See "*Risk Factors—The COVID-19 pandemic has had, and will likely continue to have, an adverse effect on our business, and its ultimate effect on our business and financial results will depend on future developments, which are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and actions taken or to be taken by government authorities in response to the pandemic."*

Non-GAAP Financial Measures

To supplement Guild Mortgage Co.'s financial statements presented in accordance with GAAP and to provide investors with additional information regarding Guild Mortgage Co.'s GAAP financial results, we have presented in this prospectus Adjusted Net Income, Adjusted EBITDA and Adjusted Return on Equity, which are non-GAAP financial measures. These non-GAAP financial measures are not based on any standardized methodology prescribed by GAAP and are not necessarily comparable to similarly titled measures presented by other companies.

Adjusted Net Income. We define Adjusted Net Income as earnings before the change in the fair value measurements related to our mortgage servicing rights ("MSRs") and contingent liabilities related to completed acquisitions due to changes in valuation assumptions. The fair value of our MSRs is estimated based on a projection of expected future cash flows and the fair value of our contingent liabilities related to completed acquisitions is estimated based on a projection of expected future earn-out payments. Adjusted Net Income is also adjusted by applying an implied tax effect to these adjustments. The Company excludes the change in the fair value of its MSRs due to changes in model inputs and assumptions from Adjusted Net Income and Adjusted EBITDA because the Company believes this non-cash, non-realized adjustment to total revenues is not indicative of the Company's operating performance or results of operation but rather reflects changes in model inputs and assumptions (e.g., discount rates and prepayment speed assumptions) that impact the carrying value of the Company's MSRs from period to period.

Adjusted EBITDA. We define Adjusted EBITDA as earnings before interest (without adjustment for net warehouse interest related to loan fundings and payoff interest related to loan prepayments), taxes, depreciation and amortization exclusive of any change in the fair value measurements of the MSRs due to valuation assumptions and contingent liabilities from business acquisitions. The Company excludes the change in the fair value of its MSRs due to changes in model inputs and assumptions from Adjusted Net Income and Adjusted EBITDA because the Company believes this non-cash, non-realized adjustment to total revenues is not indicative of the Company's operating performance or results of operation but rather reflects changes in model inputs and assumptions (e.g., discount rates and prepayment speed assumptions) that impact the carrying value of the Company's MSRs from period to period.

Adjusted Return on Equity. We define Adjusted Return on Equity as Adjusted Net Income as a percentage of average beginning and ending stockholder's equity during the period. For periods of less than one year, Adjusted Return on Equity is shown on an annualized basis.

We use these non-GAAP financial measures to evaluate our operating performance, to establish budgets and to develop operational goals for managing our business. These non-GAAP financial measures are designed to evaluate operating results exclusive of fair value adjustments that are not indicative of management's operating performance. Accordingly, we believe that these financial measures provide useful information to investors and others in understanding and evaluating our operating results, enhancing the overall understanding of our past performance and future prospects.

Our non-GAAP financial measures are not prepared in accordance with GAAP and should not be considered in isolation of, or as an alternative to, measures prepared in accordance with GAAP. There are a number of limitations related to the use of these non-GAAP financial measures rather than net income (loss), which is the most directly comparable financial measure calculated and presented in accordance with GAAP for Adjusted Net Income and Adjusted EBITDA, and return on equity, which is the most directly comparable financial measure calculated and presented in accordance with GAAP for Adjusted Return on Equity. These limitations include that these non-GAAP financial measures are not based on a comprehensive set of accounting rules or principles and many of the adjustments to the GAAP financial measures reflect the exclusion of items that are recurring and may be reflected in the Company's financial results for the foreseeable future. In addition, other companies may use other measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparison.

The following tables reconcile Adjusted Net Income and Adjusted EBITDA to net income (loss), the most directly comparable financial measures calculated and presented in accordance with GAAP.

RISK FACTORS

Investing in our Class A common stock involves risks. You should carefully consider the risks and uncertainties described below, together with all of the other information included in this prospectus, including the financial statements and the related notes appearing at the end of this prospectus, before deciding to invest in our Class A common stock. Our business, financial condition, operating results, cash flow and prospects could be materially and adversely affected by any of these risks or uncertainties. In that case, the trading price of our Class A common stock could decline, and you could lose all or part of your investment. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties that we are unaware of or that we currently see as immaterial may also adversely affect our business. Some statements in this prospectus, including statements included in the following risk factors, constitute forward-looking statements. Please refer to *"Cautionary Note Regarding Forward-Looking Statements."*

Risks Related to Our Business

The COVID-19 pandemic has had, and will likely continue to have, an adverse effect on our business, and its ultimate effect on our business and financial results will depend on future developments, which are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and actions taken or to be taken by government authorities in response to the pandemic.

The COVID-19 pandemic has negatively affected, and continues to negatively affect, the national economy and the local economies in the communities in which we operate and has created unprecedented economic, financial and health disruptions that have, and will likely continue to have, an adverse effect on our business. The pandemic has also caused significant volatility and disruption in the financial markets. In the event of a prolonged economic downturn, real estate transactions, the volume of mortgages we originate and the value of the homes that serve as collateral for the loans that we service may decrease significantly.

The COVID-19 pandemic is also affecting our mortgage servicing operations. The federal government enacted the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"), which allows borrowers with federally backed loans to request a temporary mortgage forbearance. As a result of the CARES Act forbearance requirements, we have recorded, and expect to record additional, increases in delinquencies in our servicing portfolio, which may require us to finance substantial amounts of advances of principal and interest, property taxes, insurance premiums and other expenses to protect investors' interests in the properties securing the loans. We expect that a borrower who has experienced a loss of employment or a reduction of income may not repay the forborne payments at the end of the forbearance period, or at all. Additionally, we are prohibited from collecting certain servicing-related fees, such as late fees, and initiating foreclosure proceedings. As a result, we expect the effects of the CARES Act forbearance requirements to reduce our servicing income, increase our servicing expenses and require significant cash outlays.

The COVID-19 pandemic may also affect our liquidity. We fund substantially all of the mortgage loans we close through borrowings under our loan funding facilities. Given the broad impact of COVID-19 on the financial markets, our future ability to borrow money to fund our current and future loan production and other cash needs is unknown. Our mortgage origination liquidity could also be affected if our lenders curtail access to uncommitted mortgage warehouse financing capacity or impose higher costs to access such capacity. Our liquidity may be further constrained as there may be less demand by investors to acquire our mortgage loans in the secondary market. In addition, we may be required to use significant amounts of cash to fund advances for loans subject to forbearance requirements or that are delinquent.

Our business operations may also be disrupted if significant portions of our workforce are unable to work effectively, including because of illness, quarantines, government actions or other restrictive measures in connection with the pandemic. As a result of the pandemic, a significant portion of our employees have been working remotely. Although some government authorities were in varying stages of

lifting or modifying some of these measures, some have already, and others may in the future, reinstitute these measures or impose new, more restrictive measures, if the risks, or the perception of the risks, related to the COVID-19 pandemic worsen at any time. Such restrictive measures could also slow certain aspects of our operations that depend on third parties such as appraisers, closing agents and others for loan-related verifications.

The extent to which the COVID-19 pandemic impacts our business, results of operations, and financial condition will ultimately depend on future developments, which are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and actions taken by governmental authorities and other third parties in response to the pandemic.

A disruption in the secondary home loan market or our ability to sell the loans that we originate could have a detrimental effect on our business.

Demand in the secondary market for home loans and our ability to sell the mortgages that we originate depends on many factors that are beyond our control, including general economic conditions, the willingness of lenders to provide funding for and purchase home loans and changes in regulatory requirements. Our inability to sell the mortgages that we originate in the secondary market in a timely manner and on favorable terms could be detrimental to our business. In particular, we sell the majority of the mortgages that we originate to Fannie Mae, Freddie Mac and Ginnie Mae, and the gain recognized from these sales represents a significant portion of our revenues and net earnings. If it is not possible or economical for us to continue selling mortgages to the GSEs, or other loan purchasers, our business, prospects, financial condition and results of operations could be materially and adversely affected.

Macroeconomic and U.S. residential real estate market conditions could materially and adversely affect our revenue and results of operations.

Our business has been, and will continue to be, affected by a number of factors that are beyond our control, including the health of the U.S. residential real estate industry, which is seasonal, cyclical, and affected by changes in general economic conditions, including the effects of the COVID-19 pandemic. Furthermore, our clients' and potential clients' income, and thus their ability and willingness to make home purchases and mortgage payments, may be negatively affected by macroeconomic factors such as unemployment, wage deflation, changes in property values and taxes and the availability and cost of credit. As a result, these macroeconomic factors can adversely affect our origination volume.

Increased delinquencies could also increase the cost of servicing existing mortgages and could be detrimental to our business. Lower servicing fees could result in decreased cash flow, and also could decrease the estimated value of our MSRs, resulting in recognition of losses when we write down those values. In addition, an increase in delinquencies lowers the interest income we receive on cash held in collection and other accounts and increases our obligation to advance certain principal, interest, tax and insurance obligations owed by the delinquent mortgage loan borrower.

We highly depend on certain U.S. government-sponsored entities and government agencies, and any changes in these entities or their current roles could materially and adversely affect our business, financial condition and results of operations.

A substantial portion of the loans we originate are loans eligible for sale to Fannie Mae and Freddie Mac, and government insured or guaranteed loans, such as loans backed by the FHA, the VA and the USDA eligible for Ginnie Mae securities issuance. The future of the GSEs, Fannie Mae and Freddie Mac, is uncertain, including with respect to how long they will continue to be in existence, the extent of their roles in the market and what forms they will have, and whether they will be government agencies, government-sponsored agencies or private for-profit entities. If the operation of the GSEs is discontinued or reduced, if there is a significant change in their capital structure, financial condition, activity levels or roles in the primary or secondary mortgage markets or in their underwriting criteria or if we lose approvals with those

agencies or our relationships with those agencies is otherwise adversely affected, our business, financial condition and results of operations could be adversely affected.

Changes in prevailing interest rates or U.S. monetary policies may have a detrimental effect on our business. Our hedging strategies may not be successful in mitigating interest rate risk.

Our profitability is directly affected by changes in interest rates. The market value of closed loans held for sale and interest rate locks generally change along with interest rates. As such, volatility in prevailing interest rates may have a detrimental effect on our financial performance and results of operations. Many factors beyond our control impact interest rates, including economic conditions, governmental monetary policies, inflation, recession, changes in unemployment, the money supply, and disorder and instability in domestic and foreign financial markets. Changes in monetary policies of U.S. government agencies could influence not only consumer demand for mortgages but also the fair value of our financial assets and liabilities.

We pursue hedging strategies to mitigate our exposure to adverse changes in interest rates, including with respect to loans held for sale and interest rate locks. Hedging interest rate risk, however, is a complex process, requiring sophisticated models and constant monitoring, and is not a perfect science. Due to interest rate fluctuations, hedged assets and liabilities will appreciate or depreciate in market value. The effect of this unrealized appreciation or depreciation will generally be offset by income or loss on the derivative instruments that are linked to the hedged assets and liabilities. If we engage in derivative transactions, we will be exposed to credit and market risk. If the counterparty fails to perform, credit risk exists to the extent of the fair value gain in the derivative. Market risk exists to the extent that interest rates change in ways that are significantly different from what we expected when we entered into the derivative transaction. In addition, we may not engage in hedging strategies with respect to all or a portion of our exposure to changes in interest rates at any given time, or may engage in hedging strategies to a degree or in a manner that is different from that of other companies in our industry. Failure to manage interest rate risk could have a material adverse effect on our business. See "*Management's Discussion and Analysis of Financial Condition and Results of Operations—Quantitative and Qualitative Disclosures about Market Risk*."

Our servicing rights are subject to termination with or without cause.

The servicing agreements under which we service mortgage loans for GSE andnon-GSE loan purchasers require that we comply with certain servicing guidelines and abide by certain financial covenants. Under the terms of our master servicing agreements with the GSEs and non-GSEs that purchase the loans we originate, the loan purchasers generally retain the right to terminate us as servicer of the loans we service on their behalf, with or without cause. If we were to have our MSRs terminated on a material portion of our servicing portfolio, or if our costs related to servicing mortgages were increased by the way of additional fees, fines or penalties or an increase in related compliance costs, this could materially and adversely affect our business.

Our existing and any future indebtedness could adversely affect our ability to operate our business, our financial condition or the results of our operations.

Our existing and any future indebtedness could have important consequences, including:

- requiring us to dedicate a substantial portion of our cash flow to payments on our indebtedness, which would reduce the amount of cash flow available to fund working capital, capital expenditures or other corporate purposes;
- increasing our vulnerability to general adverse economic, industry and market conditions;
- subjecting us to restrictive covenants that may reduce our ability to take certain corporate actions or obtain further debt or equity financing;
- limiting our ability to plan for and respond to business opportunities or changes in our business or industry; and

- placing us at a competitive disadvantage compared to our competitors that have less debt or better debt servicing options.

Failure to make payments or comply with other covenants under our existing debt instruments could result in an event of default. If an event of default occurs and the lender accelerates the amounts due, we may need to seek additional financing, which may not be available on acceptable terms, in a timely manner or at all. In that event, we may not be able to make accelerated payments, and the lender could seek to enforce security interests in the collateral securing such indebtedness, which includes substantially all of our assets.

Our mortgage loan origination and servicing activities rely on our loan funding facilities to fund mortgage loans and otherwise operate our business. If one or more of those facilities are terminated, we may be unable to find replacement financing at commercially favorable terms, or at all, which could be detrimental to our business.

We fund substantially all of the mortgage loans we close through borrowings under our loan funding facilities and funds generated by our operations. Our borrowings are in turn generally repaid with the proceeds we receive from mortgage loan sales. We currently, and may in the future continue to, depend upon a handful of lenders to provide the primary funding facilities for our loans. As of the date of this prospectus, we had seven warehouse lines of credit pursuant to master repurchase agreements, which provide us with an aggregate maximum borrowing capacity of approximately $2.9 billion. Additionally, as of June 30, 2020, we were party to (i) a term loan credit agreement with one of our warehouse banks, which agreement is collateralized by our Fannie Mae MSRs and provides for a term loan facility of $100.0 million (which can be increased to up to $150.0 million), (ii) a loan and security agreement with one of our warehouse banks, which agreement is collateralized by our Ginnie Mae MSRs and provides for a revolving facility of up to $135.0 million (which can be increased to up to $200.0 million) and (iii) a loan and security agreement with one of our warehouse banks, which agreement is collateralized by our Freddie Mac MSRs and provides for a revolving facility of up to $50.0 million.

In the event that any of our loan funding facilities is terminated or is not renewed, or if the principal amount that may be drawn under our funding agreements were to decrease significantly, we may be unable to find replacement financing on commercially favorable terms, or at all, which could be detrimental to our business. Further, if we are unable to refinance or obtain additional funds for borrowing, our ability to maintain or grow our business could be limited.

Our ability to refinance existing debt and borrow additional funds is affected by a variety of factors, including:

- limitations imposed under existing and future financing facilities that contain restrictive covenants and borrowing conditions that may limit our ability to raise additional debt;
- a decline in liquidity in the credit markets;
- prevailing interest rates;
- the financial strength of the lenders from whom we borrow;
- the decision of lenders from whom we borrow to reduce their exposure to mortgage loans due to a change in such lenders' strategic plan, future lines of business or otherwise;
- the amount of eligible collateral pledged on advance facilities, which may be less than the borrowing capacity of the facility;
- the large portion of our loan funding facilities that is uncommitted;
- more stringent financial covenants in our refinanced facilities, with which we may not be able to comply; and
- accounting changes that impact calculations of covenants in our debt agreements.

If the refinancing or borrowing guidelines become more stringent and those changes result in increased costs to comply or decreased origination volume, those changes could be detrimental to our business.

Our loan funding facilities contain covenants that include certain financial requirements, including maintenance of maximum adjusted leverage ratio, minimum net worth, minimum tangible net worth, minimum current ratio, minimum liquidity, positive quarterly income and other customary debt covenants, as well as limitations on additional indebtedness, dividends, sales of assets, and declines in the mortgage loan servicing portfolio's fair value. A breach of these covenants can result in an event of default under these facilities and as such allow the lenders to pursue certain remedies. In addition, our loan facilities include cross default or cross acceleration provisions that could result in most, if not all, facilities terminating if an event of default or acceleration of maturity occurs under a facility. If we are unable to meet or maintain the necessary covenant requirements or satisfy, or obtain waivers for, the continuing covenants, we may lose the ability to borrow under all of our financing facilities, which could be detrimental to our business.

Our business depends on our ability to maintain and improve the technology infrastructure that supports our origination and servicing platform, and any significant disruption in service on our platform could harm our business, brand, operating results, financial condition and prospects.

Our ability to service our clients depends on the reliable performance of our technology infrastructure. Interruptions, delays or failures in these systems, whether due to adverse weather conditions, natural disasters, power loss, computer viruses, cybersecurity attacks, physical break-ins, terrorism, hardware failures, errors in our software or otherwise, could be prolonged and could affect the security or availability of our platform and our ability to originate and service mortgages. Furthermore, we may incur significant expense maintaining, updating and adapting our technology infrastructure, and our disaster recovery planning may be insufficient to prevent or mitigate these and other events or occurrences. The reliability and security of our systems, and those of certain third parties, is important not only to facilitating our origination and servicing of mortgages, but also to maintaining our reputation and ensuring the proper protection of our confidential and proprietary information and the data of mortgage borrowers and other third parties that we possess or control or to which we have access. Operational failures or prolonged disruptions or delays in the availability of our systems could harm our business, brand, reputation, operating results, financial condition and prospects.

Our risk management strategies may not be fully effective in mitigating our risk exposures in all market environments or against all types of risk.

We have devoted significant resources to develop our risk management policies and procedures and expect to continue to do so in the future. Nonetheless, our risk management strategies may not be fully effective in mitigating our risk exposure in all market environments or against all types of risk, including market, credit, liquidity, operational, cybersecurity, legal, regulatory and compliance risks, as well as other risks that we may not have identified or anticipated. As our products and services change and grow and the markets in which we operate evolve, our risk management strategies may not always adapt to those changes in a timely or effective manner. Some of our methods of managing risk are based upon our use of observed historical market behavior and management's judgment. As a result, these methods may not predict future risk exposures, which could be different or significantly greater than the historical measures indicate. Although we employ a broad and diversified set of risk monitoring and risk mitigation techniques, those techniques and the judgments that accompany their application cannot anticipate every economic and financial outcome or the timing of such outcomes. Any of these circumstances could have an adverse effect on our business, financial condition and results of operations.

Pressure from existing and new competitors may adversely affect our business, operating results, financial condition and prospects.

We operate in a highly competitive industry that could become even more competitive due to economic, legislative, regulatory and technological changes. We face significant competition for clients

from bank and non-bank competitors, including national and regional banks, mortgage banking companies, financial technology companies and correspondent lenders. Many of our competitors are significantly larger and have significantly more resources, greater name recognition and more extensive and established retail footprints than we do.

Our ability to compete successfully will depend on a number of factors, including, among other things, our ability to build and maintain long-term client relationships while ensuring high ethical standards and sound lending and servicing practices, the scope, relevance and pricing of products and services that we offer, our clients' satisfaction with our products and services, industry and general economic trends and our ability to keep pace with technological advances in the industry.

Our failure to compete effectively in our markets could restrain our growth or cause us to lose market share, which could have a material adverse effect on our business, prospects, financial condition and results of operations. We may also face a competitive disadvantage as a result of our concentration in the northwest United States and will be unable, as compared to our more geographically diversified peers, to spread our operating costs across a broader market. Furthermore, a cyclical decline in the industry's overall level of originations, or decreased demand for loans due to a higher interest rate environment, may lead to increased competition for remaining loan originations. Any increase in these competitive pressures could have an adverse effect on our business, prospects, financial condition and results of operations.

Our failure to maintain or grow our historical referral relationships with our referral partners may materially and adversely affect our business, operating results, financial condition and prospects.

A substantial portion of our mortgage origination leads are sourced through an established network of referral partners with which we have longstanding relationships. We rely on being a preferred provider to realtors, builders and other partners with whom we have relationships. Our failure to maintain or grow these relationships could significantly decrease our origination volume and materially and adversely affect our business, operating results, financial condition and prospects. In addition, changes in the real estate and home construction industries, or in the relationships between those industries and the mortgage industry, could adversely affect our business and operating results, financial condition and prospects. For example, in recent years, there has been an increase in products and services designed to facilitate home sales without the involvement of realtors, and if the role of realtors in the sales process declines, our business could be adversely affected if we are unable to adapt to that development in a manner that preserves our loan origination leads.

If we are not able to continue the historical levels of growth in our market share in the mortgage origination and servicing industry, we may not be able to maintain our historical earnings trends.

Since 2007, Guild Mortgage Co. has consummated six acquisitions that significantly contributed to our growth, particularly in new geographies. We are currently pursuing a growth strategy focused on growing market share in existing markets, as well as expanding opportunistically into new markets. This strategy may not sustain our historical rate of growth or our ability to grow at all. Our ability to execute our growth strategy depends on a variety of factors, such as economic conditions and competition, which are beyond our control, and access to capital and liquidity to fund such growth. Our ability to execute our growth strategy also depends on our ability to identify attractive acquisition targets, execute such transactions in a timely manner and successfully integrate acquired businesses, and we may not be able to do so in the future. In addition, we may issue equity in acquisition transactions, which would dilute our existing investors, and/or debt to finance such transactions, which would increase our leverage and expose us to additional risks relating to indebtedness. We may not be able to obtain the financing necessary to fund internal growth and we may not pursue growth through new acquisitions. Sustainable growth requires that we manage our risks by following prudent origination and servicing standards, hiring and retaining qualified loan officers and other employees, and successfully implementing strategic projects and initiatives. Our growth strategy may also change from time to time as a result of various internal and external factors. For example, natural disasters and other events beyond our control may also adversely

affect our growth. If we are not able to continue our historical levels of growth, we may not be able to maintain these historical earnings trends. The absence of, or our inability to pursue and take advantage of, growth opportunities, or our inability to manage our growth successfully, could have a material adverse effect on our business, financial condition, results of our operations and prospects.

We may be adversely affected by a decline in our ability to recapture loans from borrowers who refinance.

The size of our servicing portfolio is subject to"run-off." For example, mortgage loans we service may be repaid at maturity, prepaid prior to maturity, refinanced with a mortgage not serviced by us, liquidated through foreclosure, deed-in-lieu of foreclosure or other liquidation process, or repaid through standard amortization of principal. Due to this run-off, our ability to maintain the size of our servicing portfolio, and to generate new originations, depends in part on our ability to continue originating loans with respect to which we will maintain the servicing rights and recapturing loans from existing clients who are in the market to refinance. Clients who refinance their mortgages are not obligated to refinance their loans with us and may choose to do so with a different lender. If we are unsuccessful in maintaining or increasing our share of loan originations or in recapturing our existing loans that are refinanced, our servicing portfolio may become increasingly subject to run-off and/or our loan originations may decline. This could adversely affect our business, financial condition, results of operations and prospects.

We are required to make servicing advances that can be subject to delays in recovery or may not be recoverable in certain circumstances.

During any period in which our clients are not making payments on loans we service, including during defaults, delinquencies, forbearances and in certain circumstances where a client prepays a loan, we generally are required under our servicing agreements to advance our own funds to pay principal and interest, property taxes and insurance premiums, legal expenses and other expenses. In addition, in the event a loan serviced by us defaults or becomes delinquent, or to the extent a mortgagee under such loan is allowed to enter into a forbearance by applicable law or regulation, the repayment to us of any advance related to such events may be delayed until the loan is repaid or refinanced or liquidation occurs. Any delay or impairment in our ability to collect an advance may materially and adversely affect our liquidity, and delays in reimbursements of us, or our inability to be reimbursed, for advances could be detrimental to our business. Market disruptions such as the COVID-19 pandemic and the response, including through the CARES Act and the temporary period of forbearance that is being offered for clients unable to pay on certain mortgage loans as a result of the COVID-19 pandemic, as well as any extension or expansion of such periods of forbearance or similar or additional actions, may also increase the number of defaults, delinquencies or forbearances related to the loans we service, increasing the advances we make for such loans, which we may not recover in a timely manner or at all. While we have in the past utilized prepayments and payoffs to make advances, such sources, and other sources of liquidity available to us, may not be sufficient in the future, and our business, financial condition and results of operations could be materially and adversely affected as a result of required advances. As of August 31, 2020, loans representing approximately 4.7% of the loans in our servicing portfolio were in forbearance.

If we are unable to attract, integrate and retain qualified personnel, our ability to develop and successfully grow our business could be harmed.

Our business depends on our ability to retain our key executives and management and to hire, develop and retain qualified loan officers and other employees. Our ability to expand our business depends on our being able to hire, train and retain sufficient numbers of employees to staff our in-house servicing centers, as well as other personnel. Our success in recruiting highly skilled and qualified personnel can depend on factors outside of our control, including the strength of the general economy and local employment markets and the availability of alternative forms of employment. Furthermore, the spread of COVID-19 may adversely affect our ability to recruit and retain personnel. If the services of any of our key personnel should

become unavailable for any reason, we may not be able to identify and hire qualified persons on terms acceptable to us, which could have a material and adverse effect on our business, operating results, financial condition and prospects.

We may acquire other businesses or technologies, which could divert our management's attention, result in additional dilution to our stockholders and otherwise disrupt our operations and harm our operating results, financial condition and prospects.

We may determine to emphasize the growth of our business through the acquisition of complementary businesses and technologies rather than through internal development. The identification of suitable acquisition candidates can be difficult, time-consuming and costly, and we may not be able to successfully complete identified acquisitions or the acquisitions may cause diversion of management time and focus away from operating our business. Following any acquisition, we may face difficulty integrating acquired businesses, including technology, finance and accounting and sales and marketing functions; challenges retaining acquired employees; future write-offs of intangibles or other assets; and potential litigation, claims or other known and unknown liabilities.

Depending on the condition of any business or technology we may acquire, that acquisition may, at least in the near term, adversely affect our financial condition and operating results and, if not successfully integrated with our organization, may continue to have these effects over a longer period. We may not realize the anticipated benefits of any acquisitions and we may not be successful in overcoming these risks or any other problems encountered in connection with potential acquisitions. The greater our emphasis on acquisitions, the greater these risks will become. Our inability to overcome these risks could have an adverse effect on our profitability, return on equity and return on assets, our ability to implement our business strategy and enhance stockholder value, which, in turn, could have a material and adverse effect on our business, operating results, financial condition and prospects.

Our MSRs are highly volatile assets with continually changing values. If our estimates of their value prove to be inaccurate, we may be required to write them down, which could adversely affect our business and financial condition.

Our estimates of the fair value of our MSRs are based on the cash flows projected to result from the servicing of the related mortgage loans and continually fluctuate due to a number of factors, including prepayment rates and other market conditions that affect the number of loans that ultimately become delinquent or are repaid or refinanced. These estimates are calculated by a third party using complex internal financial models that account for a high number of variables that drive cash flows associated with MSRs and anticipate changes in those variables over the life of the MSR. As such, the accuracy of our estimates of the fair value of our MSRs are highly dependent upon the reasonableness of the results of such models and the variables and assumptions that we build into them. If loan delinquencies or prepayment speeds are higher than anticipated or other factors perform worse than modeled, the recorded value of certain of our MSRs may decrease, which could adversely affect our business, financial condition and results of operations.

We may from time to time be subject to litigation, which may be extremely costly to defend, could result in substantial judgment or settlement costs and could subject us to other remedies.

From time to time, we have been, and may continue to be, involved in various legal proceedings, including, but not limited to, actions related to our lending and servicing practices as well as alleged violations of the local, state and federal laws to which our business is subject. See "*Business—Legal and Regulatory Proceedings*." Claims may be expensive to defend and may divert management's time away from our operations, regardless of whether they are meritorious or ultimately lead to a judgment against us. We cannot assure you that we will be able to successfully defend or resolve any current or future litigation matters, and the resolution of such matters may result in significant financial payments by, or penalties imposed upon, us, restrictions on our business and operations, or other remedies, in which case those

litigation matters could have a material and adverse effect on our business, operating results, financial condition and prospects.

The success and growth of our business will depend upon our ability to adapt to and implement technological changes.

The mortgage industry is continually undergoing rapid technological change with frequent introductions of new products and services. We seek to differentiate ourselves by the range of mortgage programs we offer and rely on our internally-developed technology to make our platform available to our loan officers, evaluate mortgage applicants and service loans. Our future success and growth depend, in part, upon our ability to develop new products and services that satisfy changing client demand and use technology to provide a desirable client experience and to create additional efficiencies in our operations. If we fail to predict demand and develop, commercially market and achieve acceptance of attractive products and services, our business and prospects could be adversely affected. In addition, the implementation of technological changes and upgrades to maintain current systems and integrate new ones may also cause service interruptions, transaction processing errors and system conversion delays, may cause us to fail to comply with applicable laws, and may cause us to incur additional expenses, which may be substantial. Failure to keep pace successfully with technological change affecting the mortgage industry and avoid interruptions, errors and delays could have material adverse effect on our business, financial condition or results of operations.

Our corporate culture has contributed to our success and if we are unable to maintain it, our business, financial condition and results of operations could be harmed.

We believe our corporate culture has been a critical component to the success of our business. As we develop the infrastructure of a public company and continue to grow, however, it may be difficult to maintain that culture, which could reduce our ability to innovate and operate effectively. Any failure to maintain the key aspects of our culture could result in decreased employee satisfaction and increased difficulty in recruiting and retaining employees and could compromise the quality of the service that we provide to our clients, all of which are important to our success and to the effective execution of our business strategy. In the event that we are unable to maintain our corporate culture, our business, financial condition and results of operations could be harmed.

The current economic environment poses significant challenges and could adversely affect our business, financial condition and results of operations.

We are operating in a challenging and uncertain economic environment. The mortgage industry continues to be affected by uncertainty in the real estate market, the credit markets, and the global financial market generally. The uncertainty in economic conditions has subjected us and other financial services companies to increased regulatory scrutiny. In addition, deterioration in local economic conditions in our markets could result in losses beyond that provided for in our allowance for credit losses and result in increased mortgage delinquencies, problem assets and foreclosures. This may also result in declining demand for products and services, which could adversely affect our business, financial condition and results of operations.

Adverse events to our clients could occur, which can result in substantial losses that could adversely affect our financial condition.

A client's ability or willingness to repay his or her mortgage may be adversely affected by numerous factors, including a loss of or change in employment or income, weak macro-economic conditions, increases in payment obligations to other lenders and deterioration in the value of the home that serves as collateral for the loan. Increases in delinquencies or defaults related to these and other factors may adversely affect our business, financial condition, liquidity and results of operations and may also cause decreased demand in the secondary market for loans originated through Guild. In addition, higher risk

loans incur greater servicing costs because they require more frequent interaction with clients and closer monitoring and oversight. We may not be able to pass along these additional servicing costs associated with higher-risk loans to our clients and they could result in substantial losses that could adversely affect our financial condition.

Our business could be materially and adversely affected by a cybersecurity breach or other vulnerability involving our computer systems or those of certain of our third-party service providers.

Our systems and those of certain of our third-party service providers could be vulnerable to hardware and cybersecurity issues. Our operations depend upon our ability to protect our computer equipment against damage from fire, power loss, telecommunications failure or a similar catastrophic event. We could also experience a breach by intentional or negligent conduct on the part of employees or other sources. Any damage or failure that causes an interruption in our operations or those of our third-party service providers could have an adverse effect on our business, operating results, financial condition and prospects. In addition, our operations depend upon our ability to protect the computer systems and network infrastructure we use against damage from cybersecurity attacks by sophisticated third parties with substantial computing resources and capabilities and other disruptive problems caused by the internet or other users. These disruptions could jeopardize the security of information stored in and transmitted through our computer systems and network infrastructure, including personal or confidential information of our clients, employees and others, which may result in significant liability and damage our reputation.

It is difficult or impossible to defend against every risk being posed by changing technologies as well as criminals intent on committing cyber-crime and any measures we employ may not be successful in preventing, detecting or stopping attacks. The increasing sophistication and resources of cyber criminals and other non-state threat actors and increased actions by nation-state actors make keeping up with new threats difficult and could result in a breach of security. Controls employed by our information technology department and our third-party service providers, including cloud vendors, could prove inadequate. A breach of our security that results in unauthorized access to our data could expose us to a disruption or challenges relating to our daily operations, as well as to data loss, litigation, damages, fines and penalties, significant increases in compliance costs and reputational damage, any of which could have a material and adverse effect on our business, operating results, financial condition and prospects.

A number of the states, counties and cities in which we maintain branch offices have issued shelter-in-place and similar orders in response to the COVID-19 pandemic. As a result, a significant portion of our employees have been working remotely. This transition to a remote work environment may exacerbate certain risks to our business, including increasing the stress on, and our vulnerability to disruptions of, our technology infrastructure and computer systems, increased risk of phishing and other cybersecurity attacks, and increased risk of unauthorized dissemination of personal or confidential information.

To the extent we or our systems rely on third-party service providers, through either a connection to, or an integration with, those third-parties' systems, the risk of cybersecurity attacks and loss, corruption or unauthorized publication of our information or the confidential information of our clients, employees and others may increase. Third-party risks may include ineffective security measures, data location uncertainty and the possibility of data storage in inappropriate jurisdictions where laws or security measures may be inadequate.

Any or all of the issues described above could adversely affect our ability to attract new clients and continue our relationship with existing clients and could subject us to governmental or third-party lawsuits, investigations, regulatory fines or other actions or liability, thereby harming our business, operating results, financial condition and prospects.

Potential changes in applicable technology and consumer outreach techniques could have a material and adverse effect on our business, operating results, financial condition and prospects.

Changes in technology and consumer outreach techniques continue to shape the mortgage origination and servicing landscape. In recent years, consumers' behavior patterns, in particular their propensity to use online sources for research, product comparison and guidance, have changed and continue to change. Similarly, available technologies for reaching targeted groups of consumers also continues to evolve, as do laws and regulations relating to such technologies. We expect that we will incur costs in the future to adjust our systems to adapt to changing behaviors and technologies, as well as changing laws and regulations. In the future, technological innovations and changes in the way consumers engage with technology, and such laws and regulations, may materially and adversely affect our operating results, financial condition and prospects, if our business model and technological infrastructure do not evolve accordingly.

In addition, we derive a portion of our website traffic from consumers who search for mortgage lenders through internet search engines. An important factor in attracting consumers to our website is whether we are prominently displayed in response to certain internet searches. Search engines may revise their algorithms from time to time, which could cause our website to be listed less prominently in algorithmic search results and lead to decreased traffic to our website. We may also be listed less prominently as a result of other factors, such as new websites, changes we make to our website or technical issues with the search engine itself. If we are listed less prominently in, or removed altogether from, search result listings for any reason, the traffic to our websites would decline and we may not be able to replace this traffic. An attempt to replace this traffic may require us to increase our marketing expenditures, which would also increase our cost of client acquisition and harm our business, operating results, financial condition and prospects.

Operating and growing our business may require additional capital, and if capital is not available to us, our business, operating results, financial condition and prospects may suffer.

Operating and growing our business is expected to require further investments in our technology and operations. We may be presented with opportunities that we want to pursue, and unforeseen challenges may present themselves, any of which could cause us to require additional capital. If our cash needs exceed our expectations or we experience rapid growth, we could experience strain in our cash flow, which could adversely affect our operations in the event we were unable to obtain other sources of liquidity. If we seek to raise funds through equity or debt financing, those funds may prove to be unavailable, may only be available on terms that are not acceptable to us or may result in significant dilution to you or higher levels of leverage. If we are unable to obtain adequate financing or financing on terms satisfactory to us, when we require it, our ability to continue to pursue our business objectives and to respond to business opportunities, challenges or unforeseen circumstances could be significantly limited, and our business, operating results, financial condition and prospects could be materially and adversely affected.

We are subject to certain operational risks, including, but not limited to, employee or customer fraud, the obligation to repurchase sold loans in the event of a documentation error, and data processing system failures and errors.

Employee errors and employee and client misconduct could subject us to financial losses or regulatory sanctions and seriously harm our reputation. Misconduct by our employees could include, among other things, improper use of confidential information and fraud. It is not always possible to prevent employee errors and misconduct or documentation errors, and the precautions we take to prevent and detect this activity may not be effective in all cases. In addition, we rely heavily upon information supplied by third parties, including the information contained in credit applications, property appraisals, title information and valuation, employment and income documentation, in deciding which loans we will originate, as well as the terms of those loans. If any of the information upon which we rely is misrepresented, either fraudulently or inadvertently, and the misrepresentation is not detected prior to the mortgage being funded, the value of that mortgage may be significantly lower than expected, or we may fund a mortgage

that we would not have funded or on terms we would not have extended. Whether a misrepresentation is made by the mortgage applicant or another third party, we generally bear the risk of loss associated with such misrepresentation. A loan subject to a material misrepresentation is typically unsellable or subject to repurchase if it is sold prior to detection of the misrepresentation. The sources of the misrepresentations are often difficult to identify, and it is often difficult to recover any of the monetary losses we may suffer. These risks could adversely affect our business, results of operation, financial condition and reputation.

We are required to make significant estimates and assumptions in the preparation of our financial statements. These estimates and assumptions may not be accurate and they, as well as the accounting principles generally accepted in the United States, are subject to change.

The preparation of our consolidated financial statements in conformity with GAAP requires our management to make significant estimates and assumptions that affect the reported amounts of our assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of income and expense during the reporting periods. Critical estimates are made by management in determining, among other things, estimates of fair value and allowance for credit losses. If our underlying estimates and assumptions prove to be incorrect or if events occur that require us to revise our previous estimates or assumptions, our business, operating results, financial condition and prospects may be materially and adversely affected.

In addition, changes in GAAP or in accounting interpretations or assumptions could impact our financial statements and our ability to timely prepare our financial statements. A change in these principles or interpretations could also have a significant effect on our reported financial results and could require us to alter our accounting systems in a manner that could increase our operating costs and affect the content of and our ability to timely prepare our financial statements. Our inability to timely prepare our financial statements in the future could materially and adversely affect our share price.

Seasonality may cause fluctuations in our financial results.

The mortgage origination industry can be seasonal. We typically experience an increase in our mortgage origination activity during the second and third quarters and reduced activity in the first and fourth quarters as home buyers tend to purchase their homes during the spring and summer in order to move to a new home before the start of the school year. Accordingly, our loan origination revenues varies from quarter to quarter and comparisons of sequential quarters may not be meaningful.

If we fail to protect our brand and reputation, our ability to grow our business and increase the volume of mortgages we originate and service may be adversely affected.

Maintaining strong brand recognition and a reputation for trustworthiness and for delivering a superior client experience is important to our business. If we fail to protect our brand and deliver on these expectations, or if negative public opinion relating to Guild or other mortgage industry participants resulting from actual or alleged conduct in mortgage origination, servicing or other activities, government oversight or regulation, litigation or other matters should occur, these events could harm our reputation and damage our ability to attract and retain clients or maintain our referral network, which could adversely affect our business.

We could be forced to incur greater expense marketing our brand or maintaining our reputation in the future to preserve our position in the market and, even with such greater expense, we may not be successful in doing so. Many of our competitors have more resources than we do and can spend more advertising their brands and services. If we are unable to maintain or enhance consumer awareness of our brand cost-effectively and maintain our reputation, or otherwise experience negative publicity, our business, operating results, financial condition and prospects could be materially and adversely affected.

Employee litigation and unfavorable publicity could adversely affect our business.

Our employees may, from time to time, bring lawsuits against us regarding employment issues. Any such employee litigation could be attempted on a class or representative basis. This litigation can be expensive and time-consuming regardless of whether the claims against us are valid or whether we are ultimately determined to be liable, and could divert management's attention from our business. We could also be adversely affected by negative publicity, litigation costs resulting from the defense of these claims and the diversion of time and resources from our operations.

Failure to comply with fair lending laws and regulations could lead to a wide variety of sanctions that could have a material adverse effect on our business, financial condition and results of operations.

Antidiscrimination statutes, such as the Fair Housing Act, the Equal Credit Opportunity Act (the "ECOA") and other fair lending laws and regulations prohibit creditors from discriminating against loan applicants and borrowers based on certain characteristics, such as race, religion and national origin. The Department of Justice and other federal agencies, including the CFPB, are responsible for enforcing these laws and regulations and have taken the position that these laws apply not only to intentional discrimination, but also to neutral practices that have a "disparate impact" on a group that shares a characteristic that a creditor may not consider in making credit decisions protected classes (i.e., creditor, servicing or marketing practices that have a disproportionate negative effect on a protected class of individuals). To the extent that this "disparate impact" theory continues to apply, we will be faced with significant administrative burdens in attempting to comply, and potential liability for failures to comply. A successful regulatory challenge to our performance under these fair lending laws and regulations could result in a wide variety of sanctions, including damages and civil money penalties. Such sanctions could have a material adverse effect on our business, financial condition and results of operations.

We are subject to certain risks associated with adverse weather conditions andman-made or natural events.

Weather conditions and man-made or natural events such as tornadoes, hurricanes, earthquakes, fires, floods, drought, power losses, telecommunications failures, strikes, health pandemics and similar events can adversely impact properties that collateralize loans we own or service, as well as properties where we do business and our business operations generally. Any uninsured loss related to such events could result in the loss of cash flow from, and the asset value of, the affected properties, and could adversely affect us disproportionately from other participants in the mortgage industry due to the geographic characteristics of our business, which could have an adverse effect on our business, financial condition, liquidity and results of operations.

Exposure to additional income tax liabilities could affect our future profitability.

We are subject to income taxes in the United States and various state jurisdictions. Our effective tax rate and profitability could be subject to volatility or adversely affected by a number of factors, including:

- changes in applicable tax laws and regulations, or their interpretation and application, including the possibility of retroactive effect;
- changes in accounting and tax standards or practice;
- changes in the mix of earnings and losses in state jurisdictions with differing tax rates;
- changes in the valuation of deferred tax assets and liabilities; and
- our operating results before taxes.

In addition, we may be subject to audits of our income, sales and other taxes by U.S. federal, state and local taxing authorities. Outcomes from these audits could have a material and adverse effect on our operating results, financial condition and prospects.

Changes in tax laws may adversely affect us, and the Internal Revenue Service (the "IRS") or a court may disagree with our tax positions, which may result in adverse effects on our financial condition or the value of our common stock.

The Tax Cuts and Jobs Act (the "TCJA"), enacted on December 22, 2017, significantly affected U.S. tax law, including by changing how the U.S. imposes tax on certain types of income of corporations and by reducing the U.S. federal corporate income tax rate to 21%. It also imposed new limitations on a number of tax benefits, including deductions for business interest, use of net operating loss carryforwards, taxation of foreign income and the foreign tax credit, among others.

The CARES Act, enacted on March 27, 2020, in response to theCOVID-19 pandemic, further amended the U.S. federal tax code, including in respect of certain changes that were made by the TCJA, generally on a temporary basis.

It is possible that future tax law changes will increase the rate of the corporate income tax significantly, impose new limitations on deductions, credits or other tax benefits, or make other changes that may adversely affect our business, cash flows or financial performance. In addition, the IRS has yet to issue guidance on a number of important issues regarding the changes made by the TCJA and the CARES Act. In the absence of such guidance, we will take positions with respect to a number of unsettled issues. It is possible that the IRS or a court will not agree with the positions taken by us, in which case additional taxes, tax penalties and interest may be imposed that could adversely affect our business, cash flows or financial performance.

If we are unable to adequately protect our intellectual property, our ability to compete could be harmed.

We do not currently have any trademarks, patents or trademark or patent applications pending to protect our intellectual property rights, but we have developed systems and processes relating to our mortgage products and services. We rely on a combination of trade secret laws and contractual agreements, as well as our internal system access security protocols, to establish, maintain and protect our intellectual property rights and technology. Despite efforts to protect our intellectual property, these laws, agreements and systems may not be sufficient to effectively prevent unauthorized disclosure or unauthorized use of our trade secrets or other confidential information or to prevent third parties from misappropriating our technology and offering similar or superior functionality. Monitoring and protecting our intellectual property rights can be challenging and costly, and we may not be effective in policing or prosecuting such unauthorized use or disclosure.

Furthermore, legal standards relating to the validity, enforceability and scope of protection of intellectual property rights are uncertain. Third parties also may take actions that diminish the value of our proprietary rights or our reputation or cause consumer confusion through the use of similar service names or domain names. Any of these results could harm our business, operating results, financial condition and prospects.

Although we enter into confidentiality and invention assignment agreements with our employees and enter into confidentiality agreements with third parties, including suppliers and other partners, we cannot guarantee that we have entered into agreements with each party that has or may have had access to our proprietary information, know-how and trade secrets. Moreover, it is possible that these agreements will be effective in controlling access to, distribution, use, misuse, misappropriation, reverse engineering or disclosure of our proprietary information, know-how and trade secrets. Further, these agreements may not prevent our competitors from independently developing technologies that are substantially equivalent or superior to our products and platform capabilities. These agreements may be breached, and we may not have adequate remedies for any such breach.

We may become subject to intellectual property disputes that are costly and may subject us to significant liability and increased costs of doing business.

Third parties may be able to successfully challenge, oppose, invalidate, render unenforceable, dilute, misappropriate or circumvent our intellectual property rights. Our success depends, in part, on our ability to develop and commercialize our products and services without infringing, misappropriating or otherwise violating the intellectual property rights of third parties. However, we may not be aware that our products or services are infringing, misappropriating or otherwise violating third-party intellectual property rights and such third parties may bring claims alleging such infringement, misappropriation or violation.

Actions we may take to enforce our intellectual property rights may be expensive and divert management's attention away from the ordinary operation of our business, and our inability to secure and protect our intellectual property rights could materially and adversely affect our brand and business, operating results, financial condition and prospects. Furthermore, enforcement actions, even if successful, may not result in an adequate remedy. In addition, many companies have the capability to dedicate greater resources to enforce their intellectual property rights and to defend claims that may be brought against them. If a third party is able to obtain an injunction preventing us from accessing such third-party intellectual property rights, or if we cannot license or develop alternative technology for any infringing aspect of our business, we could be forced to limit or stop sales of our products and platform capabilities or cease business activities related to that intellectual property.

Although we carry general liability insurance, our insurance may not cover potential claims of this type or may not be adequate to indemnify us for all liability that may be imposed. We cannot predict the outcome of lawsuits and cannot ensure that the results of any such actions will not have an adverse effect on our business, financial condition or results of operations. Claims could subject us to significant liability for damages and could result in our having to stop using technology found to be in violation of a third party's rights. Further, we might be required to seek a license for third-party intellectual property, which may not be available on reasonable royalty or other terms. Alternatively, we could be required to develop alternative non-infringing technology, which could require significant effort and expense. If we cannot license or develop technology for any infringing aspect of our business, we could be forced to limit our services, which could affect our ability to compete effectively. Any of these events or results could harm our business, operating results, financial condition and prospects.

Risks Related to Regulatory Environment

Our mortgage loan origination and servicing activities are subject to a highly complex legal and regulatory framework, andnon-compliance with or changes in laws and regulations governing our industry could harm our business, operating results, financial condition and prospects.

The mortgage industry is subject to a highly complex legal and regulatory framework. In addition to the licensing requirements for each of the jurisdictions in which we originate loans, we must comply with a number of federal, state and local consumer protection and other laws including, among others, the Truth in Lending Act, the Real Estate Settlement Procedures Act, the ECOA, the Fair Credit Reporting Act, the Fair Housing Act, the Telephone Consumer Protection Act ("TCPA"), the Gramm-Leach-Bliley Act, the Electronic Fund Transfer Act, the Servicemembers Civil Relief Act, Military Lending Act, the Homeowners Protection Act, the Home Mortgage Disclosure Act, the Secure and Fair Enforcement for Mortgage Licensing Act of 2008 (the "SAFE Act"), the Federal Trade Commission Act, the Dodd Frank Wall Street Reform and Consumer Protection Act of 2010 ("Dodd-Frank Act"), the CARES Act, federal, state and local laws designed to discourage predatory lending and servicing practices, prohibit unfair, deceptive, or abusive acts or practices, protect customer privacy, and regulate debt collection and consumer credit reporting, and state foreclosure laws. These and other laws and regulations directly affect our business and require constant compliance monitoring and internal and external audits and examinations by federal and state regulators. Changes to the laws, regulations and guidelines relating to the origination and servicing of mortgages, including those already adopted and those to be adopted in response to the COVID-19

pandemic, their interpretation or the manner in which they are enforced could render our current business practices non-compliant or make compliance more difficult or expensive.

It is possible that we are not, and will not in the future be, in full compliance with current and future laws and regulations, or interpretations of the foregoing. Our failure, or the failure of our loan officers, other employees, correspondent sellers or others with whom we have business relationships, to operate in compliance with any of the laws, regulations and guidelines relating to the origination and servicing of mortgages could result in, among other things, the loss of licenses and approvals required for us to engage in the business of originating and servicing mortgage loans, governmental investigations and enforcement actions, damage to our brand and reputation, civil and criminal liability and administrative penalties, which could have a material and adverse effect on our business, operating results, financial condition and prospects.

We are subject to state licensing and operational requirements. Our failure to obtain and maintain the appropriate state licenses would prohibit us from originating or servicing mortgages in those states and adversely affect our operations.

Because we are not a federally chartered depository institution, we do not benefit from exemptions to state mortgage lending, loan servicing or debt collection licensing and regulatory requirements. In most states in which we operate, a regulatory agency or agencies regulates and enforces laws relating to mortgage servicing companies and mortgage origination companies such as us. These rules and regulations generally require that we seek and maintain certain licenses and comply with certain business practice standards, including requirements as to the form and content of contracts and other documentation and the licensing of our employees. In most states, we are also subject to periodic examination by state regulatory authorities. Complying with this regulatory framework requires a meaningful dedication of management and financial resources. Changes to existing state legislation or the adoption of new state legislation, as well as our entry into new markets in states in which we had not previously operated, could increase our compliance costs. This could render business in any one state or states cost-prohibitive and could materially affect our business and our growth strategy. Any failure to comply with these licensing and operational requirements could have a material and adverse effect on our business, operating results, financial condition and prospects.

Changes in the guidelines of the GSEs, FHA, VA, USDA and Ginnie Mae could adversely affect our business.

We are required to follow specific guidelines and eligibility standards that impact the way we service and originate GSE and U.S. government agency loans, including guidelines and standards with respect to credit standards for mortgage loans, our staffing levels and other servicing practices and the servicing and ancillary fees that we may charge. A change in these guidelines could require us to expend additional resources to originate and service mortgages or make it more difficult for us to do so profitably or at all, which could have a material and adverse effect on our business, operating results, financial condition and prospects.

In addition, changes in the nature or extent of the guarantees provided by Fannie Mae, Freddie Mac, Ginnie Mae, the USDA or the VA, or the insurance provided by the FHA, or coverage provided by private mortgage insurers, could also have broad adverse market implications. Any future increases in guarantee fees or changes to their structure or increases in the premiums we are required to pay to the FHA or private mortgage insurers for insurance or to the VA or the USDA for guarantees could increase mortgage origination costs and insurance premiums for our clients. These industry changes could result in reduced demand for our mortgage services and consequently our origination volume and reduced profitability for us, which could materially and adversely affect our business, operating results, financial condition and prospects.

The CFPB continues to be active in its monitoring of the loan origination and servicing sectors, and its issuance of new rules and regulations and enforcement of existing rules and regulations could result in enforcement actions, fines and penalties.

As a non-depository lending and servicing institution, we are subject to the regulatory authority of the CFPB, including, without limitation, its authority to conduct investigations, bring enforcement actions, impose monetary penalties, require remediation of practices, pursue administrative proceedings or litigation, and obtain cease and desist orders for violations of applicable federal consumer financial laws. The CFPB has been active in investigations and enforcement actions and has issued civil money penalties to parties when the CFPB has determined that such parties have violated the laws and regulations it enforces. Our failure to comply with the federal consumer protection laws, rules and regulations to which we are subject, whether actual or alleged, could expose us to enforcement actions or potential litigation liabilities.

We may not be able to maintain compliance with all current and potentially applicable U.S. federal and state laws and regulations with respect to data privacy and cybersecurity, and related actions by regulatory authorities or changes in legislation and regulation in the jurisdictions in which we operate could have a material adverse effect on our business.

We are subject to a variety of laws and regulations with respect to data privacy and the collection, processing, storing, sharing, disclosing, using, transfer and protecting of personal information and other data. These laws and regulations constantly evolve and remain subject to significant change. Because we store, process and use data, including our clients' personal information, we are subject to complex and evolving federal, state and local laws and regulations regarding privacy, data protection and other matters. The application and interpretation of these laws and regulations are often uncertain. Compliance with existing and emerging privacy and cybersecurity regulations could result in increased compliance costs and lead to changes in business practices and policies, and any failure to protect the confidentiality of client information could result in enforcement actions and penalties or other remedies, adversely affect our reputation and result in private litigation against us, any of which could materially and adversely affect our business, operating results, financial condition and prospects.

Our communications with potential and existing clients are subject to laws regulating telephone and email marketing practices.

We make telephone calls and send emails and text messages to potential and existing clients. The United States regulates marketing by telephone and email and the laws and regulations governing the use of emails and telephone calls for marketing purposes continue to evolve, and changes in technology, the marketplace or consumer preferences may lead to the adoption of additional laws or regulations or changes in interpretation of existing laws or regulations. New laws or regulations, or changes to the manner in which existing laws and regulations or interpreted or enforced, may further restrict our ability to contact potential and existing customers by phone and email and could render us unable to communicate with consumers in a cost-effective fashion. The TCPA prohibits companies from making telemarketing calls to numbers listed in the Federal Do-Not-Call Registry and imposes other obligations and limitations on making phone calls and sending text messages to consumers. The Controlling the Assault of Non-Solicited Pornography and Marketing Act regulates commercial email messages and specifies penalties for the transmission of commercial email messages that do not comply with certain requirements, such as providing an opt-out mechanism for stopping future emails from senders. We may be required to comply with these and similar laws, rules and regulations. Failure to comply with obligations and restrictions related to telephone, text message and email marketing could subject us to lawsuits, fines, statutory damages, consent decrees, injunctions, adverse publicity and other losses that could harm our business.

Changes in government regulation of the internet and other aspects of our business, as well as a failure to comply with existing or future regulations and laws, could adversely affect our operations.

We are subject to regulations and laws specifically governing the internet and marketing over the internet. These laws and regulations, which continue to evolve, cover privacy and data protection, data security, anti-spam, pricing, content protection, copyrights, distribution, mobile and other communications, advertising practices, electronic contracts, consumer protections, internet neutrality, the provision of online payment services, unencumbered internet access to our services, the design and operation of websites and the characteristics and quality of offerings online. It is possible that these regulations and laws may be interpreted and applied differently across jurisdictions. In addition, it is not clear how existing laws and regulations governing issues such as property ownership, consumer protection, libel and personal privacy apply to the internet, as many of these laws were adopted prior to the advent of the internet and do not contemplate or address the unique issues they raise when applied to the internet. Any failure, or perceived failure, by us to comply with such regulations could result in damage to our reputation, a loss in business and proceedings or actions against us by governmental entities or others.

Future regulations, or changes in laws and regulations or their existing interpretations or applications, could also impose a significant burden by requiring us to change our business practices, raise compliance costs or other costs of doing business and materially adversely affect our business, financial condition and operating results. We cannot guarantee that we will be able to make the appropriate changes and modifications in a commercially reasonable manner, or at all.

Risks Related to Our Organization and Structure

We will be controlled by MCMI, and MCMI's interests may conflict with our interests and the interests of our other stockholders.

After giving effect to the reorganization transactions and this offering, MCMI will hold all of our issued and outstanding Class B common stock and will control approximately % of the combined voting power of our outstanding common stock. As a result, MCMI will be able to control any action requiring the general approval of our stockholders, including the election of our Board of Directors, the adoption of amendments to our certificate of incorporation and bylaws and the approval of any merger or sale of substantially all of our assets. So long as MCMI continues to directly or indirectly own a significant amount of our equity, even if such amount is less than a majority of the combined voting power of our outstanding common stock, MCMI will continue to be able to substantially influence the outcome of votes on all matters requiring approval by the stockholders, including our ability to enter into certain corporate transactions. The interests of MCMI could conflict with or differ from our interests or the interests of our other stockholders. For example, the concentration of ownership held by MCMI could delay, defer or prevent a change of control of our Company or impede a merger, takeover or other business combination that may otherwise be attractive to us or our other stockholders.

We will be a "controlled company" within the meaning of the NYSE rules and, as a result, we will be permitted, and intend to elect, to rely on exemptions from certain corporate governance requirements that provide protection to stockholders of other companies.

After giving effect to the reorganization transactions and the closing of this offering, MCMI will continue to control a majority of the combined voting power of our outstanding common stock, and, as a result, we will be a controlled company under the applicable rules of the NYSE. As a controlled company, we will be permitted, and intend, to elect not to comply with certain corporate governance requirements of the NYSE, including the requirements that:

- a majority of our Board of Directors consist of independent directors;
- we have a nominating and corporate governance committee that is composed entirely of independent directors; and
- we have a compensation committee that is composed entirely of independent directors.

These requirements will not apply to us as long as we remain a controlled company. Accordingly, as an investor in our Class A common stock, you may not have the same protections afforded to stockholders of companies that are subject to all of the corporate governance requirements of the NYSE.

Our directors and executive officers have significant control over our business.

After giving effect to the reorganization transactions and the closing of this offering, our directors and executive officers will beneficially own, directly or indirectly, in the aggregate, approximately % of the outstanding shares of our Class A common stock and 100% of the outstanding shares of our Class B common stock (to the extent the Chairman of our Board of Directors may be deemed to beneficially own all of the shares of our Class B common stock beneficially owned by MCMI), representing an aggregate of approximately % of the combined voting power of our outstanding common stock. As a result, in addition to their day-to-day management roles, our executive officers and directors will be able to exercise significant influence on our business as stockholders, including influence over election of members of the Board of Directors and the authorization of other corporate actions requiring stockholder approval.

We are a holding company and depend upon distributions from Guild Mortgage Co. to meet our obligations.

We are a holding company with no material assets other than our ownership of equity interests in Guild Mortgage Co., which, following the completion of the reorganization transactions, will be our wholly owned subsidiary. See "*Organizational Structure*." Our ability to pay dividends and to pay taxes and cover other expenses will depend on the financial results and cash flows of Guild Mortgage Co. As the sole member of Guild Mortgage Co., we intend to cause Guild Mortgage Co. to make distributions to us in amounts sufficient to meet our obligations. Certain laws and regulations, however, may result in restrictions on Guild Mortgage Co.'s ability to make distributions to us. To the extent that we need funds and Guild Mortgage Co. is restricted from making such distributions under applicable law or regulation or under the terms of any of its financing arrangements, we may not be able to obtain funds on terms acceptable to us or at all and as a result could suffer an adverse effect on our liquidity and financial condition.

Risks Related to Being a Public Company

We may incur significant additional costs and expenses, including costs and expenses associated with obligations relating to being a public company, which will require significant resources and management attention and may divert focus from our business operations, and we may generate losses in the future.

We incur significant expenses in developing our technology, marketing and providing the products and services we offer and acquiring clients, and our costs may increase due to our continued new product development and general administrative expenses, such as legal and accounting expenses related to becoming and being a public company. We have not been required in the past to comply with the requirements of the SEC, to file periodic reports with the SEC or to have our consolidated financial statements completed, reviewed or audited and filed within a specified time. As a public company following completion of this offering, we will be required to file periodic reports containing our consolidated financial statements with the SEC within a specified time following the completion of quarterly and annual periods. As a public company, we will incur significant legal, accounting, insurance and other expenses. Compliance with these reporting requirements and other rules of the SEC and the rules of the NYSE will increase our legal and financial compliance costs and make some activities more time-consuming and costly. Furthermore, the need to establish the corporate infrastructure demanded of a public company may divert management's attention from implementing our growth strategy, which could prevent us from successfully implementing our strategic initiatives and improving our business, operating results, financial condition and prospects. If we fail to manage these additional costs or increase our revenue, we may incur losses in the future.

Our quarterly operating results or other operating metrics may fluctuate significantly and may not meet expectations of research analysts, which could cause the trading price of our Class A common stock to decline.

Our quarterly operating results and other operating metrics have fluctuated in the past and may in the future fluctuate as a result of a number of factors, many of which are outside of our control and may be difficult to predict. Period-to-period variability or unpredictability of our results could result in our failure to meet our expectations or those of any analysts that cover us or investors with respect to revenue or other operating results for a particular period. If we fail to meet or exceed such expectations for these or any other reasons, the market price of our Class A common stock could decline significantly, and we could face litigation, including securities class action litigation.

If we fail to correct any material weakness that we identify in our internal control over financial reporting or otherwise fail to maintain effective internal control over financial reporting, we may not be able to report our financial results accurately and timely, in which case our business may be harmed, investors may lose confidence in the accuracy and completeness of our financial reports and the price of our Class A common stock may decline.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting and for evaluating and reporting on our system of internal control. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. As a public company, we will be required to comply with the Sarbanes-Oxley Act and other rules that govern public companies. In particular, we will be required to certify our compliance with Section 404 of the Sarbanes-Oxley Act beginning with our second annual report on Form 10-K, which will require us to furnish annually a report by management on the effectiveness of our internal control over financial reporting. In addition, unless we remain an emerging growth company and elect transitional relief available to emerging growth companies, our independent registered public accounting firm will be required to report on the effectiveness of our internal control over financial reporting, beginning as of that second annual report.

If we identify material weaknesses in our internal control over financial reporting in the future, if we cannot comply with the requirements of the Sarbanes-Oxley Act in a timely manner or attest that our internal control over financial reporting is effective, or if our independent registered public accounting firm cannot express an opinion as to the effectiveness of our internal control over financial reporting when required, we may not be able to report our financial results accurately and timely. As a result, investors, counterparties and consumers may lose confidence in the accuracy and completeness of our financial reports. As a result, access to capital markets and perceptions of our creditworthiness could be adversely affected, and the market price of our Class A common stock could decline. In addition, we could become subject to investigations by the stock exchange on which our securities are listed, the SEC or other regulatory authorities, which could require additional financial and management resources. These events could have a material and adverse effect on our business, operating results, financial condition and prospects.

If we fail to implement and maintain effective disclosure controls and procedures, we may not be able to meet applicable reporting requirements, which could materially and adversely affect us.

Upon completion of this offering, we will become subject to the informational requirements of the Exchange Act and will be required to file reports and other information with the SEC. As a publicly-traded company, we will be required to maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports that we file with, or submit to, the SEC is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. They include controls and procedures designed to ensure that information required to be disclosed in reports filed with, or submitted to, the SEC is accumulated and communicated to management, including our

principal executive and principal financial officers, to allow timely decisions regarding required disclosure. Effective disclosure controls and procedures are necessary for us to provide reliable reports, effectively prevent and detect fraud, and to operate successfully as a public company. Designing and implementing effective disclosure controls and procedures is a continuous effort that requires significant resources and devotion of time. We may discover deficiencies in our disclosure controls and procedures that may be difficult or time consuming to remediate in a timely manner. Any failure to maintain effective disclosure controls and procedures or to timely effect any necessary improvements thereto could cause us to fail to meet our reporting obligations (which could affect the listing of our Class A common stock on the NYSE). Additionally, ineffective disclosure controls and procedures could also adversely affect our ability to prevent or detect fraud, harm our reputation and cause investors to lose confidence in our reports filed with, or submitted to, the SEC, which would likely have a negative effect on the trading price of our Class A common stock.

We are an "emerging growth company," and the reduced disclosure requirements applicable to emerging growth companies may make our common stock less attractive to investors.

We are an "emerging growth company," as defined in the JOBS Act. We could continue to be considered an emerging growth company for up to five years, although we would lose that status sooner if our gross revenues exceed $1.07 billion, if we issue more than $1.0 billion in nonconvertible debt in a three-year period or if the fair value of our common stock held by non-affiliates exceeds $700.0 million (and we have been a public company for at least 12 months and have filed one annual report on Form 10-K). For as long as we continue to be an emerging growth company, we intend to take advantage of an exemption from the provisions of Section 404(b) of the Sarbanes-Oxley Act requiring that our independent registered public accounting firm provide an attestation report on the effectiveness of our internal control over financial reporting. An attestation report by our auditor would require additional procedures by them that could detect problems with our internal control over financial reporting that are not detected by management. If our system of internal control over financial reporting is not determined to be appropriately designed or operating effectively, it could require us to restate financial statements, cause us to fail to meet reporting obligations and cause investors to lose confidence in our reported financial information, all of which could lead to a significant decline in the market price of our Class A common stock. In addition, we may take advantage of exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies, including reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. It is unclear whether investors will find our Class A common stock less attractive because we may rely on these exemptions. If some investors find our Class A common stock less attractive as a result, there may be a less active trading market for our Class A common stock and our stock price may be more volatile.

In addition, the JOBS Act provides that an emerging growth company can take advantage of an extended transition period for complying with new or revised accounting standards. This allows an emerging growth company to delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to avail ourselves of this exemption from new or revised accounting standards and, therefore, while we are an emerging growth company, we will not be subject to new or revised accounting standards at the same time that they become applicable to other public companies that are not emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates, and we will incur additional costs in connection with complying with the accounting standards applicable to public companies at such time or times as they become applicable to us.

Risks Related to our Class A Common Stock and this Offering

An active trading market for our Class A common stock may not develop, and you may not be able to resell your shares of our Class A common stock at or above the initial offering price.

Prior to this offering, there has been no public market for our Class A common stock. We cannot predict the extent to which investor interest in us will lead to the development of a trading market on the NYSE or otherwise, or how liquid that market might become. If an active market does not develop, you may have difficulty selling any shares of our Class A common stock that you purchase in this offering. The initial public offering price for the shares of our Class A common stock has been determined by negotiations between us and the representatives of the underwriters, and may not be indicative of prices that will prevail in the open market following this offering. An inactive market may also impair our ability to raise capital by selling shares of our Class A common stock and may impair our ability to acquire or make investments in companies, products or technologies for which we may issue equity securities as consideration or for financing purposes.

Further, our directors, director nominees, officers, employees, business associates and related persons of Guild have the opportunity to purchase up to shares of our Class A common stock, or up to 5% of the shares of our Class A common stock offered by this prospectus, for sale by the selling stockholders, at the initial public offering price, through a reserved share program. To the extent these persons purchase shares in this offering, fewer shares may be actively traded in the public market because these stockholders will be restricted from selling the shares by a -day lock-up restriction, which would reduce the liquidity of the market for our Class A common stock.

Sales of a substantial number of shares of our common stock by our existing stockholders in the public market could cause the price of our Class A common stock to fall.

Sales of a substantial number of shares of our common stock in the public market, or the perception that these sales might occur, could significantly reduce the market price of our Class A common stock. If our existing stockholders sell, or indicate an intention to sell, substantial amounts of our common stock (including shares of our Class B common stock that would convert to Class A common stock in connection with such sales) in the public market after the lock-up and legal restrictions on resale discussed in this prospectus expire, the trading price of our Class A common stock could substantially decline. Furthermore, after the reorganization transactions and the completion of this offering, 100% of our outstanding Class B common stock will be held by MCMI, and approximately % of our outstanding Class A common stock will be beneficially owned by our executive officers and directors, and we will have entered into a registration rights agreement with certain of these stockholders. If one or more of them were to sell a substantial portion of the shares they hold, it could cause our the price of our Class A common stock to decline.

Based on shares outstanding as of the date of this prospectus, on the closing of this offering, we will have outstanding a total of shares of Class A common stock and shares of Class B common stock. This includes the shares of Class A common stock that are being sold in this offering, which may be resold in the public market immediately. The remaining shares of our Class A common stock, which represent an aggregate of approximately % of our outstanding shares of Class A common stock after this offering, are currently, and will be following the closing of this offering, restricted as a result of securities laws or lock-up agreements but will be able to be sold, subject to any applicable volume limitations, under federal securities laws with respect to affiliate sales. The selling stockholders and each of our directors and executive officers have entered into lock-up agreements with the underwriters under which the holders of such securities have agreed that, subject to certain exceptions, without the prior written consent of Wells Fargo Securities, LLC, BofA Securities, Inc. and J.P. Morgan Securities LLC, they will not (i) transfer or dispose of any shares of the common stock, preferred stock or other capital stock of the Company, or any securities convertible into or exercisable or exchangeable for common stock, preferred stock or other capital stock of the Company; (ii) enter into any other agreement or

transaction that transfers to another any of the economic consequences of ownership of any common stock of the Company or any securities convertible into or exercisable or exchangeable for common stock of the Company; or (iii) file any registration statement under the Securities Act with the SEC with respect to the offering of common stock or other capital stock or any securities convertible into or exercisable or exchangeable for any common stock or other capital stock of the Company (other than any registration statement filed pursuant to Rule 462(b) under the Securities Act to register securities to be sold to the underwriters pursuant to the underwriting agreement), or publicly announce any intention to do any of the foregoing. Shares of our Class A common stock purchased by any of our directors or executive officers in this offering would also be subject to the foregoing restrictions on transfer, as well as restrictions on disposition imposed by applicable law. The foregoing restrictions will remain in effect for days following the date of this prospectus. Upon the expiration of the foregoing restrictions, our securityholders subject to a lock-up agreement will be able to sell our shares in the public market. In addition, the underwriters may, in their sole discretion, release all or some portion of the shares subject to lockup agreements prior to the expiration of the foregoing restrictions. For a description of these lock-up agreements, see the "*Shares Eligible for Future Sale*" and "*Underwriting*" sections of this prospectus.

In addition, as of the date of this prospectus, there were shares of Class A common stock available for issuance pursuant to future awards under our equity incentive plans that will become eligible for sale in the public market to the extent permitted by the provisions of various vesting schedules, the lock-up agreements discussed above and Rules 144 and 701 under the Securities Act. Moreover, we intend to register all shares of Class A common stock that we may issue under our employee benefit plans. Once we register these shares, they can be freely sold in the public market upon issuance, subject to the lock-up agreements and the restrictions imposed on our affiliates under Rule 144.

The market price for our Class A common stock may be subject to substantial fluctuations, which may make it difficult for you to sell your shares at the volumes, prices and times desired.

The market price of our Class A common stock may be highly volatile, which may make it difficult for you to sell your shares at the volumes, prices and times desired. Some factors that may have a significant effect on the market price of our Class A common stock include:

- actual or anticipated fluctuations in our operating results or those of our competitors';
- actual or anticipated changes in the growth rate of mortgage originations and mortgage servicing income or the growth rate of our businesses or those of companies that investors deem comparable to us;
- changes in economic or business conditions;
- changes in governmental regulation; and
- publication of research reports about us, our competitors, or our industry, or changes in, or failure to meet, estimates made by securities analysts or ratings agencies of our financial and operating performance, or lack of research reports by industry analysts or ceasing of analyst coverage.

If securities or industry analysts do not publish research or publish inaccurate or unfavorable research about us or our business, the price of our Class A common stock and trading volume could decline.

The trading market for our Class A common stock will depend, in part, on the research and reports that securities or industry analysts publish about us or our business. We do not currently have and may never obtain research coverage by securities and industry analysts. If no securities or industry analysts commence coverage of the Company, the trading price for our Class A common stock would be negatively impacted. If we obtain securities or industry analyst coverage and if one or more of the analysts who cover us downgrades our Class A common stock or publishes inaccurate or unfavorable research about us or our business, our share price would likely decline. If one or more of these analysts cease coverage of us or fail to

publish reports on us regularly, demand for our Class A common stock could decrease, which could cause our stock price and trading volume to decline. In addition, if our operating results fail to meet the expectations of securities analysts, our stock price would likely decline.

You will experience immediate and substantial dilution in the book value of the shares you purchase in this offering.

If you purchase shares of our Class A common stock in this offering, you will experience immediate and substantial dilution of $ per share, representing the difference between the initial public offering price of $ per share, which is the midpoint of the price range listed on the front cover of this prospectus, and our pro forma net tangible book value per share after giving effect to the reorganization transactions. See the "*Dilution*" section of this prospectus.

Our issuance of capital stock in connection with financings, acquisitions, investments, our equity incentive plans or otherwise would dilute all other stockholders.

We may issue capital stock in the future. Any such issuance would result in dilution to all other stockholders. In the future, we may issue stock, including as a grant of equity awards to employees, directors and consultants under our equity incentive plans, to raise capital through equity financings or to acquire or make investments in companies, products or technologies for which we may issue equity securities as consideration or for financing purposes. Any such issuances of capital stock in the future may cause stockholders to experience significant dilution of their ownership interests and the per share value of our Class A common stock to decline.

We do not intend to pay dividends in the foreseeable future.

We do not anticipate declaring or paying regular cash dividends on our Class A common stock in the foreseeable futureInstead, we anticipate that most or all of our future earnings will be retained to support our operations and finance the growth and development of our business. Any future determination to declare and pay cash dividends, if any, will be made at the discretion of our Board of Directors and will depend on a variety of factors, including applicable laws, our financial condition, results of operations, contractual restrictions, capital requirements, business prospects, general business or financial market conditions, and other factors our Board of Directors may deem relevant. Investors should not purchase our Class A common stock with the expectation of receiving cash dividends. See "*Dividend Policy*."

Certain provisions in our certificate of incorporation and bylaws and of Delaware law may prevent or delay an acquisition of Guild, which could decrease the trading price of our Class A common stock.

Our certificate of incorporation and bylaws will contain, and Delaware law contains, provisions that are intended to deter coercive takeover practices and inadequate takeover bids by making such practices or bids unacceptably expensive to the bidder and to encourage prospective acquirers to negotiate with our Board of Directors rather than to attempt a hostile takeover. These provisions include, among others, those establishing:

- a dual class common stock structure, which provides MCMI with the ability to control the outcome of matters requiring stockholder approval, even if it beneficially owns significantly less than a majority of the shares of our outstanding common stock;
- the division of our Board of Directors into three classes of directors, with each class serving a staggered three-year term, which could have the effect of making the replacement of incumbent directors more time-consuming and difficult;
- the inability of our stockholders to call a special meeting;
- the inability of our stockholders to act by written consent after MCMI, any other investment funds affiliated with McCarthy Partners, and any company or other entity controlled by,controlling or

under common control with MCMI or any such investment fund (other than any portfolio company) (collectively, the "McCarthy Investors") cease to beneficially own a majority of the combined voting power of our capital stock;

- rules regarding how stockholders may present proposals or nominate directors for election at stockholder meetings;
- the right of our Board of Directors to issue preferred stock without stockholder approval;
- the inability of stockholders to remove directors without cause after the McCarthy Investors cease to beneficially own a majority of the combined voting power of our capital stock; and
- the ability of our directors, not our stockholders, to fill vacancies on the Board of Directors.

In addition, because we will not elect to be exempt from Section 203 of the Delaware General Corporation Law (the "DGCL"), this provision could also delay or prevent a change of control that you may favor. Section 203 of the DGCL provides that, subject to limited exceptions, a person that acquires, or is affiliated with a person that acquires, more than 15% of the outstanding voting stock of a Delaware corporation (an "interested stockholder") must not engage in any business combination with that corporation, including by merger, consolidation or acquisitions of additional shares, for a three-year period following the date on which the person became an interested stockholder, unless (i) prior to such time, the board of directors of such corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder; (ii) upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of such corporation at the time the transaction commenced (excluding for purposes of determining the voting stock outstanding (but not the outstanding voting stock owned by the interested stockholder) the voting stock owned by directors who are also officers or held in employee benefit plans in which the employees do not have a confidential right to tender or vote stock held by the plan); or (iii) on or subsequent to such time the business combination is approved by the board of directors of such corporation and authorized at a meeting of stockholders by the affirmative vote of at least two-thirds of the outstanding voting stock of such corporation not owned by the interested stockholder.

We believe these provisions will protect our stockholders from coercive or otherwise unfair takeover tactics by requiring potential acquirers to negotiate with our Board of Directors and by providing our Board of Directors with more time to assess any acquisition proposal. These provisions are not intended to make Guild immune from takeovers. However, these provisions will apply even if the offer may be considered beneficial by some stockholders and could delay or prevent an acquisition that our Board of Directors determines is not in the best interests of Guild and its stockholders. These provisions may also prevent or discourage attempts to remove and replace incumbent directors.

Our Board of Directors will have the ability to issue blank check preferred stock, which may discourage or impede acquisition attempts or other transactions.

Our Board of Directors will have the power, subject to applicable law, to issue series of preferred stock that could, depending on the terms of the series, impede the completion of a merger, tender offer or other takeover attempt. For instance, subject to applicable law, a series of preferred stock may impede a business combination by including class voting rights, which would enable the holder or holders of such series to block a proposed transaction. Our Board of Directors will make any determination to issue shares of preferred stock based on its judgment as to our and our stockholders' best interests. Our Board of Directors, in so acting, could issue shares of preferred stock having terms which could discourage an acquisition attempt or other transaction that some, or a majority, of the stockholders may believe to be in their best interests or in which stockholders would have received a premium for their stock over the then-prevailing market price of the stock.

Our certificate of incorporation will contain an exclusive forum provision that may discourage lawsuits against us and our directors and officers.

Our certificate of incorporation will provide that, unless the Board of Directors otherwise determines, the state courts in the State of Delaware or, if no state court located within the State of Delaware has jurisdiction, the federal court for the District of Delaware, will be the sole and exclusive forum for any derivative action or proceeding brought on behalf of Guild, any action asserting a claim of breach of a fiduciary duty owed by any director or officer of Guild to Guild or Guild's stockholders, any action asserting a claim against Guild or any director or officer of Guild arising pursuant to any provision of the DGCL or Guild's certificate of incorporation or bylaws, or any action asserting a claim against Guild or any director or officer of Guild governed by the internal affairs doctrine under Delaware law (collectively, the "covered actions"). This exclusive forum provision will apply to all covered actions, including any covered action in which the plaintiff chooses to assert a claim or claims under federal law in addition to a claim or claims under Delaware law, although stockholders will not be deemed to have waived our compliance with the federal securities laws and the rules and regulations thereunder. This exclusive forum provision does not apply to actions that do not assert any covered Delaware state law claims, such as, for example, any action asserting solely federal securities law claims, and the enforceability of similar choice of forum provisions in other companies' organizational documents has been challenged in legal proceedings and it is possible that, in connection with claims arising under federal securities laws or otherwise, a court could find this exclusive forum provision to be inapplicable or unenforceable.

This exclusive forum provision may limit the ability of Guild's stockholders to bring a claim in a judicial forum that such stockholders find favorable for disputes with Guild or Guild's directors or officers, which may discourage such lawsuits against Guild and Guild's directors and officers. Alternatively, if a court were to find this exclusive forum provision inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings described above, Guild may incur additional costs associated with resolving such matters in other jurisdictions or forums, which could materially and adversely affect Guild's business, financial condition or results of operations.

The dual class structure of our common stock may adversely affect the trading market for our Class A common stock.

We cannot predict the potential effects our dual class structure may have on our Class A common stock, such as a lower or more volatile market price. In 2017, S&P Dow Jones and FTSE Russell announced that they would begin excluding most newly public companies with multiple classes of shares of common stock from being added to certain indices, including the Russell 2000, the S&P 500, the S&P MidCap 400 and the S&P SmallCap 600. As a result, our dual class capital structure would make us ineligible for inclusion in any of these indices, and mutual funds, exchange-traded funds and other investment vehicles that attempt to passively track these indices likely will not invest in our stock. Furthermore, we cannot assure you that other stock indices will not take a similar approach to S&P Dow Jones or FTSE Russell in the future. It is unclear what effect, if any, these policies will have on the valuations of publicly traded companies excluded from these indices. Given the sustained flow of investment funds into passive strategies that seek to track certain indices, however, it is possible that exclusion from such indices could make our Class A common stock less attractive to investors. As a result, the market price of our Class A common stock could be adversely affected.

In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

ORGANIZATIONAL STRUCTURE

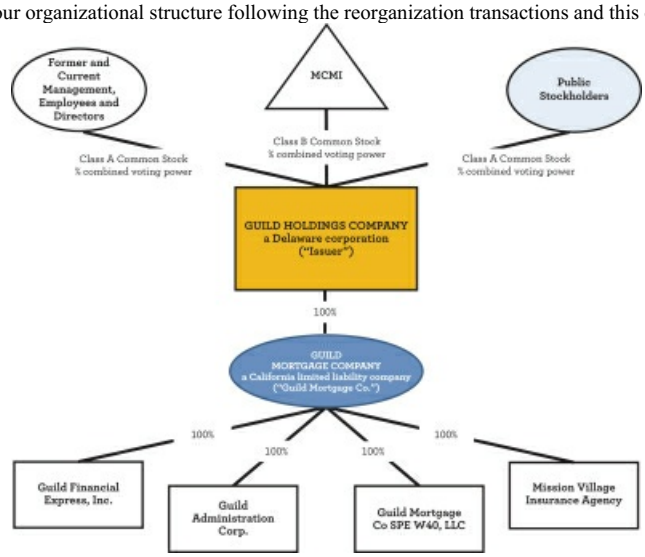
The Reorganization Transactions

Prior to the completion of this offering, we will consummate an internal reorganization, which we refer to as the "reorganization transactions." Prior to the commencement of the reorganization transactions, all of Guild Mortgage Co.'s outstanding equity interests were owned by MCMI and certain other stockholders through their interests in Guild Investors, LLC. In connection with the reorganization transactions, the following steps have occurred or will occur:

- the Issuer was incorporated in Delaware as a wholly owned subsidiary of Guild Investors, LLC on August 11, 2020;
- Guild Mortgage Co. will pay a cash dividend to Guild Investors, LLC in an aggregate amount of approximately $ million;
- Guild Investors, LLC will contribute 100% of the shares of Guild Mortgage Co. to the Issuer, making Guild Mortgage Co. a wholly owned subsidiary of the Issuer, and Guild Mortgage Co. will then be converted into a limited liability company;
- the Issuer will amend and restate its certificate of incorporation to authorize the issuance of two classes of common stock: Class A common stock and Class B common stock; and
- Guild Investors, LLC will be dissolved and its members will receive a pro rata liquidating distribution of shares of the Issuer's common stock (with MCMI receiving shares of the Issuer's Class B common stock and all other members receiving shares of the Issuer's Class A common stock).

The reorganization transactions are intended, among other things, to provide for the Issuer in this offering to be a Delaware corporation and to simplify the organizational structure for Guild Mortgage Co.'s equityholders prior to this offering.

The following diagram depicts our organizational structure following the reorganization transactions and this offering.



* This chart is provided for illustrative purposes only and does not purport to represent all legal entities within our organizational structure.

Upon completion of the transactions described above and this offering:

- the Issuer will consolidate the financial results of Guild Mortgage Co. and its subsidiaries and all of our business operations will continue to be conducted through Guild Mortgage Co. and its consolidated subsidiaries;
- the Issuer will be a Delaware corporation and its authorized capital stock will consist of shares of Class A common stock, par value $0.01 per share, shares of Class B common stock, par value $0.01 per share, and shares of preferred stock, par value $0.01 per share;
- MCMI will hold all of the outstanding shares of the Issuer's Class B common stock, representing approximately % of the combined voting power of the Issuer's outstanding capital stock (or %, if the underwriters exercise in full their option to purchase an additional shares of Class A common stock from the selling stockholders); and
- our public stockholders will collectively hold shares of the Issuer's Class A common stock, representing an aggregate of % of the combined voting power of the Issuer's outstanding common stock (or shares and %, if the underwriters exercise in full their option to purchase an additional shares of Class A common stock from the selling stockholders).

The reorganization transactions, including the conversion of Guild Mortgage Co. from a corporation to a limited liability company, are not expected to result in any material U.S. federal income tax consequences to the Issuer and its subsidiaries under current law.

USE OF PROCEEDS

We will not receive any proceeds from the sale of shares of our Class A common stock by the selling stockholders in this offering (including any proceeds from the sale of shares of our Class A common stock that such selling stockholders may sell pursuant to the underwriters' option to purchase additional shares of our Class A common stock). The selling stockholders will receive all of the proceeds from the sale of shares of our Class A common stock in this offering.

DIVIDEND POLICY

We do not anticipate declaring or paying any regular cash dividends on our Class A common stock in the foreseeable futureInstead, we anticipate that most or all of our future earnings will be retained to support our operations and finance the growth and development of our business. Any future determination to declare and pay cash dividends, if any, will be made at the discretion of our Board of Directors and will depend on a variety of factors, including applicable laws, our financial condition, results of operations, contractual restrictions, capital requirements, business prospects, general business or financial market conditions, and other factors our Board of Directors may deem relevant. As a Delaware corporation, we will be subject to certain restrictions on dividends under DGCL. Generally, a Delaware corporation may only pay dividends either out of "surplus" or out of the current or the immediately preceding year's net profits. Surplus is defined as the excess, if any, at any given time, of the total assets of a corporation over its total liabilities and statutory capital. The value of a corporation's assets can be measured in a number of ways and may not necessarily equal their book value.

Investors should not purchase our Class A common stock with the expectation of receiving cash dividends.

CAPITALIZATION

The following table sets forth our cash, cash equivalents and restricted cash and our capitalization as of June 30, 2020, on:

- an actual basis; and
- a pro forma basis to give effect to the reorganization transactions described under "*Organizational Structure*."

The selling stockholders are selling all of the shares of our Class A common stock to be sold in this offering. We will not receive any of the proceeds from the sale of shares of our Class A common stock by the selling stockholders in this offering, including any proceeds from the sale of shares of our Class A common stock that such selling stockholders may sell pursuant to the underwriters' option to purchase additional shares of our Class A common stock.

DILUTION

If you invest in shares of our Class A common stock in this offering, your ownership interest will be immediately diluted to the extent of the difference between the initial public offering price per share of our Class A common stock and the net tangible book value per share of our common stock.

Our pro forma net tangible book value as of June 30, 2020 would have been approximately $ million, or $ per share of our common stock, representing the amount of total tangible assets less our total liabilities (in the case of pro forma net tangible book value), divided by the total number of shares of common stock outstanding (in the case of pro forma net tangible book value per share), in each case, after giving effect to the reorganization transactions.

We will not receive any proceeds from the sale of the shares of our Class A common stock offered by the selling stockholders in this offering. Consequently, this offering will not result in any change to our pro forma net tangible book value per share, prior to giving effect to the payment of estimated fees and expenses in connection with this offering. Purchasing shares of our Class A common stock in this offering will result in pro-forma net tangible book value dilution to the investors purchasing in this offering of $ per share. Dilution per share to investors purchasing in this offering is determined by subtracting the pro forma net tangible book value per share from the initial public offering price per share of our Class A common stock paid by investors purchasing in this offering. The following table illustrates this dilution on a per share basis:

Assumed initial public offering price per share[1]	$
Pro forma net tangible book value per share as of June 30, 2020[2]	
Dilution per share to investors purchasing shares of our Class A common stock in this offering	$

(1) Represents the midpoint of the estimated price range set forth on the front cover of this prospectus.

(2) Reflects outstanding shares of common stock on a pro forma basis after giving effect to the reorganization transactions, consisting of (i) shares of our Class A common stock and (ii) shares of our Class B common stock.

The dilution information discussed above is illustrative only and will change based on the actual initial public offering price.

The following table summarizes, as of June 30, 2020, on the pro forma basis described above, the total number of shares of common stock owned by existing stockholders and to be owned by investors purchasing in this offering, the total consideration paid and the average price per share paid or to be paid by existing stockholders holding shares of Class A common stock and shares of Class B common stock and investors purchasing shares of Class A common stock in this offering at an assumed initial public offering price of $ per share, which is the midpoint of the estimated price range set forth on the front cover of this prospectus, before deducting estimated underwriting discounts and commissions and estimated offering expenses.

	Shares of Common Stock Purchased		Total Consideration		Average Price
	Number	Percent	Amount	Percent	Per Share
Existing stockholders[1]		%	$	%	$
Investors in this offering					
Total		100%	$	100%	$

(1) The total consideration provided by the existing stockholders is equal to the equity of Guild Mortgage Co. as of June 30, 2020.

The table above assumes no exercise of the underwriters' option to purchase additional shares of our Class A common stock. If the underwriters exercise in full their option to purchase additional shares of our Class A common stock, the percentage of shares of our common stock held by existing stockholders would be decreased to % of the total number of shares of our common stock outstanding after this offering, and the number of shares of common stock held by investors purchasing in this offering would be increased to % of the total number of shares of our common stock outstanding after this offering.

In addition, following the completion of this offering, we may choose to raise capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that capital is raised through the sale of equity or convertible debt securities, the issuance of such securities could result in further dilution to our stockholders.

Executive Summary of Results of Operations for Periods Presented

Six Months Ended June 30, 2020 Summary

For the six months ended June 30, 2020, we originated $14.6 billion of mortgage loans compared to $8.6 billion for the six months ended June 30, 2019, representing a 69.5% increase for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Our servicing portfolio as of June 30, 2020 was $52.8 billion of UPB compared to $47.4 billion of UPB as of June 30, 2019, with the weighted average size of the portfolio increasing 9.8% over that time. We generated $110.8 million of net income for the six months ended June 30, 2020 compared to $47.0 million of net loss for the six months ended June 30, 2019. We generated $238.2 million of Adjusted Net Income for the six months ended June 30, 2020 compared to $52.6 million for the six months ended June 30, 2019, representing a 353.0% increase, and we generated $325.8 million of Adjusted EBITDA for the six months ended June 30, 2020 compared to $79.8 million for the six months ended June 30, 2019, representing a 308.0% increase. Please see "*—Non-GAAP Financial Measures*" for further information regarding our use of Adjusted Net Income and Adjusted EBITDA, including limitations related to such non-GAAP measures and a reconciliation of such measures to net income (loss), the nearest comparable financial measure calculated and presented in accordance with GAAP.

The above-described increase in net income, Adjusted Net Income and Adjusted EBITDA was primarily due to the increase in loan origination fees and gain on sale of loans, net of $405.8 million or 123.9% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. The increase in loan origination fees and gain on sale of loans, net was driven by the increase in origination volume described above and increased profit margins on overall loan sales to investors, which increased 122 basis points or 32.1% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Our increased origination volume also resulted in an increase in variable salaries, commission and benefits expense of $135.6 million or 56.2% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019.

Net income for the six months ended June 30, 2020 included a loss of $204.8 million due to a decrease in the fair value of our MSRs resulting from the valuation model impact of a decrease in projected duration of cash flow collections during the period. According to the Mortgage Finance Forecast from the Mortgage Bankers Association (the "MBA Mortgage Finance Forecast"), average 30-year mortgage rates declined by approximately 80 basis points from June 30, 2019 to June 30, 2020. A decline of this nature generally results in higher prepayment speeds and a subsequent downward adjustment to the fair value of our MSRs for the loans that still exist in our portfolio. However, when rates decline, our origination volume generally increases as refinance opportunities increase.

Management believes that maintaining both an origination segment and a servicing segment provides us with a more balanced business model in both rising and declining interest rate environments, compared to other industry participants that predominately focus on either origination or servicing, instead of both. In addition, one of our business strategies is to seek to recapture mortgage transactions when our borrowers prepay their loans. During the twelve months ended June 30, 2020, we had a 26% purchase recapture rate, a 67% refinance recapture rate and a 61% overall recapture rate, compared to 24%, 49% and 40%, respectively, for the twelve months ended June 30, 2019. Recapture rate is calculated as the total UPB of our clients that originated a new mortgage with us in a given period, divided by the total UPB of our clients that paid off their existing mortgage and originated a new mortgage in the same period. This calculation excludes clients to whom we did not actively market due to contractual prohibitions or other business reasons.

Year Ended December 31, 2019 Summary

For the year ended December 31, 2019, we originated $21.8 billion of mortgage loans compared to $16.5 billion for the year ended December 31, 2018, representing an increase of $5.3 billion or 32.3% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. Our servicing

portfolio as of December 31, 2019 was $49.3 billion of UPB compared to $45.5 billion of UPB as of December 31, 2018, with the weighted average size of the portfolio increasing 12.8% over that time. We generated $5.6 million of net income for the year ended December 31, 2019 compared to $73.3 million for the year ended December 31, 2018. We generated $139.1 million of Adjusted Net Income for the year ended December 31, 2019 compared to $51.9 million for the year ended December 31, 2018, representing a 168.1% increase, and we generated $201.5 million of Adjusted EBITDA for the year ended December 31, 2019 compared to $83.0 million for the year ended December 31, 2018, representing a 142.8% increase. Please see "*—Non-GAAP Financial Measures*" for further information regarding our use of Adjusted Net Income and Adjusted EBITDA, including limitations related to such non-GAAP measures and a reconciliation of such measures to net income, the nearest comparable financial measure calculated and presented in accordance with GAAP.

The above-described increase in Adjusted Net Income and Adjusted EBITDA was primarily due to the increase in loan origination fees and gain on sale of loans, net of $204.2 million for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. Our increased origination volume also resulted in an increase in variable salaries, commission and benefits expense of $67.9 million or 13.3% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. Additionally, our income from loan servicing and other fees increased by $19.0 million or 15.4% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018, primarily driven by the 12.8% increase in the average size of our servicing portfolio for the year ended December 31, 2019 compared to that for the year ended December 31, 2018.

Net income for the year ended December 31, 2019 included a loss of $255.2 million due to a decrease in the fair value of our MSRs resulting from the valuation model impact of a decrease in projected duration of cash flow collections during the period. According to the MBA Mortgage Finance Forecast, average 30-year mortgage rates declined by 110 basis points from December 31, 2018 to December 31, 2019. A decline of this nature generally results in higher prepayment speeds and a subsequent downward adjustment to the fair value of our MSRs for the loans that still exist in our portfolio. However, when rates decline, our origination volume generally increases as refinance opportunities increase. For the year ended December 31, 2019, we had a 26% purchase recapture rate, a 64% refinance recapture rate and a 56% overall recapture rate, compared to 24%, 40% and 34%, respectively, for the year ended December 31, 2018.

Recent Developments

COVID-19 Pandemic

Business Operations and Liquidity

We continue to closely monitor the economic impact resulting from theCOVID-19 pandemic. Although we experienced record origination volume and increased profit margins in our origination segment during the six months ended June 30, 2020, the COVID-19 pandemic has had a negative impact on the financial results of our servicing segment. The federal government enacted the CARES Act, which allows borrowers with federally backed loans to request a temporary mortgage forbearance. As a result of the CARES Act forbearance requirements, we have recorded, and expect to record additional, increases in delinquencies in our servicing portfolio. As of June 30, 2020, the 60-plus day delinquency rate on our servicing portfolio was 3.5%, compared to a 60-plus day delinquency rate of 1.5% as of February 28, 2020. This increased delinquency rate on our servicing portfolio may require us to finance substantial amounts of advances of principal and interest, property taxes, insurance premiums and other expenses to protect investors' interests in the properties securing the loans. These advances and payments, coupled with increased servicing costs and lower servicing revenue, have negatively affected and will continue to negatively affect our cash position. Additionally, we are currently prohibited from collecting certain servicing-related fees, such as late fees, and initiating foreclosure proceedings. As a result, we expect the effects of the CARES Act forbearance requirements to reduce our servicing income and increase our servicing expenses.

As of August 31, 2020, approximately 4.70% of the loans in our servicing portfolio had elected the forbearance option compared to the industry average of 7.16%, as reported by the Mortgage Bankers Association. Of the 4.70% of the loans in our servicing portfolio that had elected forbearance as of August 31, 2020, approximately 27.6% remained current on their August payments. We believe our portfolio has performed better than the industry average because of our in-house servicing capabilities and timely response to the COVID-19 pandemic and that our performance is a testament to the strength of our client relationships. Our in-house servicing team and local loan officers continue to work with our clients to understand forbearance plans and determine the best paths forward for their unique circumstances. By maintaining relationships with our clients throughout the loan lifecycle, and supporting our clients during times of uncertainty, we position ourselves to capture future business.

Employee Safety

We are also continuing to focus on the wellbeing and safety of our employees. Since March, we have moved to a remote working environment for the majority of our employees and, for those that are coming into our offices, we have instituted additional health and safety precautions, such as restricting visitors, providing masks and mandating more frequent sanitizing of our offices.

Increased Liquidity

During the second quarter of 2020, to support our increased loan origination volume, we increased the capacity of our existing loan funding facilities by $165.0 million, of which $90.0 million represented a temporary increase in capacity. Subsequent to June 30, 2020, we increased the capacity of all of our existing loan funding facilities by an aggregate amount equal to $739.0 million, of which $90.0 million represented a temporary increase in capacity. We added one additional loan funding facility during the second quarter of 2020 with a total facility size of $100.0 million, for which we subsequently increased the capacity by $100.0 million during the third quarter of 2020. As of the date of this prospectus, the aggregate available amount under our loan facilities was approximately $2.9 billion.

During the second quarter of 2020, we renewed one of our MSR notes payable and increased the aggregate amount available under that MSR note payable by $27.0 million. In the third quarter of 2020, we renewed another MSR note payable and increased the aggregate amount available under that MSR note payable by $15.0 million. In addition, in September 2020, we drew down $22.0 million under one of our

MSR notes payable. See "*—Liquidity, Capital Resources and Cash Flows*" for further information regarding our funding facilities.

The extent to which the COVID-19 pandemic affects our business, results of operations and financial condition will ultimately depend on future developments, which are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and actions taken by governmental authorities and other third parties in response to the pandemic. See "*Risk Factors—The COVID-19 pandemic has had, and will likely continue to have, an adverse effect on our business, and its ultimate effect on our business and financial results will depend on future developments, which are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and actions taken or to be taken by government authorities in response to the pandemic."*

Description of Certain Components of Financial Data

The primary components of our revenue and expenses are described below.

Our Components of Revenue

Loan origination fees and gain on sale of loans, net — This represents all income recognized from the time when a loan is originated until the time when a loan is subsequently sold to an investor and includes cash and non-cash components. Each component is described below:

- *Gain (loss) on sale of loans* — Net proceeds from the difference between the quoted loan price committed to the client and the price received from the investor at loan sale, net of miscellaneous investor fees charged.
- *Origination fees* — Fees collected from the client, which typically include processing, underwriting, funding, credit report, tax service, flood certification and appraisal fees, net of any associated third-party costs.
- *The fair value of the MSRs at time of sale*— After a loan is sold to an investor, we record the value of the MSR at fair value. Fair value is estimated based on the present value of future cash flows. We utilize a third-party valuation service to determine this estimated value based on variables such as contractual servicing fees, ancillary fees, the cost to service, discount rate and estimated prepayment speeds.
- *Changes in the fair value of interest rate lock commitments ("IRLC") and mortgage loans held for sale* —When the client accepts an interest rate lock, we record the estimated fair value of the loan. We also evaluate several factors to determine the likelihood of the loan closing and discount the value of any IRLCs we consider to have a lower probability of closing. The probability of the loan ultimately closing changes as the stage of the loan progresses from application to underwriting submission, loan approval and funding. Loans that close and are held for sale are commonly referred to as mortgage loans held for sale or "MLHS." MLHS are also recorded at fair value. We typically determine the fair value of our MLHS based on investor committed pricing; however, we determine the fair value of any MLHS that is not allocated to a commitment based on current delivery trade prices.
- *Changes in the fair value of forward delivery commitments* — We enter into forward delivery commitments to hedge against changes in the interest rates associated with our IRLCs and MLHS. Our hedging policies are set by our risk management function and are monitored daily. Typically, when the fair value of an IRLC or MLHS increases, the fair value of any related forward contract decreases.
- *Investor reserve provision* — At the time a loan is sold to an investor, we make certain representations and warranties. If defects are subsequently discovered in these representations

and warranties that cause a loan to no longer satisfy the applicable investor eligibility requirements, we may be required to repurchase that loan. We are also required to indemnify several of our investors for borrowers' prepayments and defaults. We estimate the potential for these losses based on our recent and historical loan repurchase and indemnification experience and as our success rate on appeals. We also screen market conditions for any indications of a rise in delinquency rates, which may result in a heightened exposure to loss.

Loan servicing and other fees — Loan servicing and other fees consist of:

- *Loan servicing income* — This represents the contractual fees that Guild earns by servicing loans for various investors. Fees are calculated based on a percentage of the outstanding principal balance and is recognized into revenue as related payments are received.
- *Other ancillary fees* — We may also collect other ancillary fees from the client, such as late fees and nonsufficient funds fees.
- *Impound interest* — We are required to pay interest to our clients annually based on the average escrow account balances that we hold in trust for the payment of their property taxes and insurance.

Valuation adjustment of mortgage servicing rights — We have elected to recognize MSRs at fair value. This requires that we periodically reevaluate the valuation of our MSRs following our initial analysis at the time of sale. A third party conducts a monthly valuation of our MSRs, and we record any changes to the fair value of our MSRs that result from changes in valuation model inputs or assumptions and collections of servicing cash flows in accordance with such third-party analysis. Changes in the fair value of our MSRs result in an adjustment to the value of our MSRs. See "Quantitative and Qualitative Disclosure about Market Risk—Fair Value Risk—MSRs" and "Critical Accounting Policies—Mortgage Servicing Rights" for additional information regarding the valuation of our MSRs.

Interest income — Interest income consists primarily of interest earned on MLHS.

Interest expense — Interest expense consists primarily of interest paid on funding andnon-funding debt facilities collateralized by our MLHS and MSRs. We define funding debt as all other debt related to operations, such as warehouse lines of credit and our early buyout facility, which we use to repurchase certain delinquent GNMA loans. Non-funding debt includes the note agreements collateralized by our MSRs (our "MSR notes payable"). See "*Description of Certain Indebtedness*" for further details about our indebtedness. We also record related bank charges and payoff as interest expense. Payoff interest expense is equal to the difference between what we collect in interest from our clients and what we remit in interest to the investors who purchase the loans that we originate. In most cases, we are required to remit a full month of interest to those investors, regardless of the date on which the client prepays during the payoff month, resulting in additional interest expense.

Other income — Other income typically includes dividend and fair value adjustments related to marketable securities that are generally immaterial to our operating results.

Our Components of Expenses

Salaries, commissions and benefits — Salaries, commissions and benefits expense includes all payroll, incentive compensation and employee benefits paid to our employees, as well as expenses incurred in connection with our use of employment and temporary help agencies. Our loan officers are paid incentive compensation based on origination volume, resulting in a variable pay structure that fluctuates.

General and administrative — General and administrative expense primarily includes costs associated with professional services, attendance at conferences and meetings, office expenses, liability insurance, business licenses and other miscellaneous costs.

In addition, within general and administrative expense, we record any adjustments to the fair value of the contingent liabilities related to our completed acquisitions. The purchase and sale agreements with

respect to each of the six acquisitions that we have completed provided for contingent future consideration commonly known as "earn-out payments." These payments are estimated based on the present value of future cash flows during the earn-out period. The earn-out periods for our acquisitions span from three to five years, and the earn-out periods for three of our acquisitions are still ongoing.

Occupancy, equipment and communication — Occupancy, equipment and communication includes expenses related to the commercial office spaces we lease, as well as telephone and internet service and miscellaneous leased equipment used for operations. See *"Contractual Obligations"* for a summary of future lease obligations.

Depreciation and amortization — We depreciate furniture and equipment on a straight-line basis for a period of up to five years and we record amortization expense related to our leasehold improvements on rented space. That amortization expense is recognized over the shorter of the lease term or the useful life of the asset. We also record costs related to the maintenance of software, which consist of both internal and external costs incurred in connection with software development and testing, as well as any costs associated with the implementation of new software. These costs are amortized over a three-year period.

Provision for foreclosure losses — We may incur a loss on government loans related to unreimbursed interest and costs associated with foreclosure. We reserve for government loans based on historical loss experience as well as for loan-specific issues related to foreclosure.

Income tax (benefit) expense — We are subject to federal and state income tax. We record this expense based on our effective federal and state tax rates. These effective rates are adjusted for permanent non-deductible differences and reconciliation differences from prior years. We also evaluate material temporary differences to determine whether any additional adjustments to this expense are required.

Future Public Company Expenses

In connection with our becoming and being a public company, we expect our expenses to increase, including, but not limited to, our legal, accounting and insurance expenses. Although we do not anticipate any increase in these expenses to have a material effect on our overall results of operations, our historical results of operations may not be indicative of our future results of operations. If we fail to manage these additional costs or to maintain or increase our revenue, we may incur losses in the future.

Key Performance Indicators

Management reviews several key performance indicators to evaluate our business results, measure our performance and identify trends to inform our business decisions. Summary data for these key performance indicators is listed below. Please refer to the *"—Components of Results of Operations*" for additional metrics that management reviews in conjunction with the consolidated financial statements.

Non-GAAP Financial Measures

To supplement Guild Mortgage Co.'s financial statements presented in accordance with GAAP and to provide investors with additional information regarding Guild Mortgage Co.'s GAAP financial results, we have presented in this prospectus Adjusted Net Income, Adjusted EBITDA and Adjusted Return on Equity, which are non-GAAP financial measures. These non-GAAP financial measures are not based on any standardized methodology prescribed by GAAP and are not necessarily comparable to similarly titled measures presented by other companies.

Adjusted Net Income. We define Adjusted Net Income as earnings before the change in the fair value measurements related to our MSRs and contingent liabilities related to completed acquisitions due to changes in valuation assumptions. The fair value of our MSRs is estimated based on a projection of expected future cash flows and the fair value of our contingent liabilities related to completed acquisitions is estimated based on a projection of expected future earn-out payments. Adjusted Net Income is also adjusted by applying an implied tax effect to these adjustments. The Company excludes the change in the fair value of its MSRs due to changes in model inputs and assumptions from Adjusted Net Income and

Adjusted EBITDA because the Company believes this non-cash, non-realized adjustment to total revenues is not indicative of the Company's operating performance or results of operation but rather reflects changes in model inputs and assumptions (e.g., discount rates and prepayment speed assumptions) that impact the carrying value of the Company's MSRs from period to period.

Adjusted EBITDA. We define Adjusted EBITDA as earnings before interest (without adjustment for net warehouse interest related to loan fundings and payoff interest related to loan prepayments), taxes, depreciation and amortization exclusive of any change in the fair value measurements of the MSRs due to valuation assumptions and contingent liabilities from business acquisitions. The Company excludes the change in the fair value of its MSRs due to changes in model inputs and assumptions from Adjusted Net Income and Adjusted EBITDA because the Company believes this non-cash, non-realized adjustment to total revenues is not indicative of the Company's operating performance or results of operation but rather reflects changes in model inputs and assumptions (e.g., discount rates and prepayment speed assumptions) that impact the carrying value of the Company's MSRs from period to period.

Adjusted Return on Equity. We define Adjusted Return on Equity as Adjusted Net Income as a percentage of average beginning and ending stockholder's equity during the period. For periods of less than one year, Adjusted Return on Equity is shown on an annualized basis.

We use these non-GAAP financial measures to evaluate our operating performance, to establish budgets and to develop operational goals for managing our business. These non-GAAP financial measures are designed to evaluate operating results exclusive of fair value adjustments that are not indicative of management's operating performance. Accordingly, we believe that these financial measures provide useful information to investors and others in understanding and evaluating our operating results, enhancing the overall understanding of our past performance and future prospects.

Our non-GAAP financial measures are not prepared in accordance with GAAP and should not be considered in isolation of, or as an alternative to, measures prepared in accordance with GAAP. There are a number of limitations related to the use of these non-GAAP financial measures rather than net income (loss), which is the most directly comparable financial measure calculated and presented in accordance with GAAP for Adjusted Net Income and Adjusted EBITDA, and return on equity, which is the most directly comparable financial measure calculated and presented in accordance with GAAP for Adjusted Return on Equity. These limitations include that these non-GAAP financial measures are not based on a comprehensive set of accounting rules or principles and many of the adjustments to the GAAP financial measures reflect the exclusion of items that are recurring and may be reflected in the Company's financial results for the foreseeable future. In addition, other companies may use other measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparison.

The following tables reconcile Adjusted Net Income and Adjusted EBITDA to net income (loss) and Adjusted Return on Equity to return on equity, the most directly comparable financial measures calculated and presented in accordance with GAAP.

Net income totaled $110.8 million for the six months ended June 30, 2020 compared to a net loss of $47.0 million for the six months ended June 30, 2019. This change was primarily driven by increased revenue earned from loan origination fees and gain on sale of loans, net of $405.8 million or 123.9% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. According to the MBA Mortgage Finance Forecast, average 30-year mortgage rates declined approximately 80 basis points from June 30, 2019 to June 30, 2020, which led to an increase in refinance activity. Refinance activity represented 59% of origination volume in the U.S. mortgage market during the six months ended June 30, 2020 compared to 29% of the origination volume during the six months ended June 30, 2019, according to Inside Mortgage Finance. As consumer demand for refinancing increased, our profit margins increased. Our origination volume increased 69.5% for the six months ended June 30, 2020 compared to

that for the six months ended June 30, 2019. Our income from loan servicing and other fees increased by $7.9 million or 11.5% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. These increases in loan origination fees and gain on sale of loans, net and loan servicing and other fees were partially offset by a loss associated with the decrease in the fair value of our MSRs resulting from the valuation model impact of a decrease in projected duration of cash flow collections during the period, as described further below. In a declining mortgage interest rate environment, it is typical for us to experience downward MSR valuation adjustments due to the increased likelihood of prepayments for the loans that still exist in our MSR portfolio. However, when rates decline, originations tend to increase as refinance opportunities increase.

Salaries, commission and benefits expense increased by $135.6 million or 56.2% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This increase resulted from increased variable incentive compensation paid to our origination teams and our hiring of additional employees to support the increases in our origination and servicing volumes. Revenue increased 152.7%, while salaries, commission and benefits expense increased 56.2% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Occupancy costs remained relatively unchanged for the comparative period. General and administrative expense increased by $19.6 million or 68.4% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019 due to an upward adjustment to the fair value of the contingent liabilities related to our completed acquisitions and increases in certain third-party expenses that typically increase directionally as origination and servicing volumes expand.

(1) Includes retail and correspondent loans and excludes brokered loans.
(2) Represents loans sold for which we continue to act as the servicer.
(3) Represents loans sold for which we do not continue to act as the servicer.
(4) Represents the components of loan origination fees and gain on sales of loans, net described under "*—Our Components of Revenue*" divided by total in-house origination to derive basis points.

Gain on sale of loans increased by $203.0 million or 84.9% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019 due to a $6.0 billion or 73.0% increase in loan sales for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019.

The fair value of our originated MSRs increased by $70.3 million or 158.2% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This increase was caused by an increase in the percentage of our loans sold for which we continued to act as the servicer (i.e., on a "service retained" basis). During the six months ended June 30, 2020, we retained 85.1% of our origination volume compared to 58.7% of our origination volume for the six months ended June 30, 2019.

Adjustments to the fair value of our MLHS and IRLCs, net of any related changes in the fair value of our forward delivery commitments, resulted in a net gain of $143.7 million for the six months ended June 30, 2020 compared to a net gain of $19.0 million for the six months ended June 30, 2019. This increased gain primarily resulted from decreased interest rates and increased origination volume. Additionally, in response to our increased origination volume, our origination fee income increased by $15.1 million or 52.7% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019.

Our provision for investor reserves increased by $7.4 million or 202.4% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This increase resulted from our increased origination volume, as well as from our decision to increase our investor loss reserve because of the potential effects of the COVID-19 pandemic. As interest rates declined and prepayment speeds increased over this period, early pay-off fees increased by 65%. Early pay-off fees are equal to the amount of the gain on sale premium received from the investors who purchase our loans that we must return to those investors when loans sold to them are repaid before a specified point in time. In addition, we experienced a 9% increase in investor repurchase and indemnity claims on loans sold to investors for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Each of these factors, increased early pay-off fees and increased repurchase and indemnity claims on loans sold to investors, influenced our decision to increase our provision for investor reserves as indicated above.

(1) We purchased two servicing portfolios totaling $1.1 billion and $0.8 billion as of June 30, 2020 and 2019, respectively, that are currently being subserviced by a third party and are excluded from these numbers.
(2) Includes all in-house loans originated in period, irrespective if it is eventually sold, service retained or service released.
(3) Represents loans sold for which we do not continue to act as the servicer of the loan.
(4) Represents the percentage of UPB that will pay off ahead of time in each period, calculated as an annual rate.
(5) Represents a metric used to determine the relative value of our MSRs in relation to our annualized retained servicing fee. It is calculated by dividing (a) the fair market value of our MSRs as of a specified date by (b) the weighted average annualized retained servicing fee for our servicing portfolio as of such date. We exclude purchased MSRs from this calculation because our servicing portfolio consists primarily of originated MSRs and, consequently, purchased MSRs do not have a material impact on our weighted average service fee.

Total loan servicing and other fees increased by $7.9 million or 11.5% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019, which is consistent with our average servicing portfolio growth of 9.8% for the twelve months ended June 30, 2020. We expect, however, that our servicing fee income will decline due to certain of our clients electing to accept forbearance relief under the CARES Act. Those clients are currently not making their mortgage payments and the duration of the CARES Act forbearance period is uncertain. We have experienced a decline in other ancillary fee income of $0.3 million or 9.1% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019, reflecting our inability to resume charging late fees until the termination of the CARES Act forbearance period.

Valuation Adjustment of Mortgage Servicing Rights

The below table presents our MSR valuation adjustment for the periods presented.

	Six Months Ended June 30,			
($ in thousands)	**2020**	**2019**	**$ Change**	**% Change**
MSR valuation adjustment	$(204,810)	$(160,222)	$ (44,588)	27.8%

The fair value of our MSRs declined by $204.8 million for the six months ended June 30, 2020 compared to a decline of $160.2 million for the six months ended June 30, 2019. The fair value of our MSRs generally declines as interest rates decline and prepayments increase. According to the MBA Mortgage Finance Forecast, average 30-year mortgage rates declined by 50 basis points during the six months ended June 30, 2020. Additionally, due to the COVID-19 pandemic, our 60-plus day delinquency rate on our servicing portfolio increased to 3.5% as of June 30, 2020 from 1.2% as of June 30, 2019. Both of these factors resulted in a reduction in the fair value of our MSRs.

Interest Income

Interest income increased by $1.6 million or 6.4.% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Although our origination volume increased by 69.5% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019, our interest earned on loans funded only increased by 6.4% over the comparative period. This was primarily due to a decline in our average note rate on loans originated of 3.5% for the six months ended June 30, 2020 compared to 4.7% for the six months ended June 30, 2019.

Interest Expense

Interest expense increased by $4.3 million or 18.6% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Although interest rates declined, we incurred additional interest expense related to our warehouse lines of credit. Interest expense related to our warehouse lines of credit increased by $1.1 million or 8.3% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This expense was incurred in connection with additional borrowings to support our increased origination volume.

Interest expense also includes costs incurred for payments of interest with respect to our MSR notes payable and our early buyout facility. As of June 30, 2020, our outstanding borrowing under the MSR notes payable and early buy out facility totaled $222.1 million compared to $153.0 million as of June 30, 2019.

Payoff interest expense increased by $2.6 million or 136.5% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Most of this increase was due to increased payoff volume. When a client pays off their loan with us, the client pays interest only up until the date of payoff. As a seller-servicer, however, we are required to remit the full month of interest to the investors who purchase the loans we originate, despite the fact that the client will not pay a full month of interest for that month. Our loan prepayments increased by $5.5 billion or 201.1% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019.

Other Income

Changes in other income for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019 were immaterial to the overall results of operations.

Total expenses	$457,051	$301,480	$ 155,571	51.6%

Salaries, Commission and Benefits

Salaries, commission and benefits expense increased by $135.6 million or 56.2% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This increase resulted from increased variable incentive compensation paid to our origination teams and our hiring of additional employees to support the increases in our origination and servicing volumes.

A breakdown of the components of salaries, commissions and benefits expense is provided below.

Salaries, Commission and Benefits	Six Months Ended June 30,			
($ in thousands)	**2020**	**2019**	**$ Change**	**% Change**
Commission	$210,710	$116,884	$ 93,826	80.3%
Salaries	117,068	96,997	20,071	20.7%
Benefits	49,120	27,435	21,685	79.0%
Total Salaries, Commission and Benefits Expense	$376,898	$241,316	$ 135,582	56.20%

Commission expense increased by $93.8 million or 80.3% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Commission expense includes variable incentive compensation that is paid to producers based on loan closings and variable incentive compensation paid to sales managers based on branch expense management. The variable incentive compensation that is paid to producers based on loan closings increased for the six months end June 30, 2020 compared to that for the six months ended June 30, 2019 because of the increase in our origination during this period. The variable incentive compensation paid to sales managers based on branch expense management increased by $28.5 million or 137% because loan origination volume increased during this period, despite branch fixed costs remaining unchanged, which created an opportunity for sales managers to earn additional variable compensation based on branch expense management.

Salaries expense increased by $20.1 million or 20.7% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Salary expense increased because the Company hired additional temporary employees and paid increased variable bonus and overtime to support the increase in our origination and servicing volumes during this period.

Benefits expense increased by $21.7 million or 79% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This increase resulted mostly from increased employment taxes related to increased personnel expenses.

Occupancy, Equipment and Communication

Occupancy, equipment and communication expense remained unchanged for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. A breakdown of the components of occupancy, equipment and communication expense is provided below.

Occupancy, Equipment and Communication Expense	**Six Months Ended**			
($ in thousands)	**2020**	**2019**	**$ Change**	**% Change**
Occupancy	$ 16,279	$ 16,706	(427)	(2.6)%
Equipment	3,240	3,350	(110)	(3.3)%
Communication	7,436	6,885	551	8.0%
Total Occupancy, Equipment and Communication Expense	$ 26,955	$ 26,942	13	0.0%

Occupancy costs remained unchanged for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Occupancy costs generally consist of fixed costs and remain consistent except for the typical increase in building rental expense each year, which is usually aligned with inflation, and except for any increases associated with new acquisitions, expansion into new territories and entry into new material building leases. We incurred a slight decrease in occupancy and equipment costs for the six months ended June 30, 2020, compared to that for the six months ended June 30, 2019, because, as more of our employees were working remotely, we did not renew some of our leased office space. Our communication expense increased by approximately $0.6 million for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This increase was primarily due to most of our employees working remotely because of COVID-19-related restrictive measures.

General and Administrative

General and administrative expense increased by $19.6 million or 68.4% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. A breakdown of general and administrative expense is provided below.

General and Administrative Expense ($ in thousands)	Six Months Ended June 30, 2020	2019	$ Change	% Change
Contingent Liability fair value adjustment	20,024	3,054	16,970	555.7%
Professional Fees	12,192	10,441	1,751	16.8%
Advertising	8,839	8,505	334	3.9%
Office supplies, travel and entertainment	4,488	5,138	(650)	(12.7)%
Miscellaneous	2,649	1,486	1,163	78.3%
Total General and Administrative Expense	48,192	28,624	19,568	68.4%

Approximately $17.0 million of this $19.6 million increase in general and administrative expense resulted from an adjustment to the fair value of the contingent liabilities related to our completed acquisitions.

Professional fees increased by 16.8% or $1.8 million for the for the six months ended June 30, 2020 compared to those for the six months ended June 30, 2019. This increase in professional fees arose primarily from an increase in fees paid to third party quality control vendors to support the growth in our origination and servicing volume during the period.

Office supplies, travel and entertainment expense decreased by $0.7 million or 12.7% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This decrease was primarily due to our employees working remotely as a result of COVID-19-related restrictive measures.

Miscellaneous expense increased by $1.2 million or 78.3% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This increase was due to higher miscellaneous loan level fees arising from our increased origination and servicing volume during the period.

Provision for Foreclosure Losses

Provision for foreclosure losses expense increased by $1.1 million or 140.3% during the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. Although we have seen a decrease in overall foreclosure starts and sales due to the CARES Act's foreclosure moratorium, we have elected to increase our foreclosure loss reserves in anticipation of an increase in foreclosures after that moratorium is lifted. We estimate that, had the CARES Act's foreclosure moratorium not been in effect, the number of our loans in foreclosure would have been higher during the six months ended June 30, 2020. Additionally, we expect that the increase in foreclosure proceedings after the CARES Act's foreclosure moratorium is lifted will likely create a backlog and slow the judicial foreclosure process, which, in turn, will increase the length of foreclosure periods and result in higher foreclosure losses expense. For these reasons, we increased our provision for foreclosure losses accordingly.

Depreciation and Amortization

Depreciation and amortization decreased by $0.7 million or 17.7% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019 primarily due to fewer equipment purchases and leasehold improvements for the period.

General and administrative expense increased by $13.0 million or 25.5% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018, which was primarily due to an upward adjustment to the fair value of the contingent liabilities related to our completed acquisitions. During the year ended December 31, 2019, we recorded $7.9 million of expense related to earn-out valuation adjustments compared to $2.6 million of income related to earn-out valuation adjustments during the year ended December 31, 2018. Depreciation and amortization expenses are generally fixed costs but slightly increased during this period in connection with our purchase of new equipment to support staffing increases.

Loan Origination and Gain on Sale of Loans, Net

Gain on sale of loans increased by $147.4 million or 32.4% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018 due to a $4.8 billion or 29.3% increase in loan sales for the year ended December 31, 2019 compared to that for the year ended December 31, 2018.

The fair value of our originated MSRs increased by $16.9 million or 13.6% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. This increase was caused by an increase in our origination volume; however, this increase in origination volume was slightly offset by an increase in the percentage of our loans sold for which we did not continue to act as the servicer (i.e., on a "service released" basis). During the year ended December 31, 2019, we released 34% of our origination volume compared to 27% of our origination volume for the year ended December 31, 2018.

Adjustments to the recorded fair value of our MLHS and IRLCs, net of any related changes in the recorded fair value of our forward delivery commitments, resulted in a gain of $19.5 million for the year ended December 31, 2019 compared to a loss of $12.7 million for the year ended December 31, 2018. This gain resulted from decreased interest rates and increased origination volume. Additionally, in response to our increased origination volume, our origination fee income increased by $11.3 million or 19.9% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018.

Our provision for investor reserves increased by $3.7 million or 57.3% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. This increase resulted from our increased origination volume, as well as an increase in the borrower prepayment fees paid to investors.

(3) Represents loans sold for which we do not continue to act as the servicer of the loan.
(4) Represents the percentage of UPB that will pay off ahead of time in each period, calculated as an annual rate.
(5) Represents a metric used to determine the relative value of our MSRs in relation to our annualized retained servicing fee. It is calculated by dividing (a) the fair market value of our MSRs as of a specified date by (b) the weighted average annualized retained servicing fee for our servicing portfolio as of such date. We exclude purchased MSRs from this calculation because our servicing portfolio consists primarily of originated MSRs and, consequently, purchased MSRs do not have a material impact on our weighted average service fee.

Total loan servicing and other fees increased $19.0 million or 15.4% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018, which is consistent with our average MSR growth of 12.8% for the year ended December 31, 2019.

Valuation Adjustment of Mortgage Servicing Rights

The fair value of our MSRs generally declines as interest rates decline and prepayments increase. According to the MBA Mortgage Finance Forecast, average 30-year mortgage rates declined by 110 basis points during the year ended December 31, 2019. Additionally, our 60-plus day delinquency rate on our servicing portfolio increased to 1.6% as of December 31, 2019 from 1.4% as of December 31, 2018. Both of these factors resulted in a reduction in the fair value of our MSRs.

Interest Income

Interest income increased by $15.1 million or 34.6% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. This is comparable to our origination volume increase of 32.3% for the comparative period.

Most of this increase was due to increased payoff volume. Our loan prepayments increased by $5.7 billion or 153% for the year ended December 31, 2019 compared to the year ended December 31, 2018.

This increase in commission expense resulted from an increase in our loan origination volume of 32.3% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018.

Although our loan origination volume increased for the year ended December 31, 2019 compared to that for the year ended December 31, 2018, our salaries expense decreased by $10.8 million or 4.9% because of a reduction in staff for the year ended December 31, 2019 compared to that for the year ended December 31, 2018.

Benefits expense decreased by $3.9 million or 5.9% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. This decrease resulted from a decrease in our group insurance expense for salaried employees arising from the decreased staffing referenced above.

Occupancy costs increased by $1.3 million or 4.0% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. Occupancy costs generally consist of fixed costs and remain consistent except for the typical increase in building rental expense each year, which is usually aligned with inflation, and except for any increases associated with new acquisitions, expansion into new territories and entry into new material building leases. The increase in our occupancy costs for the year ended December 31, 2019 compared to that for the year ended December 31, 2018 was related to our addition of twelve branch offices in connection with an acquisition during the period.

General and Administrative

General and administrative expense increased by $13.0 million or 25.5% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. A breakdown of general and administrative expense is provided below.

Professional fees increased by 17.1% or $3.4 million for the for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. Office supplies, travel and entertainment expense decreased by $1.8 million or 14.8% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. Summary Results by Segment for the Six Months ended June 30, 2020 and 2019 and the Years Ended December 31, 2019 and 2018

Our operations are comprised of two distinct but related reportable segments that we refer to as our origination and servicing segments. We operate our origination segment from approximately 200 office locations. Our licensed sales professionals and support staff cultivate deep relationships with our referral partners and clients and provide a customized approach to the loan transaction, whether it is a purchase or a refinance. Although our origination and servicing segments are separated for this presentation, management sees the two segments as intricately related and interdependent. We believe that our servicing segment provides a steady stream of revenue to support our origination segment and that, more importantly, our servicing segment positions us to build longstanding client relationships that drive repeat and referral business back to the origination segment to recapture our clients' future mortgage transactions. In particular, the growth of our servicing segment is dependent on the continued growth of our origination volume because our servicing portfolio consists primarily of originated MSRs.

We measure the performance of our segments primarily based on their net income (loss) and cost to produce. See below for an overview and discussion of each of our segments' results for the six months ended June 30, 2020 and June 30, 2019 and the years ended December 31, 2019 and December 31, 2018. These results do not include unallocated corporate costs.

The origination segment's net income increased by $269.0 million or 498.4% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This change was primarily driven by increased revenue earned from loan origination fees and gain on sale of loans, net of $405.0 million or 124.4% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. According to the MBA Mortgage Finance Forecast, average 30-year mortgage rates declined approximately 80 basis points from June 30, 2019 to June 30, 2020, which led to an increase in refinance activity. Refinance activity represented 59% of the origination volume in the U.S. mortgage market during the six months ended June 30, 2020 compared to 29% of the origination volume in the U.S. mortgage market during the six months ended June 30, 2019, according to Inside Mortgage Finance. The majority of this increase related to a $17.0 million increase in the adjustment to the fair value of the contingent liabilities related to our completed acquisitions.

Years ended December 31, 2019 and 2018

The origination segment's net income increased by $125.0 million or 221.8% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. According to the MBA

Mortgage Finance Forecast, average 30-year mortgage rates declined approximately 110 basis points during the year ended December 31, 2019, which led to an increase in refinance activity. Six months ended June 30, 2020 and 2019

Our loan servicing segment's net loss increased by $43.7 million or 41.9% for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. This change was primarily driven by $204.8 million in adjustments to the fair value of our MSRs during the six months ended June 30, 2020 compared to $160.2 million in adjustments to the fair value of our MSRs during the six months ended June 30, 2019. The fair value of our MSRs generally declines as interest rates decline and as prepayments increase. According to the MBA Mortgage Finance Forecast, average 30-year mortgage rates declined by 50 basis points during the six months ended June 30, 2020. Additionally, due to the COVID-19 pandemic,

our 60-plus day delinquency rate on our servicing portfolio increased to 3.5% as of June 30, 2020 from 1.2% as of June 30, 2019. Both of these factors resulted in a reduction in the fair value of our MSRs. Our income from loan servicing and other fees increased by 11.5% for the six months ended June 30, 2020 compared to the six months ended June 30, 2019, which was consistent with our average servicing portfolio growth of 9.8% for the six months ended June 30, 2020 compared to the six months ended June 30, 2019.

Years ended December 31, 2019 and 2018

Our servicing segment incurred a net loss of $138.5 million for the year ended December 31, 2019 compared to net income of $77.8 million for the year ended December 31, 2018. This change was primarily driven by $255.2 million in adjustments to the fair value of our MSRs during the year ended December 31, 2019 compared to $17.1 million in adjustments to the fair value of our MSRs during the year ended December 31, 2018. The fair value of our MSRs generally declines as interest rates decline and as prepayments increase. According to the MBA Mortgage Finance Forecast, average 30-year mortgage rates declined by 110 basis points during the year ended December 31, 2019. Additionally, our 60-plus day delinquency rate on our servicing portfolio increased to 1.6% as of December 31, 2019 from 1.4% as of December 31, 2018. Both of these factors resulted in a reduction in the fair value of our MSRs . Our income from loan servicing and other fees increased by $19.0 million or 15.4% for the year ended December 31, 2019 compared to that for the year ended December 31, 2018, which was consistent with our average servicing portfolio growth during this period.

Liquidity, Capital Resources and Cash Flows

Historically, our primary sources of liquidity have included:

- cash flows from our operations, including:
  - sale of whole loans into the secondary market;
  - loan origination fees;
  - servicing fee income; and
  - interest income on MLHS;
- borrowings on warehouse lines of credit to originate mortgage loans; and
- borrowings on our MSR notes payable.

Historically, our primary uses of funds have included:

- cash flows from our operations, including but not limited to:
  - origination of MLHS;
  - payment of interest expense; and
  - payment of expenses;
- repayments on warehouse lines of credit;
- distributions to shareholders; and
- acquisitions of other mortgage businesses.

We are also subject to contingencies which may have a significant effect on the use of our cash.

In order to originate and aggregate loans for sale into the secondary market, we use our own working capital and borrow or obtain money on a short-term basis, primarily through committed and uncommitted loan funding facilities that we have established with large global banks.

Our loan funding facilities are primarily in the form of master repurchase agreements, which we refer to as “warehouse lines of credit.” Loans financed under these facilities are generally financed at

approximately 97% to 98% of the principal balance of the loan (although certain types of loans are financed at lower percentages of the principal balance of the loan), which requires us to fund the balance from cash generated from our operations. Once closed, the underlying residential mortgage loan that is held for sale is pledged as collateral for the borrowing or advance that was made under these loan funding facilities. In most cases, the loans will remain in one of the loan funding facilities for only a short time, generally less than one month, until the loans are pooled and sold. During the time the loans are held for sale, we earn interest income from the borrower on the underlying mortgage loan. This income is partially offset by the interest and fees we must pay under the loan funding facilities.

When we sell a pool of loans in the secondary market, the proceeds received from the sale of the loans are used to pay back the amounts we owe on the loan funding facilities. We rely on the cash generated from the sale of loans to fund future loans and repay borrowings under our loan funding facilities. Delays or failures to sell loans in the secondary market could have an adverse effect on our liquidity position.

As discussed in *Note 9, Warehouse Lines of Credit* to the condensed consolidated financial statements included elsewhere in this prospectus, as of June 30, 2020, we had seven different loan funding facilities in different amounts and with various maturities. As of the date of this prospectus, the aggregate available amount under our loan facilities was approximately $2.9 billion, with combined outstanding balances as of August 31, 2020 of approximately $1.9 billion.

As discussed in *Note 10, Notes Payable* to the condensed consolidated financial statements included elsewhere in this prospectus, as of June 30, 2020, we had three different MSR notes payable in different amounts with different maturities. As of August 31, 2020, the aggregate available amount under our MSR notes payable was $415.0 million, with combined outstanding balances of $186.0 million and unutilized capacity of $229.0 million. The borrowing capacity under our MSR notes payable is restricted by the valuation of our servicing portfolio. We aim to operate with advance rates on our MSR notes payable of approximately 35% over the long-term.

The amount of financing advanced on each individual loan under our loan funding facilities is determined by agreed upon advance rates but may be less than the stated rate due to fluctuations in the market value of the mortgage loans securing the financings. If the lenders providing the funds under our loan funding facilities determine that the value of the loans serving as collateral for our borrowings under those facilities has decreased, they can initiate a margin call to require us to provide additional collateral or reduce the amount outstanding with respect to those loans. Our inability or unwillingness to satisfy such a request could result in the termination of the related facilities and a potential default under our other loan funding facilities. In addition, a large unanticipated margin call could have a material adverse effect on our liquidity.

The amount owed and outstanding under our loan funding facilities fluctuates significantly based on our origination volume, the amount of time it takes us to sell the loans we originate and the amount of loans we are self-funding with cash. We may from time to time post surplus cash as additional collateral to buy-down the effective interest rates of certain loan funding facilities or to self-fund a portion of our loan originations. As of June 30, 2020, we had posted $132.0 million in cash as additional collateral. We have the ability to draw back this additional collateral at any time, unless a margin call has been made or a default has occurred under the relevant facilities.

We also have an early buyout facility that allows us to purchase certain delinquent GNMA loans that we service and finance them on the facility until the loan is cured or subsequently sold. The capacity of this uncommitted facility is $75.0 million and, at June 30, 2020, the outstanding balance on the facility was $34.1 million.

Our loan funding facilities and MSR notes payable generally require us to comply with certain operating and financial covenants and the availability of funds under these facilities are subject to, among other conditions, our continued compliance with these covenants. These financial covenants include, but are not limited to, maintaining a certain (i) minimum tangible net worth, (ii) minimum liquidity and (iii) a maximum ratio of total liabilities or total debt to tangible net worth and satisfying certain pre-tax net income

requirements. A breach of these covenants could result in an event of default under our funding facilities, which would allow the related lenders to pursue certain remedies. In addition, each of these facilities includes cross default or cross acceleration provisions that could result in all of our funding facilities terminating if an event of default or acceleration of maturity occurs under any one of them. We believe we were in compliance with all of these covenants as of June 30, 2020, December 31, 2019 and December 31, 2018.

Our debt obligations are summarized below by facility as of June 30, 2020:

Facility ($ in thousands)	Outstanding Indebtedness	Total Facility Size[1]	Maturity Date[1]

	$ 40,000	$ 65,000	July 15, 2021

(1) Total facility size and maturity date include contractual changes through the date of this prospectus.

(2) Amounts drawn on the MSR notes payable with this lender reduce the facility size available under the warehouse line of credit with this lender by an equal and offsetting amount.

(3) Each buyout transaction carries a maximum term of four years from the date of repurchase.

(4) Facility provides for committed amount of $100.0 million, which can be increased up to $150.0 million.

(5) Facility provides for committed amount of $135.0 million, which can be increased up to $200.0 million.

The investors to whom we sell mortgage loans we originate in the secondary market require us to abide by certain operating and financial covenants. These covenants include maintaining (i) a certain minimum net worth, (ii) a certain minimum liquidity, (iii) a certain minimum of total liquid assets, (iv) a certain maximum ratio of adjusted net worth to total assets and (v) fidelity bond and mortgage servicing errors and omissions coverage. A breach of these covenants could result in an event of default and could disallow us to continue selling mortgage loans to one or all of these investors in the secondary market which, in turn, could have a significant impact on our liquidity and results of operations. We believe we were in compliance with all of these covenants as of June 30, 2020, December 31, 2019 and December 31, 2018.

When we sell loans in the secondary market, we have the option to sell them service released or service retained. The decision whether to sell a loan that we originated service released or service retained is based on factors such as execution and price, liquidity needs and the desire to retain the related client relationship. When we sell a loan service retained, we continue to act as the servicer for the life of the loan. We rely on income from loan servicing and other fees over the life of the loan to generate cash. Certain investors have different rules for the servicer to follow should a loan go into default. As the servicer, we may

be legally obligated to make cash payments to the investor who purchased the loan, should the borrower discontinue making payments on the loan. This could have a negative impact to our cash and liquidity, however, we may be able to use other borrower prepayments to cover delinquencies. Should delinquencies significantly increase, or prepayments significantly decrease, we could be forced to use our own cash or borrow on other types of financing in order to make the required monthly payments to the investors who have purchased loans from us. We may also be contractually required to repurchase or indemnify loans with origination defects. See "*—Contractual Obligations"* for further details regarding repurchases and indemnifications.

Cash Flows

Our cash flows for the six months ended June 30, 2020 and June 30, 2019 and the years ended December 31, 2019 and December 31, 2018 are summarized below.

Net increase (decrease) in cash, cash equivalents and restricted cash	$ 41,727	$ 14,313	$ 43,980	$ (10,167)

Operating activities

Our cash flows from operating activities are primarily influenced by changes in the levels of inventory of loans held for sale, as shown below.

	Six Months Ended June 30,		Years Ended December 31,	
($ in thousands)	**2020**	**2019**	**2019**	**2018**
Loans held for sale	$ (433,767)	$ (358,340)	$ (533,610)	$ (12,583)
Other operating sources	149,989	57,289	108,903	(19,182)
Net cash used in operating activities	$ (283,778)	$ (301,051)	$ (424,707)	$ (31,765)

Cash used in operating activities decreased for the six months ended June 30, 2020 compared to that for the six months ended June 30, 2019. The increase in cash used for loans held for sale was partially offset by cash provided by other operating sources, which was primarily driven by increases in net income from operations for the six months ended June 30, 2020 compared to a net loss from operations for the six months ended June 30, 2019.

Cash used in operating activities increased for the year ended December 31, 2019 compared to that for the year ended December 31, 2018. The increase in cash used for loans held for sale was partially offset by cash provided by other operating sources, which was primarily due to an increase in the projected duration of the cash flows to be earned with respect to our MSRs.

Investing activities

Our investing activities primarily consist of purchases of property and equipment and acquisitions. Cash used in investing activities for the six months ended June 30, 2020 decreased compared to that for the six months ended June 30, 2019, which was primarily due to certain payments made to the Company's parent entity. Cash used in investing activities for the year ended December 31, 2019 decreased compared to that for the year ended December 31, 2018, which was primarily due to decreased acquisition expense.

Financing activities

Our cash flows from financing activities are primarily influenced by changes in the levels of warehouse lines of credit used to fund loan originations.

	Six Months Ended June 30,		Years Ended December 31,	
	2020	2019	2019	2018
($ in thousands)				
Warehouse lines of credit	$ 386,104	$ 338,052	$ 463,453	$ 3,740
Other financing sources	(44,950)	(20,350)	18,722	43,496
Net cash used in financing activities	$ 341,154	$ 317,702	$ 482,175	$ 47,236

Cash used in other financing sources for the six months ended June 30, 2020 increased compared to that for the six months ended June 30, 2019. This increase in cash flows used in other financing sources was primarily driven by the increase in net repayments on our MSR notes payable from $7.0 million during the six months ended June 30, 2019 to $30.0 million during the six months ended June 30, 2020. Cash provided by other financing sources for the year ended December 31, 2019 decreased from the year ended December 31, 2018. This decrease in cash flows provided by other financing sources was primarily driven by the increase in repayments on our MSR notes payable from $5.0 million during the year ended December 31, 2018 to $29.3 million during the year ended December 31, 2019.

June 30, 2020 and December 31, 2019

Total assets increased by $1.1 billion from $2.6 billion as of December 31, 2019 to $3.7 billion as of June 30, 2020. This increase was primarily due to the increase in MLHS of $0.5 billion and the increase in GNMA loans for which we have repurchase rights of $0.5 billion. The increase in MLHS was the result of an

increase in our origination volume during the second half of the month of June 2020 compared to that during the second half of the month of June 2019. The increase in our inventory of loans for which we have repurchase rights resulted from increased delinquency on loans in forbearance under the CARES Act. As of June 30, 2020, approximately $0.6 billion of our inventory of loans for which we have repurchase rights was related to loans in forbearance under the CARES Act.

Total liabilities increased by $1.0 billion from $2.2 billion as of December 31, 2019 to $3.2 billion as of June 30, 2020. This increase was primarily due to a $0.4 billion increase in the balances under our warehouse lines of credit and a $0.5 billion increase in GNMA loans for which we have repurchase rights. The increase in the balances under our warehouse lines of credit resulted from the increase in our origination volume during the second half of the month of June 2020 compared to that during the second half of the month of June 2019.

December 31, 2019 and December 31, 2018

Total assets increased $0.6 billion from $2.0 billion as of December 31, 2018 to $2.6 billion as of December 31, 2019. This increase was primarily due to the increase in MLHS of $0.5 billion. The increase in MLHS resulted from the increase in our origination volume during the month ended December 31, 2019 of $1.7 billion compared to the origination volume for the month ended December 31, 2018 of $1.1 billion.

Total liabilities increased by $0.6 billion from $1.6 billion as of December 31, 2018 to $2.2 billion as of December 31, 2019. This increase was primarily due to a $0.4 billion increase in the balances under our warehouse lines of credit. The increase in the balances under our warehouse lines of credit resulted from the increase in our origination volume during the month ended December 31, 2019 of $1.7 billion compared to origination volume for the month ended December 31, 2018 of $1.1 billion.

Contractual Obligations

Our contractual obligations primarily consist of non-cancellable leases of real property for our branch offices across the country and our MSR notes payable. Payment obligations under these agreements are summarized below:

Repurchase and indemnification obligations

In the ordinary course of business, we are exposed to liability with respect to certain representations and warranties that we make to the investors who purchase the loans that we originate. Under certain circumstances, we may be required to repurchase mortgage loans, or indemnify the purchaser of such loans for losses incurred, if there has been a breach of these representations and warranties, or in the case of early payment defaults. In addition, in the event of an early payment default, we are contractually obligated to refund certain premiums paid to us by the investors who purchased the related loan. See *Note 15, Commitments and Contingencies* to the consolidated financial statements included elsewhere in this prospectus.

Interest rate lock commitments, loan sale and forward commitments

We enter into IRLCs with clients who have applied for residential mortgage loans and who meet certain credit and underwriting criteria. These commitments expose us to market risk if interest rates

change during the period of time in which the loan is not economically hedged or committed to be sold to an investor. We are also exposed to credit loss if a loan for which we entered into an IRLC is originated and is not sold to an investor and the related client does not perform. The collateral upon extension of credit typically consists of a first deed of trust in the mortgagor's residential property. Commitments to originate loans do not necessarily reflect future cash requirements as some commitments are expected to expire without being drawn upon. Total commitments to originate loans, adjusted for pull-through, were approximately $4.3 billion, $1.8 billion, $1.2 billion and $0.6 billion, as of June 30, 2020, June 30, 2019, December 31, 2019 and December 31, 2018, respectively.

Quantitative and Qualitative Disclosure about Market Risk

Interest Rate and Prepayment Risk

As a mortgage lender, we are subject to risks associated with fluctuations in interest rates that occur due to various economic factors, such as government monetary and housing policy, real estate values, global events such as the recent COVID-19 pandemic and other market dynamics. Changes to interest rates can adversely affect our origination and servicing segments. In a rising interest rate environment, the fair value of our MSRs typically increases as the projected duration of the cash flows earned from the associated income from loan servicing and other fees extends. However, at the same time, our origination volumes may decline in response to a rising interest rate environment, resulting in a decrease to the revenue we earn from loan origination fees and gain on sale of loans, net, due to decreased origination volume and market price compression. Conversely, in a declining interest rate environment, the fair value of our MSRs typically decreases due to the likelihood that the loan will be prepaid earlier than previously expected, resulting in a shorter projected duration for those cash flows. However, at the same time, our origination volume typically increases in response to a declining interest rate environment and margins on the revenue we earn from gain on sale of loans widen, resulting in additional profits from our origination segment. We believe that maintaining a balance between the origination and servicing segments allows us to partially mitigate exposure to both increases and decreases in interest rates.

We also have exposure to interest rate risk related to the IRLCs we enter into with our clients and the loans that we temporarily hold for sale to secondary market participants. We actively engage in risk management policies to mitigate these risks. We operate under stringent hedging policies designed to mitigate the effects of any fluctuations in interest rates on our financial position related to IRLCs and MLHS. We hedge our IRLCs and MLHS with forward to be announced trades ("TBA trades").

Credit Risk

We define credit risk as the risk of loss or default by a borrower. Generally, the investors who purchase the loans that we originate assume this risk. However, we do make certain standard representations and warranties related to our underwriting of the borrower's credit, the underlying collateral and other loan documentation based on our investors' eligibility criteria, and we are subject to repurchase and indemnification requirements with respect to eligibility violations and early payment defaults.

We estimate liabilities for probable losses related to these repurchase and indemnification obligations. We record a liability based on a loan-level analysis that considers the current collateral value, estimated sale proceeds and selling costs. In addition, we record liabilities related to probable future obligations based on recent and historical repurchase experience, and our success rate in appealing repurchase requests.

Counterparty and Concentration Risk

We are reliant on our warehouse lines of credit and other financing facilities to finance our operations. If these financing arrangements are not renewed, it could have a significant impact on our ability to fund loans for our clients. We seek to manage this exposure by maintaining multiple warehouse lines of credit

with reputable financial institutions and by maintaining excess capacity on all of our facilities. Similarly, we mitigate concentration risk with respect to the trading partners with whom we execute TBA trades by maintaining multiple trade lines with various counterparties.

Fair Value Risk

We record the value of our MSRs, IRLCs, MLHS, the contingent liabilities related to our completed acquisitions and our inventory of loans for which we have repurchase rights at fair value. We remeasure the fair value of these assets and liabilities on a monthly or quarterly basis by evaluating certain observable information, which may include current market pricing, recent trade activity and industry data.

- MSRs — To determine the fair value of our MSRs when they are created, we use a valuation model that calculates the present value of the future cash flows related to them. Our MSR valuation model incorporates assumptions that market participants would use in estimating future net servicing income, including estimates of contractual service fees, ancillary income and late fees, the cost of servicing, the discount rate, float value, the inflation rate, estimated prepayment speeds and default rates. A third party conducts a monthly valuation of our MSRs, and we record any changes to the fair value of our MSRs that result from changes in valuation model inputs or assumptions and collections of servicing cash flows in accordance with such third-party analysis and GAAP. Changes in economic and other relevant conditions could cause the assumptions used in valuing our MSRs, such as those with respect to prepayment speeds, to be incorrect, and such changes could result in fluctuations in the recorded value of our MSRs.
- IRLCs — We determine the fair value of our IRLCs based upon the estimated fair value of the underlying mortgage loan, including the expected net future cash flows related to servicing that mortgage loan, net of estimated incentive compensation, and adjusted for: (i) estimated costs to complete and originate the loan and (ii) an adjustment to reflect the estimated percentage of IRLCs that will result in a closed mortgage loan under the original terms of the agreement (the "pull-through rate"). We estimate the pull-through rate based on changes in pricing and actual borrower behavior using a historical analysis of loan closing data and "fallout" data with respect to the number of commitments that have historically remained unexercised.
- MLHS — We determine the fair value of our MLHS based on either: (i) the fair value of securities backed by similar mortgage loans, adjusted for certain other factors, including credit risk and the value attributable to the related servicing rights, (ii) our investors' current commitments to purchase loans from us or (iii) recent observable market trades for similar loans, adjusted for credit risk and other individual loan characteristics.
- Forward delivery commitments — We determine the fair value of our forward delivery commitments is based upon the current agency mortgage-backed security market TBA pricing specific to the related loan program, delivery coupon and delivery date of the trade. We also enter into best efforts sales commitments for certain loans at the time the borrower commitment is made. These best efforts sales commitments are valued by comparing the committed price to the counterparty against the current market price of the IRLC or MLHS.
- Contingent liability related to acquisitions — Upon completion of an acquisition, we recognize the estimated fair value of any related earn-out payments. We estimate the fair value of contingent liabilities related to completed acquisitions using a discounted cash flow analysis. Our valuation of these liabilities fluctuates in response to changes to the inputs for that analysis, such as market conditions.
- GNMA loans subject to repurchase right — Under ASC 860, until the related delinquency conditions are satisfied, our options to repurchase certain delinquent GNMA loans are treated as conditional options, for which we do not record a related asset. After the related delinquency criteria are met, an option is then considered to be unconditional and we record a related asset at a fair value equal to the remaining UPB on the related loan.

Critical Accounting Policies

The preparation of our financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Certain of these estimates significantly influence the portrayal of our financial condition and results, and they require us to make difficult, subjective or complex judgments. Although we believe that the judgments, estimates and assumptions used in the preparation of our consolidated financial statements were appropriate given the circumstances at the time they were made, actual results could materially differ from those estimates. Our critical accounting policies primarily relate to our fair value estimates. See *Note 2, Fair Value of Financial Instruments* to the consolidated financial statements included elsewhere in this prospectus. Below is a summary of our assets recorded at fair value compared to our total assets and stockholder's equity as of December 31, 2019 and 2018.

Total stockholder's equity	$ 506,812			$ 406,031			$ 440,941		

As shown above, our consolidated balance sheet is substantially comprised of assets and liabilities that are measured at or based on their fair values. As of June 30, 2020, 66% of our total assets were carried at fair value and 13% of these assets were "Level Three" assets for which fair value is not readily observable and reflects the application of our subjective judgment. As of December 31, 2019, 75% of our total assets were carried at fair value compared to 73% as of December 31, 2018. In addition, 17% of our total assets as of December 31, 2019 and 26% of our total assets as of December 31, 2018 were "Level Three" assets. Changes in the inputs used to measure the fair value of these assets can have significant effects on their reported balances.

As a result of the difficulty in observing certain significant inputs affecting our fair value assets and liabilities, we are required to make subjective judgments regarding the fair values of these items. Different persons in possession of the same facts may reasonably arrive at different conclusions as to the inputs used in valuing these assets and liabilities and their fair values. Such differences may result in significantly different fair value measurements. Likewise, due to the general illiquidity of some of these assets, subsequent transactions with respect to them may be at values significantly different from those we record.

Due to the difficulty and complexity in measuring certain of our fair value assets and liabilities, we engage third parties to assist management in determining their values. We have also established controls in which management reviews and discusses these valuations with our accounting department and any third parties that we have engaged for this purpose to ensure accuracy over financial reporting. We re-measure the fair value of these assets and liabilities on a monthly or quarterly basis by evaluating certain observable information, which may include current market pricing, recent trade activity, and industry data.

Mortgage Loans Held for Sale

MLHS are classified within "Level Two" of the valuation hierarchy because we determine their fair value based on secondary market pricing for loans with similar characteristics. We determine the fair value of our MLHS based on either: (i) the fair value of securities backed by similar mortgage loans, adjusted for certain other factors, including credit risk and the value attributable to the related servicing rights, (ii) our investors' current commitments to purchase loans or (iii) recent observable market trades for similar loans, adjusted for credit risk and other individual loan characteristics.

Mortgage Servicing Rights

MSRs are classified within Level Three of the valuation hierarchy because we determine their fair value based on unobservable inputs and because there is no active market for MSRs. To determine the fair value of our MSRs when they are created, we use a valuation model that calculates the present value of the future cash flows related to them. Our MSR valuation model incorporates assumptions that market participants would use in estimating future net servicing income, including estimates of contractual service fees, ancillary income and late fees, the cost of servicing, the discount rate, float value, the inflation rate, estimated prepayment speeds and default rates. A third party conducts a monthly valuation of our MSRs, and we record any changes to the fair value of our MSRs that result from changes in valuation model inputs or assumptions and collections of servicing cash flows in accordance with such third-party analysis and GAAP. Changes in economic and other relevant conditions could cause the assumptions used in valuing our MSRs, such as those with respect to prepayment speeds, to be incorrect and such changes could result in fluctuations in the recorded value of our MSRs.

Derivative Instruments

IRLCs are classified within Level Three of the valuation hierarchy because we determine their value based upon unobservable inputs and because there is no active market for IRLCs. We determine the fair value of our IRLCs based upon the estimated fair value of the underlying mortgage loan, including the expected net future cash flows related to servicing that mortgage loan, net of estimated incentive compensation, and adjusted for: (i) estimated costs to complete and originate the loan and (ii) an adjustment to reflect the estimated percentage of IRLCs that will result in a closed mortgage loan under the original terms of the agreement (the "pull-through rate"). We estimate the pull-through rate based on changes in pricing and actual borrower behavior using a historical analysis of loan closing data and "fallout" data with respect to the number of commitments that have historically remained unexercised.

Forward delivery commitments

Forward delivery commitments are classified within Level Two of the valuation hierarchy. We determine the fair value of our forward delivery commitments based upon the current agency mortgage-

backed security market TBA pricing specific to the related loan program, delivery coupon and delivery date of the trade. We also enter into best efforts sales commitments for certain loans at the time the borrower commitment is made. These best efforts sales commitments are valued by comparing the committed price to the counterparty against the current market price of the IRLC or MLHS.

Accounting Developments

Effective January 1, 2019, the Company adopted ASU 2014-09 Revenue from Contracts with Customers (Topic 606) using the modified retrospective approach. Adopting this standard did not have a material impact to our consolidated financial statements and related disclosures, and therefore there was no material cumulative effect of initial application reflected in the opening balance of retained earnings.

Refer to *Note 1 – Business, Basis of Presentation, and Accounting Policies* to the consolidated financial statements included elsewhere in this prospectus for a discussion of ASC 606 and other recent accounting developments and their expected effects on Guild.

BUSINESS

Company Overview

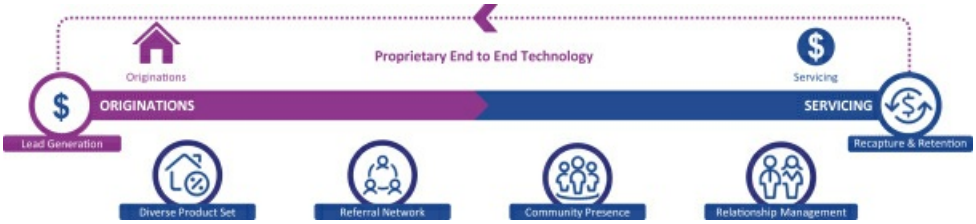
We are a growth-oriented mortgage company that employs a relationship-based loan sourcing strategy to execute on our mission of delivering the promise of home ownership in neighborhoods and communities across the United States. Our business model is centered on providing a personalized mortgage-borrowing experience that is delivered by our knowledgeable loan officers and supported by our diverse product offerings. Throughout these individualized interactions, we work to earn our clients' trust and confidence as a financial partner that can help them find their way through life's changes and build for the future.

We believe our business would be difficult to replicate. Guild was established in 1960 and we are among the longest-operating seller-servicers in the United States. Over the course of our operating history, we have navigated numerous economic cycles and market dislocations. We have also expanded our retail origination footprint to 31 states within the United States, and we have developed end-to-end technology systems, a reputable brand, industry expertise and many durable relationships with our clients and members of our referral network.

We have adapted to changes in market conditions by remaining dedicated to what matters most to our business: building relationships with our clients and referral partners in an effort to create "clients for life." We have made it a priority to extend the lifecycle of our client relationships with a persistent focus on the client experience to drive our long-term performance. As a result of our client-focused strategy, during the twelve months ended June 30, 2020, we had an overall recapture rate of 61%. Recapture rate is calculated as the total UPB of our clients that originated a new mortgage with us in a given period, divided by the total UPB of our clients that paid off their existing mortgage and originated a new mortgage in the same period. This calculation excludes clients to whom we did not actively market due to contractual prohibitions or other business reasons.

Our business model benefits from the complementary relationship between our origination and servicing segments which, together, have propelled our performance through interest rate and market cycles.

Our Business Model



- Our origination strategy focuses on increasing purchase-mortgage business and providing a superior personalized mortgage-borrowing experience that encourages our clients to return to us. This strategy allows us to generate consistent origination volume through differing market environments, contributes to our servicing segment and facilitates business from repeat clients.
- Our in-house servicing platform creates opportunities to extend our relationship with clients and generate refinance and purchase volume that replenishes run-off from our servicing portfolio. In coordination with our portfolio recapture team, our loan officers handle recapture activity for their existing client base directly, rather than outsourcing that function through a call center. This approach creates a continuous client relationship that we believe encourages repeat business. In addition, our scalable servicing platform provides a recurring stream of revenue that is complementary to our origination business.

In 2007, seeing an opportunity to expand the Company's sales and production strategy and grow its market share, a management-led partnership that included a majority investment from McCarthy Capital acquired the Company from its founder. Our senior leadership team continues to own a meaningful percentage of our business. Upon completion of this offering, our senior leadership team will own approximately % of our Class A common stock (or %, if the underwriters exercise in full their option to purchase an additional shares of Class A common stock from the selling stockholders). As a result, we believe that the economic interests of senior leadership are substantially aligned with those of our stockholders.

Following the acquisition of the Company from its founder in 2007, we embarked on a growth strategy focused on prudently expanding our geographic footprint beyond the West Coast. Through steady organic growth and a series of targeted acquisitions, we grew our annual origination volume from $1.4 billion for the year ended December 31, 2007 to $27.8 billion for the twelve months ended June 30, 2020, and grew our servicing portfolio from $2.5 billion of UPB as of December 31, 2007 to $52.8 billion of UPB as of June 30, 2020. Unless otherwise indicated, the UPB of our servicing portfolio excludes any subserviced loans. Furthermore, we grew our share of the U.S. residential mortgage origination market from 7 basis points for the year ended December 31, 2007 to 94 basis points for the twelve months ended June 30, 2020, based on our origination data and market data from Inside Mortgage Finance. We expect to continue to expand our business in the geographic areas in which we already serve our clients, as well as in new markets throughout the United States.

(1) CAGR is equal to the compound annual growth rate of Guild's annual origination volume for the year ended December 31, 2007 through the twelve months ended June 30, 2020.

Our productivity today, and our ability to scale in the future, is made possible by our purpose-built technology platform that provides an end-to-end solution for prospecting, application gathering, underwriting, compliance, quality control, servicing and client retention. Most of our core systems have been developed in-house, using decades of expertise and feedback directly from our loan officers, and we continuously monitor and upgrade our platform to increase the effectiveness of our tools and interfaces.

Altogether, our technology platform is designed to improve productivity, efficiency and profitability and to create an individualized experience that earns repeat and referral business.

Our homegrown platform and integrated technology stack includes several key components:

Our experienced loan officers use this end-to-end technology platform and our custom-built client relationship management system, Guild 360, to find new clients, close new loans and enhance and expand existing client relationships. Guild 360 provides a comprehensive view of the client lifecycle, identifying lead generation opportunities in an effort to anticipate client needs for refinancings and new purchases. In addition to improving the productivity of our own employees, our technology has empowered the five businesses we acquired at least two years ago to increase origination volume by an average of 29% in the second year post-acquisition.

We recognize that the mortgage borrowing process is not one-size-fits-all. We understand that preferences with respect to how and when mortgage borrowers would like to interact with their lender are varied: sometimes, clients want to self-serve on the internet, while at other times, they prefer to speak in person or talk over the phone. For example, according to a 2019 survey of recent and prospective homebuyers conducted by PricewaterhouseCoopers, although digital interactions are more popular earlier on in the lending process, borrowers prefer in-person or over-the-phone interaction during later stages of the borrowing process. Our business model provides clients with both a comprehensive digital interface and an experienced team that delivers high-tech, high-touch client service, allowing clients to engage with us in whatever format and frequency provides them the most comfort and convenience.

Our business has generated a profit each year since 2008, and our net income has grown substantially over this time period. For the six months ended June 30, 2020, our total net revenue was $604.3 million, net income was $110.8 million, annualized return on equity was 48.5% and Adjusted Net Income was $238.2 million. For the same period, Adjusted EBITDA was $325.8 million and annualized Adjusted Return on Equity was 104.4%. For the fiscal year ended December 31, 2019, our total net revenue was $712.9 million, net income was $5.6 million, return on equity was 1.3%, Adjusted Net Income was $139.1 million, Adjusted EBITDA was $201.5 million and Adjusted Return on Equity was 32.8%. For information on how we

use these non-GAAP measures and a reconciliation of them to their most comparable GAAP measures, see "*Summary Historical Consolidated Financial and Other Data*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations—Non-GAAP Financial Measures*."

Our Business Segments and Credit Function

Origination Segment

Retail Channel

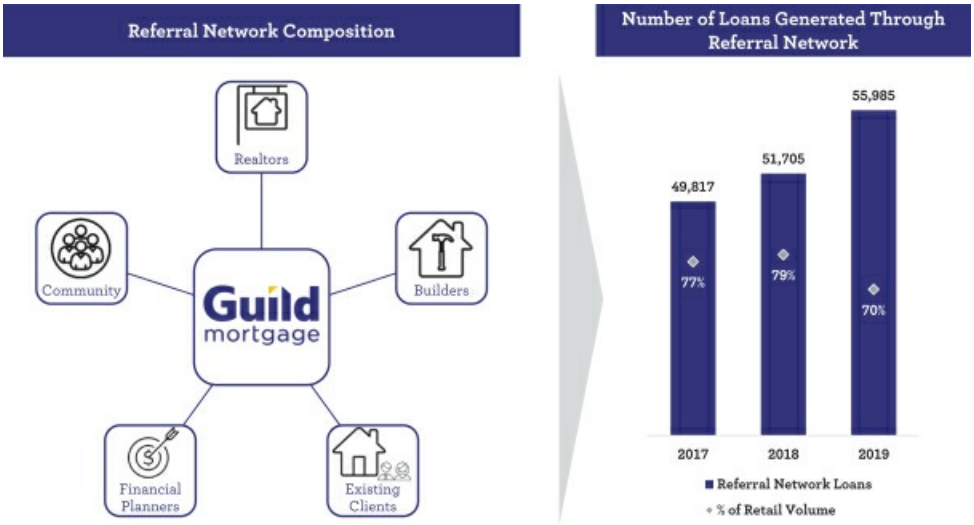
We have historically focused on growing the retail channel of our origination segment because we believe it has generally provided the highest margins of our business lines and, accordingly, an opportunity to drive strong returns for our stockholders. Since 2007, we have expanded our retail footprint significantly, growing retail originations from $916.2 million for the year ended December 31, 2007 to $26.9 billion for the twelve months ended June 30, 2020 and loan officer headcount from 266 as of December 31, 2007 to 983 as of June 30, 2020. As of June 30, 2020, our retail channel operated in 31 states with 2,974 full-time employees, including 983 loan officers.

MSA Growth and Number of Loan Officers
(as of period end)

Source: CoreLogic and Company information.

Our success in the retail market is tied to the expertise of our loan officers and the strength of our referral partner network. Our referral partner network has provided us with leads that generated 49,817, 51,705 and 55,985 loans in 2017, 2018 and 2019, respectively, representing 77%, 79% and 70%, respectively, of our retail volume by number of loans. Further, 42% of our refinance activity for the six months ended June 30, 2020 was generated from refinancing loans that were not originally in our portfolio. We have built our referral network through a track record of providing our clients with a personalized mortgage-borrowing experience that is delivered by a knowledgeable loan officer and supported by our diverse product offerings, as well as educating our clients and responding to their needs throughout the origination process. Guild and its loan officers build relationships and trust with our referral network partners through consistent and reliable execution. Our referral network relationships have been cultivated over years and are bolstered by our strong presence in the communities we serve. Further, our referral network relationships enhance our ability to generate repeat business and recapture volume.

Guild's Referral Network



Over the ten years beginning January 1, 2010 and ending December 31, 2019, we produced more consistent retail channel profitability than our peers, on average, according to data from the Mortgage Bankers Association and STRATMOR. Over the same period, our retail channel was profitable each year while generating average annual profitability of 114 basis points, compared to our peer group, as defined by the PGR/MBA large independent mortgage lenders peer set, which generated average annual profitability of 42 basis points (each calculated based on retail channel net income in basis points of annual origination volume).

(1) Retail channel net income in basis points of origination volume.

Our regional managers have autonomy to manage their regions based on their unique dynamics. Guild provides centralized support for certain operational and compliance functions, as well as servicing, but we believe our teams that are on the ground in the markets we serve are best equipped to run their businesses on a day-to-day basis. For example, regional managers are able to adjust local pricing to ensure competitiveness in their geographic areas. This combination of centralized support and a local, flexible execution strategy has helped Guild compete effectively within our local regions, yielding more in-depth coverage and penetration.

We believe our focus on the retail channel provides us with multiple benefits, including access to more consistent purchase volume as well as attractive gain-on-sale margins relative to other channels through which other lenders may choose to operate. Because we generate strong purchase volume, we are less susceptible to interest rate movements, and are able to generate more consistent gain-on-sale margins. We have chosen to operate our business with a capital light strategy, which is enabled by our focus on the retail channel.

Correspondent Channel

In addition to the retail channel of our origination segment, we maintain an active correspondent channel that sources loans primarily from small community banks and credit unions. Our correspondent channel consists of approximately 158 correspondent partners and accounted for approximately 4% of total origination volume production in each of the last three years ended December 31, 2019. We are able to offer a diverse product set through the correspondent channel, and similar to the retail channel, rely on our differentiated client service to generate origination volume. We began correspondent originations in 2011.

We also utilize our correspondent channel to support our growth efforts. As we work to expand into new geographies, the correspondent channel serves as an entry point to begin building our brand, reputation and customer base. We have successfully utilized this strategy in the past.

Servicing Segment

We are a licensed mortgage servicer in 48 states and Washington D.C. We have purposefully developed ourin-house servicing platform and have invested significant resources expanding and upgrading its technology and infrastructure over time. Through these expansions and upgrades, our servicing practices and our embedded compliance controls have improved over time.

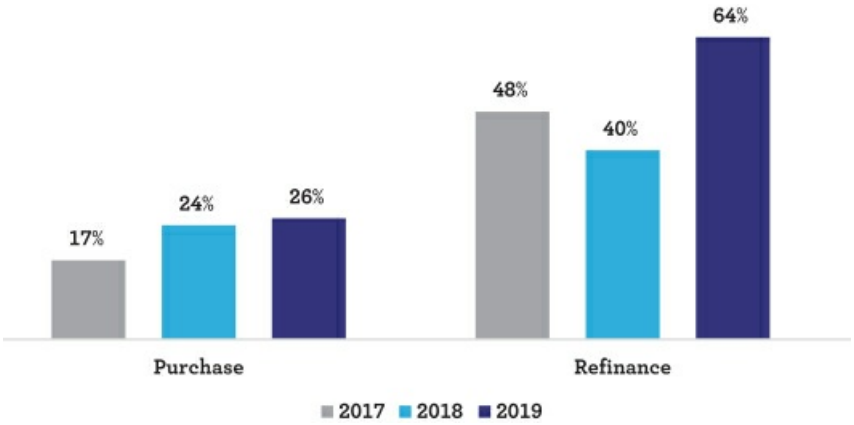
Servicing Portfolio Growth
(UPB as of period end)[1]

(1) Excludes subservicing portfolio of $1.1 billion as of June 30, 2020.

Our servicing segment is based out of our servicing center in San Diego, California and, as of June 30, 2020, consisted of approximately 216 employees. Loan servicing acts as the primary point of contact for borrowers post-closing. The segment aims to provide timely and accurate responses to borrower inquiries, consistent with Guild's service-oriented culture that supports lasting client relationships.

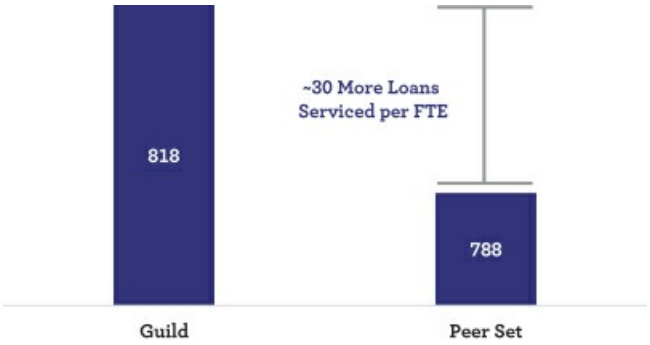
In addition, we leverage our technology platform and data repository to continuously screen our servicing portfolio in an effort to anticipate borrower actions and capitalize on recapture opportunities. When a refinance opportunity is identified, the portfolio recapture team sends that opportunity to the loan officer who originated the existing loan and maintains the client relationship. For select refinance opportunities, our consumer direct team will originate the opportunity directly. Focusing on this function and effective use of our data warehouse, we have improved our servicing segment's purchase recapture rate from 17% in 2017 to 26% in 2019 and refinance recapture rate from 48% in 2017 to 64% in 2019.

Servicing Segment Recapture Rates



Our in-house servicing platform is also highly scalable. Our homegrown technology platform fully integrates our servicing segment with our origination segment and underwriting group. To maintain quality and consistency, many of the servicing platform's functions are fully automated, such as on-boarding, escrow analysis and billing. In addition, we believe that the existing platform has sufficient excess capacity to support future growth. Through automation, scale and prudent management, we are able to service more loans per employee, and in 2019, we serviced 30 more loans per full-time employee than our peers participating in the Mortgage Bankers Association's 2020 Servicing Operations Study (2019 data), mid-size independent mortgage servicers and banks peer set, on average.

2019 Loans Serviced per Full-Time Employee



Source: Mortgage Bankers Association 2020 Servicing Operations Study (2019 data), mid-size independent mortgage servicers and banks peer set.

Further, our servicing segment's size enables us to generate attractive unit economics by spreading overhead and other fixed costs across our portfolio. For example, our cost to service per loan was approximately 42% lower than that of our peers participating in the Mortgage Bankers Association's 2020 Servicing Operations Study (2019 data), mid-size independent mortgage servicers and banks peer set, on average, and we believe future growth will incrementally benefit unit economics for our servicing segment.

Credit Function

Our loan products are underwritten using a disciplined approach that focuses on credit risk and responsible lending. The loan products we offer include loans eligible for sale or securitization to secondary market participants such as the GSEs, Ginnie Mae, state housing agencies and other private or institutional investors. The underwriting guidelines for these products are established by the entities that will purchase, insure or guaranty the loans (i.e., Fannie Mae, Freddie Mac, the United States Department of Housing and Urban Development ("HUD"), the VA, the USDA, private mortgage insurers and institutional and private investors).

Our credit function is designed to ensure the salability of the loans that we originate to secondary market investors, as well as to address other risks arising due to loan performance, natural disasters, fraud, prepay speeds and contractual obligations. Our underwriters have significant industry experience and are trained to make prudent underwriting decisions. Further, our technology platform is regularly updated to incorporate new investor guidelines as well as state and federal regulations. These controls are designed to ensure integrity over data and qualification requirements, facilitate the manufacturing of quality loan originations and minimize underwriting defects. In addition, Guild's quality control program monitors for adherence to investor requirements and our internal policies and procedures through data gathered during pre- and post-closing credit, collateral and compliance reviews.

Market Opportunity

We believe our proven growth strategy, deep referral network and personalized client service position us to capitalize on opportunities resulting from the following market conditions.

Large Addressable Market

Mortgage loans are the largest class of consumer debt in the United States. According to the New York Federal Reserve, there was approximately $10.2 trillion of residential mortgage debt outstanding as of June 30, 2020.

From 2007 through the year ended December 31, 2019, annual first-lien residential mortgage originations in the United States have averaged approximately $1.8 trillion and, over that period, conventional conforming or government mortgages accounted for approximately 82% of first-lien residential mortgage originations in the United States, according to Inside Mortgage Finance. Guild's product offerings include both conventional conforming and government-eligible loans, and such loans have constituted over 90% of our cumulative origination volume from 2007 through June 30, 2020.

Demographic Trends and Borrower Preferences Support our Focus on Mortgage Purchase Volume and First-Time Homebuyers

From 2007 through the year ended December 31, 2019, annual purchase-mortgage volume in the United States averaged $0.8 trillion and on average accounted for approximately 47% of annual first-lien residential mortgage volume, according to Inside Mortgage Finance.

Over the same period, first-time home buyers accounted for 46% of annual mortgage purchase volume, according to a March 2020 study published by the CFPB.

Over the next decade, according to Inside Mortgage Finance, approximately 45 million people will turn 34, the median age of a first-time home buyer, potentially generating increased demand for mortgage purchase loans. Our focus on purchase-mortgage business and personalized client service could position us to capitalize on this market opportunity, because younger generations of first-time and repeat homebuyers often choose to communicate with their lenders in-person.

According to a 2019 Ellie Mae study, 79% of Millennial and 78% of Generation X consumers reported meeting with their lender in person often or sometimes.

The Mortgage Industry is Highly Fragmented

According to Inside Mortgage Finance, since 2010, non-bank lenders have increased their share of annual first-lien residential mortgage originations from approximately 16% to more than 50%, and the aggregate share of loans originated by the top 10 originators fell from 73% to 42%, as the largest national banks reduced their presence in the mortgage sector. Further, the top five companies in the retail mortgage market comprised only 17.3% of total originations in 2019, according to Inside Mortgage Finance. This market fragmentation creates significant opportunity for us to continue to grow.

We believe that our employees' local presence in the communities that we serve and our long-standing referral networks position us to succeed in a large, fragmented market. We believe that many borrowers, and first-time homebuyers in particular, rely on recommendations from real estate professionals, homebuilders, current and past homeowners, financial planners and other members within their communities to identify their mortgage lender. Our local presence positions us to capture origination volume generated by such referral networks and to provide expertise and advice to borrowers that is specific to the communities in which they are looking to purchase homes.

Considerable Barriers to Entry

The residential mortgage industry is characterized by high barriers to entry. Mortgage lenders must obtain approval from Freddie Mac, Fannie Mae and Ginnie Mae and maintain various state licenses in order to originate, sell and service conventional conforming and federal and GSE-backed loans. In addition, sophisticated technology, origination and servicing processes and regulatory expertise are required to build and manage a successful mortgage business.

Over the course of our long operating history, we have developed strong relationships with Freddie Mac, Fannie Mae and Ginnie Mae, as well as state regulatory authorities. We have also invested heavily in our technology and in developing our infrastructure and internal processes. Furthermore, our management team has an average of 24 years of experience managing through various market and regulatory environments. We believe these long-standing relationships, and the time and resources we have dedicated to developing our brand and infrastructure, provide a competitive advantage and position our business for continued success.

Our Strengths

Differentiated Access to Purchase Loans Enables Durable Origination Volume and Attractive Margins

Our strategy has generated significant origination volume, including a high percentage of purchase money volume. Over the five years ended December 31, 2019, we have originated more than $84.1 billion of total volume, including $61.4 billion of purchase volume. Our purchase volume represents 73% of our total origination volume over that period, compared to 58% of total origination volume in the United States, according to Inside Mortgage Finance. Further, Guild achieved a higher purchase mix than the industry average each year since 2007. We believe our focus on purchase loans makes our business more stable by making it less sensitive to interest rate changes and less dependent on refinance activity, which enhances our ability to generate more consistent returns through market cycles.

We source a majority of our loans through an established network of referral partners with whom we have developed longstanding relationships over years of positive interactions. This network provides us with direct and frequent leads for loans to homebuyers who are seeking a personalized experience and access to our diverse product offerings, including affordable lending solutions designed to serve the first-time homebuyer market. Our loan officers educate our clients on the unique aspects of the products that we offer and help them to identify the product that will best suit their needs. This tailored and interactive approach to the lending process helped us achieve Money Magazine's Best Mortgage Company for First Time Home Buyers award in 2020. Further, we believe our focus on service over price, and the value we provide to our clients, has enabled us to generate attractive gain-on-sale margins.

Proven Track Record of Navigating through Market Cycles and Executing on Growth Strategies

We have demonstrated our ability to adapt and successfully operate through various market conditions and interest rate environments. Since 1960, we have operated through eight recessions and a wide range of housing market conditions, consistently evolving our risk management framework and operating culture in order to continue serving our clients. We have been profitable each year since 2008, and we believe our track record is largely due to our expertise in the mortgage market, nimble operating style and balanced business model.

Following the acquisition of the Company from its founder in 2007, we shifted our focus to actively growing our origination franchise and scaling our servicing portfolio. In the 12 years since then, we have grown annual origination volume by 19 times and our servicing portfolio dollar volume by 21 times, using a combination of organic and inorganic growth strategies. Through productivity gains from our evolving technology platform, recruiting new loan officers and executing on our targeted acquisition strategy, we have grown in our existing markets and also expanded into new geographies. The success of our acquisition strategy has also supported our profitability.

Our Strategy is Tailored to Address Homebuyer Needs and Promote Deep Referral Network Relationships

We believe that borrowers often prefer to work with people and companies that are present in their neighborhoods and are able to deliver customized solutions to fit their specific needs. Understanding these unique needs is the reason we feel it is vital to be in the communities we serve, living and working with our clients and members of our referral networks.

We provide an individualized lending approach, a broad product set and the operational and regulatory expertise required to meet our clients' needs. Through our decentralized fulfillment model, we perform underwriting and closing services on a regional basis, which allows us to recognize and adapt to the intricacies of each region and build relationships between our fulfillment team and our local loan officers. Our origination processes are designed to deliver reliable service and on-time closings.

We believe that our referral networks and local community presence position us to succeed in a highly fragmented market. Our local presence positions us to capture loan volume generated by these referral

networks and provide tailored advice that acknowledges the fact that purchasing a home is an emotional life decision and borrowers have varied preferences with respect to the mortgage lending process. We provide our clients with the opportunity to engage with us in whatever manner they may prefer—whether that may be in person, online or over the phone. Our technology platform furthers our ability to deliver reliable service and on-time closings by creating milestones and swim lanes to provide clear accountability with respect to meeting closing deadlines.

Internally-Developed Technology Platform Underpins Loan Officer Productivity and Fosters Repeat Business

We leverage our robust technology platform and coaching program to increase our loan officers' productivity and overall recapture rates.

Our technology platform provides loan officers with end-to-end support from client acquisition to loan closing and client retention. Our loan officers benefit from our custom-built technology platform and our data repository, which has been developed over the course of our long operating history. We continue to build our data repository through our ongoing origination activity, and we have added data from more than 525,000 transactions since January 1, 2010. By utilizing this data to further develop our platform and to curate suggested customer touchpoints, we foster a balanced combination of personalized and digital strategies for lead nurturing, as well as client education and communication, that we believe gives our loan officers a competitive edge. As a result of our continued focus on loan officer productivity, we have been successful in increasing our average monthly lead generation per loan officer as illustrated below.

Average Monthly Leads per Loan Officer

In addition, our technology platform adds substantial value to loan officers that cannot be replicated or transferred to our peers. This helps us to generate strong loan officer loyalty and benefit from high retention rates among our top performing loan officers. The loan officers responsible for 71% of our production volume over the last five years are still with the Company today.

This technology-focused approach to managing client relationships, coupled with our loan officers' strong referral networks and other relationships within their communities, has contributed to the increase in our overall recapture rate from 37% for the year ended December 31, 2017 to 61% for the twelve months ended June 30, 2020. In addition, for the year ended December 31, 2019, Guild's portfolio recapture volume—calculated as the dollar volume of originations for existing retail clients who refinanced or received a new purchase mortgage during that period—totaled $4.9 billion, which resulted in a 26% purchase recapture rate, a 64% refinance recapture rate and a 56% overall recapture rate—outperforming the average overall recapture rate of 25% for large independent mortgage lenders participating in the Mortgage Bankers Association and STRATMOR Peer Group Roundtables Program (Spring 2020). We believe our ability to achieve purchase and refinance recapture rates in excess of market averages is a testament to our innovative platform and business model.

We also empower our loan officers through the Company's coaching program, Elevate, which is designed to support loan officers at each stage of their careers and provides a roadmap to develop highly productive partnerships with referral networks. The program is taught by our highest producing loan officers and allows participants, grouped into levels from one to four based on level of experience, to learn effective solutions from their peers that are in the market originating mortgages on a day-to-day basis. The program also furthers our goal of creating a collaborative culture by engaging our national sales team to share best practices with their peers around the country. Participating loan officers have consistently achieved increased average productivity following participation in the program.

Strong Culture Set by Experienced Management Team

At the heart of our Company is our culture, grounded in strong values, innovation, creativity and collaboration. We believe our culture sets us apart and is the backbone of our success. It has enabled us to continuously innovate and evolve to navigate the dynamic mortgage market.

Guild is an inclusive organization and encourages open and honest dialogue across employees, clients and partners. We have a diverse leadership team that fills key roles in each of our business lines. Our leadership team has an average of 24 years of industry experience, has worked at Guild for an average of 21 years and includes top performers from the businesses that Guild has acquired. We have high employee retention, as well as a successful recruiting program, because we empower our employees, maintain a culture that supports collaboration and development and provide our employees with the tools and resources they need to be successful.

We also believe strongly in supporting the communities in which we operate. To that end, Guild and its employees give back to the neighborhoods and communities we serve through sustained investment of time and resources, including through our Guild Giving Foundation.

Further, our management team is well respected across the mortgage industry and has developed strong relationships with our financing counterparties, our referral networks and the investors to which we sell the majority of the loans that we originate—Fannie Mae, Freddie Mac and Ginnie Mae. Because of these relationships, we often have unique opportunities to work on, and shape, pilot programs for new products. This allows us to stay at the leading edge of product development, provide our clients with a broad solution set and further develop our relationships with stakeholders critical to the success of our business.

Our Growth Strategies

We have increased our origination volume from $1.4 billion for the year ended December 31, 2007 to $27.8 billion for the twelve months ended June 30, 2020. Our strategy has proven to be scalable as we have further penetrated many of our existing markets and expanded our presence across the United States. We believe that we are well positioned to continue capturing additional origination business through our well-recognized brand, internally-developed technology platform and differentiated position in the purchase market.

Increase Our Market Share in Existing MSAs and Continue Building Our Team of Loan Officers

We are a top-10 lender in 26 of the 50 largest MSAs in which we operate according to CoreLogic, and our share of total origination volume has grown by 14 times over the last 12 years through June 30, 2020, based on our origination data and data from Inside Mortgage Finance. Our hands-on approach in local communities has allowed us to continually capture increased business as we strengthen and broaden our relationships in the MSAs in which we operate. Our ability to improve the productivity of our existing loan officers through more effective use of our technology platform and our talent development programs further supports our growth efforts.

We believe we can continue to generate growth by adding loan officers to our team with recruiting efforts that leverage our reputation for providing the tools, data and support that allow loan officers to develop their business. We focus on recruiting the right loan officers to the Guild team, namely those who we believe will not only add incremental origination volume but will also fit well with our culture and further our mission to be a trusted partner for our clients. By maintaining our strong culture and continually developing our loan officers using our proprietary coaching program and technology platform, we have been able to efficiently scale our business.

Similar to our other key business functions, our recruiting efforts are integrated into our technology platform. Through Scout, our recruiting program that is housed in Guild 360, we have created a database of potential new loan officers using data from the Nationwide Multistate Licensing System and Registry and CoreLogic to identify those loan officers that operate in areas where we may seek to expand and that have

established access to purchase loans. Through our centralized recruiting function, our team of internal recruiters leverages our technology platform to seek to continue building our loan officer team and growing our origination volume and market share.

Expand the Geographic Footprint of our Business

Our retail operations cover 31 states, with our largest presence on the West Coast. By continuing to execute our growth strategy, we believe we can grow our geographic footprint to include all 50 states over the long term.

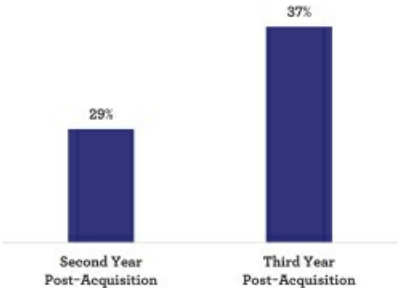
(1) Indicates MSA market share only for states where the Company operates in-state retail locations.

Over the last 12 years through December 31, 2019, we acquired six businesses with 391 loan officers. To identify targets that fit best with Guild, we look for independent lenders who share our values and our commitment to innovation, creativity and collaboration. We prefer to partner with lenders that have a strong foothold in their market and a clearly defined approach to sustaining that success. We have also thoughtfully structured our past acquisitions to include an earn-out component designed to minimize up-front premium paid and ensure an attractive return on investment. Following an acquisition, we fully integrate each business operationally, on-boarding the acquired business to our platform, while allowing its management team to continue executing the strategy that has been successful for them in the past. After a target business has been integrated into the Guild platform, we strive to support growth organically in the same way we do in our existing MSAs. We also strive to generate synergies and support profitability by improving execution and increasing gain-on-sale margins for the businesses that we acquire. For the four businesses that we acquired at least three years ago, originations increased by an average of 37% in the third year following those acquisitions. We believe this demonstrates the soundness of our approach to acquisitions and our ability to successfully integrate acquired businesses into the Guild organization.

Average Increase in Volume per Acquisition



Given the fragmented nature of the mortgage market, we believe we can continue to generate meaningful growth through acquisitions. There were more than 900 independent mortgage lenders in the United States as of December 31, 2019, according to a June 2020 report published by the CFPB. We believe this provides a large pool of potential targets for new acquisitions. Over the twelve months ended June 30, 2020, our share of mortgage originations accounted for 94 basis points of total residential mortgage originations in the United States, with our market share in the states where we have our strongest presence reaching more than 5%.

Acquisition History

Enhance Productivity and Ancillary Fee Opportunities through Continued Investment in our Technology Platform

The mortgage industry is continually evolving, and our technology platform has been built to adapt with the market and our strategies. Our technology platform is the backbone of our regulatory efforts and the processes we use to effectively and efficiently onboard, underwrite, close and service mortgages. These functions are essential to providing outstanding client service and running our business efficiently. We continue to invest in our technology platform, and we believe our investment will continue to enhance our productivity and allow us to differentiate ourselves in the market place as it has to date, with the average number of loans closed per producer per month increasing from two during the year ended December 31, 2007 to ten in July of 2020. Additionally, as of August 31, 2020, we had 156 loan officers that were expected to originate more than $50 million of loans in 2020. 41% of those loan officers originated less than $30 million during their first full calendar year with Guild. We believe that growth, as well as our ability to retain our loan officers over the long-term, is a result of our technology platform and our unique support tools designed to improve loan officer productivity. As of June 30, 2020, we employed 67 programmers and 92 other technology professionals who maintain and develop our systems.

Additionally, using our data repository and adaptable technology platform, we have an opportunity to identify and offer our client base relevant ancillary products, such as title, property and casualty, life and umbrella insurance and other products and services complementary to the mortgages that we originate. Ancillary product offerings like these could increase the value of the services that we provide to our clients, further solidifying our position as a trusted partner in their financial decisions, and also create an opportunity to earn ancillary fee income through sourcing high-quality, timely and actionable referrals to insurance companies and other potential partners.

Competition

The mortgage lending market is highly competitive. We compete with large financial institutions and with other independent residential mortgage loan producers and servicers, such as Quicken Loans, loanDepot, Fairway Independent Mortgage Corporation, Caliber Home Loans, Guaranteed Rate, Movement Mortgage and CrossCountry Mortgage. Competition in our industry can occur on the basis of the variety of product offerings made available, speed and convenience of execution in loan origination, interest rates and fees, client experience, technical knowledge, marketing and referral relationships. We aim to differentiate our products and services on the basis of our loan officers' ability, leveraging our technology platform to match customers with the loan programs that best suit their needs and providing a customer-focused and seamless borrowing experience, starting from origination and continuing through servicing.

Intellectual Property

We rely on a combination of trade secret laws and contractual agreements to establish, maintain and protect our intellectual property rights and technology. We enter into confidentiality and invention assignment agreements with our employees and enter into confidentiality agreements with third parties, including suppliers and other partners.

Seasonality and Cyclicality

Consumer demand for home loans can fluctuate seasonally, generally causing an increase in our mortgage origination activity and revenues during the second and third quarters and reduced activity and revenues in the first and fourth quarters as home buyers tend to purchase their homes during the spring and summer in order to move to a new home before the start of the school year. Demand also fluctuates in response to shifts in numerous other variables, including, but not limited to, national and regional economic conditions, interest rates and property valuations.

Employees

As of June 30, 2020, Guild Mortgage Co. had approximately 3,775 full-time equivalent employees. None of our employees is represented by any collective bargaining unit or is a party to a collective bargaining agreement.

Facilities

Our principal executive office is located in San Diego, California. In addition to our San Diego office, we operate from approximately 200 branch offices and 124 satellite offices located in 31 states. We lease our principal executive office and each of our branch and satellite offices. The square footage of our principal executive office is 141,696 square feet and the average square footage of our branch and satellite offices is approximately 3,800 square feet and approximately 1,750 square feet, respectively.

Regulation

The mortgage industry is subject to a highly complex legal and regulatory framework. Our business is subject to extensive regulation and oversight by federal, state and local governmental authorities, including the CFPB and various state licensing, supervisory and administrative agencies. From time to time, we also receive requests from such governmental authorities for records, documents and information relating to the policies, procedures and practices of our loan servicing, origination and collection activities. In addition, we are also subject to periodic reviews and audits from the GSEs, Ginnie Mae, the CFPB, HUD, the USDA, the VA, state regulatory agencies and others. The legal and regulatory environment in which we operate is also constantly evolving as statutes, regulations and practices, and interpretations thereof, that are in place may be amended or otherwise change, and new statutes, regulations and practices may be enacted, adopted or implemented.

These and other laws and regulations directly affect our business and require constant compliance monitoring and internal and external audits and examinations by federal and state regulators. We work diligently to assess and understand the implications of the complex regulatory environment in which we operate and strive to meet the requirements of this constantly changing environment. We dedicate substantial resources to regulatory compliance while at the same time striving to meet the needs and expectations of our customers, clients and other stakeholders. Notwithstanding these efforts, there can be no assurance that we will be able to remain in compliance with these requirements. See "*Risks Related to Regulatory Environment*" under the section titled "*Risk Factors.*"

Federal Regulation

We are subject to a number of federal consumer protection laws, including:

- the Real Estate Settlement Procedures Act (the "RESPA"), and Regulation X thereunder, which, among other things, (i) require certain disclosures to borrowers regarding the costs of mortgage loans, the administration of tax and insurance escrows, the transferring of servicing of mortgage loans, the response to consumer complaints, and payments between lenders and vendors of certain settlement services; and (ii) prohibit giving or accepting anything of value for the referral of real estate settlement services;
- the Truth in Lending Act (the "TILA"), and Regulation Z thereunder, which, among other things, (i) require certain disclosures to borrowers about their mortgage loans, right to rescind some transactions, notices of sale, transfers of ownership of mortgage loans, new servicing rules involving payment processing, and adjustable rate mortgage change notices and periodic statements; (ii) require a reasonable and good faith determination by the lender that the borrower has the ability to repay the loan; (iii) require home ownership counseling for certain mortgage applicants and (iv) impose restrictions on loan originator compensation;
- the ECOA, and Regulation B thereunder, which prohibit discrimination on the basis of age, race, color, sex, religion, marital status, national origin, receipt of public assistance or the exercise of

any right under the Consumer Credit Protection Act in the extension of credit and require certain disclosures to credit applicants;

- the Fair Housing Act, which prohibits discrimination in housing on the basis of race, color, sex, national origin, religion, familial status or disability;
- Regulation N (the Mortgage Acts and Practices Advertising Rule), which prohibits deceptive claims in mortgage advertising and other commercial communications;
- certain provisions of the Dodd-Frank Act, including the Consumer Financial Protection Act, which, among other things, prohibit unfair, deceptive or abusive acts or practices;
- the Federal Trade Commission Act, the FTC Credit Practices Rules and the FTC Telemarketing Sales Rule, which forbids unfair or deceptive acts or practices and certain related practices;
- the TCPA, Telemarketing Sales Rules and related laws that regulate communications via telephone, text, automatic telephone dialing systems, and artificial and prerecorded voices;
- the Controlling the Assault of Non-Solicited Pornography and Marketing Act, which establishes requirements for those who send unsolicited commercial email;
- the Fair Credit Reporting Act, as amended by the Fair and Accurate Credit Transactions Act, and Regulation V, which, among other things, regulate the use and reporting of information related to the credit history of borrowers;
- the Home Mortgage Disclosure Act, and Regulation C thereunder, which require financial institutions to report certain loan origination data;
- the Gramm-Leach-Bliley Act, and Regulation P thereunder, which require the maintenance of privacy with respect to certain consumer data and periodic communications with consumers on privacy matters;
- the Homeowners Protection Act, which requires the cancellation of private mortgage insurance once certain equity levels are reached, sets disclosure and notification requirements, and requires the return of unearned premiums;
- the SAFE Act, which requires all states to enact laws requiring each person who originates residential mortgage loans to be individually licensed or registered as a mortgage loan originator;
- federal anti-money laundering laws, including the Bank Secrecy Act and the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act, and the implementing regulations and sanctions programs of the United States Department of the Treasury;
- the Electronic Fund Transfer Act of 1978, and Regulation E, thereunder, which provide certain protections for consumers engaging in electronic fund transfers;
- federal financial protection statutes applicable to certain eligible service members, including the Military Lending Act and Servicemembers Civil Relief Act; and
- the Bankruptcy Code and bankruptcy injunctions and stays, which can restrict collection of debts.

We are also subject to a variety of regulatory and contractual obligations imposed by Fannie Mae, Freddie Mac, Ginnie Mae, the VA, the FHA and others.

In addition, the CFPB was established on July 21, 2010 under Title X of the Dodd-Frank Act to ensure that consumers receive clear and accurate disclosures regarding financial products and to protect consumers from deceptive or abusive acts or practices, among other things. The CFPB influences the regulation of residential mortgage loan originations and servicing in several ways. The CFPB has rulemaking authority with respect to many of the federal consumer protection laws applicable to mortgage

originators and servicers, such as us, including the TILA, RESPA and the ECOA. The CFPB has been active and continues to amend rules and regulations within its purview. For example, the CFPB has issued rules and regulations that have expanded the scope of data required to be collected and reported for loan applicants and imposed requirements relating to repayment ability and qualified mortgage standards. These rules impose significant compliance burdens, for example, by requiring us to collect and submit data to regulators and to retain evidence of compliance, and any failures to comply, including any inadvertent errors, could result in the CFPB or other regulators imposing fines on, or taking other enforcement actions relating to, us.

The CFPB's jurisdiction includes those persons originating, brokering or servicing residential mortgage loans and those persons performing loan modification or foreclosure relief services in connection with such loans. The CFPB has broad supervisory and enforcement powers with regard to non-depository institutions, such as us, that engage in the origination and servicing of home loans. The CFPB has conducted routine examinations of our business and we expect it to conduct future examinations. The CFPB can also bring enforcement actions, impose monetary penalties, require remediation of practices, pursue administrative proceedings or litigation and obtain cease and desist orders for violations of applicable federal consumer financial laws. The CFPB has been active in investigations and enforcement actions and has issued civil money penalties to parties when the CFPB has determined that such parties have violated the laws and regulations it enforces.

State Regulation

The SAFE Act requires all states to have laws that require mortgage loan originators employed bynon-depository institutions, such as us, to be individually licensed to offer mortgage loan products. As a result, we are subject to various state licensing requirements. These state licensing requirements generally require individual loan originators to register in a nationwide mortgage licensing system, submit information for a character and fitness review, submit to a criminal background check, complete a minimum number of hours of pre-licensing education, complete an annual minimum number of hours of continuing education and successfully complete an examination. Upon issuance of a license, we become subject to regulatory oversight, supervision and enforcement activity to determine compliance with applicable law. To conduct our residential mortgage operations in the United States, we are licensed in 48 states and the District of Columbia.

In addition to the above, state laws and regulations, among other things:

- require the filing of reports with regulators and compliance with state regulatory capital requirements;
- impose maximum terms, amounts and interest rates, and limit other charges;
- impose consumer privacy rights and other obligations that may require us to notify customers, employees, state attorneys general, regulators and others in the event of a security breach;
- regulate servicing activities, including disclosures, payment processing, loss mitigation and foreclosure, servicing fees and escrow account administration;
- prohibit various forms of "predatory" lending and place obligations on lenders to substantiate that a client will derive a tangible benefit from the proposed home financing transaction and/or have the ability to repay the loan;
- regulate whether and under what circumstances we may offer insurance and other ancillary products in connection with a lending transaction and
- provide for additional consumer protections.

State laws and regulations, and interpretations thereof, vary from state to state, and these laws, regulations and interpretations may change and/or may be vague or interpreted only rarely.

Additionally, our business is subject to numerous state laws that are continuously changing, including laws related to mobile- and internet-based businesses, data privacy (including the California Consumer Privacy Act and similar or other data privacy laws enacted by other states) and advertising laws. One of our subsidiaries, Mission Village Insurance Agency, is also subject to certain laws and regulations governing insurance activities.

State attorneys general, state licensing regulators and state and local consumer protection offices also have the authority to investigate consumer complaints, commence investigations and other formal and informal proceedings, and take enforcement actions and impose remedies on or regarding our operations and activities.

See also "*Risks Related to Regulatory Environment*" under the section titled "*Risk Factors.*"

Legal and Regulatory Proceedings

We are, and from time to time may become, involved in legal and regulatory proceedings or subject to claims arising in the ordinary course of our business. We operate within highly regulated industries on a
federal, state and local level and are routinely subject to various examinations and legal and regulatory proceedings in the normal and ordinary course of business. With the exception of the below-described matter, we are not presently a party to any legal or regulatory proceedings that in the opinion of our management, if determined adversely to us, would individually or taken together have a material adverse effect on our business, results of operations and financial condition.

United States of America, ex rel. Kevin G. Dougherty, et al. v. Guild Mortgage Company

On May 18, 2016, the U.S. Department of Justice ("DOJ"), on behalf of HUD (together, for purposes of the description of this matter, the "government"), filed a Complaint-in-Intervention ("Intervention Complaint") in a pending *qui tam* action against Guild Mortgage Co. under the False Claims Act ("FCA"), 31 U.S.C. §§ 3729-3733. The Intervention Complaint, filed in the U.S. District Court for the District of Columbia, alleges FCA violations in connection with the underwriting and origination of certain residential mortgage loans that Guild Mortgage Co. endorsed for FHA insurance. The Intervention Complaint alleges violations of Sections 3729 (a)(l)(A) and (B) of the FCA, breach of common law fiduciary duty, and breach of contract. The government's claims arise from Guild Mortgage Co.'s origination of residential mortgage loans, which Guild Mortgage Co. subsequently endorsed for FHA insurance between January 1, 2006 and December 31, 2011.

On August 10, 2016, Guild Mortgage Co. filed motions to dismiss the government's Intervention Complaint and the Relator's Third Amended Complaint. In March 2018, the Court stayed the case pending the Ninth Circuit's determination of the appeal in *Rose v. Stephens Institute* (No. 17-15111). On August 24, 2018, the ruling in the *Rose* case was issued and the Court lifted its self-imposed stay. On March 4, 2019, the government filed an amended complaint, which Guild Mortgage Co. responded to on March 22, 2019, reasserting that the claims were without merit. Guild Mortgage Co.'s motion to dismiss was denied by the court in September 2019.

This lawsuit is in the discovery phase. The ultimate outcome of this action, including any monetary awards against us, is uncertain. We are incurring defense costs and other expenses in connection with this lawsuit. We are confident in the compliance processes we have in place for FHA-related mortgage lending and our other mortgage lending activities.

Controlled Company

We intend to apply to list the shares of our Class A common stock offered in this offering on the NYSE. As MCMI will continue to control more than 50% of the combined voting power of our outstanding common stock upon the completion of this offering, we will be considered a "controlled company" for the purposes of the NYSE's rules and corporate governance standards. As a "controlled company," we will be permitted, and we intend, to elect not to comply with certain corporate governance requirements, including (i) those that would otherwise require our Board of Directors to have a majority of independent directors, (ii) those that would require that we establish a compensation committee composed entirely of independent directors and (iii) those that would require we have a nominating and corporate governance committee composed entirely of independent directors.

Election of Directors

At the completion of this offering, we expect that our Board of Directors will initially be divided into three classes, each of which is expected to be composed initially of two or three directors. The directors designated as Class I directors will have terms expiring at the first annual meeting of stockholders following the completion of this offering, which we expect to hold in . The directors designated as Class II directors will have terms expiring at the following year's annual meeting of stockholders, which we expect to hold in , and the directors designated as Class III directors will have terms expiring at the following year's annual meeting of stockholders, which we expect to hold in . Commencing with the first annual meeting of stockholders following the completion of this offering, directors for each class will be elected at the annual meeting of stockholders held in the year in which the term for that class expires and thereafter will serve for a term of three years. At any meeting of stockholders for the election of directors at which a quorum is present, the election will be determined by a plurality of the votes cast by the stockholders entitled to vote in the election.

- Our Class I directors will initially be .
- Our Class II directors will initially be .
- Our Class III directors will initially be .

We expect our bylaws will provide that the authorized number of directors may only be changed by a resolution adopted by a majority of our Board of Directors.

Director Independence

We intend to avail ourselves of the "controlled company" exception under the rules of the NYSE, which exempts us from certain requirements, including the requirements that we have a majority of independent directors on our Board of Directors and that we have compensation and nominating and corporate governance committees composed entirely of independent directors. We will, however, remain subject to the requirement that we have an audit committee composed entirely of independent members by the end of the transition period for companies listing in connection with an initial public offering.

If at any time we cease to be a "controlled company" under the rules of the NYSE, the Board of Directors will take all action necessary to comply with the applicable rules of the NYSE, including appointing a majority of independent directors to the Board of Directors and establishing certain committees composed entirely of independent directors, subject to permitted phase-in periods.

Based upon information requested from and provided by each director concerning his or her background, employment and affiliations, including family relationships, our Board of Directors has determined that are "independent" as defined under the rules of the NYSE. Our Board of Directors also determined that , who serve on our Audit Committee, satisfy the independence standards for that committee established by the SEC and the rules of the NYSE. In making such determinations, our Board of Directors considered the relationships that each such non-employee director has with our Company and all other facts and circumstances our Board of Directors deemed relevant in determining independence, including the beneficial ownership of our capital stock by each non-employee director and any institutional stockholder with which he or she is affiliated.

Our Board of Directors has established standing committees in connection with the discharge of its responsibilities. These committees include the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee. EXECUTIVE COMPENSATION

This section provides a discussion of the compensation paid or awarded to our principal executive officer and our two other most highly compensated executive officers as of December 31, 2019. We refer to these individuals as our named executive officers. For fiscal year 2019 our named executive officers were:

Name	Title
Mary Ann McGarry	Chief Executive Officer
Terry L. Schmidt	President
Barrett (“Barry”) H. Horn	Executive Vice President, National Product Manager

This discussion contains forward-looking statements that are based on our current plans, considerations, expectations and determinations regarding future compensation programs. Actual compensation programs that we adopt may differ materially from currently planned programs as summarized in this discussion. As an “emerging growth company,” as defined in the JOBS Act, we are not required to include a Compensation Discussion and Analysis section and have elected to comply with the reduced disclosure requirements applicable to emerging growth companies.

Overview

Our current executive compensation program is intended to align executive compensation with our business objectives and to enable us to attract, retain and reward executive officers who contribute to our long-term success. The compensation paid or awarded to our executive officers is generally based on an assessment of each individual’s performance compared against the business objectives established for the fiscal year as well as our historical compensation practices. For fiscal year 2019, the material elements of our compensation program were base salary and short-term cash incentive compensation.

We expect that our executive compensation program will evolve to reflect our status as a new publicly traded company, while still supporting our overall business and compensation objectives. Therefore, the compensation reported in the Summary Compensation Table below for fiscal year 2019 is not necessarily indicative of how we will compensate our named executive officers in the future. We expect that we will continue to review, evaluate and modify our compensation framework and that the compensation program following this offering may vary significantly from our historical practices. In connection with this offering, we have retained Meridian Compensation Partners, an independent a compensation consultant to perform a market-based review of our executive compensation program and to advise regarding the design of our post-offering executive compensation program.

Compensation of Named Executive Officers

Base Salary

Base salaries are intended to provide a level of compensation sufficient to attract and retain an effective management team, when considered in combination with the other components of our executive compensation program. The relative levels of base salary for our named executive officers are designed to reflect each named executive officer’s scope of responsibility and accountability with the Company. Please see the “Salary” column of the Summary Compensation Table below for the base salary amounts received by each named executive officer in fiscal year 2019.

Short-Term Cash Incentive Compensation

Historically, we have generally provided our senior leadership team with short-term incentive compensation based on achievement of pre-established performance goals.

During fiscal year 2019, Ms. McGarry and Ms. Schmidt participated in an annual cash incentive program. Under the terms of the program, an incentive pool is funded based on the level of achievement of

return on average equity, which is defined as the Company's pre-tax profit and loss (with an adjustment to add back any book entry to recapture or impairment of servicing rights), divided by the average of the book value of the Company for the fiscal year as reflected on the Company's balance sheet as of the last day of each calendar quarter during fiscal year 2019. The funding level is determined in accordance with the matrix set forth below. The funded incentive pool is then allocated among the participants in accordance with the percentage allocation set forth in each participant's executive compensation agreement.

Tier	ROAE	Incentive Pool
0	Less than 15.00%	$750,000
1	15.00%—19.99%	$875,000
2	20.00%—24.99%	$1,750,000
3	25.00%—29.99%	$2,625,000
4	30.00%	$3,500,000
5	Greater than 30.00%	$3,500,000 plus an additional amount to be mutually determined by the Chief Executive Officer and Chairman of the Board of Directors

For fiscal year 2019, the actual level of return on average equity was 38% and the incentive pool was funded at $3,500,000. Ms. McGarry's allocation of the pool was 44.5% and Ms. Schmidt's allocation of the pool was 36.7%.

During fiscal year 2019, Mr. Horn was eligible to receive two forms of short-term cash incentive compensation, a volume override bonus and a quarterly bonus. The volume override bonus is paid on a monthly basis, subject to Mr. Horn's continued employment through the entire applicable month, and is calculated as 0.6 basis points of the adjusted gross loan amount involved in each in-house loan closing, which is defined as company closed and funded residential mortgage loans in the applicable month that are not unfunded, plus certain loans closed under the Company's direct lending channel. The quarterly bonus is calculated as 0.95% of the total adjusted regional contribution, which is defined as the total region income, marketing income and operation center contributions, minus region expense, acquisition payouts and corporate costs, and is paid in quarterly draws, subject to Mr. Horn's continued employment through the entire applicable quarter, equal to 75% of the cumulative year-to-date calculated bonus amount, for each of the first three calendar quarters, plus a final payment for the fourth quarter equal to 100% of the calculated bonus amount not previously paid in the fiscal year. For fiscal year 2019, Mr. Horn received an aggregate volume override bonus of $887,465, based on the aggregate adjusted gross loan amount involved in in-house closings of $14,791,075,172, and cumulative quarterly bonuses of $1,032,744, based on the total adjusted regional contribution of $108,709,876.

Profits Interests

Our named executive officers did not receive any equity-based awards in fiscal year 2019. Certain of our named executive officers had received awards of profits interests in prior years, and all such awards were fully vested as of December 31, 2019. As of December 31, 2019, Ms. McGarry and Ms. Schmidt held fully vested Class B Units of Guild Management LLC, which was an equity holder of Guild Investors, LLC, our former parent entity (the "Profits Interests"). The Profits Interests are subject to specified hurdle amounts that function like option exercise prices because the Profits Interests do not participate in distributions by Guild Management LLC until distributions to other equity holders of Guild Management LLC have exceeded the relevant hurdle amounts. See *"Outstanding Equity Awards at Fiscal Year-End"* below for further information regarding the outstanding Profits Interests held by Ms. McGarry and Ms. Schmidt as of December 31, 2019.

In connection with the reorganization transactions, Guild Management LLC will be dissolved and its members, including holders of the Profits Interests, will receive a pro rata liquidating distribution of shares of the Issuer's common stock (with holders of Profits Interests receiving shares of the Issuer's Class A

common stock). The shares of the Issuer's Class A common stock to be distributed to Ms. McGarry and Ms. Schmidt in respect of their Profits Interests are included in the total number of shares of the Issuer's Class A common stock to be held by Ms. McGarry and Ms. Schmidt after this offering that is shown in the section of this prospectus entitled *"Principal and Selling Stockholders."*

Retirement and Deferred Compensation Plans

The Company maintains a 401(k) plan, which is a U.S. tax-qualified retirement plan offered to all eligible employees, including our named executive officers, that permits eligible employees to elect to defer a portion of their compensation on a pre-tax basis. In 2019, participants in the 401(k) plan, including our named executive officers, were eligible for company matching contributions equal to 40% of the participant's contributions up to a maximum of 6% of eligible compensation under the plan. We do not maintain any defined benefit pension plans.

The Company maintains the Compensation Deferral Plan for Executives (the "Deferred Compensation Plan"), a nonqualified deferred compensation plan that was frozen effective as of December 31, 2007. Ms. McGarry and Ms. Schmidt participate in the Deferred Compensation Plan and in 2007 their accounts under the Deferred Compensation Plan became notionally invested in phantom units, a reference security that notionally tracked the value of Class A units in Guild Management LLC, an equityholder of Guild Investors, LLC, our former parent entity. Each time a cash dividend was paid with respect to Class A units during 2019, a corresponding dividend was notionally credited with respect to the phantom units held in Ms. McGarry's and Ms. Schmidt's accounts. Ms. McGarry and Ms. Schmidt are able to direct the notional investment of the dividend amounts into various investment alternatives offered under the Deferred Compensation Plan, which alternatives generally track the investment alternatives available under the 401(k) plan. In connection with the offering, it is expected that the phantom units held by Ms. McGarry and Ms. Schmidt will be converted into notional cash balances based on the then-current fair market value of the phantom units, and that Ms. McGarry and Ms. Schmidt will be permitted to notionally invest the converted cash balances in the investment alternatives made available under the Deferred Compensation Plan.

IPO Equity Award Grants

In connection with this offering, we intend to grant restricted stock unit awards under our 2020 Omnibus Incentive Plan (a description of which is included below) to non-employee directors (as described below under "*Non-Employee Director Compensation*") and certain employees, including our named executive officers. The approximate aggregate grant date value of such awards is expected to be $. The number of restricted stock units that will be issued will be equal to the grant date value of each award divided by our public offering price. In particular, it is anticipated that Ms. McGarry, Ms. Schmidt and Mr. Horn will each receive an award of restricted stock units with a grant date value of $, $, and $, respectively, which corresponds to , , and shares of our Class A common stock, respectively, based on the midpoint of estimated price range set forth on the front cover of this prospectus. The restricted stock units granted to the named executive officers will vest in installments, with 25% vesting on each of the second and third anniversaries of the grant date and 50% vesting on the fourth anniversary of the grant date, in each case, generally subject to continued employment through the applicable vesting date.

Upon completion of this offering, each non-employee director will receive an initial grant of restricted stock units with a grant date value equal to $100,000, which will vest, generally subject to continued service on the Board of Directors, on the first anniversary of the completion of this offering.

After the completion of this offering, if a new director is appointed other than at an annual meeting of shareholders, the director will receive an initial award of restricted stock units with a grant date value equal to $100,000 prorated for the portion of the director compensation year for which such new director will be serving, which will vest, generally subject to continued service on the Board of Directors, on the date of the next annual meeting of shareholders following such director's appointment.

2020 Omnibus Incentive Plan

In connection with this offering, our Board of Directors intends to adopt, and our current shareholders are expected to approve, our 2020 Omnibus Incentive Plan (the "2020 Plan"), prior to the effective date of this offering. The 2020 Plan is expected to have the terms substantially as set forth below.

Purpose. The purpose of our 2020 Plan is to give the Company a competitive advantage in attracting, retaining and motivating officers, employees, directors and/or consultants and to enable the Company to provide incentives for future performance of services directly linked to the profitability of the Company's businesses and increases in Company shareholder value.

Stock Awards and Eligibility. The 2020 Plan provides for the grant of incentive stock options ("ISOs"), nonstatutory stock options, stock appreciation rights, restricted stock awards, restricted stock unit awards and other forms of equity-based compensation. Additionally, the 2020 Plan provides for the grant of cash-denominated awards. ISOs may be granted only to employees. All other awards may be granted to current and prospective directors, officers, employees, and consultants of the Company and its affiliates.

Class A Common Stock Subject to the 2020 Plan. The maximum number of shares of our Class A common stock that may be granted pursuant to awards under our 2020 Plan is . The maximum number of shares of our Class A common stock that may be granted pursuant to ISOs is .

The shares of our Class A common stock covered by any award that is forfeited, terminates, expires, lapses without being exercised or is settled for cash will again become available for issuance under the 2020 Plan. If the tax withholding obligations relating to any full-value award are satisfied by withholding shares relating to such full-value award, such withheld shares shall not reduce the share reserve. With respect to any stock option or stock appreciation right, if the exercise price and/or tax withholding obligations are satisfied by delivering shares to us (by actual delivery or attestation), or if the exercise price and/or tax withholding obligations are satisfied by withholding shares otherwise issuable pursuant to the stock option or stock appreciation right, the share reserve shall nonetheless be reduced by the gross number of shares subject to the stock option or stock appreciation right.

Director Compensation Limitations. No non-employee director may receive compensation in such capacity during any calendar year that exceeds $500,000 (calculating the value of any equity compensation awards for such purpose based on the grant date fair value of such awards for financial reporting purposes). For purposes of the preceding sentence, an equity-based award shall be deemed received upon grant (and not upon vesting or settlement) and any deferred cash compensation shall be deemed received when earned (and not when paid).

Administration. Our 2020 Plan will be administered by our Board of Directors directly, or if the Board of Directors elects, by the Compensation Committee (or such other committee of the Board of Directors as our Board of Directors may from time to time designate) (the "Committee"), provided that, subject to law, all powers of the Committee may be exercised by the full Board of Directors. Among other things, the Committee will have the authority to select individuals to whom awards may be granted, determine the types of awards (as well as the number of shares of common stock to be covered by such award) granted, and determine and modify the terms and conditions of any such award.

Stock Options and Stock Appreciation Rights. Stock options entitle the participant to purchase a specified number of shares of Class A common stock at a price equal to the per share exercise price of the stock options. Stock appreciation rights entitle the participant to receive an amount in cash or shares with a value equal to the product of (i) the difference between the fair market value of one share of Class A common stock on the exercise date and the per share exercise price, multiplied by (ii) the number of shares of Class A common stock subject to the stock appreciation rights. The exercise price of a stock option or stock appreciation right award will be determined by the Committee and provided in the applicable award agreement, and will not be less than the fair market value (as defined in the 2020 Plan) of a share of Class A common stock on the grant date. In no event may any stock appreciation right or stock option granted under the 2020 Plan be amended (other than as described below under "Plan and Award Adjustments") to decrease the exercise price, be canceled in exchange for cash or other awards if the exercise price of such stock appreciation right or stock option exceeds the fair market value of a share of Class A common stock on the date of such cancellation, be canceled in exchange for any new stock appreciation right or stock option with a lower exercise price, or otherwise be subject to any action that would be treated, under the applicable stock exchange listing standards or for accounting purposes, as a "repricing," unless such amendment, cancellation or action is approved by the Company's stockholders. The term of each stock appreciation right and stock option is fixed by the Committee, but cannot be more than 10 years after the grant date. The effect of a participant's termination of service on any award held by the participant will be described in the applicable award agreement for the award.

A stock option that is intended to qualify as an ISO may not be granted to an eligible individual who at grant owns more than 10% of the total combined voting power of all classes of stock of the Company, unless at the time the exercise price of such ISO is at least 110% of the fair market value of a share and is not exercisable after the fifth anniversary of the grant date. In addition, the aggregate fair market value of the shares at grant for which ISOs become exercisable by a participant during any calendar year may not exceed $100,000.

Restricted Stock. Shares of restricted stock are actual shares of our Class A common stock issued to a participant. The Committee may require that restricted stock vest based on either the continued service of the participant, the attainment of performance goals or a combination of both. Except as provided in the applicable award agreement, a participant holding shares of restricted stock will have all the rights of a stockholder holding shares of Class A common stock, including, if applicable, the right to vote the shares and the right to receive any dividends, except that, unless otherwise determined by the Committee, cash dividends shall be payable in cash and shall be held subject to vesting of the underlying restricted stock and stock dividends shall be payable in restricted stock and shall be held subject to the vesting of the underlying restricted stock.

Restricted Stock Units. Restricted stock units are awards denominated in shares that will be settled, subject to the applicable award's terms and conditions, in a specified number of shares of our Class A common stock or cash equal to the fair market value of the number of shares of Class A common stock. The Committee may require that restricted stock units vest based on either the continued service of the participant, the attainment of performance goals or a combination of both. Restricted stock units will be settled upon vesting or at a later time if permitted pursuant to a deferred compensation arrangement. A participant holding restricted stock units shall have no rights as a shareholder with respect to the shares of Class A common stock unless and until the shares are actually delivered to the participant in settlement of the units. Certain restricted stock unit awards may be eligible for dividends or dividend equivalents, which, unless otherwise determined by the Committee, shall be held subject to the vesting of the underlying restricted stock units.

Other Stock-Based Awards. Other stock-based awards are awards under the 2020 Plan not otherwise specifically described in the 2020 Plan that are valued by reference to, or otherwise relate to, shares of our Class A common stock, and which are subject to terms and conditions consistent with the terms of the 2020 Plan that are determined by the Committee.

Cash Awards. Cash awards are awards under the 2020 Plan that are denominated and payable in cash and which are subject to such terms and conditions consistent with the terms of the 2020 Plan as are determined by the Committee.

Transferability of Awards. Unless otherwise determined by the Committee, awards generally are not transferable other than by will or by the laws of descent or distribution.

Plan and Award Adjustments. In the event of (i) a merger, consolidation, acquisition of property or shares, stock rights offering, liquidation, disposition for consideration of an equity interest in a subsidiary or affiliate, or similar event affecting the Company; or (ii) a stock dividend, stock split, reverse stock split, reorganization, share combination, or recapitalization or similar event affecting the capital structure of the Company, or a disaffiliation, separation or spinoff, or other extraordinary dividend, the Committee or our Board of Directors may (or, in certain cases, will) in its discretion, in the case of events described in clause (i) and (ii), make such substitutions or adjustments as it deems appropriate and equitable to: (A) the aggregate number and kind of shares or other securities reserved for issuance and delivery under the 2020 Plan; (B) the various maximum limitations on the grants to individuals of certain types of awards; (C) the number and kind of shares or other securities subject to outstanding awards; (D) financial goals or results relating to a performance goal; and (E) the exercise price of outstanding awards. In the case of certain

corporate transactions, such an adjustment may consist of cancellation of outstanding awards in exchange for payments of cash, property or a combination of both having an aggregate value equal to the value of such awards, which in the case of an option may be the excess, if any of the deal consideration per share over the per share exercise price.

Upon a change in control of the Company, participants will be granted replacement awards by the acquiring or surviving company that are of the same type held prior to the change in control. Performance awards will be converted into replacement time-based awards for the remainder of the applicable performance period (or such shorter period determined by the Committee), with the number of underlying shares determined based on the greater of actual performance through the latest practicable date prior to the change in control and target performance. Replacement awards will generally continue to vest on the same schedule as the original awards, except that, if a participant's employment is terminated by the Company without cause and not due to the participant's death or disability, within the 24 months following the change in control, then the participant's replacement awards will become vested in full. In the event an acquiring or surviving company refuses to issue replacement awards, or if the acquiring or surviving company is not a publicly held company, then all awards under the 2020 Plan will become vested in full upon the change in control, with performance awards vesting at the greater of actual performance through the latest practicable date prior to the change-in-control and target performance. The terms "cause," "good reason" and "change in control" are defined in the 2020 Plan.

Termination and Amendment. Our 2020 Plan will automatically terminate ten years from the date of completion of this offering, unless terminated earlier by our Board of Directors. The Committee may amend, alter, suspend or terminate our 2020 Plan at any time, provided that no amendment, alteration or discontinuation may materially impair the rights of any participant with respect to a previously granted award without the participant's consent.

PRINCIPAL AND SELLING STOCKHOLDERS

The following table sets forth information with respect to the beneficial ownership of our capital stock, as of(i) immediately prior to the completion of this offering and (ii) following the sale of shares of our Class A common stock in this offering, by:

- each person, or group of affiliated persons, known by us to beneficially own more than 5% of any class or series of our capital stock (other than directors and named executive officers);
- each of our directors;
- each of our named executive officers;
- all of our executive officers and directors as a group; and
- the selling stockholders.

The numbers of shares of our Class A common stock and shares of our Class B common stock beneficially owned, percentages of beneficial ownership and percentages of combined voting power of our outstanding common stock before and after this offering that are set forth below are based on the number of shares to be issued and outstanding prior to and after this offering, in each case, after giving effect to the reorganization transactions and assuming an initial public offering price of $ per share, which is the midpoint of the estimated price range set forth on the front cover of this prospectus. See "*Organizational Structure*." In addition, the percentage ownership assumes no purchase of shares of our Class A common stock through the reserved share program and that the underwriters' option to purchase additional shares is not exercised.

The number of shares beneficially owned by each stockholder is determined under rules of the SEC and includes voting or investment power with respect to securities. Under these rules, beneficial ownership includes any shares as to which the individual or entity has sole or shared voting power or investment power. In computing the number of shares beneficially owned by an individual or entity and the percentage ownership of that person, shares of common stock subject to options, warrants or other rights held by such person that are currently exercisable or will become exercisable within 60 days are considered outstanding, although these shares are not considered outstanding for purposes of computing the percentage ownership of any other person.

Unless otherwise indicated, the address of all listed stockholders is c/o Guild Holdings Company, 5887 Copley Drive, San Diego, California 92111. Each of the stockholders listed has sole voting and investment power with respect to the shares beneficially owned by the stockholder unless noted otherwise, subject to community property laws where applicable.

Common Stock

Voting

The holders of shares of our Class A common stock and shares of our Class B common stock will vote together as a single class on all matters submitted to stockholders for their vote or approval, except (i) as required by applicable law or (ii) any amendment (including by merger, consolidation, reorganization or similar event) to our certificate of incorporation that would affect the rights of holders of shares of our Class A common stock in a manner that is disproportionately adverse compared to the rights of holders of shares of our Class B common stock, or vice versa, in which case the holders of shares of our Class A common stock or the holders of shares of our Class B common stock, as applicable, will vote together as a class. Holders of shares of our Class A common stock are entitled to one vote on all matters submitted to stockholders for their vote or approval and holders of shares of our Class B common stock are entitled to 10 votes on all matters submitted to stockholders for their vote or approval.

Upon the completion of this offering, MCMI will own 100% of the issued and outstanding shares of our Class B common stock and will control approximately % of the combined voting power of our outstanding common stock. Accordingly, MCMI will control our business policies and affairs and can control any action requiring the general approval of our stockholders, including the election of our Board of Directors, the adoption of amendments to our certificate of incorporation and bylaws and the approval of any merger or sale of substantially all of our assets. This concentration of ownership and voting power may also delay, defer or prevent a change of control of the Company or impede a merger, takeover or other business combination that may otherwise be attractive to us or our other stockholders.

Dividends

The holders of shares of our Class A common stock and the holders of shares of our Class B common stock are entitled to receive dividends when, as and if declared by our Board of Directors out of legally available funds. Under our certificate of incorporation, dividends may not be declared or paid in respect of shares of our Class B common stock unless they are declared or paid in the same amount and same type of cash or property (or combination thereof) in respect of shares of our Class A common stock, and vice versa.

With respect to stock dividends, holders of shares of our Class B common stock must receive shares of our Class B common stock while holders of shares of our Class A common stock must receive shares of our Class A common stock.

Liquidation or Dissolution

Upon our liquidation or dissolution, the holders of shares of our Class A common stock and the holders of shares of our Class B common stock will be entitled to share ratably in those of our assets that are legally available for distribution to stockholders after payment of liabilities and subject to the prior rights of any holders of preferred stock then outstanding.

Conversion, Transferability and Exchange

Our certificate of incorporation will provide that each share of our Class B common stock is convertible at any time, at the option of the holder, into one share of our Class A common stock. Our certificate of incorporation will further provide that each share of our Class B common stock will automatically convert into one share of our Class A common stock immediately prior to any transfer of such share except for certain transfers described in our certificate of incorporation, including transfers to and among the McCarthy Investors. In addition, each share of our Class B common stock will automatically convert into one share of our Class A common stock if the McCarthy Investors own less than 10% of the aggregate number of shares of our issued and outstanding common stock. Except as set forth above, shares of our Class B common stock will not be automatically converted into shares of our Class A common stock at a certain specified time or otherwise.

Among other exceptions described in our certificate of incorporation, the McCarthy Investors will be permitted to pledge shares of our Class B common stock that they hold from time to time without causing an automatic conversion to shares of our Class A common stock, as applicable, provided that any pledged shares are not transferred to or registered in the name of the pledgee.

Shares of our Class A common stock are not subject to any conversion right.

Other Provisions

Holders of our common stock will have no preemptive or subscription rights, and there are no redemption or sinking fund provisions applicable to the common stock. After this offering, all outstanding shares of our common stock will be fully paid and non-assessable. The rights, preferences and privileges of the holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Preferred Stock

Under the terms of our certificate of incorporation, our Board of Directors will be authorized, subject to limitations prescribed by the DGCL and by our certificate of incorporation, to issue up to shares of

preferred stock in one or more series without further action by the holders of our common stock. Our Board of Directors will have the discretion, subject to limitations prescribed by the DGCL and by our certificate of incorporation, to determine the rights, preferences, privileges and restrictions, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences, of each series of our preferred stock.

Anti-Takeover Effects of Various Provisions of Delaware Law, Our Certificate of Incorporation and Our Bylaws

Provisions of the DGCL and our certificate of incorporation and bylaws could make it more difficult to acquire or obtain control of Guild by means of a tender offer, a proxy contest or otherwise, or to remove incumbent officers and directors. These provisions, which are summarized below, may discourage certain types of coercive takeover practices and takeover bids that our Board of Directors may consider inadequate and to encourage persons seeking to acquire control of the Company to first negotiate with our Board of Directors. Guild believes that the benefits of increased protection of its ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure it outweigh the disadvantages of discouraging takeover or acquisition proposals because, among other things, negotiation of these proposals could result in an improvement of their terms.

Delaware Anti-Takeover Statute

As a Delaware corporation, Guild will be subject to Section 203 of the DGCL regarding corporate takeovers. In general, Section 203 of the DGCL prohibits a publicly held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years following the time the person became an interested stockholder, unless:

- prior to the date of the transaction, the board of directors of such corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;
- upon completion of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time such transaction commenced, excluding, for purposes of determining the number of shares outstanding, (i) shares owned by persons who are directors and also officers of the corporation and (ii) shares owned by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- on or subsequent to such time the business combination is approved by the board of directors of such corporation and authorized at a meeting of stockholders by the affirmative vote of at least two-thirds of the outstanding voting stock of such corporation not owned by the interested stockholder.

In this context, a "business combination" includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. An "interested stockholder" is a person who, together with affiliates and associates, owns or, within three years prior to the determination of interested stockholder status owned, 15% or more of a corporation's outstanding voting stock. The existence of this provision would be expected to have an anti-takeover effect with respect to transactions not approved in advance by our Board of Directors, including discouraging attempts that might result in a premium over the market price for the shares of our Class A common stock held by our stockholders.

A Delaware corporation may "opt out" of Section 203 with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or bylaws resulting from amendments approved by holders of at least a majority of the corporation's outstanding voting shares. We will not elect to "opt out" of Section 203. However, following this offering and subject to certain

restrictions, we could subsequently elect to "opt out" of Section 203 by such an amendment to our certificate of incorporation or bylaws.

Classified Board

Our certificate of incorporation and bylaws will provide that our Board of Directors will be divided into three classes, each of which is expected to be composed initially of two or three directors. The directors designated as Class I directors will have terms expiring at the first annual meeting of stockholders following the completion of this offering, which we expect to hold in . The directors designated as Class II directors will have terms expiring at the following year's annual meeting of stockholders, which we expect to hold in , and the directors designated as Class III directors will have terms expiring at the following year's annual meeting of stockholders, which we expect to hold in . Commencing with the first annual meeting of stockholders following the completion of this offering, directors for each class will be elected at the annual meeting of stockholders held in the year in which the term for that class expires and thereafter will serve for a term of three years. At any meeting of stockholders for the election of directors at which a quorum is present, the election will be determined by a plurality of the votes cast by the stockholders entitled to vote in the election. Under the classified board provisions, it may take two elections of directors for any individual or group to gain control of our Board of Directors. Accordingly, these provisions could discourage a third party from initiating a proxy contest, making a tender offer or otherwise attempting to gain control of Guild.

Removal of Directors

Our certificate of incorporation will provide that until the McCarthy Investors beneficially own less than a majority of the combined voting power of our outstanding common stock, any director may be removed with or without cause by the affirmative vote of holders of at least a majority of the voting power of the then-outstanding shares of voting stock. After the McCarthy Investors cease to beneficially own a majority of the combined voting power of our outstanding common stock, our certificate of incorporation will provide that our stockholders may remove our directors only for cause by an affirmative vote of holders of at least a majority of the voting power of the then-outstanding shares of voting stock.

Amendments to Certificate of Incorporation and Bylaws

Our certificate of incorporation will provide that it may be amended or altered in any manner provided by the DGCL. Our bylaws may be adopted, amended, altered or repealed by stockholders upon the approval of at least two-thirds of the voting power of all of the then-outstanding shares of stock entitled to vote at an election of directors. Additionally, our certificate of incorporation and bylaws will provide that our bylaws may be adopted, amended, altered or repealed by the Board of Directors.

Size of Board and Vacancies

Our certificate of incorporation and our bylaws will provide that the number of directors on our Board of Directors will be fixed exclusively by our Board of Directors and any vacancies on our Board of Directors resulting from any increase in the authorized number of directors or the death, resignation, retirement, disqualification, removal from office or other cause will be filled by a majority of the Board of Directors then in office, whether or not less than a quorum. Our certificate of incorporation and our bylaws will provide that any director appointed to fill a vacancy on our Board of Directors will hold office for a term expiring at the annual meeting of stockholders at which the term of office of the class to which he or she been appointed expires and until such director's successor shall have been duly elected and qualified.

Special Stockholder Meetings

Our bylaws will provide that only the Chairman of the Board of Directors, the Chief Executive Officer or an officer at the request of a majority of the members of the Board of Directors pursuant to a resolution

approved by the Board of the Directors may call special meetings of Guild stockholders, and stockholders may not call special stockholder meetings.

Stockholder Action by Written Consent

Our certificate of incorporation will provide that until the McCarthy Investors beneficially own less than a majority of the combined voting power of our outstanding common stock, stockholder action can be taken by written consent in lieu of a meeting. After the McCarthy Investors cease to beneficially own a majority of the combined voting power of our outstanding common stock, our certificate of incorporation will expressly prohibit the right of our stockholders to act by written consent. From and after that point in time, stockholder action must take place at the annual or a special meeting of Guild stockholders.

Requirements for Advance Notification of Stockholder Nominations and Proposals

Our bylaws will establish advance notice procedures with respect to stockholder proposals and nomination of candidates for election as directors, as well as minimum qualification requirements for stockholders making the proposals or nominations. Additionally, our bylaws will require that candidates nominated by stockholders for election as a director disclose their qualifications and make certain representations, including that (i) they are not a party to any undisclosed voting commitment, any voting commitment that could interfere with their ability to fulfill their fiduciary duties as a director of Guild, should they be elected, or any undisclosed agreement pursuant to which they would receive compensation, reimbursement or indemnification in connection with their service as a director of Guild, (ii) they will be in compliance, should they be elected, with Guild's corporate governance guidelines and Guild's conflict of interest, confidentiality and stock ownership and trading policies and (iii) they will abide by the procedures for the election of directors in our bylaws.

No Cumulative Voting

The DGCL provides that stockholders will not have the right to cumulate votes in the election of directors unless the company's certificate of incorporation provides otherwise. Our certificate of incorporation will not provide for cumulative voting.

Undesignated Preferred Stock

The authority that our Board of Directors will possess to issue preferred stock could potentially be used to discourage attempts by third parties to obtain control of Guild through a merger, tender offer, proxy contest or otherwise by making such attempts more difficult or more costly. Our Board of Directors may issue preferred stock with voting rights or conversion rights that, if exercised, could adversely affect the voting power of the holders of common stock.

Corporate Opportunities

Our certificate of incorporation provides that, to the fullest extent permitted by law, we have, on behalf of ourselves, our stockholders and any of our and their respective affiliates, renounced any interest or expectancy in, or in being notified of or offered an opportunity to participate in, any business opportunity that may be presented to our directors that are not our employees or to any of their affiliates, partners or other representatives, and that no such person has any duty to communicate or offer such business opportunity to us or any of our affiliates or stockholders or shall be liable to us or any of our affiliates or stockholders for breach of any duty, as a director or otherwise, by reason of the fact that such person pursues or acquires such business opportunity, directs such business opportunity to another person or fails to present such business opportunity, or information regarding such business opportunity, to us or any of our affiliates or stockholders, unless, in the case of any such person who is a director of our Company, such business opportunity is expressly offered to such director solely in his or her capacity as a director of our Company.

Limitations on Liability, Indemnification of Officers and Directors and Insurance

Elimination of Liability of Directors

The DGCL authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties as directors, and our certificate of incorporation will include such an exculpation provision. Our certificate of incorporation will provide that, to the fullest extent permitted by the DGCL, no director will be personally liable to us or to our stockholders for monetary damages for breach of fiduciary duty as a director. While our certificate of incorporation will provide directors with protection from awards for monetary damages for breaches of their duty of care, it will not eliminate this duty. Accordingly, our certificate of incorporation will have no effect on the availability of equitable remedies such as an injunction or rescission based on a director's breach of his or her duty of care. The provisions of our certificate of incorporation described above apply to an officer of Guild only if he or she is a director of Guild and is acting in his or her capacity as director, and do not apply to officers of Guild who are not directors.

Indemnification of Directors, Officers and Employees

Our certificate of incorporation and our bylaws will require us to indemnify any person who was or is a party or is threatened to be made a party to or is otherwise involved in any threatened, pending or completed action, suit or proceeding by reason of the fact that he or she is or was a director or officer of Guild, or is or was serving at the request of Guild as a director, officer, trustee, employee or agent of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to employee benefit plans maintained or sponsored by Guild, against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid or to be paid in settlement) incurred or suffered by such person in connection with such proceeding if the person acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of Guild and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

We will be authorized under our certificate of incorporation and our bylaws to purchase and maintain insurance to protect Guild and any current or former director, officer, employee or agent of Guild or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not Guild would have the power to indemnify such person against such expense, liability or loss under the DGCL.

We intend to enter into an indemnification agreement with each of our directors and officers. The indemnification agreements will provide that we will indemnify each indemnitee to the fullest extent permitted by the DGCL from and against all loss and liability suffered and expenses, judgments, fines and amounts paid in settlement incurred in connection with defending, investigating or settling any threatened, pending or completed action, suit or proceeding related to the indemnitee's service with the Company. Additionally, we will agree to advance to the indemnitee expenses incurred in connection therewith.

The limitation of liability and indemnification provisions in these indemnification agreements and our certificate of incorporation and bylaws may discourage stockholders from bringing a lawsuit against our directors for breach of fiduciary duty. These provisions also may reduce the likelihood of derivative litigation against our directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. In addition, your investment in our Class A common stock may be adversely affected to the extent we pay the costs of settlement and damage awards under these indemnification provisions.

Exclusive Forum

Our certificate of incorporation will provide that, unless the Board of Directors otherwise determines, the state courts located within the State of Delaware or, if no state court located in the State of Delaware has

jurisdiction, the federal court for the District of Delaware will be the sole and exclusive forum for any derivative action or proceeding brought on behalf of Guild, any action asserting a claim of breach of a fiduciary duty owed by any director or officer of Guild to Guild or our stockholders, any action asserting a claim against Guild or any director or officer of Guild arising pursuant to any provision of the DGCL or our certificate of incorporation or bylaws, or any action asserting a claim against Guild or any director or officer of Guild governed by the internal affairs doctrine. Under our certificate of incorporation, to the fullest extent permitted by law, this exclusive forum provision will apply to all actions asserting covered Delaware state law claims, including any other claims, such as federal securities law claims, that a stockholder chooses to bring in the same action, although stockholders will not be deemed to have waived our compliance with the federal securities laws and the rules and regulations thereunder. This exclusive forum provision does not apply to actions that do not assert any covered Delaware state law claims, such as, for example, any action asserting solely federal securities law claims, and the enforceability of similar choice of forum provisions in other companies' organizational documents has been challenged in legal proceedings and it is possible that, in connection with claims arising under federal securities laws or otherwise, a court could find this exclusive forum provision to be inapplicable or unenforceable.

Authorized but Unissued Shares

Our authorized but unissued shares of common stock and preferred stock will be available for future issuance without your approval. We may use additional shares for a variety of purposes, including future public offerings to raise additional capital, to fund acquisitions and as employee compensation. The existence of authorized but unissued shares of common stock and preferred stock could render more difficult or discourage an attempt to obtain control of Guild by means of a proxy contest, tender offer, merger or otherwise.

Registration Rights

In connection with the reorganization transactions and prior to the consummation of this offering, we intend to enter into the Registration Rights Agreement, pursuant to which each of MCMI and the other stockholders party thereto will be entitled to require the registration of the sale of certain or all shares of our Class A common stock (or, in the case of MCMI, shares of our Class A common stock received upon conversion of shares of our Class B common stock) that they beneficially own. See "*Certain Relationships and Related Party Transactions—Registration Rights Agreement*" for more information.

Transfer Agent and Registrar

The transfer agent and registrar for our Class A common stock will be Computershare Trust Company, N.A.

Listing

We intend to apply to list our Class A common stock on the NYSE under the symbol "GHLD."

SHARES ELIGIBLE FOR FUTURE SALE

Prior to this offering, there was no public market for our Class A common stock. Future sales of substantial amounts of our common stock in the public market, or the perception that such sales may occur, could adversely affect the market price of the Class A common stock. Although we intend to apply to list our Class A common stock on the NYSE, we cannot assure you that there will be an active public market for the Class A common stock.

After the reorganization transactions and upon the closing of this offering, we will have outstanding an aggregate of shares of our Class A common stock. Of these shares, shares of our Class A common stock sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except for any shares purchased by our "affiliates," as that term is defined in Rule 144 under the Securities Act and any shares purchased in this offering by participants in our reserved share program who are subject to lock-up restrictions, whose sales would be subject to the restrictions described below. After the reorganization transactions and upon the closing of this offering, we will also have outstanding an aggregate of shares of our Class B common stock, which are subject to conversion into shares of our Class A common stock as described in the section of this prospectus entitled "*Description of Capital Stock*."

The remaining shares of our Class A common stock outstanding upon completion of this offering will be "restricted securities," as that term is defined in Rule 144 under the Securities Act. These restricted securities are eligible for public sale only if they are registered under the Securities Act or if they qualify for an exemption from registration under Rules 144 or 701 under the Securities Act, which are summarized below.

Subject to the lock-up agreements described below and the provisions of Rules 144 and 701 under the Securities Act, these restricted securities will be available for sale in the public market as follows:

whether any transaction described in clause (i) or (ii) above is to be settled by delivery of common stock, other capital stock or other securities convertible into or exercisable or exchangeable for common stock or other capital stock, in cash or otherwise, or publicly announce any intention to do any of the foregoing. Shares of our Class A common stock purchased by any of our directors or executive officers in this offering would also be subject to the foregoing restrictions on transfer, as well as restrictions on disposition imposed by applicable law.

These agreements are subject to certain exceptions, as described in the section of this prospectus entitled "*Underwriting*."

Upon the expiration of the lock-up period described above, substantially all of the shares subject to suchlock-up restrictions will become eligible for sale, subject to the limitations discussed above.

Rule 144

Affiliate Resales of Restricted Securities

In general, beginning 90 days after the effective date of the registration statement for this offering, a person who is an affiliate of ours, or who was an affiliate at any time during the 90 days before a sale, who has beneficially owned shares of our Class A common stock for at least six months would be entitled to sell in "broker's transactions" or certain "riskless principal transactions" or to market makers, a number of shares within any three-month period that does not exceed the greater of:

- 1% of the total number of then-outstanding shares of the class of security sold, which will equal, immediately after this offering, approximately shares of our Class A common stock; or
- the average weekly trading volume in the class of security sold on the during the four calendar weeks preceding the filing of a notice on Form 144 with respect to such sale.

Affiliate resales under Rule 144 are also subject to the availability of current public information about us.

Non-Affiliate Resales of Restricted Securities

In general, beginning 90 days after the effective date of the registration statement for this offering, a person who is not an affiliate of ours at the time of sale, and has not been an affiliate at any time during the three months preceding a sale, and who has beneficially owned shares of our Class A common stock for at least six months but less than a year, is entitled to sell such shares subject only to the availability of current public information about us. If such person has held our shares for at least one year, such person can resell under Rule 144(b)(1) without regard to any Rule 144 restrictions, including the 90-day public company requirement and the current public information requirement.

Non-affiliate resales are not subject to the manner of sale, volume-limitation or notice-filing provisions of Rule 144.

Rule 701

In general, under Rule 701, any of our employees, directors, officers, consultants or advisors who purchased shares from us in connection with a compensatory stock or option plan or other written agreement before the effective date of a registration statement under the Securities Act are entitled to sell such shares 90 days after such effective date in reliance on Rule 144. An affiliate of ours can resell shares in reliance on Rule 144 without having to comply with the holding-period requirement, and a non-affiliate of ours can resell shares in reliance on Rule 144 without having to comply with the current public information and holding-period requirements.

The SEC has indicated that Rule 701 will apply to typical stock options granted before we become subject to the reporting requirements of the Exchange Act, along with the shares acquired upon exercise of such options, including exercises after we become subject to the reporting requirements of the Exchange Act.

Equity Plans

We intend to file one or more registration statements on FormS-8 under the Securities Act to register all shares of our Class A common stock issued or issuable under the 2020 Plan. We expect to file that registration statement or registration statements after the date of this prospectus, permitting the resale of such shares by non-affiliates in the public market without restriction under the Securities Act and the sale by affiliates in the public market, subject to compliance with the resale provisions of Rule 144, in each case subject to the lock-up agreements described above.

Registration Rights

Upon the closing of this offering, MCMI and the holders of outstanding shares of our Class A common stock will be entitled to various rights with respect to the registration of their shares of our Class A common stock (or, in the case of MCMI, shares of our Class A common stock received upon conversion of shares of our Class B common stock) under the Securities Act. Registration of these shares under the Securities Act would result in these shares becoming fully tradable without restriction under the Securities Act immediately upon the effectiveness of the registration statement for this offering, except for shares held by affiliates. See "*Certain Relationships and Related Party Transactions—Registration Rights Agreement*" for additional information. Shares covered by a registration statement will be eligible for sale in the public market upon the expiration or release from the terms of the lock-up agreements described above.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS OF CLASS A COMMON STOCK

The following is a general discussion of material U.S. federal income tax considerations with respect to the ownership and disposition of shares of our Class A common stock applicable to non-U.S. holders (as defined below) who acquire such shares in this offering and hold such shares as a capital asset within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the "Code") (generally, property held for investment). For purposes of this discussion, a "non-U.S. holder" means a beneficial owner of our Class A common stock (other than an entity or arrangement that is treated as a partnership for U.S. federal income tax purposes) that is not, for U.S. federal income tax purposes, any of the following:

- an individual citizen or resident of the United States;
- a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in the United States or under the laws of the United States, any state thereof or the District of Columbia;
- an estate, the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or
- a trust if (i) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (ii) such trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person for U.S. federal income tax purposes.

This discussion is based on current provisions of the Code, the U.S. Treasury regulations promulgated thereunder, judicial opinions, published positions of the IRS and other applicable authorities, each as in effect as of the date hereof. All of these authorities are subject to change and differing interpretations, possibly with retroactive effect, and any such change or differing interpretation could result in U.S. federal income tax consequences different from those discussed below. This discussion does not apply to holders that are not non-U.S. holders as defined above. This discussion does not address all aspects of U.S. federal income taxation that may be relevant to a particular non-U.S. holder in light of such non-U.S. holder's individual circumstances or that may be applicable to non-U.S. holders subject to special treatment under the U.S. federal income tax laws (such as, for example, insurance companies, tax-exempt organizations, banks or other financial institutions, brokers or dealers in securities, traders that elect mark-to-market treatment, "controlled foreign corporations," "passive foreign investment companies," partnerships (or other entities or arrangements treated as partnerships) for U.S. federal income tax purposes or other "flow-through" entities or investors therein, certain former citizens or former long-term residents of the United States, non-U.S. holders that hold our Class A common stock as part of a straddle, hedge, constructive sale or conversion transaction or other integrated transaction, and certain U.S. expatriates). This discussion also does not address any considerations under U.S. federal tax laws other than those pertaining to the income tax, nor does it address any considerations under any state, local or non-U.S. tax laws. In addition, this discussion does not address any aspects of the unearned income Medicare contribution tax or any considerations with respect to any withholding required pursuant to the Foreign Account Tax Compliance Act of 2010 (including the U.S. Treasury regulations promulgated thereunder, any intergovernmental agreements entered in connection therewith and any laws, regulations or practices adopted in connection with any such agreement). Prospective investors should consult with their own tax advisors as to the particular tax consequences to them of the ownership and disposition of shares of our Class A common stock, including with respect to the applicability and effect of any U.S. federal, state, local or non-U.S. income or other tax laws or any tax treaty, and any changes (or proposed changes) in tax laws or interpretations thereof.

If a partnership (or other entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds our Class A common stock, the tax treatment of a person treated as a partner in such partnership will generally depend on the status of the partner and the activities of the partnership. Persons who are, for U.S. federal income tax purposes, treated as partners in a partnership holding our Class A

common stock should consult their tax advisors as to the particular U.S. federal income tax consequences applicable to them.

THIS DISCUSSION IS FOR GENERAL INFORMATION PURPOSES ONLY AND IS NOT INTENDED TO CONSTITUTE A COMPLETE DESCRIPTION OF ALL TAX CONSEQUENCES RELATING TO THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR CLASS A COMMON STOCK. PROSPECTIVE HOLDERS OF OUR CLASS A COMMON STOCK SHOULD CONSULT WITH THEIR OWN TAX ADVISORS REGARDING THE PARTICULAR TAX CONSEQUENCES TO THEM OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR CLASS A COMMON STOCK, INCLUDING WITH RESPECT TO THE APPLICABILITY AND EFFECT OF ANY U.S. FEDERAL, STATE, LOCAL OR NON-U.S. INCOME AND OTHER TAX LAWS.

Dividends

In general, subject to the discussion below regarding "effectively connected" dividends, any distribution we make to a non-U.S. holder with respect to shares of our Class A common stock that constitutes a dividend for U.S. federal income tax purposes will be subject to U.S. withholding tax at a rate of 30% of the gross amount, unless the non-U.S. holder is eligible for an exemption from, or a reduced rate of, such withholding tax under an applicable income tax treaty and the non-U.S. holder provides proper certification of its eligibility for such exemption or reduced rate. A distribution with respect to shares of our Class A common stock will constitute a dividend for U.S. federal income tax purposes to the extent of our current or accumulated earnings and profits as determined for U.S. federal income tax purposes. Any distribution not constituting a dividend will be treated first as reducing the adjusted tax basis in the non-U.S. holder's shares of our Class A common stock and then, to the extent it exceeds the adjusted tax basis in the non-U.S. holder's shares of our Class A common stock, as gain from the sale or exchange of such stock. Any such gain will be subject to the treatment described below under "*—Gain on Sale or Other Disposition of Class A Common Stock*."

Dividends we pay to a non-U.S. holder with respect to shares of our Class A common stock that are effectively connected with the conduct by such non-U.S. holder of a trade or business within the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or a fixed base of such non-U.S. holder in the United States) generally will not be subject to U.S. withholding tax, as described above, if the non-U.S. holder complies with applicable certification and disclosure requirements. Instead, such dividends generally will be subject to U.S. federal income tax on a net income basis, at regular U.S. federal income tax rates, generally in the same manner as if the non-U.S. holder were a United States person as defined under the Code. Any such "effectively connected" dividends received by a foreign corporation for U.S. federal income tax purposes may be subject to an additional "branch profits tax" at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty).

Gain on Sale or Other Disposition of Class A Common Stock

Subject to the discussion below under the heading "*—Backup Withholding, Information Reporting and Other Reporting Requirements*," in general, a non-U.S. holder will not be subject to U.S. federal income tax on any gain realized upon the sale or other disposition of the non-U.S. holder's shares of our Class A common stock unless:

- the gain is effectively connected with a trade or business conducted by the non-U.S. holder within the United States (or, if required by an applicable income tax treaty, is attributable to a permanent establishment or a fixed base of such non-U.S. holder in the United States);
- the non-U.S. holder is an individual and is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are met; or
- we are or have been a U.S. real property holding corporation (which we refer to as a "USRPHC") for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of such disposition or such non-U.S. holder's holding period of such shares of our Class A common stock.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis, at regular U.S. federal income tax rates, generally in the same manner as if the non-U.S. holder were a United States person as defined under the Code. If the non-U.S. holder is a foreign corporation for U.S. federal income tax purposes, the branch profits tax described above also may apply to such effectively connected gain.

An individual non-U.S. holder described in the second bullet point above generally will be subject to a flat 30% tax (unless the non-U.S. holder is eligible for a lower rate under an applicable income tax treaty) on the gain from such sale or other disposition, which may be offset by United States source capital losses, if any, of the non-U.S. holder.

We believe we are not, and do not anticipate becoming, a USRPHC for U.S. federal income tax purposes. However, no assurance can be given that we are not or will not become a USRPHC. If we were or were to become a USRPHC, however, any gain recognized on a sale or other disposition of our Class A common stock by a non-U.S. holder that did not own (directly, indirectly or constructively) more than 5% of our Class A common stock during the applicable period would not be subject to U.S. federal income tax, provided that our Class A common stock is "regularly traded on an established securities market" (within the meaning of Section 897(c)(3) of the Code).

Non-U.S. holders should consult their tax advisors regarding potentially applicable income tax treaties that may provide for different rules than those described above.

Backup Withholding, Information Reporting and Other Reporting Requirements

We must report annually to the IRS and to each non-U.S. holder the amount of distributions paid to such non-U.S. holder and the tax withheld with respect to such distributions. These reporting requirements apply regardless of whether withholding was reduced or eliminated by an applicable income tax treaty. Copies of any such information returns may also be made available to the tax authorities in the country in which the non-U.S. holder resides or is established under the provisions of an applicable income tax treaty or agreement.

A non-U.S. holder will generally be subject to backup withholding (currently at a rate of 24%) on dividends paid with respect to such non-U.S. holder's shares of our Class A common stock unless such holder certifies under penalties of perjury that, among other things, it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that such holder is a United States person as defined under the Code).

Information reporting and backup withholding generally are not required with respect to any proceeds from the sale or other disposition of our Class A common stock by a non-U.S. holder outside of the United States through a foreign office of a foreign broker that does not have certain specified connections to the United States. However, if a non-U.S. holder sells or otherwise disposes of its shares of our Class A common stock through a U.S. broker or the U.S. offices of a foreign broker, the broker will generally be required to report the amount of proceeds paid to the non-U.S. holder to the IRS, and may also be required to backup withhold on such proceeds unless such non-U.S. holder certifies under penalties of perjury that, among other things, it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that such holder is a United States person as defined under the Code). Information reporting will also apply if a non-U.S. holder sells its shares of our Class A common stock through a foreign broker with certain specified connections to the United States, unless such broker has documentary evidence in its records that such non-U.S. holder is a non-United States person and certain other conditions are met, or such non-U.S. holder otherwise establishes an exemption (and the payor does not have actual knowledge or reason to know that such holder is a United States person as defined under the Code).

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder can be credited against the non-U.S. holder's U.S. federal income tax liability, if any, or refunded, provided that the required information is furnished to the IRS in a timely manner. Non-U.S. holders should consult their tax advisors regarding the application of the information reporting and backup withholding rules to them.

UNDERWRITING

The selling stockholders are offering the shares of our Class A common stock described in this prospectus through a number of underwriters. We and the selling stockholders intend to enter into an underwriting agreement with the underwriters with respect to the shares of our Class A common stock offered hereby, for which Wells Fargo Securities, LLC , BofA Securities, Inc. and J.P. Morgan Securities LLC are acting as the representatives. Subject to the terms and conditions of the underwriting agreement, the selling stockholders have agreed to sell to the underwriters, and each underwriter has severally and not jointly agreed to purchase, at the public offering price less the underwriting discounts and commissions set forth on the front cover of this prospectus, the number of shares of our Class A common stock listed next to its name in the following table:

Underwriter[55]	Number of Shares
Wells Fargo Securities, LLC	
BofA Securities, Inc.	
J.P. Morgan Securities LLC	
JMP Securities LLC	
C.L. King & Associates, Inc.	
Compass Point Research & Trading, LLC	
Total	

The underwriting agreement provides that the obligations of the underwriters to purchase the shares of our Class A common stock included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are committed to purchase all of the shares of our Class A common stock offered by the selling stockholders if they purchase any shares (other than those covered by the option to purchase additional shares described below). The underwriting agreement also provides that, if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated.

The underwriters propose to offer the shares of our Class A common stock directly to the public at the public offering price set forth on the front cover of this prospectus and to certain dealers at that price less a concession not in excess of $ per share. After the public offering of the shares, the offering price and other selling terms may be changed by the underwriters. Sales of shares made outside of the United States may be made by affiliates of the underwriters.

The selling stockholders have granted a 30-day over-allotment option to the underwriters to purchase up to a total of additional shares of our Class A common stock at the public offering price per share less the underwriting discounts and commissions per share, as set forth on the front cover of this prospectus. If the underwriters exercise this over-allotment option in whole or in part, then the underwriters will be severally committed, subject to the conditions described in the underwriting agreement, to purchase the additional shares of our Class A common stock in proportion to their respective commitments set forth in the prior table.

The underwriting fee is equal to the public offering price per share of our Class A common stock less the amount paid by the underwriters to the selling stockholders per share of our Class A common stock. The underwriting fee is $ per share. The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters assuming both no exercise and full exercise of the underwriters' over-allotment option to purchase additional shares.

		Total	
	Per Share	No Exercise	Full Exercise
Public offering price	$	$	$
Underwriting discounts and commissions to be paid by the selling stockholders	$	$	$
Proceeds, before expenses, to the selling stockholders	$	$	$

We estimate that the total expenses of this offering payable by us, including registration, filing and listing fees, printing fees and legal and accounting expenses will be approximately $. We have agreed to reimburse the underwriters for up to $ of expenses related to the review of this offering by the Financial Industry Regulatory Authority, Inc.

A prospectus in electronic format may be made available on the websites maintained by one or more underwriters participating in the offering. The underwriters may agree to allocate a number of shares to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters that may make internet distributions on the same basis as other allocations.

We, the selling stockholders and each of our directors and executive officers have agreed, subject to certain exceptions, that, without the prior written consent of Wells Fargo Securities, LLC, BofA Securities, Inc. and J.P. Morgan Securities LLC, we and they will not, during the period beginning on and including the date of this prospectus through and including the date that is the day after the date of the underwriting agreement, directly or indirectly:

Determination of Offering Price

Prior to this offering, there has been no public market for shares of our Class A common stock. The initial public offering price per share of our Class A common stock will be determined by negotiations among us, the selling stockholders and the representatives of the underwriters. In determining the initial public offering price, we, the selling stockholders and the representatives of the underwriters expect to consider a number of factors including:

- the information presented in this prospectus and otherwise available to the underwriters;
- the history of and prospects for the industry in which we will compete;
- prevailing market conditions;
- our historical performance;
- estimates of our business potential and earnings prospects;
- the ability of our management;
- the recent market prices of, and the demand for, publicly traded common stock of generally comparable companies; and
- other factors deemed relevant by the underwriters, the selling stockholders and us.

We offer no assurances that the initial public offering price will correspond to the price at which the shares of our Class A common stock will trade in the public market subsequent to the offering or that an active trading market for the shares of our Class A common stock will develop and continue after the offering.

Stabilization, Short Positions

In connection with this offering, the underwriters may purchase and sell shares of our Class A common stock in the open market. These transactions may include short sales, purchases to cover short positions, which may include purchases pursuant to the over-allotment option to purchase additional shares, syndicate covering transactions and stabilizing transactions. Short sales involve syndicate sales of shares in excess of the number of shares to be purchased by the underwriters in this offering, which creates a syndicate short position. "Covered" short sales are sales of shares made in an amount up to the number of shares represented by the underwriters' over-allotment option. In determining the source of shares to close out the covered syndicate short position, the underwriters may consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. Transactions to close out the covered syndicate short position involve either purchases of the shares in the open market after the distribution has been completed or the exercise of the over-allotment option. The underwriters may also make "naked" short sales of shares in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of bids for or purchases of shares in the open market while this offering is in progress.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the representatives repurchase shares originally sold by that syndicate member in order to cover syndicate short positions or make stabilizing purchases.

Any of these activities may have the effect of preventing or retarding a decline in the market price of shares of our Class A common stock. They may also cause the price of shares of our Class A common stock to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions on the NYSE or in the over-the-counter market, or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

Reserved Share Program

At our request, the underwriters have reserved for sale up to shares, or up to 5% of the shares of our Class A common stock being offered by this prospectus, for the sale at the initial public offering to persons who are directors, officers, employees or who are otherwise associated with Guild through a reserved share program. The number of shares of our Class A common stock available for sale to the general public will be reduced to the extent that such persons purchase such reserved shares. Any reserved shares not so purchased will be offered by the underwriters to the general public on the same basis as the other shares offered by this prospectus. Merrill Lynch, Pierce, Fenner & Smith Incorporated will administer our reserved share program.

Relationships

The underwriters are full-service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. The underwriters and their respective affiliates may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business, for which they may receive customary fees and reimbursement of

expenses. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except as otherwise indicated)
(unaudited)

1. BUSINESS, BASIS OF PRESENTATION, AND ACCOUNTING POLICIES

The accompanying condensed consolidated financial statements include all of the assets, liabilities and results of operations of Guild Mortgage Company (the "Company" or "Guild" or "our"), a California corporation, and all of its wholly owned subsidiaries. The Company has four wholly owned subsidiaries; Guild Administration Corp., Mission Village Insurance Agency, Guild Insurance, LLC and Guild Financial Express, Inc. The activities of the subsidiaries are related to the Company's mortgage banking operations. All intercompany accounts and transactions have been eliminated in consolidation. The Company is a wholly owned subsidiary of Guild Mortgage Company, LLC ("GMC LLC"), a privately owned California limited liability company.

The accompanying condensed consolidated financial statements have been prepared in connection with the proposed initial public offering (the "Offering") of Class A common stock of Guild Holdings Company, a Delaware corporation ("Holdings"). Prior to the completion of the Offering, GMC LLC will contribute 100% of the shares of the Company to Holdings and the Company will be converted to a California limited liability company. As a result, Holdings is expected to become the sole member of the Company prior to the completion of the Offering.

Basis of Presentation

Our condensed consolidated financial statements are unaudited and presented in U.S. dollars. They have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. Our Consolidated Balance Sheet as of December 31, 2019 has been derived from our audited consolidated financial statements at that date. Our condensed consolidated interim financial statements should be read in conjunction with our consolidated financial statements and notes thereto for the year ended December 31, 2019, which include a complete set of footnote disclosures, including our significant accounting policies. In our opinion, these condensed consolidated financial statements include all normal and recurring adjustments considered necessary for a fair statement of our results of operations, financial position and cash flows for the periods presented. However, our results of operations for any interim period are not necessarily indicative of the results that may be expected for a full fiscal year or for any other future period.

Management Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could materially differ from those estimates.

Subsequent Events

The Company has evaluated subsequent events from the balance sheet date through August 21, 2020, the date on which the financial statements were issued. In March 2020, the World Health Organization ("WHO") declared the outbreak of a novel coronavirus (COVID-19) as a pandemic, which continues to spread throughout the United States. Through August 21, 2020 the Company remains fully functional in both its origination and servicing operations. While the pandemic could cause for certain branches to

(Dollars in thousands, except as otherwise indicated)

temporarily close, most of the significant job functions can be performed remotely. The Company has taken steps to ensure business can continue as necessary should branches be forced to temporarily close. The Company continues to monitor guidance published by the WHO, Centers for Disease Control and Prevention, local and federal government agencies and the Mortgage Bankers Association and is in continual communication with its investors regarding the developments in the mortgage industry.

Cash, Cash Equivalents and Restricted Cash

Restricted cash as of June 30, 2020 and June 30, 2019 consisted of deposits restricted under the terms of our warehouse lines of credit.

	June 30, 2020	June 30, 2019
Cash and cash equivalents	$ 144,936	$ 73,068
Restricted cash	3,526	4,000
Total cash, cash equivalents and restricted cash shown in the Condensed Consolidated Statements of Cash Flows	$ 148,462	$ 77,068

Derivative Instruments

The Company enters into interest rate lock commitments ("IRLCs"), forward commitments to sell mortgage loans and to be announced trades, which are considered derivative financial instruments. These items are accounted for as free-standing derivatives and are included in the Condensed Consolidated Balance Sheets at fair value. The Company treats all of its derivative instruments as economic hedges; therefore, none of its derivative instruments qualify for designation as accounting hedges.

The Company enters into IRLCs to originate residential mortgage loans at specified interest rates and within a specified period of time, with customers who have applied for a loan and meet certain credit and underwriting criteria. IRLCs on mortgage loans in process that have not closed, but are intended to be sold, are considered to be derivatives and changes in fair value are recorded in the Condensed Consolidated Statements of Income as part of Loan Origination Fees and Gain on Sale of Loans, net. Fair value is based upon changes in the fair value of the underlying mortgages, estimated to be realizable upon sale into the secondary market, net of estimated commission expenses. Fair value estimates also consider loan commitments not expected to be exercised by customers for unforeseen reasons, commonly referred to as "fallout".

IRLCs and uncommitted mortgage loans held for sale expose the Company to the risk that the value of the mortgage loans held and mortgage loans underlying the commitments may decline due to increases in mortgage interest rates during the life of the commitments. To protect against this risk, the Company enters into derivative loan instruments such as forward loan sales commitments, mandatory delivery commitments, options and futures contracts. Management expects the changes in the fair value of these derivatives to have a negative correlation to the changes in fair value of the derivative loan commitments and mortgage loans held for sale, thereby reducing earnings volatility. The changes in fair value are recorded in the Condensed Consolidated Statements of Income as part of Loan Origination Fees and Gain on Sale of Loans, net. The Company considers various factors and strategies to determine the portion of the mortgage pipeline and mortgage loans held for sale it wants to economically hedge. See *Notes 2 and 5* for additional information.

Escrow and Fiduciary Fund

As a loan servicer, the Company maintains segregated bank accounts in trust for investors and escrow balances for mortgagors, which are excluded from the Company's Condensed Consolidated Balance Sheet. These accounts totaled $1.4 billion and $1.0 billion at June 30, 2020 and December 31, 2019, respectively.

Risks and Uncertainties

In the normal course of business, companies in the mortgage banking industry encounter certain economic, liquidity, and regulatory risks.

Economic risk includes interest rate risk and credit risk.

Interest rate risk

The Company's mortgage loans held for sale, commitments to originate loans, and mortgage servicing rights are subject to interest rate risk. For mortgage loans held for sale and commitments to originate loans, to the extent that a rising interest rate environment exists, the Company may experience a decrease in loan production and decreases in value, which may negatively impact the Company's operations. To mitigate this risk the Company uses hedging strategies designed to ensure any fluctuations in rates would not have a material impact on the Company's financial position. For the Company's mortgage servicing rights, to the extent that a declining interest rate environment exists, the Company may experience decreases in the fair value of the portfolio, which may negatively impact the Company's financial position. For the periods ended June 30, 2020 and June 30, 2019, the Company experienced material declines in the valuation of its MSR portfolio due to significant declines in interest rates. Since the Company also has a large origination platform, the Company was able to mitigate this risk by recapturing a significant portion of the runoff through refinances.

Credit risk

Credit risk is the risk of default that may result from borrowers' inability or unwillingness to make contractually required payments during the period in which loans are being held for sale. The Company considers credit risk associated with these loans to be insignificant as it holds the loans for a short period of time, typically less than a month, and historically the Company has not experienced any material losses due to credit risk on mortgage loans held for sale.

The Company sells loans to investors without recourse. As such, the investors have assumed the risk of loss or default by the borrower. However, the Company is usually required by these investors to make certain standard representations and warranties relating to credit information, loan documentation and collateral. To the extent that the Company does not comply with such representations, or there are early payment defaults, the Company may be required to repurchase the loans or indemnify these investors for any losses from borrower defaults, defects in the collateral or errors made in the credit decision.

The Company is also subject to counterparty credit risk in the event of contractual nonperformance by its trading counterparties to its various over-the-counter derivative financial instruments. The Company manages this credit risk by selecting only counterparties that it believes to be financially strong, spreading the credit risk among many such counterparties, placing contractual limits on the amount of unsecured credit extended to any single counterparty, and entering into netting agreements with the counterparties as appropriate. The master netting agreements contain a legal right to offset amounts due to and from the same counterparty. Derivative assets in the Condensed Consolidated Balance Sheets represent derivative contracts in a gain position net of loss positions with the same counterparty and, therefore, also represent

the Company's maximum counterparty credit risk. The Company incurred no credit losses due to nonperformance of any of its counterparties during the periods ended June 30, 2020 and 2019.

Liquidity risk

The Company encounters liquidity risk as the business requires substantial cash to support its operating activities. As a result, the Company is dependent on its lines of credit, and other financing facilities in order to finance its continued operations. If the Company's principal lenders decided to terminate or not to renew these credit facilities with the Company, the loss of borrowing capacity could have an adverse impact on the Company's financial statements unless the Company found a suitable alternative source. To mitigate this risk, the Company has multiple financing facilities with different lenders and varied maturity dates. Historically, the Company has not had a line of credit involuntarily terminated by a lender.

Regulatory risk

The Company is subject to extensive and comprehensive regulation under federal, state and local laws in the United States. These laws and regulations significantly affect the way in which the Company does business and can restrict the scope of the Company's existing business and limit the Company's ability to expand product offerings or pursue acquisitions, or can make costs to service or originate loans higher, which could impact financial results. The Company continually monitors its regulatory environment for any changes that could have a significant impact on operations.

Accounting Standards Issued but Not Yet Adopted

As an emerging growth company ("EGC"), the Jumpstart Our Business Startups Act ("JOBS Act") allows the company to delay adoption of new or revised accounting pronouncements applicable to public companies until such pronouncements are applicable to private companies. The company has elected to use the extended transition period under the JOBS Act until such time the company is not considered to be an EGC. The adoption dates are discussed below to reflect this election.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). This update amends various aspects of existing guidance for leases and requires additional disclosures about leasing arrangements. It will require companies to recognize lease assets and lease liabilities by lessees for those leases classified as operating leases under previous GAAP. Topic 842 retains a distinction between finance leases and operating leases. The classification criteria for distinguishing between finance leases and operating leases are substantially similar to the classification criteria for distinguishing between capital leases and operating leases in the previous lease guidance. In November 2019, the FASB issued ASU 2019-10 which extended the effective date of ASU 2016-02. The new guidance will be effective for the Company beginning January 1, 2021 and early adoption is permitted. The Company is currently in the process of evaluating the impact of the adoption of the new guidance on its financial statements.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments—Credit Losses (Topic 326).* This update requires expected credit losses for financial instruments held at the reporting date to be measured based on historical experience, current conditions and reasonable and supportable forecasts. The update eliminates the probable initial recognition threshold in current GAAP and instead reflects an entity's current estimate of all expected credit losses. Previously, when credit losses were measured under GAAP, an entity generally only considered past events and current conditions in measuring the incurred loss. In November 2019, the FASB issued ASU 2019-10 which extended the effective date of ASU 2016-13. The new guidance will be effective for the Company beginning January 1, 2023 and early adoption is permitted.

GUILD MORTGAGE COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except as otherwise indicated)

The Company is currently in the process of evaluating the impact of the adoption of the new guidance on its financial statements.

In August 2018, the FASB issued ASU2018-15*, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 35-40).* This update provides guidance on accounting for a cloud computing arrangement that includes a license to internal-use software. This generally means that an intangible asset is recognized for the software license and, to the extent that the payments attributable to the software license are made over time, a liability also is recognized. If a cloud computing arrangement does not include a software license, the entity should account for the arrangement as a service contract which would generally mean to expense the service as incurred. The new guidance will be effective for the Company beginning January 1, 2021 and early adoption is permitted. The Company is currently in the process of evaluating the impact of the adoption of the new guidance on its financial statements.

In December 2019, the FASB issued ASU2019-12, *Income Taxes (Topic 740).* This update provides amendments to simplify and reduce complexity when accounting for income taxes as well as eliminating certain exceptions. The new guidance will be effective for the Company beginning January 1, 2022 with early adoption permitted. The Company is currently in the process of evaluating the impact of the adoption of the new guidance on its financial statements.

In March 2020, the FASB issued ASUNo. 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. Subject to meeting certain criteria, the new guidance provides optional expedients and exceptions to applying contract modification accounting under existing GAAP, to address the expected phase out of the London Inter-bank Offered Rate ("LIBOR") by the end of 2021. This guidance is effective upon issuance and allows application to contract changes as early as January 1, 2020. The Company is in the process of reviewing its funding facilities and financing facilities that utilize LIBOR as the reference rate and is currently evaluating the potential impact that the adoption of this ASU will have on the condensed consolidated financial statements and related disclosures.

2. FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Inputs used to measure fair value are prioritized within a three-level fair value hierarchy. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level One – Level One inputs are unadjusted, quoted prices in active markets for identical assets or liabilities which the Company has the ability to access at the measurement date.

Level Two – Level Two inputs are observable for that asset or liability, either directly or indirectly, and include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, observable inputs for the asset or liability other than quoted prices and inputs derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the inputs must be observable for substantially the full term of the asset or liability.

Level Three – Level Three inputs are unobservable inputs for the asset or liability that reflect the Company's assessment of the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, and are developed based on the best information available.

GUILD MORTGAGE COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except as otherwise indicated)

The Company's assets and liabilities are carried at cost, and because of theirshort-term nature, are believed to approximate current fair value, with the exception of mortgage loans held for sale, mortgage servicing rights, derivatives, real estate owned, Government National Mortgage Association ("GNMA") loans subject to repurchase right and contingent liabilities due to acquisitions.

The Company updates the valuation of each instrument recorded at fair value on a monthly or quarterly basis, evaluating all available observable information which may include current market prices or bids, recent trade activity, changes in the levels of market activity and benchmarking of industry data. The assessment also includes consideration of identifying the valuation approach that would be used currently by market participants. If it is determined that a change in valuation technique or its application is appropriate, or if there are other changes in availability of observable data or market activity, the current methodology will be analyzed to determine if a transfer between levels of the valuation hierarchy is appropriate. Such reclassifications are reported as transfers into or out of a level as of the beginning of the quarter that the change occurs.

Fair value is based on quoted market prices, when available. If quoted prices are not available, fair value is estimated based upon other observable inputs. Unobservable inputs are used when observable inputs are not available and are based upon judgments and assumptions, which are the Company's assessment of the assumptions market participants would use in pricing the asset or liability. These inputs may include assumptions about risk, counterparty credit quality, the Company's creditworthiness and liquidity and are developed based on the best information available. When a determination is made to classify an asset or liability within Level Three of the valuation hierarchy, the determination is based upon the significance of the unobservable factors to the overall fair value measurement of the asset or liability. The fair value of assets and liabilities classified within Level Three of the valuation hierarchy also typically includes observable factors and the realized or unrealized gain or loss recorded from the valuation of these instruments would also include amounts determined by observable factors.

Recurring Fair Value Measurements

The Company's fair value measurements are evaluated within the fair value hierarchy, based on the nature of the inputs used to determine the fair value at the measurement date. At June 30, 2020 and December 31, 2019, the Company had the following assets and liabilities that are measured at fair value on a recurring basis:

Trading Securities – Trading securities are classified within Level One of the valuation hierarchy. Valuation is based upon quoted prices for identical instruments traded in active markets. Level One trading securities include securities traded on active exchange markets, such as the New York Stock Exchange. Trading securities are included within prepaid expenses and other assets on the Condensed Consolidated Balance Sheets.

Derivative Instruments – Derivative instruments are classified within Level Two and Level Three of the valuation hierarchy, and include the following:

Interest Rate Lock Commitments: IRLCs are classified within Level Three of the valuation hierarchy. IRLCs represent an agreement to extend credit to a mortgage loan applicant, or an agreement to purchase a loan from a third-party originator, whereby the interest rate on the loan is set prior to funding. The fair value of IRLCs is based upon the estimated fair value of the underlying mortgage loan, including the expected net future cash flows related to servicing the mortgage loan, net of estimated commission expenses, and adjusted for: (i) estimated costs to complete and originate the loan and (ii) an adjustment to reflect the estimated percentage of IRLCs that will result in a closed

mortgage loan under the original terms of the agreement (pull-through rate). The pull-through rate is considered a significant unobservable input and is estimated based on changes in pricing and actual borrower behavior using a historical analysis of loan closing and fallout data. The average pull-through rate used to calculate the fair value of IRLCs as of June 30, 2020 and December 31, 2019, was 87.2% and 89.4%, respectively. On a quarterly basis, actual loan pull-through rates are compared to the modeled estimates to confirm the assumptions are reflective of current trends. Generally, a change in interest rates is accompanied by a directionally opposite change in the assumption used for the pull-through percentage, and the impact to fair value of a change in pull-through would be partially offset by the related change in price.

Forward Delivery Commitments: Forward delivery commitments are classified within Level Two of the valuation hierarchy. Forward delivery commitments fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market. The fair value of forward delivery commitments is primarily based upon the current agency mortgage-backed security market to-be-announced pricing specific to the loan program, delivery coupon and delivery date of the trade. Best efforts sales commitments are also entered into for certain loans at the time the borrower commitment is made. These best efforts sales commitments are valued using the committed price to the counterparty against the current market price of the IRLC or mortgage loan held for sale.

Option contracts are a type of forward commitment that represents the rights to buy or sellmortgage-backed securities at specified prices in the future. Their value is based upon the underlying current to-be-announced pricing of the agency mortgage-backed security market, and market-based volatility. See *Note 6* for additional information on the derivative instruments.

Mortgage Loans Held for Sale – MLHS are carried at fair value. The fair value of MLHS is based on secondary market pricing for loans with similar characteristics, and as such, is classified as a Level Two measurement. For Level Two MLHS, fair value is estimated through a market approach by using either: (i) the fair value of securities backed by similar mortgage loans, adjusted for certain factors to approximate the fair value of a whole mortgage loan, including the value attributable to servicing rights and credit risk, (ii) current commitments to purchase loans or (iii) recent observable market trades for similar loans, adjusted for credit risk and other individual loan characteristics. The agency mortgage-backed security market is a highly liquid and active secondary market for conforming conventional loans whereby quoted prices exist for securities at the pass-through level and are published on a regular basis. The Company has the ability to access this market and it is the market into which conforming mortgage loans are typically sold.

Mortgage Servicing Rights – Mortgage Servicing Rights ("MSRs") are classified within Level Three of the valuation hierarchy due to the use of significant unobservable inputs and the lack of an active market for such assets. The fair value of MSRs is estimated based upon projections of expected future cash flows considering prepayment estimates, the Company's historical prepayment rates, portfolio characteristics, interest rates based on interest rate yield curves, implied volatility and other economic factors. The Company obtains valuations from an independent third party on a quarterly basis, and records an adjustment based on this third-party valuation.

Contingent Liabilities due to acquisitions– Contingent liabilities represent future obligations of the Company to make payments to the former owners of its acquired companies. The Company determines the fair value of its contingent liabilities using a discounted cash flow approach whereby the Company forecasts the cash outflows related to the future payments, which are based on a percentage of net income specified in the purchase agreements. The Company then discounts these expected payment amounts to calculate the present value, or fair value, as of the valuation date. The

(Dollars in thousands, except as otherwise indicated)

Company's management evaluates the underlying projections used in determining fair value each period and makes updates to these underlying projections.

The Company uses a risk-adjusted discount rate to value the contingent liabilities which is considered a significant unobservable input, and as such, the liabilities are classified as a Level Three measurement. Management's underlying projections adjust for market penetration and other economic expectations, and the discount rate is risk-adjusted for key factors such as uncertainty in the mortgage banking industry due to its reliance on external influences (interest rates, regulatory changes, etc.), upfront payments, and credit risk. An increase in the discount rate will result in a decrease in the fair value of the contingent liabilities. Conversely, a decrease in the discount rate will result in an increase in the fair value of the contingent liabilities. For each of the period ended June 30, 2020 and the year ended December 31, 2019, the range of the risk adjusted discount rate was 8.0% - 20.0%, with a median of 15.0%. Adjustments to the fair value of the contingent liabilities (other than payments) are recorded as a gain or loss and are included within general and administrative expenses on the Condensed Consolidated Statements of Income.

Non-Recurring Fair Value Measurements

Certain assets and liabilities that are not typically measured at fair value on a recurring basis may be subject to fair value measurement requirements under certain circumstances. These adjustments to fair value usually result from write-downs of individual assets. At June 30, 2020 and December 31, 2019, the Company had the following financial assets measured at fair value on a nonrecurring basis:

Real Estate Owned — Other assets that are evaluated for impairment using fair value measurements on a nonrecurring basis consist of mortgage loans in foreclosure and REO. The evaluation of impairment reflects an estimate of losses that have been incurred as of the balance sheet date, which will likely not be recoverable from guarantors, insurers or investors. The impairment of mortgage loans in foreclosure, which represents the unpaid principal balance of mortgage loans for which foreclosure proceedings have been initiated, plus recoverable advances on those loans, is based on the fair value of the underlying collateral, determined on a loan level basis, less costs to sell. REO properties, which are acquired from mortgagors in default, are recorded at the lower of adjusted carrying amount at the time the property is acquired or fair value of the property, less estimated selling costs. Fair values of the collateral underlying mortgage loans in foreclosure and REOs are estimated using appraisals and broker price opinions, which are updated on a periodic basis to reflect current housing market conditions. The allowance for probable losses associated with mortgage loans in foreclosure and the adjustment to record REO at their estimated net realizable value are based upon fair value measurements from Level Three of the valuation hierarchy.

Ginnie Mae Loans subject to Repurchase Right – GNMA securitization programs allow servicers to buy back individual delinquent mortgage loans from the securitized loan pool once certain conditions are met. If a borrower makes no payment for three consecutive months, the servicer has the option to repurchase the delinquent loan for an amount equal to 100% of the loan's remaining principal balance. Under ASC 860, this buy-back option is considered a conditional option until the delinquency criteria are met, at which time the option becomes unconditional. The Company records these assets and liabilities at their fair value, which is determined to be the remaining unpaid principal balance. The Company's future expected realizable cash flows are the cash payments of the remaining unpaid

principal balance whether paid by the borrower or reimbursed through a claim filed with the U.S. Department of Housing and Urban Development ("HUD") HUD. The Company considers the fair value of these assets and liabilities to fall into the Level Two bucket in the valuation hierarchy due to the assets and liabilities having specified contractual terms and the inputs are observable for substantially the full term of the assets and liabilities life.

There were no transfers between fair value levels during the periods ended June 30, 2020 and 2019.

Fair Value Option

The following is the estimated fair value and unpaid principal balance of MLHS that have contractual principal amounts and for which the Company has elected the fair value option. The fair value option was elected for MLHS as the Company believes fair value best reflects their expected future economic performance:

5. DERIVATIVE FINANCIAL INSTRUMENTS

The Company uses forward commitments in hedging the interest rate risk exposure on its fixed and adjustable rate commitments. The Company's derivative instruments are not designated as hedging instruments, and therefore, changes in fair value are recorded in current period earnings. Hedging gains and losses are included in loan origination fees and gain on sale, net in the Condensed Consolidated Statements of Income.

Net hedging gains were as follows for the six months ended June 30, 2020 and 2019:

	For the six months ended June 30,	
	2020	2019
Hedging gains	$ 98,198	$ 8,191

Notional and Fair Value

The notional and fair value of derivative financial instruments not designated as hedging instruments were as follows at June 30, 2020 and December 31, 2019:

	Notional Value	Derivative Asset	Derivative Liability
Balance at June 30, 2020			
IRLCs	$5,099,963	$ 141,629	$ —

The Company had an additional $763.3 million and $427.7 million of outstanding forward contracts and mandatory sell commitments, comprised of closed loans with equal and offsetting unpaid principal balance ("UPB") amounts allocated to them, at June 30, 2020 and December 31, 2019, respectively. The

Company also had $457.5 million and $376.5 million in closed hedge instruments not yet settled at June 30, 2020 and December 31, 2019, respectively. See *Note 2* for fair value disclosure of the derivative instruments.

The following table presents the quantitative information about IRLCs and the fair value measurements as of June 30, 2020 and December 31, 2019:

	June 30, 2020	December 31, 2019
Unobservable Input	**Range (Weighted Average)**	
Loan funding probability ("pull-through")	0% - 100% (87.2%)	0% - 100% (89.4%)

Counterparty agreements for forward commitments contain master netting agreements. The master netting agreements contain a legal right to offset amounts due to and from the same counterparty. Derivative assets in the Condensed Consolidated Balance Sheets represent derivative contracts in a gain position net of loss positions with the same counterparty and, therefore, also represent the Company's maximum counterparty credit risk. The Company incurred no credit losses due to nonperformance of any of its counterparties during the six months ended June 30, 2020 and 2019.

6. MORTGAGE SERVICING RIGHTS

MSRs are recognized as assets on the Condensed Consolidated Balance Sheet when loans are sold, and the associated servicing rights are retained. The Company maintains one class of MSR asset and has elected the fair value option. To determine the fair value of the servicing right when created, the Company uses a valuation model that calculates the present value of future cash flows. The valuation model incorporates assumptions that market participants would use in estimating future net servicing income, including estimates of contractual service fees, ancillary income and late fees, the cost of servicing, the discount rate, float value, the inflation rate, estimated prepayment speeds, and default rates.

The activity of mortgage servicing rights was as follows for the six months ended June 30, 2020 and 2019:

	For the six months ended June 30,	
	2020	**2019**
Balance — beginning of year	$ 418,402	$ 511,852
MSRs originated	123,095	47,905
Changes in fair value		
Due to collection/realization of cash flows	(53,730)	(29,488)
Due to changes in valuation model inputs or assumptions	(151,080)	(130,734)
Balance — end of period	$ 336,687	$ 399,535

The following table presents the quantitative information for the MSR fair value measurement as of June 30, 2020 and December 31, 2019:

	June 30, 2020	December 31, 2019
Unobservable Input	**Range (Weighted Average)**	
Discount rate	9.2% - 15.5% (10.2%)	9.2% - 15.5% (10.2%)
Prepayment rate	9.4% - 35.6% (22.4%)	8.9% - 30.0% (17.3%)

At June 30, 2020 and December 31, 2019, the MSRs had a weighted average life of approximately 4.2 and 4.9 years, respectively. See *Note 2* for additional information regarding the valuation of MSRs.

Actual revenue generated from servicing activities included contractually specified servicing fees, as well as late fees and other ancillary servicing revenue, which were recorded within loan servicing and other fees as follows for the six months ended June 30, 2020 and 2019:

	For the six months ended June 30,	
	2020	**2019**
Servicing fees from servicing portfolio	$ 74,178	$ 66,109
Late fees	2,635	2,863
Other ancillary servicing revenue	(503)	(535)
Total loan servicing and other fees	$ 76,310	$ 68,437

At June 30, 2020 and December 31, 2019, the unpaid principal balance of mortgage loans serviced totaled $53.9 billion and $50.6 billion, respectively. Conforming conventional loans serviced by the Company are sold to Federal National Mortgage Association ("FNMA") or Federal Home Loan Mortgage Corporation ("FHLMC") programs on a nonrecourse basis, whereby foreclosure losses are generally the responsibility of FNMA and FHLMC and not the Company. Similarly, certain loans serviced by the Company are secured through GNMA programs, whereby the Company is insured against loss by FHA or partially guaranteed against loss by the Department of Veterans Affairs ("VA").

The key assumptions used to estimate the fair value of MSRs are prepayment speeds and the discount rate. Increases in prepayment speeds generally have an adverse effect on the value of MSRs as the underlying loans prepay faster. In a declining interest rate environment, the fair value of MSRs generally decreases as prepayments increase and therefore, the estimated life of the MSRs and related cash flows decrease. Decreases in prepayment speeds generally have a positive effect on the value of MSRs as the underlying loans prepay less frequently. In a rising interest rate environment, the fair value of MSRs generally increases as prepayments decrease and therefore, the estimated life of the MSRs and related cash flows increase. Increases in the discount rate result in a lower MSR value and decreases in the discount rate result in a higher MSR value. MSR uncertainties are hypothetical and do not always have a direct correlation with each assumption. Changes in one assumption may result in changes to another assumption, which might magnify or counteract the uncertainties.

The following table illustrates the impact of adverse changes on the discount rate and prepayment speeds at two different data points at June 30, 2020 and December 31, 2019, respectively:

	Discount Rates		Prepayment Speeds	
	10% Adverse Change	**20% Adverse Change**	**10% Adverse Change**	**20% Adverse Change**

7. Mortgage Loans Held For Sale

The Company sells substantially all of its originated mortgage loans into the secondary market. The Company may retain the right to service some of these loans upon sale through ownership of servicing rights. A reconciliation of the changes in mortgage loans held for sale to the amounts presented in the Condensed Consolidated Statements of Cash Flows is as follows for the six months ended June 30, 2020 and 2019:

	For the six months ended June 30,	
	2020	2019
Balance at the beginning of period	$ 1,504,842	$ 966,171
Origination of mortgage loans held for sale	14,615,843	8,566,696
Proceeds on sale of payments from mortgage loans held for sale	(14,640,672)	(8,466,299)
Gain on sale of mortgage loans excluding fair value of other financial instruments, net	458,596	257,943
Valuation adjustment of mortgage loans held for sale	43,912	9,222
Balance at the end of period	$ 1,982,521	$ 1,333,733

At June 30, 2020, mortgage loans held for sale included unpaid principal balances of the underlying loans of $1.9 billion and had a fair value of $2.0 billion. At December 31, 2019, mortgage loans held for sale included unpaid principal balances of the underlying loans of $1.5 billion and had a fair value of $1.5 billion.

8. Investor Reserves

The Company's estimate of the investor reserves consider the current macro-economic environment and recent repurchase trends; however, if the Company experiences a prolonged period of higher repurchase and indemnification activity, then the realized losses from loan repurchases and indemnifications may ultimately be in excess of the liability. The maximum exposure under the Company's representations and warranties would be the outstanding principal balance and any premium received on all loans ever sold by the Company, less any loans that have already been paid in full by the mortgagee, that have defaulted without a breach of representations and warranties, that have been indemnified via settlement or make-whole, or that have been repurchased. Additionally, the Company may receive relief of certain representations and warranty obligations on loans sold to FNMA or FHLMC on or after January 1, 2013 if FNMA or FHLMC satisfactorily concludes a quality control loan file review or if the borrower meets certain acceptable payment history requirements within 12 or 36 months after the loan is sold to FNMA or FHLMC.

The activity of the investor reserves was as follows for the six months ended June 30, 2020 and 2019:

	For the six months ended June 30,	
	2020	2019
Balance — beginning of year	$ 16,521	$ 14,312
Utilization of reserve for loan losses	(3,688)	(3,933)

(1) The variable interest rate is calculated using a base rate tied to LIBOR, the Eurodollar, or an alternative base rate, plus the applicable interest rate margin. Subsequent to June 30, 2020, the borrowing capacity on this facility has been increased to $800.0 million.

(2) The variable interest rate is calculated using a base rate tied to LIBOR, plus the applicable interest rate margin. This line of credit requires a minimum deposit of $0.75 million.

This line of credit was amended subsequent to June 30, 2020, increasing the required minimum deposit from $2.5 million to $3.5 million and increasing the borrowing capacity to $700.0 million.

(4) The variable interest rate is calculated using a base rate plus LIBOR, with a floor of 1.525%. This line of credit requires a minimum deposit of $1.1 million. Subsequent to June 30, 2020, this line of credit was amended with a maturity date of June 2021 and increased capacity up to $290.0 million.

(5) The variable interest rate is calculated using a base rate tied to LIBOR, plus the applicable interest rate margin. This line of credit was amended subsequent to June 30, 2020, increasing the borrowing capacity to $299.0 million.

(6) The variable interest rate is calculated using a base rate tied to LIBOR, plus the applicable interest rate margin. This borrowing capacity of this facility was increased in 2019 to $400 million. Subsequent to June 30, 2020, this line of credit was amended, extending the maturity date to July 2021.

(7) The variable interest rate is calculated using a base rate tied to LIBOR, plus the applicable interest rate margin with a floor of 1.75%. Subsequent to June 30, 2020, this line of credit was amended increasing the borrowing capacity to $200.0 million.

(8) The interest rate on this facility is 3.375%. This facility was opened in 2019 and is used for GNMA delinquent buyouts. Each buyout represents a separate transaction that can remain on the facility for up to 4 years.

The weighted average interest rate for warehouse lines of credit was 2.72% and 4.04% at June 30, 2020 and December 31, 2019, respectively. All warehouse lines of credit are collateralized by underlying mortgages and related documents. Existing balances on warehouse lines are repaid through the sale proceeds from the collateralized loans held for sale. The Company intends to renew existing warehouse lines prior to expiration. If those lines are not renewed or replaced, that could have a negative impact on the Company's ability to continue funding new mortgage loans. The Company had cash balances of $132.0 million and $68.2 million in its warehouse buy down accounts as offsets to certain lines of credit at June 30, 2020 and December 31, 2019, respectively.

The agreements governing the Company's warehouse lines of credit contain covenants that include certain financial requirements, including maintenance of maximum adjusted leverage ratio, minimum net worth, minimum tangible net worth, minimum current ratio, minimum liquidity, positive quarterly income and limitations on additional indebtedness, dividends, sale of assets, and decline in the mortgage loan servicing portfolio's fair value. At June 30, 2020 and December 31, 2019, management believes the Company was in compliance with all debt covenants.

The Company has an optional short-term financing agreement between FNMA and the lender described as "As Soon As Pooled" (ASAP). The Company can elect to assign FNMA MBS trades to FNMA in advance of settlement and enter into a financing transaction and revenue related to the assignment is deferred until the final pool settlement date. The Company determines utilization based on warehouse availability and cash needs. There was no outstanding balance as of June 30, 2020 and December 31, 2019.

10. Notes Payable

Revolving notes:

In January 2014, the Company entered into an agreement for a revolving note from one of its warehouse banks, which it can draw upon as needed and has renewed on an annual basis. Borrowings on the revolving note are collateralized by the Company's GNMA MSRs. Monthly interest on the outstanding balance is calculated using a base rate tied to the LIBOR rate plus the applicable margin, with a floor of 4.50%. The revolving note also has an unused facility fee on the average unused balance, which is also paid quarterly. The unused facility fee is waived if the average outstanding balance exceeds 70% of the available facility. In June 2020, the Company amended and restated the agreement and the revolving note was increased to a maximum committed amount of $135.0 million. The agreement also allows for the Company to increase the committed amount up to $200.0 million. The revolving note is currently scheduled to expire in June 2022. The Company has the option to convert the outstanding balance of the revolving note into a term note at its discretion. At June 30, 2020 and December 31, 2019, the Company had $85.0 million and $90.0 million, respectively, in outstanding borrowings on this credit facility.

In July 2017, the Company entered into an agreement for a revolving note of up to $25.0 million from one of its warehouse banks, which it can draw upon as needed and has renewed on an annual basis. In July 2018, the Company amended the agreement to increase the revolving note up to $50.0 million. In July 2020, the Company amended the agreement by extending the expiration date to July 2021 and increasing the revolving note up to $65.0 million. Borrowings on the revolving note are collateralized by the Company's FHLMC MSRs. Monthly interest on the outstanding balance is calculated using a base rate tied to the LIBOR rate plus the applicable margin. The revolving note also has an unused facility fee on the average unused balance, which is also paid monthly. The unused facility fee is waived if the average outstanding balance exceeds 50% of the available combined warehouse and MSR facility. The lender has the option to convert the outstanding balance of the revolving note into a term note at its discretion. At June 30, 2020 and December 31, 2019, the Company had $40.0 million and $50.0 million, respectively, in outstanding borrowings on this credit facility.

11. Income Taxes

The Company's effective tax rates were 24.8% and 25.1% for the six months ended June 30, 2020 and 2019, respectively.

On March 27, 2020, Congress enacted the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") to provide certain relief as a result of the COVID-19 pandemic. The CARES Act, among other things, includes provisions relating to net operating loss carryback periods, alternative minimum tax credit refunds, and modifications to the net interest deduction limitations. The CARES Act did not have a material impact on the Company's condensed consolidated financial statements for the six months ended June 30, 2020. The Company continues to monitor any effects on its financial statements that may result from the CARES Act.

12. Commitments And Contingencies

Commitments to Extend Credit

The Company enters into interest rate lock commitments with customers who have applied for residential mortgage loans and meet certain credit and underwriting criteria. These commitments expose the Company to market risk if interest rates change and the loan is not economically hedged or committed to an investor. The Company is also exposed to credit loss if the loan is originated and not sold to an investor and the customer does not perform. The collateral upon extension of credit typically consists of a first deed of trust in the mortgagor's residential property. Commitments to originate loans do not necessarily reflect future cash requirements as some commitments are expected to expire without being drawn upon. Total commitments to originate loans at June 30, 2020 and December 31, 2019 were approximately $5.1 billion and $1.5 billion, respectively.

GUILD MORTGAGE COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except as otherwise indicated)

The Company manages the interest rate price risk associated with its outstanding interest rate lock commitments and mortgage loans held for sale by entering into derivative loan instruments, such as forward loan sales commitments, mandatory delivery commitments, options and futures contracts. Total commitments related to these derivatives at June 30, 2020 and December 31, 2019, were approximately $5.2 billion and $2.0 billion, respectively.

Leases

The Company leases office space and equipment under noncancelable and cancelable operating agreements expiring at various dates through 2030. Rent expense amounted to $14.2 million and $14.9 million for the periods ended June 30, 2020 and 2019, respectively, and is included within occupancy, equipment and communication expense in the Condensed Consolidated Statements of Income.

Future minimum rental payments under the noncancelable operating leases were as follows at June 30, 2020:

2020	$ 15,087
2021	24,543
2022	19,702
2023	15,126
2024	10,999
Thereafter	35,570
	$ 121,027

Legal

The Company is involved in various lawsuits arising in the ordinary course of business. While the ultimate results of these lawsuits cannot be predicted with certainty, management does not expect that these matters will have a material adverse effect on the condensed consolidated financial position or results of operations of the Company.

U.S. ex rel. Dougherty v. Guild Mortgage Company, No.16-cv-02909 (S.D. Cal.)

On May 18, 2016, the U.S. Department of Justice ("DOJ"), on behalf of HUD (together, the "government"), filed a Complaint-in-Intervention ("Intervention Complaint") in a pending *qui tam* action against the Company under the False Claims Act ("FCA"), 31 U.S.C. §§ 3729-3733. The Intervention Complaint, filed in the U.S. District Court for the District of Columbia, alleges FCA violations in connection with the underwriting and origination of certain residential mortgage loans that the Company endorsed for Federal Housing Administration ("FHA") insurance. The Intervention Complaint alleges violations of Sections 3729 (a)(l)(A) and (B) of the FCA, breach of common law fiduciary duty, and breach of contract. The government's claims arise from the Company's origination of residential mortgage loans, which the Company subsequently endorsed for FHA insurance between January 1, 2006, and December 31, 2011. The Company believes the FCA and common law claims are without merit.

On August 10, 2016, the Company filed motions to dismiss the government's Intervention Complaint and the Relator's Third Amended Complaint. In March 2018, the Court stayed the case pending the Ninth Circuit's determination of the appeal in Rose v Stephens Institute (No. 17-15111). On August 24, 2018, the ruling in the Rose case was issued and the Court lifted its self-imposed stay. On March 4, 2019, the government filed an amended complaint which Guild responded to on March 22, 2019 reasserting that the

claims were without merit. Guild's motion to dismiss was denied by the court in September 2019. Discovery began in December 2019 and will continue through December 2, 2020.

13. RELATED PARTY TRANSACTIONS

In November 2014, one of the Company's executives retired. Other executives had the option and executed their right to purchase the retiring executive's units in Guild Management, LLC, an indirect parent company of the Company. The purchase was funded by the Company and in return, the Company received a note receivable from Guild Management, LLC for approximately $2.5 million. The note is due in 2024 and is included within Other Assets on the Condensed Consolidated Balance Sheets.

In April 2017, Guild Mortgage Company, LLC, the Company's parent company, sold units to Guild Management III, LLC for $2.3 million in consideration of which $1.2 million was advanced by the Company in exchange for notes receivable from its members. These members fully paid back the notes and accrued interest during 2019.

On January 1, 2019, one of the Company's executives retired, which triggered a repurchase of the executive's equity in Guild Management, LLC, and a payout of deferred compensation. The Company's parent company, Guild Mortgage Company, LLC, sold 13.7038 shares of the Company to the executive in exchange for the executive's equity in Guild Mortgage Company, LLC. The executive in turn sold the acquired Company's shares back to the Company in exchange for a promissory note of $8.0 million, which is to be paid over 16 quarters. For the periods ended June 30, 2020 and 2019, the Company made payments of $0.5 million to the executive. In connection with the executive's retirement, the Company made a one-time payment of $2.0 million to the executive in connection with her participation in the deferred compensation plans.

14. MINIMUM NET WORTH REQUIREMENTS

Certain secondary market investors and state regulators require the Company to maintain minimum net worth and capital requirements. To the extent that these requirements are not met, secondary market investors and/or the state regulators may utilize a range of remedies including sanctions, and/or suspension or termination of selling and servicing agreements, which may prohibit the Company from originating, securitizing or servicing these specific types of mortgage loans.

The Company is subject to the following minimum net worth, minimum capital ratio and minimum liquidity requirements established by the Federal Housing Finance Agency for Fannie Mae and Freddie Mac Seller/Servicers, and Ginnie Mae for single family issuers.

Minimum Net Worth

The minimum net worth requirement for Fannie Mae and Freddie Mac is defined as follows:

- Base of $2,500 plus 25 basis points of outstanding UPB for total loans serviced.
- Adjusted/Tangible Net Worth comprises of total equity less goodwill, intangible assets, affiliate receivables and certain pledged assets.

The minimum net worth requirement for Ginnie Mae is defined as follows:

- Base of $2,500 plus 35 basis points of the issuer's total single-family effective outstanding obligations.

(Dollars in thousands, except as otherwise indicated)

- Adjusted/Tangible Net Worth comprises of total equity less goodwill, intangible assets, affiliate receivables and certain pledged assets. Effective for fiscal year 2020, under the Ginnie Mae MBS Guide, the issuers will no longer be permitted to include deferred tax assets when computing minimum net worth requirements.

Minimum Capital Ratio

- For Fannie Mae, Freddie Mac and Ginnie Mae the Company is also required to hold a ratio of Adjusted/Tangible Net Worth to Total Assets greater than 6%.

Minimum Liquidity

The minimum liquidity requirement for Fannie Mae and Freddie Mac is defined as follows:

- 3.5 basis points of total Agency servicing.
- Incremental 200 basis points of total nonperforming Agency, measured as 90 plus day delinquencies, servicing in excess of 6% of the total Agency servicing UPB.
- Allowable assets for liquidity may include: cash and cash equivalents (unrestricted); available for sale or held for trading investment grade securities (e.g., Agency MBS, Obligations of GSEs, US Treasury Obligations); and unused/available portion of committed servicing advance lines.

The minimum liquidity requirement for Ginnie Mae is defined as follows:

- Maintain liquid assets equal to the greater of $1,000 or 10 basis points of our outstanding single-family MBS.

The most restrictive of the minimum net worth and capital requirements require the Company to maintain a minimum adjusted net worth balance of $73,118 as of December 31, 2019. As of December 31, 2019, the Company was in compliance with this requirement.

15. ADDITIONAL NON-CASH DISCLOSURES

16. SEGMENTS

ASC 280, *Segment Reporting*, establishes the standards for reporting information about segments in financial statements. In applying the criteria set forth in that guidance, the Company has determined that it has two reportable segments — Loan Origination and Servicing.

Origination — The Company operates its loan origination business in approximately forty-eight states. Its licensed sales professionals and support staff cultivate deep relationships with referral partners and clients and provide a customized approach to the loan transaction whether it is a purchase or refinance. The originations segment is primarily responsible for loan origination, acquisition and sale activities.

Servicing — The Company services loans out of its corporate office in San Diego, California. Properties of the loans serviced by the Company are disbursed throughout the United States and as of December 31, 2019 the Company serviced at least one loan in forty-eight different states. The servicing segment provides a steady stream of cash flow to support the origination segment and more importantly it allows for the Company to build long standing client relationships that drive repeat and referral business back to the origination segment to recapture the client's next mortgage transaction. The servicing segment is primarily responsible for the servicing activities of all loans in the Company's servicing portfolio which includes, but is not limited to, collection and remittance of loan payments, managing borrower's impound accounts for taxes and insurance, loan payoffs, loss mitigation and foreclosure activities.

The Company does not allocate assets to its reportable segments as they are not included in the review performed by the Chief Operating Decision Maker for purposes of assessing segment performance and allocating resources. The balance sheet is managed on a consolidated basis and is not used in the context of segment reporting. The Company also does not allocate certain corporate expenses, which are represented by All Other in the tables below.

Properties securing the mortgage loans in the Company's servicing portfolio are geographically dispersed throughout the United States; however, at December 31, 2019, approximately 16.0% of such properties were located in California, 12.1% were located in Washington, and 9.7% were located in Texas. At December 31, 2018, approximately 15.8% of such properties were located in California, 12.8% were located in Washington, and 9.8% were located in Texas. Similarly, loan production in California, Washington and Oregon represented 16.9%, 16.5%, and 9.2%, respectively, of the Company's total loan production in 2019. For the year ended December 31, 2018, Washington, California and Oregon represented 16.3%, 14.5%, and 10.2%, respectively, of the Company's total loan production.

Principles of Consolidation

The Company has four wholly owned subsidiaries; Guild Administration Corp., Mission Village Insurance Agency, Guild Insurance, LLC and Guild Financial Express, Inc. The activities of the subsidiaries are related to the Company's mortgage banking operations. All intercompany accounts and transactions have been eliminated in consolidation.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could materially differ from those estimates.

Revenue Recognition

Loan origination fees and gain on sale of loans, net— loan origination fees and gain on sale of loans, net includes all components related to the origination and sale of mortgage loans, including (1) net gain on sale of loans, which represents the premium the Company receives in excess of the loan principal amount and certain fees charged by investors upon sale of loans into the secondary market, (2) loan origination fees (credits), points and certain costs, (3) provision for or benefit from investor reserves, (4) the change in fair value of interest rate locks and loans held for sale, (5) the gain or loss on forward commitments hedging loans held for sale and interest rate lock commitments ("IRLCs"), and (6) the fair value of originated mortgage servicing rights ("MSRs"). An estimate of the gain on sale of loans, net is recognized at the time an IRLC is issued, net of a pull-through factor. Subsequent changes in the fair value of IRLCs and mortgage loans held for sale are recognized in current period earnings. When the mortgage loan is sold into the secondary market, any difference between the proceeds received and the current fair value of the loan is recognized in current period earnings. Included in gain on sale of loans, net is the fair value of originated MSRs, which represents the estimated fair value of MSRs related to loans which we have sold and retained the right to service. Refer to *Note 1 sections; Mortgage Loans Held for Sale, Mortgage Servicing Rights*and *Derivative Instruments*, for more information related to fair value measurements of mortgage loans held for sale, the gain/(loss) on changes in the fair value of MSRs and the gain/(loss) on changes in the fair value of IRLCs, respectively. At December 31, 2019 and 2018, loan origination fees and gain on sale of loans were net of direct expenses of $175,338 and $136,913, respectively.

Loan servicing and other fees — Loan servicing fees represent fees earned for servicing loans for various investors. The servicing fees are based on a contractual percentage of the outstanding principal balance and recognized into revenue as the related mortgage payments are received. Loan servicing expenses are charged to operations as incurred.

Valuation adjustment of mortgage servicing rights — In accordance with Accounting Standards Codification ("ASC")860-50, the Company records MSRs as an asset, at fair value. The change in fair value is recorded within the Consolidated Statements of Income on a monthly basis. Refer to *Note 1, Mortgage Servicing Rights*, for information related to the gain/(loss) on changes in the fair value of MSRs.

Interest income — interest income includes interest earned on mortgage loans held for sale

Interest expense — interest expense includes interest paid to the Company's loan funding facilities and MSR facilities.

Cash, Cash Equivalents and Restricted Cash

For cash flow purposes, the Company considers cash and temporary investments with original maturities of three months or less, to be cash and cash equivalents. The Company typically maintains cash in financial institutions in excess of Federal Deposit Insurance Corporation limits. The Company evaluates the creditworthiness of these financial institutions in determining the risk associated with these cash balances. The Company maintains cash balances that are restricted under the terms of its warehouse lines of credit.

Total cash, cash equivalents and restricted cash shown in the Consolidated Statements of Cash Flows	$ 106,735	$ 62,755

Mortgage Loans Held for Sale

The Company measures newly originated prime residential Mortgage Loans Held for Sale ("MLHS") at fair value in accordance with ASC 825, *Financial Instruments*. Included in mortgage loans held for sale are loans originated as held for sale that are expected to be sold into the secondary market and loans that have been previously sold and repurchased from investors that management intends to resell into the secondary market, which are recorded at fair value.

The Company estimates fair value by evaluating a variety of market indicators, including recent trades and outstanding commitments, calculated on an individual loan basis and aggregated (see *Note 2 — Fair Value Measurements*). Changes in the fair value of mortgage loans are recognized in current period income and are included in loan origination fees and gain on sale of loans, net. Fair value for mortgage loans covered by investor commitments is based on commitment prices. Fair value for uncommitted loans is based on current delivery prices. The Company is not permitted to defer the loan origination fees, net of direct loan origination costs associated with these loans.

Loans are considered sold when the Company surrenders control over the financial assets. Control is considered to have been surrendered when the transferred assets have been isolated from the Company, beyond the reach of the Company and its creditors; the purchaser obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets; and the Company does not maintain effective control over the transferred assets through an agreement that both entitles and obligates the Company to repurchase or redeem the transferred assets before their maturity. The Company typically considers the above criteria to have been met upon acceptance and receipt of sales proceeds from the purchaser.

Ginnie Mae Loans Subject to Repurchase Right

In accordance with ASC 860-50, *Transfers and Servicing — Servicing Assets and Liabilities* ("ASC 860-50"), certain loans, as defined by the servicer guidelines, serviced by the Company on behalf of GNMA are recognized as an asset, and carried at the unpaid principal balance ("UPB") of the loans. The Company has a right to repurchase any loans serviced on behalf of GNMA that are three or more consecutive payments delinquent ("GNMA Loan Inventory"). The Company recognizes a corresponding liability ("GNMA Loan Payable") which is recorded at the unpaid principal balance, for loans in which the Company has not exercised the right to repurchase the loans. If the loan goes through foreclosure and is an FHA loan, HUD acts as the insurer for GNMA and reimburses the servicer for the UPB plus allowable interest and foreclosure fees. The Company reserves for unreimbursed interest and fees as part of the general foreclosure reserve. If the loan goes through foreclosure and is a Veterans' Administration ("VA") loan, the VA acts as the insurer and reimburses the Company based on the net value of the underlying property. At the amount determined by the VA, the Company accounts for any loss on VA loans in its

foreclosure loss reserve to a certain threshold with any excess charged to its investor reserves. If a foreclosure sale has been held on an FHA loan, the deed is transferred to the Company and the loan becomes a GNMA real estate owned ("REO"). These are foreclosed real estate properties securing GNMA loans. Both principal and interest for government insured/guaranteed loans secured by the foreclosed real estate properties are collectible because the loans are insured by the FHA or guaranteed by the VA. The GNMA Loan Inventory and real estate owned is equal, and offsetting, to the GNMA Loan Payable.

Mortgage Servicing Rights

Mortgage servicing rights are recognized as assets on the Consolidated Balance Sheet when loans are sold, and the associated servicing rights are retained. The Company maintains one class of MSR asset and has elected the fair value option. To determine the fair value of the servicing right when created, the Company uses a valuation model that calculates the present value of future cash flows. The valuation model incorporates assumptions that market participants would use in estimating future net servicing income, including estimates of contractual service fees, ancillary income and late fees, the cost of servicing, the discount rate, float value, the inflation rate, estimated prepayment speeds, and default rates.

Derivative Instruments

The Company enters into IRLCs, forward commitments to sell mortgage loans and to be announced trades which are considered derivative financial instruments. These items are accounted for as free-standing derivatives and are included in the Consolidated Balance Sheets at fair value. The Company treats all of its derivative instruments as economic hedges; therefore, none of its derivative instruments qualify for designation as accounting hedges.

The Company enters into IRLCs to originate residential mortgage loans at specified interest rates and within a specified period of time, with customers who have applied for a loan and meet certain credit and underwriting criteria. IRLCs on mortgage loans in process that have not closed, but are intended to be sold, are considered to be derivatives and changes in fair value are recorded in the Consolidated Statements of Income as part of Loan Origination Fees and Gain on Sale of Loans, net. Fair value is based upon changes in the fair value of the underlying mortgages, estimated to be realizable upon sale into the secondary market, net of estimated commission expenses. Fair value estimates also consider loan commitments not expected to be exercised by customers for unforeseen reasons, commonly referred to as fallout.

IRLCs and uncommitted mortgage loans held for sale expose the Company to the risk that the value of the mortgage loans held and mortgage loans underlying the commitments may decline due to increases in mortgage interest rates during the life of the commitments. To protect against this risk the Company enters into derivative loan instruments such as forward loan sales commitments, mandatory delivery commitments, options and futures contracts. Management expects the changes in the fair value of these derivatives to have a negative correlation to the changes in fair value of the derivative loan commitments and loans held for sale, thereby reducing earnings volatility. The changes in fair value are recorded in the Consolidated Statements of Income as part of Loan Origination Fees and Gain on Sale of Loans, net. The Company considers various factors and strategies in determining the portion of the mortgage pipeline and loans held for sale it wants to economically hedge.

Forward commitments include To-Be-Announced ("TBA") mortgage-backed securities that have been aggregated at the counterparty level for presentation and disclosure purposes. Counterparty agreements contain a legal right to offset amounts due to and from the same counterparty under legally enforceable master netting agreements to settle with the same counterparty, on a net basis, as well as the right to obtain cash collateral. Forward commitments also include commitments to sell loans to counterparties and to purchase loans from counterparties at determined prices. See *Notes 2 and 6* for additional information.

Property and Equipment

Property and equipment is recorded at cost and depreciated using the straight-line method over the estimated useful life of the asset, usually three years. Leasehold improvements are amortized using the straight-line method over the shorter of the term of the related lease or the estimated useful life.

The Company recognizes internal-use software within property and equipment which consists of both internal and external costs incurred in the development, testing and implementation directly related to the new software. The internal-use software is amortized over a three-year period and begins amortization upon the "go-live" date of the software. The Company determines the "go-live" date as the date in which the software is readily available to be used companywide.

Acquisitions

When making an acquisition, the Company recognizes separately from goodwill the assets acquired and the liabilities assumed at their acquisition date fair values under ASC 805, *Business Combinations*. Goodwill as of the acquisition date is measured as the excess of consideration transferred and the net of the acquisition date fair values of the assets acquired and the liabilities assumed. The Company uses its best estimates and assumptions to accurately value assets acquired and liabilities assumed at the acquisition date. The Company's estimates are inherently uncertain and actual results may differ from expectations. The Company may record measurement period adjustments during the measurement period (one year from the acquisition date) that result from obtaining additional information about the facts and circumstances that existed as of the acquisition date. If this additional information had been known, it would have affected the accounting for the business combination as of the acquisition date.

Accounting for business combinations requires the Company's management to make estimates and assumptions, especially at the acquisition date with respect to mortgage servicing rights and contingent considerations. Although the Company believes the assumptions and estimates it has made in the past have been reasonable and appropriate, they are based in part on historical experience and information obtained from the management of the acquired companies and are inherently uncertain.

Goodwill

The Company records goodwill in connection with an acquisition when the total purchase price of the acquisition exceeds the fair value of the assets and liabilities assumed by Guild as part of the transaction (see *Note 9*). Goodwill is not amortized but is evaluated for potential impairment on an annual basis, or when events or circumstances indicate a potential impairment, at the reporting unit level. A reporting unit is a business segment or one level below a business segment. The Company performs a Step 0 analysis by reviewing certain qualitative and quantitative factors to determine if any indicators of impairment arise. If there are no impairment indicators from the Step 0 analysis the Company determines that there is no impairment and no further evaluation is necessary.

If impairment indicators arise, the Company will perform the test in accordance with ASC350-20, by first assessing qualitative factors to determine if it is more-likely-than-not that goodwill might be impaired. Then, if necessary, atwo-step goodwill impairment test is performed to determine if any impairment exists and how it should be allocated.

In performing the goodwill impairment test, the Company first assesses qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. Qualitative factors include, among other things, macroeconomic conditions, industry and market considerations, financial performance of the respective reporting unit and other relevant entity- and reporting-unit specific considerations.

If the Company concludes it is more likely than not that the fair value of a reporting unit is less than its carrying value, a quantitative assessment is performed. If the fair value of the reporting unit exceeds its carrying value, goodwill of the reporting unit is considered not impaired; however, if the carrying value of the reporting unit exceeds its fair value, an additional step is performed to measure potential impairment.

This step involves calculating an implied fair value of goodwill which is the excess of the fair value of the reporting unit, as determined in the first step, over the aggregate fair values of the assets, liabilities and identifiable intangibles as if the reporting unit was being acquired in a business combination. If the implied fair value of goodwill exceeds the goodwill assigned to the reporting unit, there is no impairment. If the goodwill assigned to a reporting unit exceeds the implied fair value of goodwill, an impairment charge is recorded for the excess. An impairment loss recognized cannot exceed the amount of goodwill assigned to a reporting unit. An impairment loss establishes a new basis in the goodwill, and subsequent reversals of goodwill impairment losses are not permitted under applicable accounting guidance.

No goodwill impairment was recognized during the years ended December 31, 2019 and 2018.

Contingent Liabilities due to Acquisitions

The Company may be required to pay future consideration to the former shareholders of acquired companies, depending upon the terms of the applicable purchase agreement, which is contingent upon the achievement of certain financial and operating targets. The Company determines the fair value for its contingent consideration obligations using an income approach whereby the Company forecasts the cash outflows related to the earn-outs, which are based on a percentage of net income specified in the purchase agreements. The Company then discounts these expected payment amounts to calculate the fair value as of the valuation date. The Company's management evaluates the underlying projections used in determining fair value each period and makes updates to these underlying projections when there have been significant changes in management's expectations of the future business performance.

The principal significant unobservable input used in the valuations of the Company's contingent consideration obligations is a risk-adjusted discount rate. Whereas management's underlying projections adjust for market penetration and other economic expectations, the discount rate is risk-adjusted for key factors such as uncertainty in the mortgage banking industry due to its reliance on external influences (interest rates, regulatory changes, etc.), upfront payments, and credit risk. An increase in the discount rate will result in a decrease in the fair value of contingent consideration. Conversely, a decrease in the discount rate will result in an increase in the fair value of contingent consideration.

At each reporting date, or whenever there are significant changes in underlying key assumptions, a review of these assumptions is performed and the contingent consideration liability is updated to its estimated fair value. If there are no significant changes in the assumptions, the quarterly determination of the fair value of contingent consideration reflects the implied interest for the passage of time. Changes in the estimated fair value of the contingent consideration obligations may result from changes in the terms of the contingent payments, changes in discount periods and rates and changes in probability assumptions with respect to the timing and likelihood of achieving the certain financial targets. Actual progress toward achieving the financial targets for the remaining measurement periods may be different than the Company's expectations of future performance. The change in the estimated fair value of contingent consideration has been classified as other expenses in the Consolidated Statements of Income.

Real Estate Owned

There are two types of REO properties held by the Company. The first is considered a traditional REO where the Company owns, markets, and sells the property. At the time of foreclosure, other real estate

owned is recorded at the asset's fair value less selling costs, which becomes the property's new basis. After foreclosure, these assets are carried at the lower of their new cost basis or fair value less selling costs. Costs incurred in maintaining foreclosed real estate and subsequent write-downs to reflect declines in the fair value of the property are expensed as incurred. At December 31, 2019 and 2018, the Company had $0.9 million and $3.3 million, respectively, of traditional REOs.

The second type is foreclosed real estate securing GNMA loans in process of conveyance to HUD but insured by FHA, where the Company is the controller of the deed for a period of time. For GNMA loans, the property becomes REO if not sold to a third party at its foreclosure sale. Both principal and debenture rate interest for government insured loans secured by the foreclosed real estate are collectible because the loans are insured by FHA. This is valued at the UPB of the loan, which is considered to be fair value, as HUD reimburses the Company for the UPB plus debenture rate interest and fees. The Company reserves for unreimbursed interest in excess of the debenture rate and fees as part of the foreclosure loss reserve. The total REO property that will be conveyed to HUD was valued at $8.1 million and $12.0 million at December 31, 2019 and 2018, respectively.

Investor Reserves

The Company has exposure to potential mortgage loan repurchases and indemnifications in its capacity as a loan originator and servicer. The estimation of the liability for probable losses related to the repurchase and indemnification obligation considers an estimate of probable future repurchase or indemnification obligations from breaches of representations and warranties. The liability related to specific non-performing loans is based on a loan-level analysis considering the current collateral value, estimated sales proceeds and selling costs. The liability related to probable future repurchase or indemnification obligations is segregated by year of origination and considers the amount of unresolved repurchase and indemnification requests, as well as an estimate of future repurchase demands. Future repurchase demands are estimated based upon recent and historical repurchase and indemnification experience, as well as the success rate in appealing repurchase requests and an estimated loss severity, based on current loss rates for similar loans. The Company also has exposure to early payment defaults ("EPD") and/or early payoff fees ("EPO"). When the Company sells a loan to an investor and the loan either pays off or goes into default within a certain timeframe, the Company could be exposed to EPD and/or EPO fees in accordance with each investor's contract. The Company reserves for these fees by estimating early payment defaults and fees based on prior loan activity and current loan origination volume.

Foreclosure Loss Reserve and Provision for Foreclosure Losses

The Company has exposure for losses associated with government loans in foreclosure related to nonrefundable interest and foreclosure servicing costs. The Company maintains a reserve for government loans currently in foreclosure based on historical loss experience. The Company also accrues for any additional known losses above the current loss per loan; for example, losses due to servicer delays.

Advertising

Advertising is expensed as incurred and amounted to $11.8 million and $11.3 million for the years ended December 31, 2019 and 2018, respectively, and is included within general and administrative expenses on the Consolidated Statements of Income.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement

carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company recognizes the effect of income tax positions only if those positions are more-likely than-not to be sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. The Company records interest related to unrecognized tax benefits in interest expense and records penalties as a component of income taxes.

Escrow and Fiduciary Funds

As a loan servicer, the Company maintains segregated bank accounts in trust for investors and escrow balances for mortgagors, which are excluded from the Company's Consolidated Balance Sheet. These accounts totaled $958.3 million and $540.6 million at December 31, 2019 and 2018, respectively.

Risks and Uncertainties

In the normal course of business, companies in the mortgage banking industry encounter certain economic, liquidity, and regulatory risks.

Economic risk includes interest rate risk and credit risk.

Interest rate risk

The Company's mortgage loans held for sale, commitments to originate loans, and mortgage servicing rights are subject to interest rate risk. For mortgage loans held for sale and commitments to originate loans, to the extent that a rising interest rate environment exists, the Company may experience a decrease in loan production and decreases in value, which may negatively impact the Company's operations. To mitigate this risk the Company uses hedging strategies designed to ensure any fluctuations in rates would not have a material impact on the Company's financial position. For the Company's mortgage servicing rights, to the extent that a declining interest rate environment exists, the Company may experience decreases in the fair value of the portfolio, which may negatively impact the Company's financial position. For the year ended December 31, 2019, the Company experienced a material decline in the valuation of its MSR portfolio due to a significant decline in interest rates. Since the Company also has a large origination platform the Company was able to mitigate this risk by recapturing a significant portion of the runoff through refinances. For the year ended December 31, 2018, the Company did not experience any material loss due to interest rate risk.

Credit risk

Credit risk is the risk of default that may result from borrowers' inability or unwillingness to make contractually required payments during the period in which loans are being held for sale. The Company considers credit risk associated with these loans to be insignificant as it holds the loans for a short period of time, typically less than a month, and historically the Company has not experienced any material losses due to credit risk on loans held for sale.

The Company sells loans to investors without recourse. As such, the investors have assumed the risk of loss or default by the borrower. However, the Company is usually required by these investors to make certain standard representations and warranties relating to credit information, loan documentation and

collateral. To the extent that the Company does not comply with such representations, or there are early payment defaults, the Company may be required to repurchase the loans or indemnify these investors for any losses from borrower defaults, defects in the collateral or errors made in the credit decision.

The Company is also subject to counterparty credit risk in the event of contractual nonperformance by its trading counterparties to its various over-the-counter derivative financial instruments. The Company manages this credit risk by selecting only counterparties that it believes to be financially strong, spreading the credit risk among many such counterparties, placing contractual limits on the amount of unsecured credit extended to any single counterparty, and entering into netting agreements with the counterparties as appropriate. The master netting agreements contain a legal right to offset amounts due to and from the same counterparty. Derivative assets in the Consolidated Balance Sheets represent derivative contracts in a gain position net of loss positions with the same counterparty and, therefore, also represent the Company's maximum counterparty credit risk. The Company incurred no credit losses due to nonperformance of any of its counterparties during the years ended December 31, 2019 and 2018.

Liquidity risk

The Company encounters liquidity risk as the business requires substantial cash to support its operating activities. As a result, the Company is dependent on its lines of credit, and other financing facilities in order to finance its continued operations. If the Company's principal lenders decided to terminate or not to renew these credit facilities with the Company, the loss of borrowing capacity could have an adverse impact on the Company's financial statements unless the Company found a suitable alternative source. To mitigate this risk, the Company has multiple financing facilities with different lenders and varied maturity dates. Historically, the Company has not had a line of credit involuntarily terminated by a lender.

Regulatory risk

The Company is subject to extensive and comprehensive regulation under federal, state and local laws in the United States. These laws and regulations significantly affect the way in which the Company does business and can restrict the scope of the Company's existing business and limit the Company's ability to expand product offerings or pursue acquisitions, or can make costs to service or originate loans higher, which could impact financial results. The Company continually monitors its regulatory environment for any changes that could have a significant impact on operations.

Recently Adopted Accounting Pronouncements

Accounting Standards Update No. 2014-09, 2016-08, 2016-10, 2016-12, and 2016-20, collectively implemented as FASB Accounting Standards Codification *Topic 606 ("ASC 606") Revenue from Contracts with Customers*, provides guidance for revenue recognition. This ASC's core principle requires a company to recognize revenue when it transfers promised goods or services to customers in an amount that reflects consideration to which the company expects to be entitled in exchange for those goods or services. The standard also clarifies the principal versus agent considerations, providing the evaluation must focus on whether the entity has control of the goods or services before they are transferred to the customer. The new standard permits the use of either the modified retrospective or full retrospective transition method. The Company's revenue is generated from loan servicing and loan originations. Servicing revenue is comprised of servicing fees and other ancillary fees in connection with Company's servicing activities as well as fees earned under subservicing arrangements. Origination revenue is comprised of fee income earned at origination of a loan, interest income earned for the period the loans are held, and gain on sale on loans upon disposition of the loan. The new guidance became effective for the Company beginning January 1,

2019. The Company has determined that there was no material effect on revenue recognition to the financial statements.

In January 2016, the FASB issued ASUNo. 2016-01, *Financial Instruments — Overall (Subtopic 825-10*): *Recognition and measurement of financial assets and financial liabilities*. The amendments in this update require an entity to: (i) measure equity investments at fair value through net income, with certain exceptions; (ii) present in other comprehensive income the changes in instrument-specific credit risk for financial liabilities measured using the fair value option; (iii) present financial assets and financial liabilities by measurement category and form of financial asset; (iv) calculate the fair value of financial instruments for disclosure purposes based on an exit price and; (v) assess a valuation allowance on deferred tax assets related to unrealized losses of available for sale debt securities in combination with other deferred tax assets. The update provides an election to subsequently measure certain non-marketable equity investments at cost less any impairment and adjusted for certain observable price changes. The update also requires a qualitative impairment assessment of such equity investments and amends certain fair value disclosure requirements. In February 2018, the FASB issued ASU 2018-03, Technical Corrections and Improvements to Financial Instruments-Overall (Subtopic 825-10) as an update to ASU 2016-01. This update is intended to clarify certain aspects of the guidance issued in ASU 2017-01 including: (i) equity securities without a readily determinable fair value – discontinuation; (ii) equity securities without a readily determinable fair value – adjustments; (iii) forward contracts and purchased options; (iv) presentation requirements for certain fair value option liabilities; (v) fair value option liabilities denominated in a foreign currency and; (vi) transition guidance for equity securities without a readily determinable fair value. The new guidance became effective for the Company beginning on January 1, 2019. The Company has determined that upon adoption of this ASU there was no material effect on the financial statements

In August 2016, the FASB issued ASU2016-15, *Statement of Cash Flows (Topic 230) Classification of Certain Cash Receipts and Cash Payments*, which made eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. The new guidance became effective for the Company beginning January 1, 2019 and was applied on a retrospective basis to the Consolidated Statements of Cash Flows.

In November 2016, the FASB issued ASU2016-18, *Statement of Cash Flow (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)*. The amendments in this update require that a statement of cash flows explain the change during the period in the total of cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning of period and end of period total amounts shown on the statement of cash flows. The amendments in this update do not provide a definition of restricted cash or restricted cash equivalents. The new guidance became effective for the Company on January 1, 2019 and was applied to the Consolidated Statements of Cash Flows.

In August 2018, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”)2018-13, Fair Value Measurement (“Topic 820”), which modifies, removes and adds certain disclosure requirements on fair value measurements. The new guidance will be required for the Company for the annual reporting period beginning January 1, 2020 and interim periods within that fiscal year, and early adoption is permitted. The Company adopted this guidance starting from January 1, 2019 and has applied the required disclosures within its financial statements, which did not have a material impact on the presentation of the consolidated financial statements.

Accounting Standards Issued but Not Yet Adopted

As an emerging growth company ("EGC"), the Jumpstart Our Business Startups Act ("JOBS Act") allows the company to delay adoption of new or revised accounting pronouncements applicable to public companies until such pronouncements are applicable to private companies. The company has elected to use the extended transition period under the JOBS Act until such time the company is not considered to be an EGC. The adoption dates are discussed below to reflect this election.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). This update amends various aspects of existing guidance for leases and requires additional disclosures about leasing arrangements. It will require companies to recognize lease assets and lease liabilities by lessees for those leases classified as operating leases under previous GAAP. Topic 842 retains a distinction between finance leases and operating leases. The classification criteria for distinguishing between finance leases and operating leases are substantially similar to the classification criteria for distinguishing between capital leases and operating leases in the previous lease guidance. In November 2019, the FASB issued ASU 2019-10 which extended the effective date of ASU 2016-02. The new guidance will be effective for the Company beginning January 1, 2021 and early adoption is permitted. The Company is currently in the process of evaluating the impact of the adoption of the new guidance on its financial statements.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments — Credit Losses (Topic 326)*. This update requires expected credit losses for financial instruments held at the reporting date to be measured based on historical experience, current conditions and reasonable and supportable forecasts. The update eliminates the probable initial recognition threshold in current GAAP and instead reflects an entity's current estimate of all expected credit losses. Previously, when credit losses were measured under GAAP, an entity generally only considered past events and current conditions in measuring the incurred loss. In November 2019, the FASB issued ASU 2019-10 which extended the effective date of ASU 2016-13. The new guidance will be effective for the Company beginning January 1, 2023 and early adoption is permitted. The Company is currently in the process of evaluating the impact of the adoption of the new guidance on its financial statements.

In August 2018, the FASB issued ASU 2018-15*, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 35-40)*. This update provides guidance on accounting for a cloud computing arrangement that includes a license to internal-use software. This generally means that an intangible asset is recognized for the software license and, to the extent that the payments attributable to the software license are made over time, a liability also is recognized. If a cloud computing arrangement does not include a software license, the entity should account for the arrangement as a service contract which would generally mean to expense the service as incurred. The new guidance will be effective for the Company beginning January 1, 2021 and early adoption is permitted. The Company is currently in the process of evaluating the impact of the adoption of the new guidance on its financial statements.

In December 2019, the FASB issued ASU 2019-12, *Income Taxes (Topic 740).* This update provides amendments to simplify and reduce complexity when accounting for income taxes as well as eliminating certain exceptions. The new guidance will be effective for the Company beginning January 1, 2022 with early adoption permitted. The Company is currently in the process of evaluating the impact of the adoption of the new guidance on its financial statements.

In March 2020, the FASB issued ASU No. 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. Subject to meeting certain criteria, the new guidance provides optional expedients and exceptions to applying contract modification accounting under existing GAAP, to address the expected phase out of the London Inter-bank Offered Rate ("LIBOR") by the

end of 2021. This guidance is effective upon issuance and allows application to contract changes as early as January 1, 2020. The Company is in the process of reviewing its funding facilities and financing facilities that utilize LIBOR as the reference rate and is currently evaluating the potential impact that the adoption of this ASU will have on the consolidated financial statements and related disclosures.

2. Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Inputs used to measure fair value are prioritized within a three-level fair value hierarchy. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- ***Level One*** - Level One inputs are unadjusted, quoted prices in active markets for identical assets or liabilities which the Company has the ability to access at the measurement date.
- ***Level Two*** - Level Two inputs are observable for that asset or liability, either directly or indirectly, and include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, observable inputs for the asset or liability other than quoted prices and inputs derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the inputs must be observable for substantially the full term of the asset or liability.
- ***Level Three*** - Level Three inputs are unobservable inputs for the asset or liability that reflect the Company's assessment of the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, and are developed based on the best information available.

The Company's assets and liabilities are carried at cost, and because of theirshort-term nature, are believed to approximate current fair value, with the exception of mortgage loans held for sale, mortgage servicing rights, derivatives, real estate owned, GNMA loans subject to repurchase right and contingent liabilities due to acquisitions.

The Company updates the valuation of each instrument recorded at fair value on a monthly or quarterly basis, evaluating all available observable information which may include current market prices or bids, recent trade activity, changes in the levels of market activity and benchmarking of industry data. The assessment also includes consideration of identifying the valuation approach that would be used currently by market participants. If it is determined that a change in valuation technique or its application is appropriate, or if there are other changes in availability of observable data or market activity, the current methodology will be analyzed to determine if a transfer between levels of the valuation hierarchy is appropriate. Such reclassifications are reported as transfers into or out of a level as of the beginning of the quarter that the change occurs.

Fair value is based on quoted market prices, when available. If quoted prices are not available, fair value is estimated based upon other observable inputs. Unobservable inputs are used when observable inputs are not available and are based upon judgments and assumptions, which are the Company's assessment of the assumptions market participants would use in pricing the asset or liability. These inputs may include assumptions about risk, counterparty credit quality, the Company's creditworthiness and liquidity and are developed based on the best information available. When a determination is made to

classify an asset or liability within Level Three of the valuation hierarchy, the determination is based upon the significance of the unobservable factors to the overall fair value measurement of the asset or liability. The fair value of assets and liabilities classified within Level Three of the valuation hierarchy also typically includes observable factors and the realized or unrealized gain or loss recorded from the valuation of these instruments would also include amounts determined by observable factors.

Recurring Fair Value Measurements

The Company's fair value measurements are evaluated within the fair value hierarchy, based on the nature of the inputs used to determine the fair value at the measurement date. At December 31, 2019 and 2018, the Company had the following assets and liabilities that are measured at fair value on a recurring basis:

Trading Securities — Trading securities are classified within Level One of the valuation hierarchy. Valuation is based upon quoted prices for identical instruments traded in active markets. Level One trading securities include securities traded on active exchange markets, such as the New York Stock Exchange. Trading securities are included within prepaid expenses and other assets on the Consolidated Balance Sheets.

Derivative Instruments — Derivative instruments are classified within Level Two and Level Three of the valuation hierarchy, and include the following:

Interest Rate Lock Commitments: IRLCs are classified within Level Three of the valuation hierarchy. IRLCs represent an agreement to extend credit to a mortgage loan applicant, or an agreement to purchase a loan from a third-party originator, whereby the interest rate on the loan is set prior to funding. The fair value of IRLCs is based upon the estimated fair value of the underlying mortgage loan, including the expected net future cash flows related to servicing the mortgage loan, net of estimated commission expenses, and adjusted for: (i) estimated costs to complete and originate the loan and (ii) an adjustment to reflect the estimated percentage of IRLCs that will result in a closed mortgage loan under the original terms of the agreement (pull-through rate). The pull-through rate is considered a significant unobservable input and is estimated based on changes in pricing and actual borrower behavior using a historical analysis of loan closing and fallout data. The average pull-through rate used to calculate the fair value of IRLCs as of December 31, 2019 and 2018, was 89.4% and 88.8%, respectively. On a quarterly basis, actual loan pull-through rates are compared to the modeled estimates to confirm the assumptions are reflective of current trends. Generally, a change in interest rates is accompanied by a directionally opposite change in the assumption used for the pull-through percentage, and the impact to fair value of a change in pull-through would be partially offset by the related change in price.

Forward Delivery Commitments: Forward delivery commitments are classified within Level Two of the valuation hierarchy. Forward delivery commitments fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market. The fair value of forward delivery commitments is primarily based upon the current agency mortgage-backed security market to-be-announced pricing specific to the loan program, delivery coupon and delivery date of the trade. Best efforts sales commitments are also entered into for certain loans at the time the borrower commitment is made. These best efforts sales commitments are valued using the committed price to the counterparty against the current market price of the IRLC or mortgage loan held for sale.

Option contracts are a type of forward commitment that represents the rights to buy or sell mortgage-backed securities at specified prices in the future. Their value is based upon the underlying current to-

be-announced pricing of the agency mortgage-backed security market, and market-based volatility. See *Note 6* for additional information on the derivative instruments.

Mortgage Loans Held for Sale — MLHS are carried at fair value. The fair value of MLHS is based on secondary market pricing for loans with similar characteristics, and as such, is classified as a Level Two measurement. For Level Two MLHS, fair value is estimated through a market approach by using either: (i) the fair value of securities backed by similar mortgage loans, adjusted for certain factors to approximate the fair value of a whole mortgage loan, including the value attributable to servicing rights and credit risk, (ii) current commitments to purchase loans or (iii) recent observable market trades for similar loans, adjusted for credit risk and other individual loan characteristics. The agency mortgage-backed security market is a highly liquid and active secondary market for conforming conventional loans whereby quoted prices exist for securities at the pass-through level and are published on a regular basis. The Company has the ability to access this market and it is the market into which conforming mortgage loans are typically sold.

Mortgage Servicing Rights — MSRs are classified within Level Three of the valuation hierarchy due to the use of significant unobservable inputs and the lack of an active market for such assets. The fair value of MSRs is estimated based upon projections of expected future cash flows considering prepayment estimates, the Company's historical prepayment rates, portfolio characteristics, interest rates based on interest rate yield curves, implied volatility and other economic factors. The Company obtains valuations from an independent third party on a quarterly basis, and records an adjustment based on this third-party valuation.

Contingent Liabilities due to acquisitions— Contingent liabilities represent future obligations of the Company to make payments to the former owners of its acquired companies. The Company determines the fair value of its contingent liabilities using a discounted cash flow approach whereby the Company forecasts the cash outflows related to the future payments, which are based on a percentage of net income specified in the purchase agreements. The Company then discounts these expected payment amounts to calculate the present value, or fair value, as of the valuation date. The Company's management evaluates the underlying projections used in determining fair value each period and makes updates to these underlying projections.

The Company uses a risk-adjusted discount rate to value the contingent liabilities which is considered a significant unobservable input, and as such, the liabilities are classified as a Level Three measurement. Management's underlying projections adjust for market penetration and other economic expectations, and the discount rate is risk-adjusted for key factors such as uncertainty in the mortgage banking industry due to its reliance on external influences (interest rates, regulatory changes, etc.), upfront payments, and credit risk. An increase in the discount rate will result in a decrease in the fair value of the contingent liabilities. Conversely, a decrease in the discount rate will result in an increase in the fair value of the contingent liabilities. For each of the years ended December 31, 2019 and 2018, the range of the risk adjusted discount rate was 8.0% - 20.0%, with a median of 15.0%. Adjustments to the fair value of the contingent liabilities (other than payments) are recorded as a gain or loss and are included within general and administrative expenses on the Consolidated Statements of Income.

Non-Recurring Fair Value Measurements

Certain assets and liabilities that are not typically measured at fair value on a recurring basis may be subject to fair value measurement requirements under certain circumstances. These adjustments to fair value usually result from write-downs of individual assets. At December 31, 2019 and 2018, the Company had the following financial assets measured at fair value on a nonrecurring basis:

Real Estate Owned — Other assets that are evaluated for impairment using fair value measurements on a nonrecurring basis consist of mortgage loans in foreclosure and REO. The evaluation of impairment reflects an estimate of losses that have been incurred as of the balance sheet date, which will likely not be recoverable from guarantors, insurers or investors. The impairment of mortgage loans in foreclosure, which represents the unpaid principal balance of mortgage loans for which foreclosure

(Dollars in thousands, except as otherwise indicated)

proceedings have been initiated, plus recoverable advances on those loans, is based on the fair value of the underlying collateral, determined on a loan level basis, less costs to sell. REO properties, which are acquired from mortgagors in default, are recorded at the lower of adjusted carrying amount at the time the property is acquired or fair value of the property, less estimated selling costs. Fair values of the collateral underlying mortgage loans in foreclosure and REOs are estimated using appraisals and broker price opinions, which are updated on a periodic basis to reflect current housing market conditions. The allowance for probable losses associated with mortgage loans in foreclosure and the adjustment to record REO at their estimated net realizable value are based upon fair value measurements from Level Three of the valuation hierarchy.

Ginnie Mae Loans subject to Repurchase Right — GNMA securitization programs allow servicers to buy back individual delinquent mortgage loans from the securitized loan pool once certain conditions are met. If a borrower makes no payment for three consecutive months, the servicer has the option to repurchase the delinquent loan for an amount equal to 100% of the loan's remaining principal balance. Under ASC 860, this buy-back option is considered a conditional option until the delinquency criteria are met, at which time the option becomes unconditional. The Company records these assets and liabilities at their fair value, which is determined to be the remaining unpaid principal balance. The Company's future expected realizable cash flows are the cash payments of the remaining unpaid principal balance whether paid by the borrower or reimbursed through a claim filed with HUD. The Company considers the fair value of these assets and liabilities to fall into the Level Two bucket in the valuation hierarchy due to the assets and liabilities having specified contractual terms and the inputs are observable for substantially the full term of the assets and liabilities life.

Fair Value Option

The following is the estimated fair value and unpaid principal balance of MLHS that have contractual principal amounts and for which the Company has elected the fair value option. The fair value option was elected for MLHS as the Company believes fair value best reflects their expected future economic performance:

	Fair Value	Principal Amount Due Upon Maturity	Difference (1)
Balance at December 31, 2019	$ 1,504,842	$ 1,485,460	$ 19,382

Derivative assets in the Consolidated Balance Sheets represent derivative contracts in a gain position net of loss positions with the same counterparty and, therefore, also represent the Company's maximum counterparty credit risk. The Company incurred no credit losses due to nonperformance of any of its counterparties during the years ended December 31, 2019 and 2018.

At December 31, 2019 and 2018, the unpaid principal balance of mortgage loans serviced totaled $50.6 billion and $46.3 billion, respectively. Conforming conventional loans serviced by the Company are sold to FNMA or FHLMC programs on a nonrecourse basis, whereby foreclosure losses are generally the responsibility of FNMA and FHLMC and not the Company. Similarly, certain loans serviced by the Company are secured through GNMA programs, whereby the Company is insured against loss by FHA or partially guaranteed against loss by VA.

The key assumptions used to estimate the fair value of MSRs are prepayment speeds and the discount rate. Increases in prepayment speeds generally have an adverse effect on the value of MSRs as the underlying loans prepay faster. In a declining interest rate environment, the fair value of MSRs generally decreases as prepayments increase and therefore, the estimated life of the MSRs and related cash flows decrease. Decreases in prepayment speeds generally have a positive effect on the value of MSRs as the underlying loans prepay less frequently. In a rising interest rate environment, the fair value of MSRs generally increases as prepayments decrease and therefore, the estimated life of the MSRs and related cash flows increase. Increases in the discount rate result in a lower MSR value and decreases in the discount rate result in a higher MSR value. MSR uncertainties are hypothetical and do not always have a direct correlation with each assumption. Changes in one assumption may result in changes to another assumption, which might magnify or counteract the uncertainties.

The following table illustrates the impact of adverse changes on the discount rate and prepayment speeds at two different data points at December 31, 2019 and 2018, respectively:

	Discount Rates		Prepayment Speeds	
	10% Adverse Change	20% Adverse Change	10% Adverse Change	20% Adverse Change
December 31, 2019				
Mortgage servicing rights	(23,682)	(35,701)	(31,329)	(49,031)

8. Mortgage Loans Held for Sale

During 2019, the Company completed its annual goodwill impairment test as of December 31, 2019 using qualitative assessments of all applicable reporting units. Based on the results of the annual goodwill impairment test, the Company determined there was no impairment. For more information on the use of qualitative assessments, see *Note 1 — Business, Basis of Presentation and Accounting Policies.*

10. Investor Reserves

The Company's estimate of the investor reserves consider the current macro-economic environment and recent repurchase trends; however, if the Company experiences a prolonged period of higher repurchase and indemnification activity, then the realized losses from loan repurchases and indemnifications may ultimately be in excess of the liability. The maximum exposure under the Company's representations and warranties would be the outstanding principal balance and any premium received on all loans ever sold by the Company, less any loans that have already been paid in full by the mortgagee, that have defaulted without a breach of representations and warranties, that have been indemnified via settlement or make-whole, or that have been repurchased. Additionally, the Company may receive relief of certain representations and warranty obligations on loans sold to FNMA or FHLMC on or after January 1, 2013 if FNMA or FHLMC satisfactorily concludes a quality control loan file review or if the borrower meets certain acceptable payment history requirements within 12 or 36 months after the loan is sold to FNMA or FHLMC.

The activity of the investor reserves was as follows for the years ended December 31, 2019 and 2018:

	2019	2018
Balance — beginning of year	$ 14,312	$ 14,735
Utilization of reserve for loan losses	(7,994)	(6,909)
Provision charged to operations	10,203	6,486
Balance — end of year	$ 16,521	$ 14,312

The weighted average interest rate for warehouse lines of credit was 4.04% and 4.20% at December 31, 2019 and 2018, respectively. All warehouse lines of credit are collateralized by underlying mortgages and

related documents. Existing balances on warehouse lines are repaid through the sale proceeds from the collateralized loans held for sale. The Company intends to renew existing warehouse lines prior to expiration. If those lines are not renewed or replaced, that could have a negative impact on the Company's ability to continue funding new loans. The Company had cash balances of $68.2 million and $31.9 million in its warehouse buy down accounts as offsets to certain lines of credit at December 31, 2019 and 2018, respectively.

The agreements governing the Company's warehouse lines of credit contain covenants that include certain financial requirements, including maintenance of maximum adjusted leverage ratio, minimum net worth, minimum tangible net worth, minimum current ratio, minimum liquidity, positive quarterly income and limitations on additional indebtedness, dividends, sale of assets, and decline in the mortgage loan servicing portfolio's fair value. At December 31, 2019 and 2018, management believes the Company was in compliance with all debt covenants.

The Company has an optional short-term financing agreement between FNMA and the lender described as "As Soon As Pooled" (ASAP). The Company can elect to assign FNMA MBS trades to FNMA in advance of settlement and enter into a financing transaction and revenue related to the assignment is deferred until the final pool settlement date. The Company determines utilization based on warehouse availability and cash needs. There was no outstanding balance as of December 31, 2019 and 2018.

12. Notes Payable

Revolving Notes:

In January 2014, the Company entered into an agreement for a revolving note from one of its warehouse banks, which it can draw upon as needed and has renewed on an annual basis. Borrowings on the revolving note are collateralized by the Company's GNMA MSRs. Monthly interest on the outstanding balance is calculated using a base rate tied to the LIBOR rate plus the applicable margin, with a floor of 4.50%. The revolving note also has an unused facility fee on the average unused balance, which is also paid quarterly. The unused facility fee is waived if the average outstanding balance exceeds 70% of the available facility. In June 2020, the Company amended and restated the agreement and the revolving note was increased to a maximum committed amount of $135.0 million. The agreement also allows for the Company to increase the committed amount up to $200.0 million. The revolving note is currently scheduled to expire in June 2022. The Company has the option to convert the outstanding balance of the revolving note into a term note at its discretion. At December 31, 2019 and 2018, the Company had $90.0 million and $50.0 million, respectively, in outstanding borrowings on this credit facility.

In July 2017, the Company entered into an agreement for a revolving note of up to $25.0 million from one of its warehouse banks, which it can draw upon as needed and has renewed on an annual basis. In July 2018, the Company amended the agreement to increase the revolving note up to $50.0 million. In July 2020, the Company amended the agreement by extending the expiration date to July 2021 and increasing the revolving note up to $65.0 million. The revolving note also has an unused facility fee on the average unused balance, which is also paid monthly. The unused facility fee is waived if the average outstanding balance exceeds 50% of the available combined warehouse and MSR facility. The lender has the option to convert the outstanding balance of the revolving note into a term note at its discretion. At December 31, 2019 and 2018, the Company had $50.0 million and $25.0 million, respectively, in outstanding borrowings on this credit facility.

In September 2019, the term note was amended and restated, at which time there was an outstanding amount of $78.0 million. The outstanding amount of $78.0 million was rolled into a new term note with a commitment of $100.0 million. The note allows for the committed amount to be increased to a maximum of $150.0 million. The Company can draw on the committed amount through September 2020 and the note matures on September 30, 2022. Principal payments of 5% of the outstanding balance as of September 30, 2020 are due quarterly beginning October 1, 2020, with the remaining principal balance due upon maturity. The term note also has an unused facility fee equal to 0.375% of the average daily unadvanced amount, which is the difference between the committed amount and the amount outstanding. This fee is paid quarterly. At December 31, 2019 and 2018, the Company had an outstanding balance of $78.0 million and $85.0 million, respectively, on this facility.

The minimum calendar year payments and maturities of the Company's term note are as follows:

2020	$ 3,900
2021	15,600
2022	58,500
Total	$ 78,000

GUILD MORTGAGE COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except as otherwise indicated)

The following table presents a reconciliation of the recorded income tax expense of continuing operations to the amount of taxes computed by applying the applicable statutory federal income tax rate of 21.0 percent to income from continuing operations before income taxes, as of December 31, 2019 and 2018, respectively:

	2019		2018	
	Amount	Percent	Amount	Percent
Amount of statutory rate	$ 1,171	21.0%	$20,494	21.0%
State income taxes, net of federal tax benefit	262	4.7%	3,904	4.0%

The tax effects of significant temporary differences which gave rise to the Company's deferred tax assets and liabilities are as follows at December 31, 2019 and 2018:

	2019	2018
Deferred tax assets:		
Mortgage loans held for sale	$ 6,969	$ 6,078
Intangible assets	1,130	386
Accrued compensation and benefits	2,060	2,490
Deferred compensation	1,464	1,613
Other accrued liabilities	916	587

Non operating loss carryforward	—	746
Deferred tax assets	12,539	12,160
Deferred tax liabilities:		
Mortgage servicing rights	$ 94,094	$ 122,105

Property and equipment	1,182	1,765
Deferred tax liabilities	98,817	124,414
Net deferred tax liabilities	$ 86,278	$ 112,254

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities including the impact of available carryback and carryforward periods. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not that the Company will realize the benefits of these deductible differences.

The Company had approximately $3.1 million and $2.0 million of federal and various state net operating loss carryforwards, respectively, at December 31, 2018. The federal and state net operating loss carryforwards are anticipated to be fully utilized upon finalization of the December 31, 2019 tax returns.

The federal net operating loss carryforward has an indefinite carryforward period and the various state net operating loss carryforwards expire beginning in 2038. Additionally, the Company had approximately $0.2 million of federal and California tax credits, respectively at December 2018, which expire in 2038 for federal and have an indefinite carryforward period for California. The federal and California tax credits are anticipated to be fully utilized upon finalization of the December 31, 2019 tax returns.

The Company records interest related to unrecognized tax benefits in interest expense and records penalties as a component of income taxes. There are no unrecognized tax benefits as of December 31, 2019, and there were no changes in unrecognized tax benefits during the year. The Company is required to analyze all open years, as defined by the statutes of limitations, for all major jurisdictions, which includes federal and state jurisdictions. The Company is no longer subject to federal examinations prior to 2016 or for state examinations prior to 2015.

14. Employee Benefit Plans

Defined Contribution Plan

The Company has a 401(k) profit sharing plan covering substantially all employees. Employees may contribute amounts subject to certain Internal Revenue Service and plan limitations. The Company may make discretionary matching and nonelective contributions. For the years ended December 31, 2019 and 2018, the Company contributed $5.9 million and $5.8 million to the plan, respectively.

Deferred Compensation Plan

The Company has a deferred compensation plan for executives which was frozen effective December 31, 2007. Plan assets consist of phantom Class A member units in Guild Management, LLC. The units are allocated to specific participants and the values of the units are determined in accordance with the plan documents which is based on a multiple of Guild Mortgage Company, LLC's equity value. Distribution of a participant's vested balance is payable in a single lump sum upon death or disability; termination of employment; retirement after attaining age 65 (55 for participants who had an account balance in the plan as of May 1, 2001); or upon termination of the plan.

In 2017, the Company commenced a Non-Qualified Deferred Compensation Plan for certain highly compensated executives and employees that allows the participants to defer a portion of their earnings. Distribution of a participant's vested balance is payable in a single lump sum upon death or disability; termination of employment; retirement; or upon termination of the plan.

Guild Equity Appreciation Rights Plan

In 2013, the Company established the Guild Equity Appreciation Rights ("GEARs") Plan for certain executives that compensates participants with GEARs that, if vested, will ultimately be settled in cash on the final vesting date. The awards have a five-year vesting period in addition to annual performance vesting conditions. Compensation expense related to the GEARs awards is recognized over the five-year vesting period based on the change in the fair value of the award and the likelihood of achieving the performance vesting criteria.

In 2017, the Company established a new GEARs Plan for certain executives compensated with GEARs that will ultimately be settled in cash at maturity. Maturity is the earlier of (i) a change of control; (ii) the participant's retirement; (iii) the participant's death; (iv) the determination that the participant has suffered a disability; or (v) the involuntary termination of the participant's employment with the Company and its subsidiaries without cause. The awards vest immediately, and compensation related to these GEARs

(Dollars in thousands, except as otherwise indicated)

awards is recognized over the participant's service period based on the change in the fair value of the award. For the year ended December 31, 2019, the Company recognized $0.1 million as expense, and for the year ended December 31, 2018, the Company recognized $0.3 million as income for both GEARs plans, which is included within salaries, commissions and benefits in the Consolidated Statements of Income.

15. Commitments and Contingencies

Commitments to Extend Credit

The Company enters into interest rate lock commitments with customers who have applied for residential mortgage loans and meet certain credit and underwriting criteria. These commitments expose the Company to market risk if interest rates change and the loan is not economically hedged or committed to an investor. The Company is also exposed to credit loss if the loan is originated and not sold to an investor and the customer does not perform. The collateral upon extension of credit typically consists of a first deed of trust in the mortgagor's residential property. Commitments to originate loans do not necessarily reflect future cash requirements as some commitments are expected to expire without being drawn upon. Total commitments to originate loans at December 31, 2019 and 2018 approximated $1.5 billion and $0.8 billion, respectively.

The Company manages the interest rate price risk associated with its outstanding interest rate lock commitments and loans held for sale by entering into derivative loan instruments such as forward loan sales commitments, mandatory delivery commitments, options and futures contracts. Total commitments related to these derivatives at December 31, 2019 and 2018 approximated $2.0 billion and $0.8 billion, respectively.

Leases

The Company leases office space and equipment under noncancelable and cancelable operating agreements expiring at various dates through 2030. Rent expense amounted to $29.6 million and $28.4 million for the years ended December 31, 2019 and 2018, respectively, and is included within occupancy, equipment and communication expense in the Consolidated Statements of Income.

Future minimum rental payments under the noncancelable operating leases are as follows at December 31, 2019:

2020	$ 26,620
2021	22,282
2022	17,541
2023	13,360
2024	9,625
Thereafter	34,467
	$ 123,895

Legal

The Company is involved in various lawsuits arising in the ordinary course of business. While the ultimate results of these lawsuits cannot be predicted with certainty, management does not expect that these matters will have a material adverse effect on the consolidated financial position or results of operations of the Company.

U.S. ex rel. Dougherty v. Guild Mortgage Company, No.16-cv-02909 (S.D. Cal.)

On May 18, 2016, the U.S. Department of Justice ("DOJ"), on behalf of HUD (together, the "government"), filed a Complaint-in-Intervention ("Intervention Complaint") in a pending *qui tam* action against the Company under the False Claims Act ("FCA"), 31 U.S.C. §§ 3729-3733. The Intervention Complaint, filed in the U.S. District Court for the District of Columbia, alleges FCA violations in connection with the underwriting and origination of certain residential mortgage loans that the Company endorsed for Federal Housing Administration ("FHA") insurance. The Intervention Complaint alleges violations of Sections 3729 (a)(l)(A) and (B) of the FCA, breach of common law fiduciary duty, and breach of contract. The government's claims arise from the Company's origination of residential mortgage loans, which the Company subsequently endorsed for FHA insurance between January 1, 2006, and December 31, 2011. The Company believes the FCA and common law claims are without merit.

On August 10, 2016, the Company filed motions to dismiss the government's Intervention Complaint and the Relator's Third Amended Complaint. In March 2018, the Court stayed the case pending the Ninth Circuit's determination of the appeal in Rose v Stephens Institute (No. 17-15111). On August 24, 2018, the ruling in the Rose case was issued and the Court lifted its self-imposed stay. On March 4, 2019, the government filed an amended complaint which Guild responded to on March 22, 2019 reasserting that the claims were without merit. Guild's motion to dismiss was denied by the court in September 2019. Discovery began in December 2019 and will continue through December 2, 2020.

16. Related Party Transactions

In November 2014, one of the Company's executives retired. Other executives of the Company had the option and executed their right to purchase the retiring executive's units in Guild Management, LLC, an indirect parent company of the Company. The purchase was funded by the Company and, in return, the Company received a note receivable from Guild Management, LLC for approximately $2.5 million. The note is due in 2024 and is included within Other Assets on the Consolidated Balance Sheets.

In April 2017, Guild Mortgage Company, LLC, the Company's parent company, sold units to Guild Management III, LLC for $2.3 million in consideration of which $1.2 million was advanced by the Company in exchange for notes receivable from its members. These members fully paid back the notes and accrued interest during 2019. At December 31, 2018, these members owed $0.2 on these notes which is included within Other Assets on the Consolidated Balance Sheets.

On January 1, 2019, one of the Company's executives retired, which triggered a repurchase of the executive's equity in Guild Management, LLC, and a payout of deferred compensation. The Company's parent company, Guild Mortgage Company, LLC, sold 13.7038 shares of the Company to the executive in exchange for the executive's equity in Guild Management, LLC. The executive in turn sold the Company's shares back to the Company in exchange for a promissory note of $8.0 million, which is to be paid over 16 quarters. During 2019, the Company made payments of $1.6 million to the executive, and $6.6 million remained as of December 31, 2019. In connection with the executive's retirement, Company made a one-time payment of $2.0 million to the executive in connection with her participation in the deferred compensation plans.

17. Minimum Net Worth Requirements

Certain secondary market investors and state regulators require the Company to maintain minimum net worth and capital requirements. To the extent that these requirements are not met, secondary market investors and/or the state regulators may utilize a range of remedies including sanctions, and/or

suspension or termination of selling and servicing agreements, which may prohibit the Company from originating, securitizing or servicing these specific types of mortgage loans.

- Allowable assets for liquidity may include: cash and cash equivalents (unrestricted); available for sale or held for trading investment grade securities (e.g., Agency MBS, Obligations of GSEs, US Treasury Obligations); and unused/available portion of committed servicing advance lines.

The minimum liquidity requirement for Ginnie Mae is defined as follows:

- Maintain liquid assets equal to the greater of $1,000 or 10 basis points of our outstanding single-family MBS.

The most restrictive of the minimum net worth and capital requirements require the Company to maintain a minimum adjusted net worth balance of $73,118 and $69,954 as of December 31, 2019 and 2018, respectively. As of December 31, 2019 and 2018, the Company was in compliance with this requirement.

19. Segments

ASC 280, *Segment Reporting*, establishes the standards for reporting information about segments in financial statements. In applying the criteria set forth in that guidance, the Company has determined that it has two reportable segments — Loan Origination and Servicing.

Origination — The Company operates its loan origination business in approximately forty-eight states. Its licensed sales professionals and support staff cultivate deep relationships with referral partners and clients and provide a customized approach to the loan transaction whether it is a purchase or refinance. The origination segment is primarily responsible for loan origination, acquisition and sale activities.

Servicing — The Company services loans out of its corporate office in San Diego, California. Properties of the loans serviced by the Company are disbursed throughout the United States and as of December 31, 2019 the Company serviced at least one loan in forty-eight different states. The servicing segment provides a steady stream of cash flow to support the origination segment and more importantly it allows for the Company to build long standing client relationships that drive repeat and referral business back to the origination segment to recapture the client's next mortgage transaction. The servicing segment is primarily responsible for the servicing activities of all loans in the Company's servicing portfolio which includes, but is not limited to, collection and remittance of loan payments, managing borrower's impound accounts for taxes and insurance, loan payoffs, loss mitigation and foreclosure activities.

The Company does not allocate assets to its reportable segments as they are not included in the review performed by the Chief Operating Decision Maker for purposes of assessing segment performance and allocating resources. The balance sheet is managed on a consolidated basis and is not used in the context of segment reporting. The Company also does not allocate certain corporate expenses, which are represented by All Other in the tables below.

20. Subsequent Events

The Company has evaluated subsequent events from the balance sheet date through August 21, 2020, the date on which the financial statements were issued. In March 2020, the World Health Organization ("WHO") declared the outbreak of a novel coronavirus (COVID-19) as a pandemic, which continues to spread throughout the United States. Through August 21, 2020, the Company remains fully functional in both its origination and servicing operations. While the pandemic could cause for certain branches to temporarily close, most of the significant job functions can be performed remotely. The Company has taken steps to ensure business can continue as necessary should branches be forced to temporarily close. The Company continues to monitor guidance published by the WHO, Centers for Disease Control and Prevention, local and federal government agencies and the Mortgage Bankers Association and is in continual communication with its investors regarding the developments in the mortgage industry.

Item 14. Indemnification of Directors and Officers.

Limitation of Personal Liability of Directors and Indemnification

Section 102(b)(7) of the DGCL permits a corporation to provide in its certificate of incorporation that a director of the corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (1) for any breach of the director's duty of loyalty to the corporation or its stockholders, (2) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (3) under Section 174 of the DGCL (regarding, among other things, the payment of unlawful dividends or unlawful stock purchases or redemptions), or (4) for any transaction from which the director derived an improper personal benefit. Our certificate of incorporation will provide for such limitation of liability.

Section 145(a) of the DGCL empowers a corporation to indemnify any director, officer, employee or agent, or former director, officer, employee or agent, who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation), by reason of such person's service as a director, officer, employee or agent of the corporation, or such person's service, at the corporation's request, as a director, officer, employee or agent of another corporation or enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding; provided that such director or officer acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation; and, with respect to any criminal action or proceeding, provided that such director or officer had no reasonable cause to believe his or her conduct was unlawful.

Section 145(b) of the DGCL empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a

director, officer, employee or agent of another enterprise, against expenses (including attorneys' fees) actually and reasonably incurred in connection with the defense or settlement of such action or suit; provided that such director or officer acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification may be made in respect of any claim, issue or matter as to which such director or officer shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such director or officer is fairly and reasonably entitled to indemnity for such expenses that the court shall deem proper. Notwithstanding the preceding sentence, except as otherwise provided in our bylaws, we shall be required to indemnify any such person in connection with a proceeding (or part thereof) commenced by such person only if the commencement of such proceeding (or part thereof) by any such person was authorized by the Board of Directors.

Our certificate of incorporation and our bylaws will require us to indemnify any person who was or is a party or is threatened to be made a party to or is otherwise involved in any threatened, pending or completed action, suit or proceeding by reason of the fact that he or she is or was a director or officer of Guild, or is or was serving at the request of Guild as a director, officer, trustee, employee or agent of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to employee benefit plans maintained or sponsored by Guild, against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid or to be paid in settlement) incurred or suffered by such person in connection with such proceeding if the person acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of Guild and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

We will be authorized under our amended and restated certificate of incorporation and our amended and restated bylaws to purchase and maintain insurance to protect Guild and any current or former director, officer, employee or agent of Guild or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not Guild would have the power to indemnify such person against such expense, liability or loss under the DGCL. We believe that these indemnification provisions and the directors' and officers' insurance are useful to attract and retain qualified directors and executive officers.

We expect that the underwriting agreement will provide for indemnification of directors and officers ofGuild by the underwriters against certain liabilities.

Item 15. Recent Sales of Unregistered Securities.

Set forth below is information regarding securities sold or granted by us within the past three years that were not registered under the Securities Act. Also included is the consideration, if any, received by us for such securities and information relating to the section of the Securities Act, or rule of the SEC, under which exemption from registration was claimed for such sales and grants.

In August 2020, in connection with its formation and prior to the occurrence of the other reorganization transactions, the Issuer sold 100 shares of common stock to Guild Investors, LLC for aggregate consideration of $1. The shares of common stock described above were issued in reliance on the exemption contained in Section 4(a)(2) of the Securities Act on the basis that the transaction did not involve a public offering. No underwriters were involved in the transaction.

Item 16. Exhibits and Financial Statement Schedules.

(a) Exhibits: The list of exhibits set forth under "*Exhibit Index*" at the end of this Registration Statement is incorporated herein by reference.

Item 17. Undertakings.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The registrant hereby further undertakes that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective; and

(2) For purposes of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

A. Definitions.

1) "**McCarthy Investors**" means, collectively, McCarthy Capital Mortgage Investors, LLC, any other investment funds affiliated with McCarthy Partners Management, LLC, and any company or other entity controlled by, controlling or under common control with McCarthy Capital Mortgage Investors, LLC or any such investment fund (other than any portfolio company).

2) "**Permitted Transfer**" means any Transfer of the Class B Common Stock (as hereinafter defined) to any McCarthy Investor;

3) "**Transfer**" of a share of Class B Common Stock means, directly or indirectly, any sale, assignment, transfer, exchange, gift, bequest, pledge, hypothecation or other disposition or encumbrance of such share or any legal or beneficial interest in such share, in whole or in part, whether or not for value and whether voluntary or involuntary or by operation of law; *provided*, *however*, that the following shall not be considered a "Transfer": (i) the granting of a revocable proxy to officers or directors of the Corporation at the request of the Board of Directors in connection with actions to be taken at annual or special meetings of stockholders or in connection with any action by written consent of the stockholders solicited by the Board of Directors (to the extent action by written consent of stockholders is permitted under this Amended and Restated Certificate of Incorporation); (ii) entering into a voting trust, agreement or arrangement (with or without granting a proxy) solely with the Corporation or one or more of its stockholders that (x) is disclosed either in a filing filed with the U.S. Securities and Exchange Commission or in writing to the Secretary of the Corporation and (y) does not involve any payment of cash, securities, property or other consideration to the holder of the shares subject thereto other than the mutual promise to vote shares in a designated manner; (iii) entering into a customary voting or support agreement (with or without granting a proxy) in connection with any merger, consolidation or other business combination of the Corporation that is approved by the Board of Directors, whether effectuated through one transaction or series of related transactions (including a tender offer followed by a merger in which holders of Class A Common Stock (as hereinafter defined) receive the same consideration per share paid in the tender offer); or (iv) the pledge of shares of capital stock of the Corporation by a stockholder that creates a mere security interest in such shares pursuant to a bona fide loan or indebtedness transaction so long as such stockholder continues to exercise sole voting control over such pledged shares unless any pledged shares are transferred to or registered in the name of the pledgee; *provided*, *however*, that a foreclosure on such shares or other similar action by the pledgee shall constitute a "Transfer"; and

4) "**Triggering Event**" means the first date on which the McCarthy Investors cease collectively to beneficially own (as such term is defined in Rule 13d-3 and Rule 13d-5 under the Securities Exchange Act of 1934, as amended) shares of Class B Common Stock representing at least 10% of aggregate number of issued and outstanding shares of Common Stock (as hereinafter defined).

B. The total number of shares of all classes of stock that the Corporation shall have authority to issue is [●] shares, consisting of: (i) [●] shares of common stock, divided into (a) [●] shares of Class A common stock, with the par value of $0.01 per share ("**Class A Common Stock**"), and (b) [●] shares of Class B common stock, with the par value of $0.01 per share ("**Class B Common Stock**" and, together with Class A Common Stock, the "**Common Stock**"); and (ii) [●] shares of preferred stock, with the par value of $0.01 per share (the "**Preferred Stock**").

There are [●] shares of the Corporation's common stock, par value $0.01 per share (the "**Existing Common Stock**"), issued and outstanding immediately prior to the effectiveness of this Amended and Restated Certificate of Incorporation (the "**Effective Time**"), all of which are held by the sole stockholder of the Corporation. Effective immediately as of the Effective Time, (x) [●] of the [●] shares of the Existing Common Stock, issued and outstanding immediately prior to the Effective Time, shall automatically be converted and reclassified, in the aggregate, into [●] shares of Class A Common Stock and (y) [●] of the [●] shares of the Existing Common Stock, issued and outstanding immediately prior to the Effective Time, shall automatically be converted and reclassified, in the aggregate, into [●] shares of Class B Common Stock. Each certificate or book entry credit, as applicable, representing Existing Common Stock shall thereafter represent such number of shares of Class A Common Stock and Class B Common Stock into which the shares of Existing Common Stock have been converted and reclassified.

C. Subject to the rights of the holders of any one or more series of the Preferred Stock then outstanding, the number of authorized shares of any class or series of Common Stock or the Preferred Stock may be increased or decreased, in each case by the affirmative vote of the holders of a majority of the combined voting power of the outstanding shares of capital stock of the Corporation entitled to vote thereon, voting together as a single class, irrespective of the provisions of Section 242(b)(2) of the DGCL, and no vote of the holders of any class or series of the Common Stock or the Preferred Stock voting separately as a class will be required therefor. Notwithstanding the immediately preceding sentence, the number of authorized shares of any particular class or series may not be decreased below the number of shares of such class or series then outstanding, plus:

1) in the case of the Class A Common Stock, the number of shares of the Class A Common Stock issuable in connection with (i) the conversion of all shares of the Class B Common Stock (which such number shall be the sum of all shares of the Class B Common Stock issued and outstanding and the shares of the Class B Common Stock issuable in connection with

the exercise of outstanding options, warrants, exchange rights, conversion rights or similar rights for the Class B Common Stock) and (ii) the exercise of outstanding options, warrants, exchange rights, conversion rights or similar rights for the Class A Common Stock; and

2) in the case of Class B Common Stock, the number of shares of Class B Common Stock issuable in connection with the exercise of outstanding options, warrants, exchange rights, conversion rights or similar rights for Class B Common Stock.

A statement of the designations of each class and the powers, preferences and rights, and qualifications, limitations or restrictions thereof is as follows:

D. Common Stock.

(1) Voting Rights.

(a) Each holder of Class A Common Stock will be entitled to one vote for each share of the Class A Common Stock held of record by such holder on all matters on which stockholders generally are entitled to vote, and each holder of Class B Common Stock will be entitled to ten votes for each share of Class B Common Stock held of record by such holder on all matters on which stockholders generally are entitled to vote, except that, in each case, to the fullest extent permitted by law, holders of shares of each class of Common Stock, as such, will have no voting power with respect to, and will not be entitled to vote on, any amendment to this Amended and Restated Certificate of Incorporation (including any certificate of designations relating to any series of Preferred Stock) that relates solely to the terms of any outstanding Preferred Stock if the holders of such Preferred Stock are entitled to vote as a separate class thereon under this Amended and Restated Certificate of Incorporation (including any certificate of designations relating to any series of Preferred Stock) or under the DGCL.

(b) (i) The holders of the outstanding shares of Class A Common Stock shall be entitled to vote separately upon any amendment to this Amended and Restated Certificate of Incorporation (including by merger, consolidation, reorganization or similar event) that would alter or change the powers, preferences or special rights of Class A Common Stock in a manner that is disproportionately adverse as compared to Class B Common Stock and (ii) the holders of the outstanding shares of Class B Common Stock shall be entitled to vote separately upon any amendment to this Amended and Restated Certificate of Incorporation (including by merger, consolidation, reorganization or similar event) that would alter or change the powers, preferences or special rights of Class B Common Stock in a manner that is disproportionately adverse as compared to Class A Common Stock, it being understood that any merger, consolidation or other business combination shall not be deemed an amendment hereof if such merger, consolidation or other business combination would be permitted by Section D(3) of this Article IV.

(c) Except as otherwise required in this Amended and Restated Certificate of Incorporation or by applicable law, the holders of Common Stock will vote together as a single class (or, if any holders of Preferred Stock are entitled to vote together with the holders of Common Stock, as a single class with the holders of Preferred Stock) on all matters.

(2) Dividends; Stock Splits; Combinations.

(a) Subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Stock or any class or series of stock having a preference senior to or the right to participate with the Common Stock with respect to the payment of dividends, dividends of cash or property may be declared and paid on the Common Stock out of the assets of the Corporation that are by law available therefor, at the times and in the amounts as the Board of Directors in its discretion may determine.

(b) Dividends of cash or property may not be declared or paid on the Class A Common Stock unless a dividend of the same amount and same type of cash or property (or combination thereof) is concurrently declared or paid on the Class B Common Stock. Dividends of cash or property may not be declared or paid on the Class B Common Stock unless a dividend of the same amount and same type of cash or property (or combination thereof) is concurrently declared or paid on the Class A Common Stock.

(c) In no event will any stock dividend, stock split, reverse stock split, combination of stock, reclassification or recapitalization be declared or made on any class of Common Stock (each, a "**Stock Adjustment**") unless a corresponding Stock Adjustment for all other classes of Common Stock not so adjusted at the time outstanding is made in the same proportion and the same manner. Stock dividends with respect to each class of Common Stock may only be paid with shares of stock of the same class of Common Stock.

(d) Notwithstanding anything to the contrary, if a dividend in the form of capital stock of a subsidiary of the Corporation is declared or paid on the Class A Common Stock and the Class B Common Stock, the relative per share voting rights of the capital stock of such subsidiary so distributed in respect of the Class A Common Stock and the Class B Common Stock shall be in the same proportion as the relative voting rights of a share of Class A Common Stock and a share of Class B Common Stock.

(3) Except as expressly provided in this Article IV, the Common Stock shall have the same rights and privileges and rank equally, share ratably and be identical in all respects as to all matters. Without limiting the generality of the foregoing, (i) in the event of a merger, consolidation or other business combination requiring the approval of the holders of the Corporation's capital stock entitled to vote thereon (whether or not the Corporation is the surviving entity), the holders of the Class A Common Stock shall have the right to receive, or the right to elect to receive, the same form of consideration, if any, as the holders of the Class B Common Stock and the holders of the Class B Common Stock shall have the right to receive, or the right to elect to receive, at least the same amount of consideration, if any, on a per share basis as the holders of the Class A Common Stock, and (ii) in the event of (a) any tender or exchange offer to acquire any shares of Common Stock by any third party pursuant to an agreement to which the Corporation is a party or (b) any tender or exchange offer by the Corporation to acquire any shares of Common Stock, pursuant to the terms of the applicable tender or exchange offer, the holders of the Class A Common Stock shall have the right to receive, or the right to

elect to receive, the same form of consideration as the holders of the Class B Common Stock and the holders of the Class B Common Stock shall have the right to receive, or the right to elect to receive, at least the same amount of consideration on a per share basis as the holders of the Class A Common Stock; *provided* that, for the purposes of the foregoing clauses (i) and (ii) and notwithstanding the first sentence of this Section D(3) of this Article IV, in the event any such consideration includes securities, the consideration payable to holders of Class A Common Stock shall be deemed the same form of consideration and at least the same amount of consideration on a per share basis as the holders of Class B Common Stock on a per share basis if the only difference in the per share distribution to the holders of Class B Common Stock is that the securities distributed to such holders have not more than ten times the voting power of any securities distributed to the holder of a share of Class A Common Stock.

(4) Liquidation. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Corporation, after payment or provision for payment of the debts and other liabilities of the Corporation and of the preferential and other amounts, if any, to which the holders of Preferred Stock are entitled, if any, the holders of all outstanding shares of Common Stock will be entitled to receive, *pari passu*, an amount per share equal to the par value thereof, and thereafter the holders of all outstanding shares of Common Stock will be entitled to receive the remaining assets of the Corporation available for distribution ratably in proportion to the number of shares of Common Stock.

E. Preferred Stock. Shares of Preferred Stock may be issued from time to time in one or more series of any number of shares; *provided* that the aggregate number of shares issued and not retired of any and all such series shall not exceed the total number of shares of Preferred Stock hereinabove authorized, and with such powers, including voting powers, if any, and the designations, preferences and relative, participating, optional or other special rights, if any, and any qualifications, limitations or restrictions thereof, all as shall hereafter be stated and expressed in the resolution or resolutions providing for the designation and issue of such shares of Preferred Stock from time to time adopted by the Board of Directors pursuant to authority to do so which is hereby expressly vested in the Board of Directors. The powers, including voting powers, if any, preferences and relative, participating, optional and other special rights of each series of Preferred Stock, and the qualifications, limitations or restrictions thereof, if any, may differ from those of any and all other series at any time outstanding. Each series of shares of Preferred Stock: (i) may have such voting rights or powers, full or limited, if any; (ii) may be subject to redemption at such time or times and at such prices, if any; (iii) may be entitled to receive dividends (which may be cumulative or non-cumulative) at such rate or rates, on such conditions and at such times, and payable in preference to, or in such relation to, the dividends payable on any other class or classes or series of stock, if any; (iv) may have such rights upon the voluntary or involuntary liquidation, winding up or dissolution of, upon any distribution of the assets of, or in the event of any merger, sale or consolidation of, the Corporation, if any; (v) may be made convertible into, or exchangeable for, shares of any other class or classes or of any other series of the same or any other class or classes of stock of the Corporation (or any other securities of the Corporation or any other person) at such price or prices or at such rates of exchange and with such adjustments, if any; (vi) may be entitled to the benefit of a sinking fund to be applied to the purchase or redemption of shares of such series in such amount or amounts, if any; (vii) may be entitled to the benefit of conditions and restrictions upon the creation of indebtedness of the Corporation or any subsidiary, upon the issue of any additional shares

(including additional shares of such series or of any other series) and upon the payment of dividends or the making of other distributions on, and the purchase, redemption or other acquisition by the Corporation or any subsidiary of, any outstanding shares of the Corporation, if any; (viii) may be subject to restrictions on transfer or registration of transfer, or on the amount of shares that may be owned by any person or group of persons; and (ix) may have such other relative, participating, optional or other special rights, qualifications, limitations or restrictions thereof, if any; all as shall be stated in said resolution or resolutions of the Board of Directors providing for the designation and issue of such shares of Preferred Stock.

F. Optional Conversion of Class B Common Stock.

(1) Each share of Class B Common Stock may be converted into one fully paid and non-assessable share of Class A Common Stock at any time at the option of the holder of such share of Class B Common Stock. In order to exercise the conversion privilege, the holder of any shares of Class B Common Stock to be converted shall deliver to the Corporation written or electronic notice that the holder elects to convert shares of Class B Common Stock to the extent specified in such notice and, if such shares are certificated, such holder shall present and surrender the certificate or certificates representing such shares during usual business hours at the principal executive offices of the Corporation or, if any agent for the registration or transfer of shares of Class B Common Stock has been duly appointed (the "**Class B Transfer Agent**"), at the office of the Class B Transfer Agent. If required by the Corporation, any certificate for shares of Class B Common Stock surrendered for conversion shall be accompanied by instruments of transfer, in form reasonably satisfactory to the Corporation and the Class B Transfer Agent, duly executed by the holder of such shares or such holder's duly authorized representative. As promptly as practicable after the receipt of such notice and the surrender of the certificate or certificates representing such shares of Class B Common Stock as aforesaid, and in any event within three days of the receipt of such notice and certificates, if such shares are certificated, the Corporation shall issue and deliver at such office to such holder, or on such holder's written order, a certificate or certificates for the number of full shares of Class A Common Stock (if certificated) issuable upon the conversion of such shares. To the extent such shares of Class B Common Stock as aforesaid are settled through the facilities of The Depository Trust Company or through the book entry facilities of the Class B Transfer Agent, the Corporation shall, upon such holder's written order, issue and deliver the number of full shares of Class A Common Stock, as applicable, issuable upon the conversion of such shares through the facilities of The Depository Trust Company to the account of the participant of The Depository Trust Company designated by such holder or through the book entry facilities of the Class B Transfer Agent. Each conversion of shares of Class B Common Stock shall be deemed to have been effected on (i) the date on which such notice shall have been received by the Corporation, or the Class B Transfer Agent, as applicable (subject to receipt by the Corporation, the Class B Transfer Agent, as applicable, within five business days thereafter of any required instruments of transfer as aforesaid), or (ii) such later date specified in or pursuant to such notice, and the person or persons in whose name or names any certificate or certificates for shares of Class A Common Stock shall be issuable upon such conversion as aforesaid shall be deemed to have become on said date the holder or holders of record of the shares represented thereby.

(2) Notwithstanding anything in this Section F of this Article IV to the contrary, any holder may withdraw or amend a notice of conversion, in whole or in part, prior to the effectiveness of the conversion, at any time prior to 5:00 p.m., Eastern time, on the business day immediately preceding the date of the conversion (or any such later time as may be required by applicable law) by delivery of a written or electronic notice of withdrawal to the Corporation or the Class B Transfer Agent, as applicable, specifying (i) if applicable, the certificate numbers of the withdrawn shares of Class B Common Stock, (ii) if any, the number of shares of Class B Common Stock as to which the notice of conversion remains in effect and (iii) if the holder so determines, a new conversion date or any other new or revised information permitted in a notice of conversion.

(3) A notice of conversion may specify that the conversion is to be contingent (including as to timing) upon the consummation of a purchase by another person (whether in a tender or exchange offer, an underwritten offering or otherwise) of shares of the Class A Common Stock into which the Class B Common Stock is convertible, or contingent (including as to timing) upon the closing of an announced merger, consolidation or other transaction or event in which the Class A Common Stock would be exchanged or converted or become exchangeable for or convertible into cash or other securities or property.

G. Automatic Conversion of Class B Common Stock. Each outstanding share of Class B Common Stock will, automatically and without further action on the part of the Corporation or any holder of Class B Common Stock, convert into one fully paid and non-assessable share of Class A Common Stock (i) immediately prior to any Transfer of such Class B Common Stock, other than a Permitted Transfer, and (ii) upon the occurrence of the Triggering Event. Upon any conversion pursuant to this Section G of this Article IV, the certificate or certificates that represented immediately prior thereto the shares of Class B Common Stock that were so converted (if any), automatically and without further action, shall represent the same number of shares of Class A Common Stock without the need for surrender or exchange thereof. As promptly as practicable following a conversion pursuant to this Section G of this Article IV, the Corporation shall deliver or cause to be delivered to any holder whose shares of Class B Common Stock have been converted as a result of such conversion the number of shares of Class A Common Stock deliverable upon such conversion, as applicable, registered in the name of such holder. To the extent such shares are settled through the facilities of The Depository Trust Company or through the book entry facilities of the Class B Transfer Agent, the Corporation will, upon the written instruction of such holder, deliver the shares of Class A Common Stock deliverable to such holder, through the facilities of The Depository Trust Company, to the account of the participant of The Depository Trust Company designated by such holder or through the book entry facilities of the Class B Transfer Agent. Each share of Class B Common Stock that is converted pursuant to this Section G of this Article IV shall thereupon be retired by the Corporation and shall not be available for reissuance.

H. Unconverted Shares. If less than all of the shares of Class B Common Stock evidenced by a certificate or certificates surrendered to the Corporation are converted, the Corporation shall execute and deliver to, or upon the written order of, the holder of such certificate or certificates a new certificate or certificates evidencing the number of shares of Class B Common Stock which are not converted without charge to the holder.

I. No Conversion Rights of Class A Common Stock. The Class A Common Stock shall not have any conversion rights.

J. Reservation of Shares of Class A Common Stock for Conversion Right. The Corporation will at all times reserve and keep available out of its authorized and unissued shares of Class A Common Stock, solely for the purposes of conversions of Class B Common Stock, the number of shares of Class A Common Stock that are issuable if all the outstanding shares of Class B Common Stock and all the shares of Class B Common Stock issuable in connection with the exercise of outstanding options, warrants, exchange rights, conversion rights or similar rights for Class B Common Stock were converted into Class A Common Stock. All the shares of Class A Common Stock that are issued upon conversion of such Class B Common Stock shall, upon issuance, be validly issued, fully paid and non-assessable.

K. Distributions with Respect to Converted Shares. No conversion pursuant to this Article IV shall impair the right of the converting stockholder to receive any dividends or other distributions payable on shares so converted in respect of a record date that occurs prior to the effective date for such conversion. For the avoidance of doubt, no converting stockholder shall be entitled to receive, in respect of a single record date, dividends or other distributions both on shares that are converted by such stockholder and on shares received by such stockholder in such conversion.

L. No Preemptive or Subscription Rights and No Redemption or Sinking Fund Provisions. Holders of the Common Stock will have no preemptive rights or other subscription rights, and there are no redemption or sinking fund provisions applicable to the Common Stock.

ARTICLE V.

Until such time as the McCarthy Investors first cease to beneficially own, in the aggregate, more than 50% of the combined voting power of the outstanding shares of capital stock of the Corporation entitled to vote generally in the election of directors, subject to the rights of the holders of any series of Preferred Stock with respect to such series of Preferred Stock, any action required or permitted to be taken at any annual or special meeting of stockholders of the Corporation may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of outstanding shares having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. From and after the time when the McCarthy Investors first cease to beneficially own, in the aggregate, more than 50% of the combined voting power of the outstanding shares of capital stock of the Corporation entitled to vote generally in the election of directors, subject to the rights of the holders of any series of Preferred Stock with respect to such series of Preferred Stock, any action required or permitted to be taken by the stockholders of the Corporation must be effected at a duly called annual or special meeting of stockholders of the Corporation and may not be effected by any consent in writing by such stockholders.

ARTICLE VI.

The following provisions are inserted for the management of the business and the conduct of the affairs of the Corporation, and for further definition, limitation and regulation of the powers of the Corporation and of its directors and stockholders:

A. The business and affairs of the Corporation shall be managed by or under the direction of the Board of Directors.

B. The Board of Directors shall consist of that number of members as shall be fixed from time to time exclusively by resolution adopted by the affirmative vote of a majority of the total number of directors which the Corporation would have if there were no vacancies (the "**Whole Board**").

C. The Board of Directors shall be and is divided into three classes, as nearly equal in number as possible, designated: Class I, Class II and Class III. In case of any increase or decrease, from time to time, in the number of directors, the number of directors in each class shall be apportioned as nearly equal as possible. No decrease in the number of authorized directors shall shorten the term of any incumbent director. Each director shall serve for a term ending on the date of the third annual meeting following the annual meeting at which such director was elected; *provided* that each director initially appointed to Class I shall serve for a term expiring at the Corporation's annual meeting of stockholders held in 2021; each director initially appointed to Class II shall serve for a term expiring at the Corporation's annual meeting of stockholders held in 2022; and each director initially appointed to Class III shall serve for a term expiring at the Corporation's annual meeting of stockholders held in 2023; *provided*, *further*, that the term of each director shall continue until the election and qualification of his successor and be subject to his earlier death, resignation or removal.

D. Subject to applicable law and the rights of the holders of any series of Preferred Stock with respect to such series of Preferred Stock, and unless the Board of Directors otherwise determines, vacancies resulting from death, resignation, retirement, disqualification, removal from office or other cause, and newly created directorships resulting from any increase in the authorized number of directors, may be filled only by the affirmative vote of a majority of the remaining directors, though less than a quorum of the Board of Directors, and directors so chosen shall hold office for a term expiring at the annual meeting of stockholders at which the term of office of the class to which they have been appointed expires and until such director's successor shall have been duly elected and qualified.

E. Subject to the rights of the holders of any series of Preferred Stock with respect to such series of Preferred Stock, any director, or the entire Board of Directors, may be removed from office, with or without cause, by the affirmative vote of at least a majority of the combined voting power of the outstanding shares of capital stock of the Corporation entitled to vote thereon, voting together as a single class; *provided*, *however*, that from and after such time as the McCarthy Investors first cease to beneficially own, in the aggregate, a majority of the combined voting power of the outstanding shares of capital stock of the Corporation entitled to vote generally in the election of directors, any director, or the entire Board of Directors, may be removed from office only for cause, and only by the affirmative vote of the holders of at least majority of the combined voting power of the outstanding shares of capital stock of the Corporation entitled to vote at an election of directors, at an election of directors duly called pursuant to the By-Laws of the Corporation.

F. In addition to the powers and authority hereinbefore or by statute expressly conferred upon them, the directors are hereby empowered to exercise all such powers and do all

such acts and things as may be exercised or done by the Corporation, subject, nevertheless, to the provisions of the DGCL, this Amended and Restated Certificate of Incorporation, and any By-Laws adopted by the stockholders; *provided*, *however*, that no By-Laws hereafter adopted by the stockholders shall invalidate any prior act of the directors that would have been valid if such By-Laws had not been adopted.

ARTICLE VII.

A. To the fullest extent permitted by the DGCL as the same exists or as may hereafter be amended, no director shall be personally liable to the Corporation or any of its stockholders for monetary damages for breach of fiduciary duty as a director. If the DGCL is amended hereafter to authorize the further elimination or limitation of the liability of directors, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent authorized by the DGCL, as so amended.

B. Neither any amendment nor repeal of any of the foregoing provisions of this Article VII, nor the adoption of any provision of this Amended and Restated Certificate of Incorporation inconsistent with this Article VII, shall eliminate, reduce or otherwise adversely affect any limitation on the personal liability of a director of the Corporation existing at the time of such amendment, repeal or adoption of such an inconsistent provision.

ARTICLE VIII.

A. The Corporation waives, to the maximum extent permitted by law, the application of the doctrine of corporate opportunity, or any other analogous doctrine, with respect to the Corporation, any non-employee directors or stockholders or any of their respective affiliates. Without limiting the foregoing, the Corporation renounces, to the fullest extent permitted by law, any interest or expectancy of the Corporation, its stockholders and any of their respective affiliates, in, or in being notified of or offered an opportunity to participate in, any Excluded Opportunity. An "**Excluded Opportunity**" is any matter, transaction or interest that is presented to, or acquired, created or developed by, or which otherwise comes into the possession of (i) any director of the Corporation who is not an employee of the Corporation or any of its subsidiaries or (ii) any such director's affiliates, partners, or other representatives (each of the foregoing, a "**Covered Person**"), unless such matter, transaction or interest is expressly offered to such director solely in his or her capacity as a director of the Corporation. No Covered Person shall have any duty to communicate or offer an Excluded Opportunity to the Corporation or any of its affiliates or stockholders, and no Covered Person shall have any liability to the Corporation, any of its affiliates or stockholders for breach of any duty, as a director or otherwise, by reason of the fact that such Covered Person pursues or acquires an Excluded Opportunity, directs an Excluded Opportunity to another person or fails to present an Excluded Opportunity, or information regarding an Excluded Opportunity, to the Corporation or any of its affiliates or stockholders.

B. Any person or entity purchasing or otherwise acquiring or obtaining any interest in any capital stock of the Corporation shall be deemed to have notice and to have consented to the provisions of this Article VIII.

C. This Article VIII shall not limit any protections or defenses available to, or indemnification rights of, any non-employee director of the Corporation under this Amended and Restated Certificate of Incorporation or the Corporation's By-Laws (as either may be amended from time to time) or applicable law. The renunciation of any interest in or expectancy with respect to any corporate opportunity in this Article VIII shall not be deemed exclusive of or limit in any way any other renunciation of a corporate opportunity by the Corporation or the Board of Directors or protection to which any Covered Person may be or may become entitled under any statute, bylaw, resolution, agreement, vote of stockholders or disinterested directors or otherwise.

D. Neither the alteration, amendment, termination, expiration or repeal of this Article VIII nor the adoption of any provision inconsistent with this Article VIII shall eliminate or reduce the effect of this Article VIII in respect of any matter occurring, or any cause of action that, but for this Article VIII, would accrue or arise, prior to such alteration, amendment, termination, expiration.

ARTICLE IX.

The Corporation reserves the right to amend, alter or repeal any provision contained in this Amended and Restated Certificate of Incorporation in any manner provided by the DGCL, and all rights conferred upon stockholders are granted subject to this reservation

In furtherance and not in limitation of the powers conferred upon it by the laws of the State of Delaware, the Board of Directors shall have the power to adopt, amend, alter or repeal the Corporation's By-Laws, except as provided in the Corporation's By-Laws. The affirmative vote of at least a majority of the Whole Board shall be required to adopt, amend, alter or repeal the Corporation's By-Laws. The Corporation's By-Laws also may be adopted, amended, altered or repealed by the affirmative vote of the holders of a majority of the combined voting power of the outstanding shares of capital stock of the Corporation entitled to vote at an election of directors.

ARTICLE X.

Unless the Corporation consents in writing to the selection of an alternative forum, the sole and exclusive forum for: (a) any derivative action or proceeding brought on behalf of the Corporation; (b) any action asserting a claim for or based on a breach of a fiduciary duty owed by any current or former director or officer or other employee of the Corporation to the Corporation or to the Corporation's stockholders, including a claim alleging the aiding and abetting of such a breach of fiduciary duty; (c) any action asserting a claim against the Corporation or any current or former director or officer or other employee of the Corporation arising pursuant to any provision of the DGCL or this Amended and Restated Certificate of Incorporation or the Corporation's By-Laws (as either may be amended from time to time); (d) any action asserting a claim related to or involving the Corporation that is governed by the internal affairs doctrine; or (e) any action asserting an "internal corporate claim" as that term is defined in Section 115 of the DGCL shall be a state court located within the State of Delaware (or, if no state court located within the State of Delaware has jurisdiction, the federal court for the District of Delaware).

IN WITNESS WHEREOF, the Corporation has caused this Amended and Restated Certificate of Incorporation to be executed on its behalf this day of , 2020.

ARTICLE II

STOCKHOLDERS

SECTION 2.1. Annual Meeting. The annual meeting of the stockholders of the Corporation shall be held on such date and at such place and time as may be fixed by resolution of the Board of Directors. The Board of Directors may, in its sole discretion, determine that the meeting shall not be held at any place, but may instead be held solely by means of remote communication.

SECTION 2.2. Special Meeting. Except as otherwise required by law or the Corporation's Amended and Restated Certificate of Incorporation (as it may be amended from time to time, the "Certificate of Incorporation"), special meetings of the stockholders of the Corporation may be called only by the Chairperson of the Board, the Chief Executive Officer or an officer at the request of a majority of the members of the Board of Directors pursuant to a resolution approved by the Board of the Directors.

SECTION 2.3. Place of Meeting. The Board of Directors or the Chairperson of the Board, as the case may be, may designate the place of meeting for any annual or special meeting of the stockholders or may designate that the meeting be held by means of remote communication. If no designation is so made, the place of meeting shall be the principal office of the Corporation.

SECTION 2.4. Notice of Meeting. Written or printed notice, stating the place, if any, date and hour of the meeting, the record date for determining the stockholders entitled to vote at the meeting (if such date is different from the record date for stockholders entitled to notice of the meeting), the means of remote communications, if any, by which stockholders and proxy holders may be deemed to be present in person and vote at such meeting, and in the case of a special meeting, the purpose or purposes for which the meeting is called, shall be given by the Corporation not less than ten (10) days nor more than sixty (60) days before the date of the meeting, either personally, by electronic transmission in the manner provided in Section 232 of the General Corporation Law of the State of Delaware (the "DGCL") (except to the extent prohibited by Section 232(e) of the DGCL) or by mail, to each stockholder of record entitled to vote at such meeting. If mailed, such notice shall be deemed to be given when deposited in the United States mail with postage thereon prepaid, addressed to the stockholder at such stockholder's address as it appears on the records of the Corporation. If notice is given by electronic transmission, such notice shall be deemed to be given at the times provided in the DGCL. Such further notice shall be given as may be required by law. Meetings may be held without notice if all stockholders entitled to vote are present, or if notice is waived by those not present in accordance with Section 7.5 of these By-Laws. Any previously scheduled meeting of the stockholders may be postponed, and (unless the Certificate of Incorporation otherwise provides) any special meeting of the stockholders may be cancelled, by resolution of the Board of Directors upon public notice given prior to the date previously scheduled for such meeting of stockholders.

SECTION 2.5. Quorum and Adjournment. Except as otherwise provided by law or by the Certificate of Incorporation, the holders of a majority of the total voting power of all outstanding shares of capital stock of the Corporation entitled to vote generally in the election of directors (the "Voting Stock"), represented in person or by proxy, shall constitute a quorum at a meeting of stockholders, except that when specified business is to be voted on by a class or series of stock voting as a class, the holders of a majority of the shares of such class or series shall constitute a quorum of such class or series for the transaction of such business. The Chairperson of the Board of Directors or the Chief Executive Officer may adjourn the meeting from time to time, whether or not there is a quorum. No notice of the time and place, if any, of adjourned meetings need be given, except as required by law. The stockholders present at a duly called meeting at which a quorum is present may continue to transact business until adjournment, notwithstanding the withdrawal of enough stockholders to leave less than a quorum.

SECTION 2.6. Proxies. At all meetings of stockholders, a stockholder may vote by proxy executed in writing (or in such manner prescribed by the DGCL) by the stockholder, or by his or her duly authorized attorney in fact.

SECTION 2.7. Order of Business.

(A) Annual Meetings of Stockholders. At any annual meeting of the stockholders, only such nominations of individuals for election to the Board of Directors shall be made, and only such other business shall be conducted or considered, as shall have been properly brought before the meeting. For nominations to be properly made at an annual meeting, and proposals of other business to be properly brought before an annual meeting, nominations and proposals of other business must be: (a) specified in the Corporation's notice of meeting (or any supplement thereto) given by or at the direction of the Board of Directors, (b) otherwise properly made at the annual meeting, by or at the direction of the Board of Directors or (c) otherwise properly requested to be brought before the annual meeting by a stockholder of the Corporation in accordance with these By-Laws. For nominations of individuals for election to the Board of Directors or proposals of other business to be properly requested by a stockholder to be made at an annual meeting, a stockholder must (i) be a stockholder of record at the time of giving of notice of such annual meeting by or at the direction of the Board of Directors and at the time of the annual meeting, (ii) be entitled to vote at such annual meeting and (iii) comply with the procedures set forth in these By-Laws as to such business or nomination. The immediately preceding sentence shall be the exclusive means for a stockholder to make nominations or other business proposals (other than matters properly brought under Rule 14a-8 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and included in the Corporation's notice of meeting) before an annual meeting of stockholders.

(B) Special Meetings of Stockholders. At any special meeting of the stockholders, only such business shall be conducted or considered, as shall have been properly brought before the meeting pursuant to the Corporation's notice of meeting. To be properly brought before a special meeting, proposals of business must be (a) specified in the Corporation's notice of meeting (or any supplement thereto) given by or at the direction of the Board of Directors or (b) otherwise properly brought before the special meeting, by or at the direction of the Board of Directors; provided, however, that nothing herein shall prohibit the Board of Directors from submitting additional matters to stockholders at any such special meeting.

Nominations of individuals for election to the Board of Directors may be made at a special meeting of stockholders at which directors are to be elected pursuant to the Corporation's notice of meeting (a) by or at the direction of the Board of Directors or (b) provided that the Board of Directors has determined that directors shall be elected at such meeting, by any stockholder of the Corporation who (i) is a stockholder of record at the time of giving of notice of such special meeting and at the time of the special meeting, (ii) is entitled to vote at the meeting and (iii) complies with the procedures set forth in these By-Laws as to such nomination. This Section 2.7(B) shall be the exclusive means for a stockholder to make nominations or other business proposals (other than matters properly brought under Rule 14a-8 under the Exchange Act and included in the Corporation's notice of meeting) before a special meeting of stockholders.

(C) General. Except as otherwise provided by law, the Certificate of Incorporation or these By-Laws, the Chairperson of any annual or special meeting shall have the power to determine whether a nomination or any other business proposed to be brought before

the meeting was made or proposed, as the case may be, in accordance with these By-Laws and, if any proposed nomination or other business is not in compliance with these By-Laws, to declare that no action shall be taken on such nomination or other proposal and such nomination or other proposal shall be disregarded.

SECTION 2.8. Advance Notice of Stockholder Business and Nominations.

(A) Annual Meeting of Stockholders. Without qualification or limitation, subject to Section 2.8(C)(4) of these By-Laws, for any nominations or any other business to be properly brought before an annual meeting by a stockholder pursuant to Section 2.7(A) of these By-Laws, the stockholder must have given timely notice thereof (including, in the case of nominations, the completed and signed questionnaire, representation and agreement required by Section 2.9 of these By-Laws) in proper form, in writing to the Secretary, and such other business must otherwise be a proper matter for stockholder action.

To be timely, a stockholder's notice shall be delivered to the Secretary at the principal executive offices of the Corporation not earlier than the close of business on the 120th day and not later than the close of business on the 90th day prior to the first anniversary of the preceding year's annual meeting; provided, however, that in the event that the date of the annual meeting is more than 30 days before or more than 60 days after such anniversary date, notice by the stockholder must be so delivered not earlier than the close of business on the 120th day prior to the date of such annual meeting and not later than the close of business on the later of the 90th day prior to the date of such annual meeting or, if the first public announcement of the date of such annual meeting is less than 100 days prior to the date of such annual meeting, the 10th day following the day on which public announcement of the date of such meeting is first made by the Corporation. In no event shall any adjournment or postponement of an annual meeting, or the public announcement thereof, commence a new time period for the giving of a stockholder's notice as described above.

Notwithstanding anything in the immediately preceding paragraph to the contrary, in the event that the number of directors to be elected to the Board of Directors is increased by the Board of Directors, and there is no public announcement by the Corporation naming all of the nominees for director or specifying the size of the increased Board of Directors at least 100 days prior to the first anniversary of the preceding year's annual meeting, a stockholder's notice required by this Section 2.8(A) shall also be considered timely, but only with respect to nominees for any new positions created by such increase, if it shall be delivered to the Secretary at the principal executive offices of the Corporation not later than the close of business on the 10th day following the day on which such public announcement is first made by the Corporation.

In addition, to be timely, a stockholder's notice shall further be updated and supplemented, if necessary, so that the information provided or required to be provided in such notice shall be true and correct as of the record date for the meeting and as of the date that is ten (10) business days prior to the meeting or any adjournment or postponement thereof, and such update and supplement shall be delivered to the Secretary at the principal executive offices of the Corporation not later than five (5) business days after the record date for the meeting in the case of the update and supplement required to be made as of the record date, and not later than eight (8) business days prior to the date for the meeting or any adjournment or postponement thereof in the case of the update and supplement required to be made as of ten (10) business days prior to the meeting or any adjournment or postponement thereof.

(B) Special Meetings of Stockholders. Subject to Section 2.8(C)(4) of these By-Laws, in the event the Corporation calls a special meeting of stockholders for the purpose of electing one or more directors to the Board of Directors, any stockholder may nominate an individual or individuals (as the case may be) for election to such position(s) as specified in the Corporation's notice of meeting, provided that the stockholder gives timely notice thereof (including the completed and signed questionnaire, representation and agreement required by Section 2.9 of these By-Laws) in proper form, in writing, to the Secretary.

To be timely, a stockholder's notice shall be delivered to the Secretary at the principal executive offices of the Corporation not earlier than the close of business on the 120th day prior to the date of such special meeting and not later than the close of business on the later of the 90th day prior to the date of such special meeting or, if the first public announcement of the date of such special meeting is less than 100 days prior to the date of such special meeting, the 10th day following the day on which public announcement is first made of the date of the special meeting and of the nominees proposed by the Board of Directors to be elected at such meeting. In no event shall any adjournment or postponement of a special meeting of stockholders, or the public announcement thereof, commence a new time period for the giving of a stockholder's notice as described above.

In addition, to be considered timely, a stockholder's notice shall further be updated and supplemented, if necessary, so that the information provided or required to be provided in such notice shall be true and correct as of the record date for the meeting and as of the date that is ten (10) business days prior to the meeting or any adjournment or postponement thereof, and such update and supplement shall be delivered to the Secretary at the principal executive offices of the Corporation not later than five (5) business days after the record date for the meeting in the case of the update and supplement required to be made as of the record date, and not later than eight (8) business days prior to the date for the meeting, any adjournment or postponement thereof in the case of the update and supplement required to be made as of ten (10) business days prior to the meeting or any adjournment or postponement thereof.

(C) Disclosure Requirements.

(b) If the notice relates to any business other than a nomination of a director or directors that the stockholder proposes to bring before the meeting, a stockholder's notice must, in addition to the matters set forth in paragraph (a) above, also set forth: (i) a brief description of the business desired to be brought before the meeting, the reasons for conducting such business at the meeting and any material interest of such stockholder, such beneficial owner and their respective affiliates or associates or others acting in concert therewith, if any, in such business, (ii) the text of the proposal or business (including the text of any resolutions proposed for consideration and, in the event that such proposal or business includes a proposal to amend the By-Laws of the Corporation, the text of the proposed amendment), and (iii) a description of all agreements, arrangements and understandings between such stockholder, such beneficial owner and their respective affiliates or associates or others acting in concert therewith, if any, and any other person or persons (including their names) in connection with the proposal of such business by such stockholder;

(d) With respect to each individual, if any, whom the stockholder proposes to nominate for election or reelection to the Board of Directors, a stockholder's notice must, in addition to the matters set forth in paragraphs (a) and (c) above, also include a completed and signed questionnaire, representation and agreement required by Section 2.9 of these By-Laws. The Corporation may require any proposed nominee to furnish such other information as may reasonably be required by the Corporation to determine the eligibility of such proposed nominee to serve as an independent director of the Corporation or that could be material to a reasonable stockholder's understanding of the independence, or lack thereof, of such nominee. Notwithstanding anything to the contrary, only persons who are nominated in accordance with the procedures set forth in these By-Laws, including, without limitation, Sections 2.7, 2.8 and 2.9 hereof, shall be eligible for election as directors.

(2) For purposes of these By-Laws, "public announcement" shall mean disclosure in a press release reported by a national news service or in a document publicly filed by the Corporation with the Securities and Exchange Commission pursuant to Section 13, 14 or 15(d) of the Exchange Act and the rules and regulations promulgated thereunder.

(3) Notwithstanding the provisions of these By-Laws, a stockholder shall also comply with all applicable requirements of the Exchange Act and the rules and regulations thereunder with respect to the matters set forth in this By-Law; provided, however, that any references in these By-Laws to the Exchange Act or the rules promulgated thereunder are not intended to and shall not limit the separate and additional requirements set forth in these By-Laws with respect to nominations or proposals as to any other business to be considered.

(4) Nothing in these By-Laws shall be deemed to affect any rights (i) of stockholders to request inclusion of proposals in the Corporation's proxy statement pursuant to Rule 14a-8 under the Exchange Act or (ii) of the holders of any series of preferred stock of the Corporation if and to the extent provided for under law, the Certificate of Incorporation or these By-Laws. Subject to Rule 14a-8 under the Exchange Act, nothing in these By-Laws shall be construed to permit any stockholder, or give any stockholder the right, to include or have disseminated or described in the Corporation's proxy statement any nomination of director or directors or any other business proposal.

SECTION 2.9. Submission of Questionnaire, Representation and Agreement. To be eligible to be a nominee of any stockholder for election or reelection as a director of the Corporation, a person must deliver (in accordance with the time periods prescribed for delivery of notice under Section 2.8 of these By-Laws) to the Secretary at the principal executive offices of the Corporation a written questionnaire with respect to the background and qualification of such individual and the background of any other person or entity on whose behalf, directly or indirectly, the nomination is being made (which questionnaire shall be provided by the Secretary upon written request), and a written representation and agreement (in the form provided by the Secretary upon written request) that such individual (A) is not and will not become a party to (1) any agreement, arrangement or understanding with, and has not given any commitment or assurance to, any person or entity as to how such person, if elected as a director of the

Corporation, will act or vote on any issue or question (a "Voting Commitment") that has not been disclosed therein or (2) any Voting Commitment that could limit or interfere with such individual's ability to comply, if elected as a director of the Corporation, with such individual's fiduciary duties under applicable law, (B) is not and will not become a party to any agreement, arrangement or understanding with any person or entity other than the Corporation with respect to any direct or indirect compensation, reimbursement or indemnification in connection with service or action as a director that has not been disclosed therein, (C) in such individual's personal capacity and on behalf of any person or entity on whose behalf, directly or indirectly, the nomination is being made, would be in compliance, if elected as a director of the Corporation, and will comply, with all applicable corporate governance, conflict of interest, confidentiality and stock ownership and trading policies and guidelines of the Corporation publicly disclosed from time to time and (D) will abide by the requirements of Section 2.10(C) of these By-Laws.

SECTION 2.10. Procedure for Election of Directors; Required Vote.

(A) Election of directors at all meetings of the stockholders at which directors are to be elected shall be by ballot, and, subject to the rights of the holders of any series of Preferred Stock to elect directors under specified circumstances, a plurality of the votes cast at any meeting for the election of directors at which a quorum is present shall elect directors.

(B) Except as otherwise provided by law, the Certificate of Incorporation, or these By-Laws, in all matters other than the election of directors, the affirmative vote of a majority of the total voting power of shares of capital stock of the Corporation present in person or represented by proxy at the meeting and entitled to vote on the matter shall be the act of the stockholders.

(C) Any individual who is nominated for election to the Board of Directors and included in the Corporation's proxy materials for an annual meeting shall tender an irrevocable resignation, effective immediately, upon a determination by the Board of Directors or any committee thereof that (1) the information provided to the Corporation by such individual or, if applicable, by the stockholder who nominated such individual, was untrue in any material respect or omitted to state a material fact necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading or (2) such individual or, if applicable, the stockholder or stockholders who nominated such individual, shall have breached any representations or obligations owed to the Corporation under these By-Laws.

SECTION 2.11. Inspectors of Elections; Opening and Closing the Polls. The Board of Directors by resolution shall appoint one or more inspectors to act at the meetings of stockholders and make a written report thereof. One or more persons may be designated as alternate inspectors to replace any inspector who fails to act. If no inspector or alternate has been appointed to act or is able to act at a meeting of stockholders, the Chairperson of the meeting shall appoint one or more inspectors to act at the meeting. Each inspector, before discharging his or her duties, shall take and sign an oath faithfully to execute the duties of inspector with strict impartiality and according to the best of his or her ability. The inspectors shall have the duties prescribed by law.

The Chairperson of the meeting shall fix and announce at the meeting the date and time of the opening and the closing of the polls for each matter upon which the stockholders will vote at a meeting.

SECTION 2.12. Stockholder Action by Written Consent. The right of the stockholders to act by written consent in lieu of a meeting shall be as set forth in Article V of the Certificate of Incorporation.

SECTION 2.13. Record Date for Action by Written Consent. In order that the Corporation may determine the stockholders entitled to consent to action in writing without a meeting (at any time when the stockholders may authorize or take action by written consent in accordance with Section 2.12 of these By-Laws), the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which date shall not be more than ten (10) days after the date upon which the resolution fixing the record date is adopted by the Board of Directors. Any stockholder of record seeking to have the stockholders authorize or take action by written consent (at any time when the stockholders may authorize or take action by written consent in accordance with Section 2.12 of these By-Laws) shall request the Board of Directors to fix a record date, which request shall be in proper form and delivered to the Secretary at the principal executive offices of the Corporation.

The Board of Directors shall promptly, but in all events within ten (10) days after the date on which such a request is received, adopt a resolution fixing the record date. If no record date has been fixed by the Board of Directors within ten (10) days of the date on which such a request is received, the record date for determining stockholders entitled to consent to corporate action in writing without a meeting, when no prior action by the Board of Directors is required by applicable law, shall be the first date on which a signed written consent setting forth the action taken or proposed to be taken is delivered to the Corporation by delivery to its registered office in Delaware, its principal place of business or to any officer or agent of the Corporation having custody of the book in which proceedings of meetings of stockholders are recorded. Delivery made to the Corporation's registered office shall be by hand or by certified or registered mail, return receipt requested. If no record date has been fixed by the Board of Directors and prior action by the Board of Directors is required by applicable law, the record date for determining stockholders entitled to consent to corporate action in writing without a meeting shall be at the close of business on the date on which the Board of Directors adopts the resolution taking such prior action.

ARTICLE III

BOARD OF DIRECTORS

SECTION 3.1. General Powers. The business and affairs of the Corporation shall be managed by or under the direction of the board of directors (the "Board of Directors"). In addition to the powers and authorities by these By-Laws expressly conferred upon them, the Board of Directors may exercise all such powers of the Corporation and do all such lawful acts and things as are not by statute or by the Certificate of Incorporation or by these By-Laws required to be exercised or done by the stockholders.

SECTION 3.2. Number, Tenure and Qualifications. Subject to the rights of the holders of any series of Preferred Stock to elect directors under specified circumstances, the number of directors shall be fixed from time to time exclusively pursuant to a resolution adopted by a majority of the total number of directors that the Corporation would have if there were no vacancies (the "Whole Board"). No decrease in the number of authorized directors constituting the Whole Board shall shorten the term of any incumbent director. The directors shall be elected at the annual meetings of stockholders, at which a quorum is present, as specified in the Certificate of Incorporation and in these By-Laws, and each director of the Corporation shall hold office until such director's successor is elected and qualified or until such director's earlier death, resignation or removal.

SECTION 3.3. Regular Meetings. A regular meeting of the Board of Directors shall be held without other notice than thisBy-law immediately after, and at the same place as, the Annual Meeting of Stockholders. The Board of Directors may, by resolution, provide the time and place, if any, for the holding of additional regular meetings without other notice than such resolution.

SECTION 3.4. Special Meetings. Special meetings of the Board of Directors shall be called at the request of the Chairperson of the Board or a majority of the Board of Directors then in office. The person or persons authorized to call special meetings of the Board of Directors may fix the place, if any, and time of the meetings.

SECTION 3.5. Notice. Notice of any special meeting of directors shall be given to each director at his or her place of business or residence in writing by hand delivery, first-class or overnight mail or courier service, telegram, email or facsimile transmission, or orally by telephone. If mailed by first-class mail, such notice shall be deemed adequately delivered when deposited in the United States mail so addressed, with postage thereon prepaid, at least five (5) days before such meeting. If by telegram, overnight mail or courier service, such notice shall be deemed adequately delivered when the telegram is delivered to the telegraph company, or the notice is delivered to the overnight mail or courier service company at least twenty-four (24) hours before such meeting. If by email, facsimile transmission, telephone or by hand, such notice shall be deemed adequately delivered when the notice is transmitted at least twelve (12) hours before such meeting. Neither the business to be transacted at, nor the purpose of, any regular or special meeting of the Board of Directors need be specified in the notice of such meeting. A meeting may be held at any time without notice if all the directors are present or if those not present waive notice of the meeting in accordance with Section 7.5 of these By-Laws.

SECTION 3.6. Action by Consent of Board of Directors. Any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting if all members of the Board of Directors or committee, as the case may be, consent thereto in writing, or by electronic transmission and the writing or writings or electronic transmission or transmissions are filed with the minutes of proceedings of the Board of Directors, or any committee thereof. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

SECTION 3.7. Conference Telephone Meetings. Members of the Board of Directors, or any committee thereof, may participate in a meeting of the Board of Directors or such committee by means of conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other, and such participation in a meeting shall constitute presence in person at such meeting.

SECTION 3.8. Quorum. Subject to Section 3.9 of these By-Laws, a whole number of directors equal to at least a majority of the Whole Board shall constitute a quorum for the transaction of business, but if at any meeting of the Board of Directors there shall be less than a quorum present, a majority of the directors present may adjourn the meeting from time to time without further notice. The act of the majority of the directors present at a meeting at which a quorum is present shall be the act of the Board of Directors. The directors present at a duly organized meeting may continue to transact business until adjournment, notwithstanding the withdrawal of enough directors to leave less than a quorum.

SECTION 3.9. Vacancies. Subject to applicable law and the rights of the holders of any Series of Preferred Stock with respect to such series of Preferred Stock, and unless the Board of Directors otherwise determines, vacancies resulting from death, resignation, retirement, disqualification, removal from office or other cause, and newly created directorships resulting from any increase in the authorized number of directors, may be filled only by the affirmative vote of a majority of the remaining directors, though less than a quorum of the Board of Directors, or by a sole remaining director,and directors so chosen shall hold office for a term expiring at the annual meeting of stockholders at which the term of office of the class to which they have been appointed expires and until such director's successor shall have been duly elected and qualified.

In the absence or disqualification of any member of such committee or committees, the member or members thereof present at any meeting and not disqualified from voting, whether or not constituting a quorum, may unanimously appoint another member of the Board of Directors to act at the meeting in the place of any such absent or disqualified member. Each committee shall keep written minutes of its proceedings and shall report such proceedings to the Board of Directors when required.

A majority of any committee may determine its action and fix the time and place of its meetings, unless the Board of Directors shall otherwise provide. Notice of such meetings shall be given to each member of the committee in the manner provided for in Section 3.5 of these By-Laws. The Board of Directors shall have power at any time to fill vacancies in, to change the membership of, or to dissolve, any such committee. Nothing herein shall be deemed to prevent the Board of Directors from appointing one or more committees consisting in whole or in part of persons who are not directors of the Corporation; provided, however, that no such committee shall have or may exercise any authority of the Board of Directors.

ARTICLE V

STOCK CERTIFICATES AND TRANSFERS

SECTION 5.1. Certificated and Uncertificated Stock; Transfers. The interest of each stockholder of the Corporation may be evidenced by certificates for shares of stock in such form as the appropriate officers of the Corporation may from time to time prescribe or be uncertificated, provided that the Board of Directors may provide by resolution or resolutions that some or all of any or all classes or series of capital stock of the Corporation shall be represented by uncertificated shares.

The shares of the stock of the Corporation shall be transferred on the books of the Corporation, in the case of certificated shares of stock, by the holder thereof in person or by such holder's attorney duly authorized in writing, upon surrender for cancellation of certificates for at least the same number of shares, with an assignment and power of transfer endorsed thereon or attached thereto, duly executed, with such proof of the authenticity of the signature as the Corporation or its agents may reasonably require; and, in the case of uncertificated shares of stock, upon receipt of proper transfer instructions from the registered holder of the shares or by such person's attorney duly authorized in writing, and upon compliance with appropriate procedures for transferring shares in uncertificated form. No transfer of stock shall be valid as against the Corporation for any purpose until it shall have been entered in the stock records of the Corporation by an entry showing from and to whom transferred.

The certificates of stock for any certificated classes or series of capital stock of the Corporation shall be signed, countersigned and registered in such manner as the Board of Directors may by resolution prescribe, which resolution may permit all or any of the signatures on such certificates to be in facsimile. In case any officer, transfer agent or registrar who has signed or whose facsimile signature has been placed upon a certificate has ceased to be such officer, transfer agent or registrar before such certificate is issued, it may be issued by the Corporation with the same effect as if such person were such officer, transfer agent or registrar at the date of issue.

Notwithstanding anything to the contrary in these By-Laws, at all times that the Corporation's stock is listed on a stock exchange, the shares of the stock of the Corporation shall comply with all direct registration system eligibility requirements established by such exchange, including any requirement that shares of the Corporation's stock be eligible for issue in book-entry

form. All issuances and transfers of shares of the Corporation's stock shall be entered on the books of the Corporation with all information necessary to comply with such direct registration system eligibility requirements, including the name and address of the person to whom the shares of stock are issued, the number of shares of stock issued and the date of issue. The Board of Directors shall have the power and authority to make such rules and regulations as it may deem necessary or proper concerning the issue, transfer and registration of shares of stock of the Corporation in both the certificated and uncertificated form.

SECTION 5.2. Lost, Stolen or Destroyed Certificates. No certificate for shares of stock in the Corporation shall be issued in place of any certificate alleged to have been lost, destroyed or stolen, except on production of such evidence of such loss, destruction or theft and on delivery to the Corporation of a bond of indemnity in such amount, upon such terms and secured by such surety, as the Board of Directors or any financial officer may in its, his or her discretion require.

SECTION 5.3. Record Owners. The Corporation shall be entitled to recognize the exclusive right of a person registered on its books as the owner of shares to receive dividends, and to vote as such owner, and to hold liable for calls and assessments a person registered on its books as the owner of shares, and shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof, except as otherwise required by law.

ARTICLE VI

INDEMNIFICATION

SECTION 6.1. Indemnification Procedures.

(A) Each person who was or is a party or is threatened to be made a party or is otherwise involved in any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (hereinafter a "proceeding"), by reason of the fact that he or she or a person of whom he or she is the legal representative is or was, at any time during which this Section 6.1 is in effect (whether or not such person continues to serve in such capacity at the time any indemnification or advancement of expenses pursuant hereto is sought or at the time any proceeding relating thereto exists or is brought), a director or officer of the Corporation or is or was at any such time serving at the request of the Corporation as a director, officer, trustee, employee or agent of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to employee benefit plans maintained or sponsored by the Corporation (hereinafter, an "indemnitee"), whether the basis of such proceeding is alleged action in an official capacity as a director, officer, trustee, employee or agent or in any other capacity while serving as a director, officer, trustee, employee or agent, shall be (and shall be deemed to have a contractual right to be) indemnified and held harmless by the Corporation (and any successor of the Corporation by merger or otherwise) to the fullest extent authorized by the DGCL as the same exists or may hereafter be amended or modified from time to time (but, in the case of any such amendment or modification, only to the extent that such amendment or modification permits the Corporation to provide greater indemnification rights than said law permitted the Corporation to provide prior to such amendment or modification), against all expense, liability and loss (including attorneys' fees, judgments, fines,

excise taxes under the Employee Retirement Income Security Act of 1974, as amended, or penalties and amounts paid or to be paid in settlement) incurred or suffered by such person in connection with such proceeding if the person acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful. The termination of any proceeding by judgment, order, settlement, conviction or upon a plea of *nolo contendere* or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that the person's conduct was unlawful. Such indemnification shall continue as to a person who has ceased to be a director, officer, trustee, employee or agent and shall inure to the benefit of his or her heirs, executors and administrators; provided, that except as provided in Section 6.1(D) of these By-Laws, the Corporation shall indemnify any such person seeking indemnification in connection with a proceeding (or part thereof) initiated by such person only if such proceeding (or part thereof) was authorized by the Board of Directors.

(B) To obtain indemnification under this Section 6.1, a claimant shall submit to the Corporation a written request, including therein or therewith such documentation and information as is reasonably available to the claimant and is reasonably necessary to determine whether and to what extent the claimant is entitled to indemnification. Upon written request by a claimant for indemnification, a determination, if required by applicable law, with respect to the claimant's entitlement thereto shall be made as follows: (i) by a majority vote of the Disinterested Directors (as hereinafter defined) even though less than a quorum, or (ii) by a committee consisting of Disinterested Directors designated by majority vote of such Disinterested Directors even though less than a quorum, or (iii) if there are no Disinterested Directors or, if such Disinterested Directors so direct, by Independent Counsel (as hereinafter defined) selected by the Board of Directors, in a written opinion to the Board of Directors, a copy of which shall be delivered to the claimant, or (iv) by the affirmative vote of a majority of the total voting power of all the then outstanding Voting Stock, voting together as a single class. If it is so determined that the claimant is entitled to indemnification, payment to the claimant shall be made within ten (10) days after such determination.

(C) To the fullest extent authorized by the DGCL as the same exists or may hereafter be amended or modified from time to time (but, in the case of any such amendment or modification, only to the extent that such amendment or modification permits the Corporation to provide greater rights to advancement of expenses than said law permitted the Corporation to provide prior to such amendment or modification), each indemnitee shall have (and shall be deemed to have a contractual right to have) the right, without the need for any action by the Board of Directors, to be paid by the Corporation (and any successor of the Corporation by merger or otherwise) the expenses incurred in connection with any proceeding in advance of its final disposition, such advances to be paid by the Corporation within twenty (20) days after the receipt by the Corporation of a statement or statements from the claimant requesting such advance or advances from time to time; provided, however, that if the DGCL requires, the payment of such expenses incurred by a director or officer in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such person while a director or officer, including, without limitation, service to an employee benefit plan) shall be

made only upon delivery to the Corporation of an undertaking (hereinafter, the "undertaking") by or on behalf of such director or officer, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right of appeal (a "final disposition") that such director or officer is not entitled to be indemnified for such expenses under this Section 6.1 or otherwise.

(D) If a (i) claim for indemnification under Section 6.1(A) of these By-Laws is not paid in full by the Corporation within thirty (30) days after a written claim pursuant to Section 6.1(B) of these By-Laws has been received by the Corporation or if (ii) a request for advancement of expenses under this Section 6.1 is not paid in full by the Corporation within twenty (20) days after a statement pursuant to Section 6.1(C) of these By-Laws, and the required undertaking, if any, have been received by the Corporation, the claimant may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim for indemnification or request for advancement of expenses and, if successful in whole or in part, the claimant shall be entitled to be paid also the expense of prosecuting such claim. It shall be a defense to any such action that under the DGCL, the claimant has not met the standard of conduct which makes it permissible for the Corporation to indemnify the claimant for the amount claimed or that the claimant is not entitled to the requested advancement of expenses, but (except where the required undertaking, if any, has not been tendered to the Corporation), the burden of proving such defense shall be on the Corporation. Neither the failure of the Corporation (including its Disinterested Directors, Independent Counsel or stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because he or she has met the applicable standard of conduct set forth in the DGCL, nor an actual determination by the Corporation (including its Board of Directors, Independent Counsel or stockholders) that the claimant has not met such applicable standard of conduct, shall be a defense to the action or create a presumption that the claimant has not met the applicable standard of conduct.

(E) If a determination shall have been made pursuant to Section 6.1(B) of these By-Laws that the claimant is entitled to indemnification, the Corporation shall be bound by such determination in any judicial proceeding commenced pursuant to Section 6.1(D) of these By-Laws.

(F) The Corporation shall be precluded from asserting in any judicial proceeding commenced pursuant to Section 6.1(D) of these By-Laws that the procedures and presumptions of this Section 6.1 are not valid, binding and enforceable and shall stipulate in such proceeding that the Corporation is bound by all the provisions of this Section 6.1.

(G) All of the rights conferred in this Section 6.1, as to indemnification, advancement of expenses and otherwise, shall be contract rights between the Corporation and each indemnitee to whom such rights are extended that vest at the commencement of such indemnitee's service to or at the request of the Corporation and (i) any amendment or modification of this Section 6.1 that in any way diminishes or adversely affects any such rights shall be prospective only and shall not in any way diminish or adversely affect any such rights with respect to such person, and (ii) all of such rights shall continue as to any such indemnitee who has ceased to be a director or officer of the Corporation or ceased to serve at the Corporation's request as a director, officer, trustee, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, as described herein, and shall inure to the benefit of such indemnitee's heirs, executors and administrators.

(H) All of the rights conferred in this Section 6.1, as to indemnification, advancement of expenses and otherwise (i) shall not be exclusive of any other rights to which any person seeking indemnification or advancement of expenses may be entitled or hereafter acquire under any statute, provision of the Certificate of Incorporation, these By-Laws, agreement, vote of stockholders or Disinterested Directors or otherwise both as to action in such person's official capacity and as to action in another capacity while holding such office and (ii) cannot be terminated or impaired by the Corporation, the Board of Directors or the stockholders of the Corporation with respect to a person's service prior to the date of such termination.

(I) The Corporation may maintain insurance, at its expense, to protect itself and any current or former director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the DGCL. To the extent that the Corporation maintains any policy or policies providing such insurance, each such current or former director or officer, and each such agent or employee to which rights to indemnification have been granted as provided in Section 6.1(J) of these By-Laws, shall be covered by such policy or policies in accordance with its or their terms to the maximum extent of the coverage thereunder for any such current or former director, officer, employee or agent.

(J) The Corporation may, to the extent authorized from time to time by the Board of Directors or the Chief Executive Officer, grant rights to indemnification, and rights to advancement of expenses incurred in connection with any proceeding in advance of its final disposition, to any current or former employee or agent of the Corporation to the fullest extent of the provisions of this Section 6.1 with respect to the indemnification and advancement of expenses of current or former directors and officers of the Corporation.

(K) If any provision or provisions of this Section 6.1 shall be held to be invalid, illegal or unenforceable for any reason whatsoever: (i) the validity, legality and enforceability of the remaining provisions of this Section 6.1 (including, without limitation, each portion of any subsection of this Section 6.1 containing any such provision held to be invalid, illegal or unenforceable, that is not itself held to be invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby; and (ii) to the fullest extent possible, the provisions of this Section 6.1 (including, without limitation, each such portion of any subsection of this Section 6.1 containing any such provision held to be invalid, illegal or unenforceable) shall be construed so as to give effect to the intent manifested by the provision held invalid, illegal or unenforceable.

(L) For purposes of this Section 6.1:

(1) "Disinterested Director" means a director of the Corporation who is not and was not a party to the matter in respect of which indemnification is sought by the claimant.

(2) "Independent Counsel" means a law firm, a member of a law firm, or an independent practitioner, that is experienced in matters of corporation law and shall include any person who, under the applicable standards of professional conduct then prevailing, would not have a conflict of interest in representing either the Corporation or the claimant in an action to determine the claimant's rights under this Section 6.1.

(M) Any notice, request or other communication required or permitted to be given to the Corporation under this Section 6.1 shall be in writing and either delivered in person or sent by telecopy, telex, telegram, overnight mail or courier service, or certified or registered mail, postage prepaid, return receipt requested, to the Secretary of the Corporation and shall be effective only upon receipt by the Secretary.

(N) The Corporation hereby acknowledges that a director (a "Director Indemnitee") may have certain rights to indemnification, advancement of expenses and/or insurance provided by a third party as to which the Director Indemnitee serves as a director, officer or employee other than the Corporation (collectively, the "Secondary Indemnitors"). The Corporation hereby agrees (i) that it is the indemnitor of first resort (*i.e.*, its obligations to such Director Indemnitee are primary and any obligation of the Secondary Indemnitors to advance expenses or to provide indemnification for the same expenses or liabilities incurred by such Director Indemnitee is secondary), and (ii) that it shall be required to advance the full amount of expenses incurred by such Director Indemnitee and shall be liable for the full amount of all expenses, judgments, penalties, fines and amounts paid in settlement to the extent legally permitted and as required by the terms of the Certificate of Incorporation or these By-Laws (or any other agreement between the Corporation and such Director Indemnitee), without regard to any rights such Director Indemnitee may have against the Secondary Indemnitors. The Corporation further agrees that no advancement or payment by the Secondary Indemnitors on behalf of such Director Indemnitee with respect to any claim for which such Director Indemnitee has sought indemnification from the Corporation shall affect the foregoing and the Secondary Indemnitors shall be subrogated to the extent of such advancement or payment to all of the rights of recovery of such Director Indemnitee against the Corporation.

(c) Change in Control: means the occurrence of any of the following events:

(i) An acquisition by any Person or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act) of beneficial ownership (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of shares of common stock of the Company or other voting securities of the Company entitled to vote generally in the election of directors of the Company, as a result of which such Person or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act) becomes the beneficial owner (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of thirty percent (30%) or more of either (1) the then-outstanding shares of common stock of the Company (the "Outstanding Company Common Stock") or (2) the combined voting power of the then-outstanding voting securities of the Company entitled to vote generally in the election of directors of the Company (the "Outstanding Company Voting Securities"); *provided, however*, that for purposes of this subsection (i), the following acquisitions shall not constitute a Change in Control: (1) any acquisition directly from the Company; (2) any acquisition by the Company; (3) any acquisition by one or more Specified Investors; (4) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by the Company or any entity controlled by the Company; or (5) any acquisition by any entity pursuant to a transaction that complies with clauses (1), (2) and (3) of subsection (iii) of this Section 1(c); or

(ii) A change in the composition of the Board of Directors such that the individuals who, as of the date of the Effective Date, constitute the Board of Directors (the "Incumbent Board of Directors") cease for any reason to constitute at least a majority of the Board of Directors; *provided*, *however*, that any individual who becomes a member of the Board of Directors subsequent to the Effective Date whose election, or nomination for election by the Company's stockholders, was approved by a vote of at least a majority of those individuals who are members of the Board of Directors and who were also members of the Incumbent Board of Directors (or deemed to be such pursuant to this proviso) shall be considered as though such individual were a member of the Incumbent Board of

Directors; *provided further*, that any such individual whose initial assumption of office occurs as a result of either an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a Person or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act) other than the Board of Directors shall not be considered as a member of the Incumbent Board of Directors; or

(iii) The consummation of a reorganization, merger, statutory share exchange or consolidation or similar transaction involving the Company or any of its subsidiaries or sale or other disposition of all or substantially all of the assets of the Company, or the acquisition of assets or securities of another entity by the Company or any of its subsidiaries (a "Business Combination"), in each case, unless, following such Business Combination: (1) all or substantially all of the individuals and entities who were the beneficial owners, respectively, of the Outstanding Company Common Stock and Outstanding Company Voting Securities immediately prior to such Business Combination beneficially own, directly or indirectly, more than fifty percent (50%) of, respectively, the then-outstanding shares of common stock (or, for a noncorporate entity, equivalent securities) and the combined voting power of the then-outstanding voting securities entitled to vote generally in the election of directors (or, for a noncorporate entity, equivalent securities), as the case may be, of the entity resulting from such Business Combination (including an entity that, as a result of such transaction, owns the Company or all or substantially all of the Company's assets either directly or through one or more subsidiaries) in substantially the same proportions as their ownership, immediately prior to such Business Combination of the Outstanding Company Common Stock and Outstanding Company Voting Securities, as the case may be; (2) no Person or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act) (excluding any entity resulting from such Business Combination or any employee benefit plan (or related trust) of the Company or such entity resulting from such Business Combination) beneficially owns, directly or indirectly, thirty percent (30%) or more of, respectively, the then-outstanding shares of common stock (or, for a noncorporate entity, equivalent securities) of the entity resulting from such Business Combination or the combined voting power of the then-outstanding voting securities of such entity except to the extent that such ownership existed prior to the Business Combination; and (3) at least a majority of the members of the Board of Directors (or, for a noncorporate entity, equivalent body or committee) of the entity resulting from such Business Combination were members of the

Board of Directors at the time of the execution of the initial agreement, or of the action of the Board of Directors, providing for such Business Combination; or

(iv) The approval by the stockholders of the Company of a complete liquidation or dissolution of the Company.

(d) Claim: means any threatened, asserted, pending or completed civil, criminal, administrative, investigative or other action, suit or proceeding of any kind whatsoever, including any arbitration or other alternative dispute resolution mechanism, or any appeal of any kind thereof, or any inquiry or investigation, whether instituted by the Company, any governmental agency or any other party, that the Indemnitee in good faith believes might lead to the institution of any such action, suit or proceeding, whether civil, criminal, administrative, investigative or other, including any arbitration or other alternative dispute resolution mechanism, in which the Indemnitee was, is, or may be or will be involved as a party, witness or otherwise.

(e) Effective Date: means the date of this Agreement.

(f) Exchange Act: means the Securities Exchange Act of 1934, as amended.

(g) Indemnifiable Expenses: means (i) all direct and indirect liabilities, including judgments, damages, arbitration awards, fines, penalties, interest, appeal bonds and amounts paid in settlement with the approval of the Company, (ii) all reasonable expenses and reasonable counsel fees and disbursements (including, without limitation, reasonable experts' fees, court costs, retainers, transcript fees, duplicating, printing and binding costs, as well as telecommunications, postage and courier charges) paid or incurred in connection with investigating, defending, being a witness in or participating in (including on appeal), or preparing to investigate, defend, be a witness in or participate in, any Claim relating to any Indemnifiable Event by reason of the fact that the Indemnitee is, was or has agreed to serve as a director, officer, employee or agent of the Company, or while serving as a director or officer of the Company, is or was serving or has agreed to serve on behalf of or at the request of the Company as a director, officer, manager, member, partner, fiduciary, trustee or in a similar capacity of another Person, or by reason of any action alleged to have been taken or omitted in any such capacity, whether occurring before, on or after the date of this Agreement (any such event, an "Indemnifiable Event"), (ii) any liability pursuant to a loan guaranty (other than a loan guaranty given in a personal capacity) or otherwise, for any indebtedness of the Company or any subsidiary of the Company, including, without limitation, any indebtedness which the Company or any subsidiary of the Company has assumed or taken subject to, and (iii) any liabilities which the Indemnitee incurs as a result of acting on behalf of the Company

(whether as a fiduciary or otherwise) in connection with the operation, administration or maintenance of an employee benefit plan or any related trust or funding mechanism (whether such liabilities are in the form of excise taxes assessed by the United States Internal Revenue Service, penalties assessed by the United States Department of Labor, restitutions to such a plan or trust or other funding mechanism or to a participant or beneficiary of such plan, trust or other funding mechanism, or otherwise), and shall include, without limitation, all reasonable expenses and reasonable counsel fees and disbursements paid or incurred by or on behalf of the Indemnitee in connection with preparing and submitting any requests or statements for indemnification, advancement or any other right provided by this Agreement (including, without limitation, such reasonable fees or expenses incurred in connection with legal proceedings contemplated by Section 2(d) hereof).

(h) Indemnitee-Related Entities: means any corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise (other than the Company or any other corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise the Indemnitee has agreed, on behalf of the Company or at the Company's request, to serve as a director, officer, employee or agent and which service is covered by the indemnity described in this Agreement) from whom the Indemnitee may be entitled to indemnification or advancement of expenses with respect to which, in whole or in part, the Company may also have an indemnification or advancement obligation (other than as a result of obligations under an insurance policy).

(i) Independent Legal Counsel: means an attorney or firm of attorneys (following a Change in Control, selected in accordance with the provisions of Section 2(h) hereof), who is experienced in the matters of corporate law and who shall not have otherwise performed services for the Company or the Indemnitee within the last five (5) years (other than with respect to matters concerning the rights of the Indemnitee under this Agreement, or of other indemnitees under similar indemnity agreements).

(j) Jointly Indemnifiable Claim: means any Claim for which the Indemnitee shall be entitled to indemnification from both an Indemnitee-Related Entity and the Company pursuant to applicable law, any indemnification agreement or the certificate of formation, by-laws, partnership agreement, operating agreement, certificate of formation, certificate of limited partnership or comparable organizational documents of the Company and an Indemnitee-Related Entity.

(k) Loss: means all losses, Claims, damages, fines or penalties, including, without limitation, any legal or other expenses (including, without limitation, any legal fees, judgments, fines, appeal bonds or related expenses) incurred in connection with defending, investigating or settling any Claim, fine, penalty or similar action.

(l) Person: means any individual, corporation, firm, partnership, joint venture, limited liability company, estate, trust, business association, organization, governmental entity or other entity.

(m) Reviewing Party: means any appropriate person or body consisting of a member or members of the Board of Directors or any other person or body appointed by the Board of Directors who is not a party to the particular Claim for which the Indemnitee is seeking indemnification, or Independent Legal Counsel.

(n) Specified Investors: means, collectively, (i) McCarthy Capital Mortgage Investors, LLC, any other investment funds affiliated with McCarthy Partners Management, LLC, and any company or other entity controlled by, controlling or under common control with McCarthy Capital Mortgage Investors, LLC or any such investment fund (other than any portfolio company) (the "McCarthy Investors") and (ii) provided that the McCarthy Investors own a majority of the voting power of the Company, any Person that forms a group (within the meaning of Section 13(d)(3) or Section 14(d)(2) of the Exchange Act or any successor provision) with the McCarthy Investors and that, directly or indirectly, holds or acquires beneficial ownership of voting securities of the Company entitled to vote generally in the election of directors.

2. Basic Indemnification Arrangement; Advancement of Indemnifiable Expenses.

(a) In the event that the Indemnitee was, is or becomes a party to, or witness or other participant in, or is threatened to be made a party to, or witness or other participant in, or was, is or becomes subject to or is threatened to be made subject to, a Claim by reason of (or arising in part out of) an Indemnifiable Event, the Company shall indemnify and hold harmless the Indemnitee, or cause the Indemnitee to be indemnified, to the fullest extent permitted by the laws of the State of Delaware in effect on the date hereof and as amended from time to time, and shall hold the Indemnitee harmless from and against all Losses that arise by reason of (or arising in part out of) an Indemnifiable Event; *provided, however*, that no change in the laws of the State of Delaware shall have the effect of reducing the benefits available to the Indemnitee hereunder based on the laws of the State of Delaware as in effect on the date hereof or as such benefits may improve as a result of amendments after the date hereof. The rights of the Indemnitee provided in this Section 2 shall include, without limitation, the rights set forth in the other sections of this Agreement. Payments of Indemnifiable Expenses shall be made as soon as practicable but in any event no later than twenty (20) calendar days after written demand is presented to the Company.

(b) Upon request by the Indemnitee, the Company shall advance, or cause to be advanced, any and all Indemnifiable Expenses incurred by the Indemnitee (an "Expense Advance") on the terms and subject to the conditions of this Agreement, as soon as practicable but in any event no later than five (5) business days after written demand, together with

supporting documentation, is presented to the Company. The Company shall, in accordance with such request (but without duplication), either (i) pay, or cause to be paid, such Indemnifiable Expenses on behalf of the Indemnitee or (ii) reimburse, or cause the reimbursement of, the Indemnitee for such Indemnifiable Expenses. The Indemnitee's right to an Expense Advance is absolute and shall not be subject to any condition that the Reviewing Party shall not have determined that the Indemnitee is not entitled to be indemnified under applicable law. However, the obligation of the Company to make an Expense Advance pursuant to this Section 2(b) shall be subject to the condition that, if, when and to the extent that a final judicial determination is made (as to which all rights of appeal therefrom have been exhausted or lapsed) that the Indemnitee is not entitled to be so indemnified under applicable law, the Company shall be entitled to be reimbursed by the Indemnitee (who hereby agrees to reimburse the Company) for all such amounts theretofore paid (it being understood and agreed that the foregoing agreement by the Indemnitee shall be deemed to satisfy any requirement that the Indemnitee provide the Company with an undertaking to repay any Expense Advance if it is ultimately determined that the Indemnitee is not entitled to indemnification under applicable law). The Indemnitee's undertaking to repay such Expense Advances shall be unsecured and interest-free.

(c) Notwithstanding anything in this Agreement to the contrary, the Indemnitee shall not be entitled to indemnification or advancement of Indemnifiable Expenses pursuant to this Agreement in connection with any Claim initiated by the Indemnitee unless (i) the Company has joined in or the Board of Directors has authorized or consented to the initiation of such Claim or (ii) the Claim is one to enforce the Indemnitee's rights under this Agreement (including an action pursued by the Indemnitee to secure a determination that the Indemnitee should be indemnified under applicable law).

(d) The indemnification obligations of the Company under Section 2(a) shall be subject to the condition that the Reviewing Party shall not have determined in a written legal opinion, in any case in which the Independent Legal Counsel is involved following a Change in Control as required by Section 2(h), that the indemnification of the Indemnitee is not proper in the circumstances because the Indemnitee is not entitled to be indemnified under applicable law. If there has not been a Change in Control, the Reviewing Party shall be selected by the Board of Directors, and if there has been such a Change in Control (other than a Change in Control which has been approved by a majority of the Board of Directors who were directors immediately prior to such Change in Control), the Reviewing Party shall be the Independent Legal Counsel referred to in Section 2(h). If there is no determination by the Reviewing Party or if the Reviewing Party determines that the Indemnitee is not entitled to be indemnified in whole or in part under applicable law, the Indemnitee shall have the right to commence litigation in any court in the State of Delaware having subject matter jurisdiction thereof and in which venue is proper, seeking an initial determination by the court or challenging any such determination by the Reviewing Party or any aspect thereof, including the legal or factual bases therefor, and the Company hereby consents to service of process and to appear in any such proceeding. If the Indemnitee commences legal proceedings in a court of competent jurisdiction to secure a determination that the Indemnitee should be indemnified under applicable law, any determination made by the Reviewing Party that the Indemnitee would not be permitted to be indemnified under applicable law shall not be binding, the Indemnitee shall continue to be entitled to receive Expense Advances, and the Indemnitee shall not be required to reimburse the Company for any Expense Advance, until a final judicial determination is made in the Claim (as

to which all rights of appeal therefrom have been exhausted or lapsed) that the Indemnitee is not entitled to be so indemnified under applicable law. Any determination by the Reviewing Party otherwise shall be conclusive and binding on the Company and the Indemnitee.

(e) To the extent that the Indemnitee has been successful on the merits or otherwise in defense of any or all Claims relating in whole or in part to an Indemnifiable Event or in defense of any issue or matter therein, including dismissal without prejudice, the Indemnitee shall be indemnified against all Indemnifiable Expenses actually and reasonably incurred in connection therewith, notwithstanding an earlier determination by the Reviewing Party that the Indemnitee is not entitled to indemnification under applicable law.

(f) Notwithstanding anything to the contrary herein, the Company shall not be obligated pursuant to the terms of this Agreement to indemnify the Indemnitee for any acts or omissions or transactions from which a director, officer, employee or agent may not be relieved of liability under applicable law.

(g) Notwithstanding any other provisions contained herein, this Agreement and the rights and obligations of the parties hereto are subject to the requirements, limitations and prohibitions set forth in state and federal laws, rules, regulations and orders regarding indemnification and prepayment of expenses, legal or otherwise, and liabilities, including, without limitation, Section 145 of the Delaware General Corporation Law and any successor thereto.

(h) The Company agrees that if there is a Change in Control of the Company (other than a Change in Control which has been approved by a majority of the directors on the Board of Directors who were directors immediately prior to such Change in Control), then with respect to all matters thereafter arising concerning the rights of the Indemnitee to indemnity payments and Expense Advances under this Agreement or any provision of the Amended and Restated Certificate of Incorporation of the Company (the "Charter") or the By-Laws hereafter in effect relating to Claims for Indemnifiable Events, the Company shall seek legal advice only from Independent Legal Counsel selected by the Indemnitee and approved by the Company (which approval shall not be unreasonably delayed, conditioned or withheld). Such counsel, among other things, shall render its written opinion to the Company and the Indemnitee as to whether and to what extent the Indemnitee would be permitted to be indemnified under applicable law. The Company agrees to pay the reasonable fees of the Independent Legal Counsel and to indemnify fully such counsel against any and all reasonable expenses (including reasonable attorneys' fees and disbursements), claims, liabilities and damages arising out of or relating to this Agreement or its engagement pursuant hereto.

3. Indemnification for Additional Expenses. The Company shall indemnify, or cause the indemnification of, the Indemnitee against any and all Indemnifiable Expenses and, if requested by the Indemnitee, shall advance such Indemnifiable Expenses to the Indemnitee subject to and in accordance with Section 2, which are incurred by the Indemnitee in connection with any action brought by the Indemnitee, the Company or any other Person with respect to the Indemnitee's right to: (i) indemnification or an Expense Advance by the Company under this Agreement or any provision of the Charter and/or the By-Laws and/or (ii) recovery under any directors' and officers' liability insurance policies maintained by the Company, regardless of

whether the Indemnitee ultimately is determined to be entitled to such indemnification, Expense Advance or insurance recovery, as the case may be; *provided* that the Indemnitee shall be required to reimburse such Indemnifiable Expenses in the event that a final judicial determination is made in the Claim (as to which all rights of appeal therefrom have been exhausted or lapsed) that such action brought by the Indemnitee, or the defense by the Indemnitee of an action brought by the Company or any other Person, as applicable, was frivolous or in bad faith.

4. Partial Indemnity, Etc. If the Indemnitee is entitled under any provision of this Agreement to indemnification by the Company for some or a portion of the Indemnifiable Expenses in respect of a Claim but not, however, for all of the total amount thereof, the Company shall nevertheless indemnify the Indemnitee for the portion thereof to which the Indemnitee is entitled.

5. Burden of Proof. In connection with any determination by the Reviewing Party, any court or otherwise as to whether the Indemnitee is entitled to be indemnified hereunder, the Reviewing Party, court, any finder of fact or other relevant person shall presume that the Indemnitee has satisfied the applicable standard of conduct and is entitled to indemnification, and the burden of proof shall be on the Company or its representative to establish, by clear and convincing evidence, that the Indemnitee is not so entitled.

6. Reliance as Safe Harbor. The Indemnitee shall be entitled to indemnification for any action or omission to act undertaken (a) in good faith reliance upon the records of the Company, including its financial statements, or upon information, opinions, reports or statements furnished to the Indemnitee by the officers or employees of the Company or any of its subsidiaries in the course of their duties, or by committees of the Board of Directors, or by any other Person as to matters the Indemnitee reasonably believes are within such other Person's professional or expert competence, or (b) on behalf of the Company in furtherance of the interests of the Company in good faith reliance upon, and in accordance with, the advice of legal counsel or accountants, provided such legal counsel or accountants were selected with reasonable care by or on behalf of the Company. In addition, the knowledge and/or actions, or failures to act, of any other director, officer, agent or employee of the Company shall not be imputed to the Indemnitee for purposes of determining the right to indemnity hereunder.

7. No Other Presumptions. For purposes of this Agreement, the termination of any Claim, action, suit or proceeding, by judgment, order, settlement (whether with or without court approval) or conviction, or upon a plea of *nolo contendere* or its equivalent, shall not create a presumption that the Indemnitee did not meet any particular standard of conduct or have any particular belief or that a court has determined that indemnification is not permitted by applicable law. In addition, neither the failure of the Reviewing Party to have made a determination as to whether the Indemnitee has met any particular standard of conduct or had any particular belief, nor an actual determination by the Reviewing Party that the Indemnitee has not met such standard of conduct or did not have such belief, prior to the commencement of legal proceedings by the Indemnitee to secure a judicial determination that the Indemnitee should be indemnified under applicable law shall be a defense to the Indemnitee's claim or create a presumption that the Indemnitee has not met any particular standard of conduct or did not have any particular belief.

8. Nonexclusivity, Etc. The rights of the Indemnitee hereunder shall be in addition to any other rights the Indemnitee may have under the Charter and the By-Laws, the laws of the State of Delaware, or otherwise. To the extent that a change in the laws of the State of Delaware or the interpretation thereof (whether by statute or judicial decision) permits greater indemnification by agreement than would be afforded currently under the Charter and the By-Laws, it is the intent of the parties hereto that the Indemnitee shall enjoy by this Agreement the greater benefits so afforded by such change. To the extent that there is a conflict or inconsistency between the terms of this Agreement and the Charter or the By-Laws, it is the intent of the parties hereto that the Indemnitee shall enjoy the greater benefits regardless of whether contained herein, in the Charter or the By-Laws. No amendment or alteration of the Charter or the By-Laws or any other agreement shall adversely affect the rights provided to the Indemnitee under this Agreement.

9. Liability Insurance. The Company shall use its reasonable best efforts to purchase and maintain a policy or policies of insurance with reputable insurance companies providing the Indemnitee with coverage for any liability asserted against, or incurred by, the Indemnitee or on the Indemnitee's behalf by reason of the fact that the Indemnitee is or was or has agreed to serve as a director, officer, employee or agent of the Company, or while serving as a director or officer of the Company, is or was serving or has agreed to serve on behalf of or at the request of the Company as a director, officer, employee or agent (which, for purposes hereof, shall include a trustee, fiduciary, partner or manager or similar capacity) of another corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise, or arising out of the Indemnitee's status as such, whether or not the Company would have the power to indemnify the Indemnitee against such liability under the provisions of this Agreement. Such insurance policies shall have coverage terms and policy limits at least as favorable to the Indemnitee as the insurance coverage provided to any other director or officer of the Company. If the Company has such insurance in effect at the time the Company receives from the Indemnitee any notice of the commencement of an action, suit or proceeding, the Company shall give prompt notice of the commencement of such action, suit or proceeding to the insurers in accordance with the procedures set forth in the policy. The Company shall thereafter take all necessary or desirable action to cause such insurers to pay, on behalf of the Indemnitee, all amounts payable as a result of such proceeding in accordance with the terms of such policy.

10. Period of Limitations. No legal action shall be brought and no cause of action shall be asserted by or in the right of the Company against the Indemnitee, the Indemnitee's spouse, heirs, executors or personal or legal representatives after the expiration of two (2) years from the date of accrual of such cause of action, and any claim or cause of action of the Company shall be extinguished and deemed released unless asserted by the timely filing of a legal action within such two (2)-year period; *provided, however*, that if any shorter period of limitations is otherwise applicable to any such cause of action, such shorter period shall govern.

11. Amendments, Etc. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing by both of the parties hereto. No waiver of any of the provisions of this Agreement shall be deemed or shall constitute a waiver of any other provisions hereof (whether or not similar) nor shall such waiver constitute a continuing waiver. In the event the Company or any of its subsidiaries enters into an indemnification

agreement with another director, officer, agent, fiduciary or manager of the Company or any of its subsidiaries containing a term or terms more favorable to the indemnitee than the terms contained herein (as determined by the Indemnitee), the Indemnitee shall be afforded the benefit of such more favorable term or terms and such more favorable term or terms shall be deemed incorporated by reference herein as if set forth in full herein. As promptly as practicable following the execution by the Company or the relevant subsidiary of each indemnity agreement with any such other director, officer or manager (i) the Company shall send a copy of the indemnity agreement to the Indemnitee and (ii) if requested by the Indemnitee, the Company shall prepare, execute and deliver to the Indemnitee an amendment to this Agreement containing such more favorable term or terms.

12. Subrogation. In the event of payment by the Company under this Agreement, the Company shall be subrogated to the extent of such payment to all of the rights of recovery of the Indemnitee with respect to any insurance policy. The Indemnitee shall execute all papers reasonably required and shall do everything that may be reasonably necessary to secure such rights, including the execution of such documents necessary to enable the Company effectively to bring suit to enforce such rights. The Company shall pay or reimburse all expenses actually and reasonably incurred by the Indemnitee in connection with such subrogation.

13. Jointly Indemnifiable Claims. Given that certain Jointly Indemnifiable Claims may arise due to the relationship between the Indemnitee-Related Entities and the Company and the service of the Indemnitee as a director and/or officer of the Company at the request of the Indemnitee-Related Entities, the Company acknowledges and agrees that the Company shall be fully and primarily responsible for the payment to the Indemnitee in respect of indemnification and advancement of Indemnifiable Expenses in connection with any such Jointly Indemnifiable Claim, pursuant to and in accordance with the terms of this Agreement, irrespective of any right of recovery the Indemnitee may have from the Indemnitee-Related Entities. Under no circumstance shall the Company be entitled to any right of subrogation or contribution by the Indemnitee-Related Entities and no right of recovery the Indemnitee may have from the Indemnitee-Related Entities shall reduce or otherwise alter the rights of the Indemnitee or the obligations of the Company hereunder. In the event that any of the Indemnitee-Related Entities shall make any payment to the Indemnitee in respect of indemnification or advancement of expenses with respect to any Jointly Indemnifiable Claim, the Indemnitee-Related Entity making such payment shall be subrogated to the extent of such payment to all of the rights of recovery of the Indemnitee against the Company under the terms of this Agreement, and the Indemnitee shall execute all papers reasonably required and shall do all things that may be reasonably necessary to secure such rights, including the execution of such documents as may be necessary to enable the Indemnitee-Related Entities effectively to bring suit to enforce such rights. Each of the Indemnitee-Related Entities shall be third-party beneficiaries with respect to this Section 13, entitled to enforce this Section 13 against the Company as though each such Indemnitee-Related Entity were a party to this Agreement.

14. No Duplication of Payments. Subject to Section 13 hereof, the Company shall not be liable under this Agreement to make any payment in connection with any Claim made against the Indemnitee to the extent the Indemnitee has otherwise actually received payment (under any insurance policy, any provision of the Charter and the By-Laws, or otherwise) of the amounts otherwise indemnifiable hereunder.

15. Defense of Claims. The Company shall be entitled to participate in the defense of any Claim relating to an Indemnifiable Event or to assume the defense thereof, with counsel reasonably satisfactory to the Indemnitee; *provided* that if the Indemnitee reasonably believes, after consultation with counsel selected by the Indemnitee, that (i) the use of counsel chosen by the Company to represent the Indemnitee would present such counsel with an actual or potential conflict of interest, (ii) the named parties in any such Claim (including any impleaded parties) include both (A) the Company or any subsidiary of the Company and (B) the Indemnitee, and the Indemnitee concludes that there may be one or more legal defenses available to him or her that are different from or in addition to those available to the Company or any subsidiary of the Company, or (iii) any such representation by such counsel would be precluded under the applicable standards of professional conduct then prevailing, then the Indemnitee shall be entitled to retain separate counsel (but not more than one law firm plus, if applicable, local counsel in respect of any particular Claim) at the Company's expense. The Company shall not be liable to the Indemnitee under this Agreement for any amounts paid in settlement of any Claim relating to an Indemnifiable Event effected without the Company's prior written consent. The Company shall not, without the prior written consent of the Indemnitee, effect any settlement of any Claim relating to an Indemnifiable Event which the Indemnitee is or could have been a party unless such settlement solely involves the payment of money and includes a complete and unconditional release of the Indemnitee from all liability on all claims that are the subject matter of such Claim. Neither the Company nor the Indemnitee shall unreasonably withhold its or his or her consent to any proposed settlement; *provided* that the Indemnitee may withhold consent to any settlement that does not provide a complete and unconditional release of the Indemnitee. To the fullest extent permitted by Delaware law, the Company's assumption of the defense of a Claim pursuant to this Section 15 will constitute an irrevocable acknowledgment by the Company that any Indemnifiable Expenses incurred by or for the account of the Indemnitee incurred in connection therewith are indemnifiable by the Company under Section 2 of this Agreement.

16. Binding Effect, Etc. This Agreement shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective successors (including any direct or indirect successor by purchase, merger, consolidation or otherwise to all or substantially all of the business and/or assets of the Company), assigns, spouses, heirs, executors and personal and legal representatives. The Company shall require and cause any successor(s) (whether directly or indirectly, whether in one or a series of transactions, and whether by purchase, merger, consolidation, or otherwise) to all or a significant portion of the business and/or assets of the Company and/or its subsidiaries (on a consolidated basis), by written agreement in form and substance reasonably satisfactory to the Indemnitee, expressly to assume and agree to perform this Agreement in the same manner and to the same extent that the Company would be required to perform if no such succession had taken place; *provided* that no such assumption shall relieve the Company from its obligations hereunder and any obligations shall thereafter be joint and several. This Agreement shall continue in effect regardless of whether the Indemnitee continues to serve as a director or officer of the Company and/or on behalf of or at the request of the Company as a director, officer, manager, member, partner, fiduciary, trustee or in a similar capacity of another Person. Except as provided in this Section 16, neither party shall, without the prior written consent of the other, assign or delegate this Agreement or any rights or obligations hereunder.

17. Severability. If any provision or provisions of this Agreement shall be held to be invalid, illegal or unenforceable for any reason whatsoever, (a) the validity, legality and enforceability of the remaining provisions of this Agreement (including, without limitation, all portions of any paragraph of this Agreement containing any such provision held to be invalid, illegal or unenforceable, that are not themselves invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby and (b) to the fullest extent possible, the provisions of this Agreement (including, without limitation, all portions of any paragraph of this Agreement containing any such provision held to be invalid, illegal or unenforceable) shall be construed so as to give effect to the intent manifested by the provision held invalid, illegal or unenforceable and to give effect to the terms of this Agreement.

18. Specific Performance, Etc. The parties recognize that if any provision of this Agreement is violated by the Company, the Indemnitee may be without an adequate remedy at law. Accordingly, in the event of any such violation, the Indemnitee shall be entitled, if the Indemnitee so elects, to institute proceedings, either in law or at equity, to obtain damages, to enforce specific performance, to enjoin such violation, or to obtain any relief or any combination of the foregoing as the Indemnitee may elect to pursue.

19. Notices. All notices, requests, consents and other communications hereunder to any party shall be deemed to be sufficient if contained in a written document delivered in person or sent by facsimile, nationally recognized overnight courier or personal delivery, addressed to such party at the address set forth below or such other address as may hereafter be designated on the signature pages of this Agreement or in writing by such party to the other parties:

EXECUTIVE COMPENSATION AGREEMENT

This Executive Compensation Agreement (this "Agreement") is entered into effective as of January 1, 2019 (the "Effective Date"), by and between Guild Mortgage Company, a California corporation ("Guild"), and Mary Ann McGarry ("McGarry"), as follows:

1. Term. The term of this Agreement shall commence on the Effective Date, and continue until the first anniversary of the Effective Date (the "Term"). Upon the expiration of the Term, this Agreement shall automatically renew on the same basis as set forth in this Agreement for consecutive 1 year terms, unless McGarry and Guild (a) mutually agree, in writing, to terminate this Agreement; (b) enter into a later Executive Compensation Agreement; or (c) McGarry's employment with Guild is terminated by Guild or McGarry pursuant to the terms of this Agreement.

2. Base Salary. During the Term, Guild shall pay to McGarry an annual base salary of $600,000 (the "Base Salary"). The Base Salary shall be paid at least monthly at such times and in such manner as is consistent with Guild's regular payroll practices and polices. Guild shall deduct and withhold all necessary Social Security and withholding taxes and any other similar amounts required by law from any compensation paid to McGarry.

3 . Annual Bonus. In addition to the Base Salary, McGarry will be eligible for an annual bonus equal to 44.5% of the Incentive Pool (as defined in Exhibit A attached hereto) ("the Bonus"). The Incentive Pool is based on Guild's annual return on average equity ("ROAE" determined as described in Exhibit A). The Bonus shall be cumulative and determined on an annual basis and paid within 30 days of the end of the Term.

4 . Termination. If McGarry's at-will employment with Guild is terminated by Guild during the Term, whether voluntarily or involuntarily, Guild shall pay to McGarry the Base Salary payable to McGarry up to and including the last day of McGarry's employment. In addition, Guild shall calculate and pay the Bonus to McGarry within 30 days after the end of the Term. For purposes of this Section 4, the Bonus will be calculated pro rata as of the last day of McGarry's employment by (a) multiplying the Bonus to which she would have been entitled as of the last day of the Term, if then employed, by the percentage of the calendar year that elapsed prior to the date of her termination, and (b) then subtracting from the amount determined pursuant to Section 4(a) any quarterly draws paid prior to termination in accordance with Section 3.

5 . Release of Claims. In addition to the payments described in Paragraph 4, if McGarry's at-will employment with Guild is terminated by Guild during the Term, with or without cause, or if ill health permanently prevents her from performing all her responsibilities as President and Chief Executive Officer, upon receipt of an executed waiver and release (in a form acceptable to Guild) of all claims which McGarry may then or in the future have against Guild or any of its shareholders, directors, officers or employees, Guild shall pay to McGarry $600,000, in 24 monthly installments of $25,000.00 beginning 30 days after the last day of McGarry's employment with Guild.

6. Nonsolicitation. In the event of the early termination of this Agreement by McGarry or Guild or expiration of the Term, McGarry shall not directly or indirectly, for a period of 1 year following the date of McGarry's termination, employ or solicit for employment any individual (including any branch manager or loan officer) who is, has agreed to be, or within 1 year of such employment or solicitation has been employed by Guild or any of its affiliates.

7 . Miscellaneous. This Agreement (including Exhibit A attached to this Agreement) comprises the entire agreement between McGarry and Guild relating to the subject matter hereof, and shall supersede all other written and oral understandings or agreements relating to the subject matter hereof, including, but not limited to, all prior Executive Compensation Agreements by and between Guild and McGarry. This Agreement and the rights, interest and obligations of Guild hereunder shall be assignable to and shall inure to the benefit of any assignee of Guild. This Agreement is not assignable by McGarry. Guild and McGarry have each participated in the negotiation and drafting of this Agreement. In the event an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by Guild and McGarry and no presumption or burden of proof shall arise favoring or disfavoring Guild or McGarry by virtue of the authorship of any of the provisions of this Agreement. This Agreement shall be governed by, construed, and enforced in accordance with the laws of the State of California. Guild and McGarry agree that any action by either party to enforce the terms of this Agreement shall be exclusively brought by the other party an appropriate state or federal court in San Diego County, California and waives all objections based upon lack of jurisdiction or improper or inconvenient venue of any such court. Guild and McGarry intend and agree that if a court of competent jurisdiction determines that the scope of any provision of this Agreement is too broad to be enforced as written, the court should reform such provisions to such narrower scope as it determines to be enforceable. Guild and McGarry further agree that if any provision of this Agreement is determined to be unenforceable for any reason, and such provision cannot be reformed by the court as anticipated above, such provision shall be deemed separate and severable and the unenforceability of any such provisions shall not invalidate or render unenforceable any of the remaining provisions hereof.

EXHIBIT A
EXECUTIVE EMPLOYEE COMPENSATION

Employee's compensation shall be determined and calculated in accordance with this Exhibit A. Notwithstanding anything to the contrary herein, the timing of payments of compensation shall at all times be subject to Company's Policies regarding payroll practices in effect from time to time, and Company may, in its sole and absolute discretion, change the commission amounts and formulas set forth in this Exhibit A, and the manner and schedule of payment, at any time, but no such change will affect any compensation already earned by Employee as of the date the change is announced.

I. Base Salary. For each pay period, Employee shall earn compensation equal a Base Salary.

A. Base Salary. "Base Salary" means **$31,250.00 a month**, but under no circumstances in an amount less than equal to the minimum amount per workweek required by applicable local, state and federal law, which is paid in accordance with applicable Company Policies.

II. Volume Override. Employee is eligible to receive a Volume Override calculated on all retail production. All calculations shall be made by the Company and shall be final and binding, absent manifest error.

0.6 basis point on all In-House Loan closings

The Volume Override will be earned and paid out on the last payroll of the following month, in accordance with Company payroll practices in effect, as may be revised from time to time. For example, January override based on all In-House Loans closed in January will be considered earned and paid at the end of February. A Volume Override is not calculable until it is earned.

III. Quarterly Bonus. Employee is eligible to receive a Quarterly Bonus per the Regional Contribution Report as prepared by the Company's Finance Department.

0.95% of total Region Contribution *less* acquisition earn-out payments.

Regional Contribution is defined as the total of Region Income, Marketing Income and Operation Center Contributions minus Region Expense and the Corporate Costs.

The Quarterly Bonus calculation is based on the income and expense achieved for the calendar year and is calculated on a year-to-date cumulative basis. This bonus shall be paid in quarterly draws equal to 75% of the cumulative year- to-date bonus no later than 45 days following the end of the first (May 15), second (August 15), and third (October 15) quarters and a final payment no later than 90 days following the end of the year (March 31) in an amount that represents 100% of the actual Quarterly Bonus due and not previously paid. With regard to any partial year, Employee shall not be entitled to any compensation with respect to the period prior to the date of this Agreement or after the date it terminates.

See attached example of Executive Employee Compensation.

C. Calculations. All calculations shall be made by the Company and shall be final and binding, absent manifest error.

IV. Definitions:

A "Basis Point" is equal to one hundredth of one percentage point (0.01%) of the gross loan amount stated in the Note at settlement.

An "In-House Loan" is defined as a company closed and funded residential mortgage loan that is (a) closed and funded by Company in accordance with Applicable Requirements, in the period in which the Override Amount is calculated; and (b) not unfunded, cancelled or rescinded for any reason within five (5) days after settlement.

V. Separation Payments. Because Volume Override is considered, among other things, a retention incentive, the employee must be employed through the entire calendar month to be eligible to earn a Volume Override. If the employee is eligible to earn a Monthly Override, it will be paid when earned as defined in this Exhibit A.

Because Quarterly Bonus is considered, among other things, a retention incentive, the employee must be employed through the entire calendar quarter to be eligible to earn a Quarterly Bonus. If the employee is eligible to earn a Quarterly Bonus, it will be paid when earned as defined in this Exhibit A.

VI. Leaves of Absence. During unpaid leaves of absences of any nature, Employee will not be eligible to earn any Volume Override or Quarterly Bonus. However, any Volume Override or Quarterly Bonus earned prior to the start of the unpaid leave of absence will be paid in accordance with this Exhibit.

VII. Periodic Reviews. Periodically, Company will evaluate the commission amounts paid to its employees based on factors such as loan performance, transaction volume, and current market conditions, and prospectively revise the compensation it agrees to pay to Employee. Company shall have the right, at its sole discretion, to modify this compensation schedule (Exhibit A), in whole or in part, at any time. In such event, Company shall issue and deliver to Employee a new Exhibit A which reflects such changes which shall, as of the effective date stated thereon, supersede and replace the prior Exhibit A.

This Exhibit A will apply to all loan closings occurring on or after **January 1, 2016**, until such time that the Agreement or this Exhibit A is modified.

Employee is familiar with and shall comply, and cause the Region Employees to comply, with the Company Policies and all applicable federal, state and local laws, ordinances, rules, regulations, guidelines and other requirements pertaining to the mortgage banking industry, to the business of Company, and to the origination, processing, underwriting, closing, or funding of mortgages, or other activities of the Company, including but not limited to the Equal Credit Opportunity Act, Gramm-Leach-Billey Act, Truth in Lending Act, Real Estate Settlement Procedures Act, USA PATRIOT Act, Home Mortgage Disclosure Act, Federal Trade Commission Act, Telemarketing and Consumer Fraud and Abuse Prevention Act, Fair Credit Reporting Act, Fair Housing Act, Secure and Fair Enforcement for Mortgage Licensing Act of 2008 (the "SAFE Act"), Dodd-Frank Wall Street reform and Consumer Protection Act and all related regulations to the foregoing Acts, and all similar federal, state and local laws, rules, regulations and requirements, federal and state telemarketing and do-not-call laws, rules and regulations, and all applicable guidelines and requirements of the United States Department of Housing and Urban Development ("HUD"), Department of Veterans Affairs ("VA"), Federal Home Loan Mortgage Corporation ("FHLMC" or "Freddie Mac"), Federal National Mortgage Association ("FNMA" or "Fannie Mae"), Government National Mortgage Association ('GNMA" or "Ginnie Mae"), United States Department of Agriculture ("USDA") and all other applicable agencies, investors and insurers (altogether, the Company Policies and all such applicable laws, rules, regulations, guidelines and other requirements are referred to herein as the "Applicable Requirements"), in each case as amended from time to time. Employee agrees to develop and maintain his/her knowledge and understanding of all such Applicable Requirements. For purposes of emphasis, and without limitation of the foregoing, for the entire terms of this Agreement, Employee shall:

(a) Not charge, nor allow any Region Employee to charge, any consumer any fees in excess of that permitted under Applicable Requirements;

(a) Except as expressly provided herein, Employee will not, and shall have no authority to (and will not permit the Region Employees to):

(iv) Use any name, trade name, trade mark, service mark or logo of Company or an affiliate of Company for advertising, marketing or other business purposes without the prior written approval of an officer of Company.

(vi) Undertake or implement any business development plans or activities, without the prior approval of Company.

(vii) Use any forms or documents in connection with any application or origination of any loan, other than those forms and documents provided to the Branch by Company or otherwise approved by Company. If Employee or a Region Employee desires to use any form or document not provided by Company, Employee must first submit the item to Company for approval.

(viii) Use any Company e-mail addresses or technology, other than for the performance of Employee's and

the Region Employees' respective duties on behalf of Company. Notwithstanding the foregoing, Employee is permitted to make limited use of Company e-mail addresses and technology for purposes other than the performance of Employee's duties on behalf of Company, provided such use is reasonable and in compliance with applicable federal, state and local law.

(b) All underwriting for the Region's branch offices shall be performed in accordance with the procedures and standards imposed by Company or provided in the Company Policies. All underwriters must be qualified and experienced underwriters, as determined by Company, and shall be under the supervision of and report to Company's Corporate Underwriting Supervisor. Delegation of underwriting authority will be based on performance and at the sole discretion of Company.

1.7 Remittance of Funds. Employee shall cause fees, charges, funds, and other amounts received by Employee, by any Region Employee or by the Region's branch offices to be remitted to the applicable office of Company in accordance with Company Policies.

1.8 Certain Employee Representations. Without limiting any obligations of Employee, Employee hereby represents and warrants to Company at all times during employment as follows:

(a) Employee's employment with Company will not violate or conflict with any obligations Employee owes to any individual or entity, including without limitation, obligations arising out of or relating to (i) any non-compete, non-disclosure, non-solicitation or confidentiality agreements or provisions, and (ii) any prior employer or employment.

(b) Employee knows of no reason why Employee could not or should not accept an offer of employment from Company, or otherwise be employed by Company. Employee has not been subject to any investigation or sanction of any type, or denied any license or approval, by any federal, state or local government, quasi-government and private industry authority, including but not limited to any licensing authority.

1.9 Committing Rates and Pricing. Employee shall manage the Region and impose procedures necessary to ensure that loans are consistently locked in accordance with Company Policies and locked with Company's secondary marketing department with the same program, rate and price that were committed to the customer.

1.10 Truthfulness. At all times during the term of this Agreement, Employee agrees not to withhold or misrepresent material facts with regard to an applicant's income, assets, investments, debts, obligations, circumstances and information on the subject property. It is Employee's obligation and responsibility to disclose any and all information regarding an applicant's state of affairs that would customarily be taken into consideration in the evaluation of an applicant's creditworthiness. At no time will Employee advise an applicant to provide, or assist an applicant in providing, inaccurate information in relation to a loan application.

A. Regional Net Income or Net Loss. Regional net income ("Net Income") or net loss ("Net Loss") shall be the difference between Region Income (defined below) and Region Expense (defined below) shown per the Profit and Loss Statement ("P&L") as prepared by Company's finance department for each of the Region's branches and then consolidated with the income and expense of the Regional Sales Office.

(1) For purposes of this Exhibit A, no Net Income can be achieved unless and until all Cumulative Net Losses are offset by subsequent monthly profits of the Region branches and the Regional Sales Office. "Cumulative Net Losses" means any Net Loss that is not subsequently offset by Net Income since the Closing Date. Any Cumulative Net Losses shall be carried forward from month to month on the P&L of the Region's branches without regard to fiscal or contract years until fully offset by profits of the Region's branches.

(2) Income and Expenses related to the new branches added to the Region during the year will be excluded from the Quarterly Bonus Calculation for the first two (2) full months of operation if they are negative. After two full months of operation, the cumulative profit (loss) will be included in the cumulative calculation of the Quarterly Bonus. This does not apply to satellite branches.

B. Region Income.

(1) "Region Income" shall include the following:

(a) All of the actual income generated by the Region's branch offices ("Total Branch Income"), including:

1. The origination fees collected on loans the Region's branches closed and which are warehoused and setup by the last day of the month or caused to be closed by others (brokered); provided that the checks for brokered loans must be received by Company's accounting department in San Diego by the last day of the month;
2. Miscellaneous fees collected from application through closing;
3. Discount overage or loss (all fees paid to other approved mortgage companies will be deducted from discount overage and the net figure will be shown). Discount overage or loss is the difference between the price set by Company's Marketing Department for a particular loan and the actual price at which the loan is funded, where price is expressed as a percentage of par. A positive difference on a particular loan is a discount overage, a negative difference is a discount loss. This discount overage or loss shall apply to FHA, VA, and conventional loans. Under some loan programs, the borrower has the option of obtaining a loan at a higher interest rate in order to obtain what is commonly referred to as a "marketing rebate" on the discount points. The rebate is generally applied towards the borrower's closing costs, including loan origination fees, underwriting, document preparation, processing, credit report, appraisal, title, and escrow fees. All such closing costs and fees paid out of a marketing rebate will be deducted from the discount overage. The standard closing costs and fees vary by region, are set by Company's corporate office, and may vary from time to time.

(2) Income shall not include:

(a) Net warehouse interest income (or loss);
(b) The actual gain or loss which results from purchases of loans by investors; provided, however, that such gain or loss shall be reflected in the P&L of the Regional Office; and
(c) Any other additional fees which may be designated in Company's sole discretion as home office fees as they may change from time to time, in Company's sole discretion.

Vice President Exhibit A

(3) Region Income shall be offset by legal expenses incurred as a result of the operations of the Region. Legal expenses shall include the cost of attorney's fees, litigation costs, court fees and settlements of claims, actions or disputes arising from the operations of the Region.

C. Region Expenses. "Region Expenses" are amounts equivalent to:

(1) All of the actual expenses incurred by the Region's branch offices and amounts allocated to the Region's branch offices by the Company ("Total Branch Expenses"), including, but not limited to:
  (a) Any underwriting functions performed at the branch level;
  (b) Waived or uncollected borrower fees; and
  (c) Tolerance errors and other pricing adjustments;

(2) All of the actual expenses incurred and expenses allocated to the Regional Sales Center, including:
  (1) All direct business expenses, including personnel, payroll and group insurance expenses, travel, sales rallies and other events, training and education expenses, employee relation expenses, etc. attributable to the Region Sales Center (expenses are to be charged against each month in which services are rendered, or in the case of year-end, the year in which services are rendered)
  (2) General overhead expenses incurred by the Region Sales Center such as utilities, office materials, supplies and services; rent expenses for furniture, fixtures and equipment;
  (3) Advertising and marketing costs;
  (4) Any bonus paid to a branch, district or area manager, assistant manager or other employee within the Region (Employee's Quarterly Bonus will not be considered a Region Expense when calculating the Quarterly Bonus);
  (5) Employee's salary and override amounts;
  (6) Administrative staff compensation and services;
  (7) Errors and Omissions, Liability, Property and Bonding insurance costs; (8) Amounts debited from the Regional Reserve Account; and

(3) Other reasonable expenses incurred by Company in connection with the Region, as determined by Company in its sole discretion.

III. Periodic Reviews. Periodically, Company will evaluate the commission amounts paid to its employees based on factors such as loan performance, transaction volume, and current market conditions, and prospectively revise the compensation it agrees to pay to Employee. Company shall have the right, at its sole discretion, to modify this compensation schedule (Exhibit A), in whole or in part, at any time. In such event, Company shall issue and deliver to Employee a new Exhibit A which reflects such changes which shall, as of the effective date stated thereon, supersede and replace the prior Exhibit A.

This Exhibit A will apply to all loan closings occurring on or after **January 1, 2017,** until such time that the Agreement or this Exhibit A is modified.

Section 4. Credits to Deferred Compensation Account:

4.1 Participant Deferral Credits. To the extent provided in the Adoption

Agreement, each Active Participant may elect, by entering into a Participation Agreement with the Employer, to defer the receipt of Compensation from the Employer by a dollar amount or percentage specified in the Participation Agreement. The amount of Compensation the Participant elects to defer, the Participant Deferral Credit, shall be credited by the Employer to the Deferred Compensation Account maintained for the Participant pursuant to Section 8. The following special provisions shall apply with respect to the Participant Deferral Credits of a Participant:

4.1.1 The Employer shall credit to the Participant's Deferred Compensation Account on each Crediting Date an amount equal to the total Participant Deferral Credit for the period ending on such Crediting Date.

4.1.2 An election pursuant to this Section 4.1 shall be made by the Participant by executing and delivering a Participation Agreement to the Committee. Except as otherwise provided in this Section 4.1, the Participation Agreement shall become effective with respect to such Participant as of the first day of January following the date such Participation Agreement is received by the Committee. A Participant's election may be changed at any time prior to the last pennissible date for making the election as permitted in this Section 4.1, and shall thereafter be irrevocable. Any election of a Participant shall continue in effect for the time period as set forth in the Adoption Agreement and shall be described as evergreen or non-evergreen as appropriate.

4.1.3 A Participant may execute and deliver a Participation Agreement to the Committee within 30 days after the date the Participant first becomes eligible to participate in the Plan. After the 30 day period expires, or after any shorter time period as agreed to by the Participant and the Committee, the latest election made by the Participant during that period becomes irrevocable. Such election shall then be effective as of the first payroll period commencing following the date the Participation Agreement becomes irrevocable. Whether a Participant is treated as newly eligible for participation under this Section shall be determined in accordance with Section 409A of the Code and the regulations thereunder, including (i) rules that treat all elective deferral account balance plans as one plan, and (ii) rules that treat a previously eligible Employee as newly eligible if his benefits had been previously distributed or if he has been ineligible for 24 months. For Compensation that is earned based upon a specified performance period (for example, an annual bonus), where a deferral election is made under this Section but after the beginning of the performance period, the election will only apply to the portion of the Compensation equal to the total amount of the Compensation for the service period multiplied by the ratio of the number of days remaining in the performance period after the date the election becomes irrevocable over the total number of days in the performance period.

4.1.4 A Participant may unilaterally modify a Participation Agreement (either to terminate, increase or decrease the portion of his future Compensation which is subject to deferral within the percentage limits set forth in Section 4.1 of the Adoption Agreement) by providing a written modification of the Participation Agreement to the Committee. The modification shall become effective as of the first day of January following the date such written modification is received by the Committee, or at such later date as required under Section 409A of the Code.

4.1.5 If the Participant performed services continuously from the later of the beginning of the performance period or the date upon which the performance criteria are established through the date upon which the Participant makes an initial deferral election, a Participation Agreement relating to the deferral of Performance-Based Compensation may be executed and delivered to the Committee no later than the date which is 6 months prior to the end of the performance period, provided that in no event may an election to defer Performance-Based Compensation be made after such Compensation has become readily ascertainable.

4.1.6 If the Employer has a fiscal year other than the calendar year, Compensation relating to Service in the fiscal year of the Employer (such as a bonus based on the fiscal year of the Employer), of which no amount is paid or payable during the fiscal year, may be deferred at the Participant's election if the election to defer is made not later than the close of the Employer's fiscal year next preceding the first fiscal year in which the Participant performs any services for which such Compensation is payable.

4.1.7 Compensation payable after the last day of the Participant's taxable year solely for services provided during the final payroll period containing the last day of the Participant's taxable year (i.e., December 31) is treated for purposes of this Section 4.1 as Compensation for services performed in the subsequent taxable year.

4.1.8 The Committee may from time to time establish policies or rules consistent with the requirements of Section 409A of the Code to govern the manner in which Participant Deferral Credits may be made.

4.1.9 If a Participant becomes Disabled all currently effective deferral elections for such Participant shall be cancelled. At the time the participant is no longer Disabled, subsequent elections to defer future compensation will be permitted under this Section 4.

4.1.10 If a Participant applies for and receives a distribution on account of an Unforeseeable Emergency, all currently effective deferral elections for such Participant shall be cancelled. Subsequent elections to defer future compensation will be permitted under this Section 4.

4.1.11 If a Participant receives a hardship distribution under Section 1.401(k)-1(d)(3) of the Code, all currently effective deferral elections shall be cancelled.

Subsequent elections to defer future compensation under this Section 4 will not be effective until the later of the beginning of the next calendar year or six months after the date of the hardship distribution. If the effective date of such an election occurs after the beginning of the next calendar year, as permitted by the Employer, a Participant may make elections for the next calendar year prior to January 1st of the next calendar year, but these elections will not become effective until the end of the six month waiting period.

4.2 Employer Credits. If designated by the Employer in the Adoption Agreement, the Employer shall cause the Committee to credit to the Deferred Compensation Account of each Active Participant an Employer Credit as determined in accordance with the Adoption Agreement. A Participant must make distribution elections with respect to any Employer Credits credited to his Deferred Compensation Account by the deadline that would apply under Section 4.1 for distribution elections with respect to Participant Deferral Credits credited at the same time, on a Participation Agreement that is timely executed and delivered to the Committee pursuant to Section 4.1. If no distribution election is made, vested amounts in the Deferred Compensation Account will be distributed in a lump sum upon the earliest of any Qualifying Distribution Event limited to Separation from Service, Disability, Death or Change in Control.

4.3 Deferred Compensation Account. All Participant Deferral Credits and Employer Credits shall be credited to the Deferred Compensation Account of the Participant as provided in Section 8.

Section 5. Qualifying Distribution Events:

5.1 Separation from Service. If the Participant Separates from Service with the Employer, the vested balance in the Deferred Compensation Account shall be paid to the Participant by the Employer as provided in Section 7. Notwithstanding the foregoing,

no distribution shall be made earlier than six months after the date of Separation from Service (or, if earlier, the date of death) with respect to a Participant who as of the date of Separation from Service is a Specified Employee of a corporation the stock in which is traded on an established securities market or otherwise. Any payments to which such Specified Employee would be entitled during the first six months following the date of Separation from Service shall be accumulated and paid on the first day of the seventh month following the date of Separation from Service, and shall be adjusted for deemed investment gain and loss incurred during the six month period.

5.2 Disability. If the Employer designates in the Adoption Agreement that distributions are permitted under the Plan when a Participant becomes Disabled, and the Participant becomes Disabled while in Service, the vested balance in the Deferred Compensation Account shall be paid to the Participant by the Employer as provided in Section 7.

5.3 Death. If the Participant dies while in Service, the Employer shall pay a benefit to the Participant's Beneficiary in the amount designated in the Adoption Agreement. Payment of such benefit shall be made by the Employer as provided in Section 7.

5.4 In-Service or Education Distributions. If the Employer designates in the Adoption Agreement that in-service or education distributions are permitted under the Plan, a Participant may designate in the Participation Agreement to have a specified amount credited to the Participant's In-Service or Education Account for in-service or education distributions at the date specified by the Participant. In no event may an in-service or education distribution of an amount be made before the date that is two years

after the first day of the year in which any deferral election to such In-Service or Education Account became effective. Notwithstanding the foregoing, if a Participant incurs a Qualifying Distribution Event prior to the date on which the entire balance in the In-Service or Education Account has been distributed, then the vested balance in the In-Service or Education Account on the date of the Qualifying Distribution Event shall be paid as provided under Section 7.1 for payments on such Qualifying Distribution Event.

5.5 Change in Control Event. If the Employer designates in the Adoption Agreement that distributions are permitted under the Plan upon the occurrence of a Change in Control Event, the Participant may designate in the Participation Agreement to have the vested balance in the Deferred Compensation Account paid to the Participant upon a Change in Control Event by the Employer as provided in Section 7.

5.6 Unforeseeable Emergency. If the Employer designates in the Adoption Agreement that distributions are permitted under the Plan upon the occurrence of an Unforeseeable Emergency event, a distribution from the Deferred Compensation Account may be made to a Participant in the event of an Unforeseeable Emergency, subject to the following provisions:

5.6.1 A Participant may, at any time prior to his Separation from Service for any reason, make application to the Committee to receive a distribution in a lump sum of all or a portion of the vested balance in the Deferred Compensation Account (determined as of the date the distribution, if any, is made under this Section 5.6) because of an Unforeseeable Emergency. A distribution because of an Unforeseeable Emergency shall not exceed the amount required to satisfy the Unforeseeable Emergency plus amounts necessary to pay taxes reasonably anticipated as a result of such distribution, after taking into account the extent to which the Unforeseeable Emergency may be relieved through reimbursement or compensation by insurance or otherwise or by liquidation of the Participant's assets (to the extent the liquidation of such assets would not itself cause severe financial hardship) or by stopping current deferrals under the Plan pursuant to Section 4.1.10.

5.6.2 The Participant's request for a distribution on account of Unforeseeable Emergency must be made in writing to the Committee. The request must specify the nature of the financial hardship, the total amount requested to be distributed from the Deferred Compensation Account, and the total amount of the actual expense incurred or to be incurred on account of the Unforeseeable Emergency.

5.6.3 If a distribution under this Section 5.6 is approved by the Committee, such distribution will be made as soon as practicable following the date it is approved. The processing of the request shall be completed as soon as practicable from the date on which the Committee receives the properly completed written request for a distribution on account of an Unforeseeable Emergency. If a Participant's Separation from Service occurs after a request is approved in accordance with this Section 5.6.3, but prior to distribution of the full amount approved, the approval of the request shall be automatically null and void and the benefits which the Participant is entitled to receive under the Plan shall be distributed in accordance with the applicable distribution provisions of the Plan.

5.6.4 The Committee may from time to time adopt additional policies or rules consistent with the requirements of Section 409A of the Code to govern the manner in which such distributions may be made so that the Plan may be conveniently administered.

Section 6. Vesting:

A Participant shall be fully vested in the portion of his Deferred Compensation Account attributable to Participant Deferral Credits, and all income, gains and losses attributable thereto. A Participant shall become fully vested in the portion of his Deferred Compensation Account attributable to Employer Credits, and income, gains and losses attributable thereto, in accordance with the vesting schedule and provisions designated by the Employer in the Adoption Agreement. If a Participant's Deferred Compensation Account is not fully vested upon Separation from Service, the portion of the Deferred Compensation Account that is not fully vested shall thereupon be forfeited.

Section 7. Distribution Rules:

7.1 Payment Options. The Employer shall designate in the Adoption Agreement the payment options which may be elected by the Participant (lump sum, annual installments, or a combination of both). Different payment options may be made

available for each Qualifying Distribution Event, and different payment options may be available for different types of Separations from Service, all as designated in the Adoption Agreement. The Participant shall elect in the Participation Agreement the method under which the vested balance in the Deferred Compensation Account will be distributed from among the designated payment options. The Participant may at such time elect a different method of payment for each Qualifying Distribution Event as specified in the Adoption Agreement. If the Participant is permitted by the Employer in the Adoption Agreement to elect different payment options and does not make a valid election, the vested balance in the Deferred Compensation Account will be distributed as a lump sum upon the Qualifying Distribution Event.

Notwithstanding the foregoing, if certain Qualifying Distribution Events occur prior to the date on which the vested balance of a Participant's Deferred Compensation Account is completely paid pursuant to this Section 7.1 following the occurrence of certain initial Qualifying Distribution Events, the following rules apply:

7.1.1 If the initial Qualifying Distribution Event is a Separation from Service or Disability, and the Participant subsequently dies, the remaining unpaid vested balance of a Participant's Deferred Compensation Account shall be paid as a lump sum.

7.1.2 If the initial Qualifying Distribution Event is a Change in Control Event, and any subsequent Qualifying Distribution Event occurs (except an In-Service or Education Distribution described in Section 2.29(iv)), the remaining unpaid vested balance of a Participant's Deferred Compensation Account shall be paid as provided under Section 7.1 for payments on such subsequent Qualifying Distribution Event.

7.2 Timing of Payments. Payment shall be made in the manner elected by the Participant and shall commence as soon as practicable after (but no later than 60 days after) the distribution date specified for the Qualifying Distribution Event. For each payment, the Committee must specify a date for the Deferred Compensation Account(s)

to be valued. In the event the Participant fails to make a valid election of the payment method, the distribution will be made in a single lump sum payment as soon as practicable after (but no later than 60 days after) the Qualifying Distribution Event. A payment may be further delayed to the extent permitted in accordance with regulations and guidance under Section 409A of the Code.

7.3 Installment Payments. If the Participant elects to receive installment payments upon a Qualifying Distribution Event, the payment of each installment shall be made on the anniversary of the date of the first installment payment, and the amount of the installment shall be adjusted on such anniversary for credits or debits to the Participant's account pursuant to Section 8 of the Plan. Such adjustment shall be made by dividing the balance in the Deferred Compensation Account on such date by the number of installments remaining to be paid hereunder; provided that the last installment due under the Plan shall be the entire amount credited to the Participant's account on the date of payment.

7.4 De Minimis Amounts. Notwithstanding any payment election made by the Participant, if the Employer designates a pre-determined de minimis amount in the Adoption Agreement, the vested balance in all Deferred Compensation Accounts of the Participant will be distributed in a single lump sum payment if at the time of a permitted Qualifying Distribution Event the vested balance does not exceed such pre-determined de minimis amount; provided, however, that such distribution will be made only where the Qualifying Distribution Event is a Separation from Service, death, Disability (if applicable) or Change in Control Event (if applicable). Such payment shall be made on or before the later of (i) December 31 of the calendar year in which the Qualifying

Distribution Event occurs, or (ii) the date that is 2-1/2 months after the Qualifying Distribution Event occurs. In addition, the Employer may distribute a Participant's vested balance in all of the Participant's Deferred Compensation Accounts at any time if the balance does not exceed the limit in Section 402(g)(1)(B) of the Code and results in the termination of the Participant's entire interest in the Plan as provided under Section 409A of the Code.

7.5 Subsequent Elections. With the consent of the Committee, a Participant may delay or change the method of payment of the Deferred Compensation Account subject to the following requirements:

7.5.1 The new election may not take effect until at least 12 months after the date on which the new election is made.

7.5.2 If the new election relates to a payment for a Qualifying Distribution Event other than the death of the Participant, the Participant becoming Disabled, or an Unforeseeable Emergency, the new election must provide for the deferral of the payment for a period of at least five years from the date such payment would otherwise have been made.

7.5.3 If the new election relates to a payment from the In-Service or Education Account, the new election must be made at least 12 months prior to the date of the first scheduled payment from such account.

For purposes of this Section 7.5 and Section 7.6, a payment is each separately identified amount to which the Participant is entitled under the Plan; provided, that entitlement to a series of installment payments is treated as the entitlement to a single payment.

7.6 Acceleration Prohibited. The acceleration of the time or schedule of any payment due under the Plan is prohibited except as expressly provided in regulations and administrative guidance promulgated under Section 409A of the Code (such as accelerations for domestic relations orders and employment taxes). It is not an

acceleration of the time or schedule of payment if the Employer waives or accelerates the vesting requirements applicable to a benefit under the Plan.

7.7 Residual Distributions. If calculation of the amount of any credit to a Participant's Deferred Compensation Account is not administratively practicable due to events beyond the control of the Employer, payments may be made to the Participant for residual amounts contributed to or remaining in a Deferred Compensation Account after payments under the provisions of this Section 7 have commenced or been completed. The residual amount shall be credited to the Deferred Compensation Account when the calculation of the amount becomes administratively practicable. Examples of residual amounts include, but are not limited to, additional investment returns credited after payment (due to dividends or pricing changes) or additional contributions made after payment (such as an annual bonus deferral or an Employer Credit). Payments that would have been made had the residual amount been calculable at the benefit commencement date shall be made up as soon as practicable after crediting to the Deferred Compensation Account, in no case later than the end of the year in which calculation of the amount becomes administratively practicable.

7.8 Ineffective Deferrals. If a Participant deferral election under Section 4 to contribute to an In-Service or Education Account carries over to a subsequent year (an evergreen election) and the deferral election is ineffective (i.e., the distribution election would cause payment in the current or prior years), the amount deferred will be credited to a Deferred Compensation Account that is not an In-Service or Education Account. If the Participant only has one account of this type, the amount deferred will be credited to that account. If the Participant has multiple accounts of this type, and one of the accounts

has a lump sum at Separation from Service distribution election, the amount deferred will be credited to that account. If the Participant has multiple accounts of this type and does not have an account with a lump sum at Separation from Service distribution election, one will be established with a lump sum at Separation from Service distribution election and the amount deferred will be credited to this account.

Section 8. Accounts; Deemed Investment; Adjustments to Account:

8.1 Accounts. The Committee shall establish a book reserve account, entitled the "Deferred Compensation Account," on behalf of each Participant. The Committee shall also establish an In-Service or Education Account as a part of the Deferred Compensation Account of each Participant, if applicable. The amount credited to the Deferred Compensation Account shall be adjusted pursuant to the provisions of Section 8.3.

8.2 Deemed Investments. The Deferred Compensation Account of a Participant shall be credited with an investment return determined as if the account were invested in one or more investment funds made available by the Committee. The Participant shall elect the investment funds in which his Deferred Compensation Account shall be deemed to be invested. Such election shall be made in the manner prescribed by the Committee and shall take effect upon the entry of the Participant into the Plan. The investment election of the Participant shall remain in effect until a new election is made by the Participant. In the event the Participant fails for any reason to make an effective election of the investment return to be credited to his account, the investment return shall be determined by the Committee.

8.3 Adjustments to Deferred Compensation Account. With respect to each Participant who has a Deferred Compensation Account under the Plan, the amount credited to such account shall be adjusted by the following debits and credits, at the times and in the order stated:

8.3.1 The Deferred Compensation Account shall be debited each business day with the total amount of any payments made from such account since the last preceding business day to him or for his benefit. Unless otherwise specified by the Employer, each deemed investment fund will be debited pro-rata based on the value of the investment funds as of the end of the preceding business day.

8.3.2 The Deferred Compensation Account shall be credited on each Crediting Date with the total amount of any Participant Deferral Credits and Employer Credits to such account since the last preceding Crediting Date.

8.3.3 The Deferred Compensation Account shall be credited or debited on each day securities are traded on a national stock exchange with the amount of deemed investment gain or loss resulting from the performance of the deemed investment funds elected by the Participant in accordance with Section 8.2. The amount of such deemed investment gain or loss shall be determined by the Committee and such determination shall be final and conclusive upon all concerned.

Section 9. Administration by Committee:

9.1 Membership of Committee. If the Committee consists of individuals appointed by the Board, they will serve at the pleasure of the Board. Any member of the Committee may resign, and his successor, if any, shall be appointed by the Board.

9.2 General Administration. The Committee shall be responsible for the operation and administration of the Plan and for carrying out its provisions. The Committee shall have the full authority and discretion to make, amend, interpret, and enforce all appropriate rules and regulations for the administration of this Plan and decide or resolve any and all questions, including interpretations of this Plan, as may arise in connection with this Plan. Any such action taken by the Committee shall be final and conclusive on any party. To the extent the Committee has been granted discretionary

authority under the Plan, the Committee's prior exercise of such authority shall not obligate it to exercise its authority in a like fashion thereafter. The Committee shall be entitled to rely conclusively upon all tables, valuations, certificates, opinions and reports furnished by any actuary, accountant, controller, counsel or other person employed or engaged by the Employer with respect to the Plan. The Committee may, from time to time, employ agents and delegate to such agents, including Employees of the Employer, such administrative or other duties as it sees fit.

9.3 Indemnification. To the extent not covered by insurance, the Employer shall indemnify the Committee, each Employee, officer, director, and agent of the Employer, and all persons formerly serving in such capacities, against any and all liabilities or expenses, including all legal fees relating thereto, arising in connection with the exercise of their duties and responsibilities with respect to the Plan, provided however that the Employer shall not indemnify any person for liabilities or expenses due to that person's own gross negligence or willful misconduct.

Section 10. Contractual Liability, Trust:

10.1 Contractual Liability. Unless otherwise elected in the Adoption Agreement, the Company shall be obligated to make all payments hereunder. This obligation shall constitute a contractual liability of the Company to the Participants, and such payments shall be made from the general funds of the Company. The Company shall not be required to establish or maintain any special or separate fund, or otherwise to segregate assets to assure that such payments shall be made, and the Participants shall not have any interest in any particular assets of the Company by reason of its obligations hereunder. To the extent that any person acquires a right to receive payment from the

Company under the Plan, such right shall be no greater than the right of an unsecured creditor of the Company.

10.2 Trust. The Employer may establish a trust to assist it in meeting its obligations under the Plan. Any such trust shall conform to the requirements of a grantor trust under Revenue Procedures 92-64 and 92-65 and at all times during the continuance of the trust the principal and income of the trust shall be subject to claims of general creditors of the Employer under federal and state law. The establishment of such a trust would not be intended to cause Participants to realize current income on amounts contributed thereto, and the trust would be so interpreted and administered.

Section 11. Allocation of Responsibilities:

The persons responsible for the Plan and the duties and responsibilities allocated to each are as follows:

11.1 Board.

(i) To amend the Plan;

(ii) To appoint and remove members of the Committee; and

(iii) To terminate the Plan as permitted in Section 14.

11.2 Committee.

(i) To designate Participants;

(ii) To interpret the provisions of the Plan and to determine the rights of the Participants under the Plan, except to the extent otherwise provided in Section 16 relating to claims procedure;

(iii) To administer the Plan in accordance with its terms, except to the extent powers to administer the Plan are specifically delegated to another person or persons as provided in the Plan;

(iv) To account for the amount credited to the Deferred Compensation Account of a Participant;

(v) To direct the Employer in the payment of benefits;

(vi) To file such reports as may be required with the United States Department of Labor, the Internal Revenue Service and any other government agency to which reports may be required to be submitted from time to time; and

(vii) To administer the claims procedure to the extent provided in Section 16.

Section 12. Benefits Not Assignable; Facility of Payments:

12.1 Benefits Not Assignable. No portion of any benefit credited or paid under the Plan with respect to any Participant shall be subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance or charge, and any attempt so to anticipate, alienate, sell, transfer, assign, pledge, encumber or charge the same shall be void, nor shall any portion of such benefit be in any manner payable to any assignee, receiver or any one trustee, or be liable for his debts, contracts, liabilities, engagements or torts.

12.2 Plan-Approved Domestic Relations Orders. The Committee shall establish procedures for determining whether an order directed to the Plan is a Plan-Approved Domestic Relations Order. If the Committee determines that an order is a Plan-Approved Domestic Relations Order, the Committee shall cause the payment of amounts pursuant to or segregate a separate account as provided by (and to prevent any payment or act which might be inconsistent with) the Plan-Approved Domestic Relations Order notwithstanding Section 12.1.

12.3 Payments to Minors and Others. If any individual entitled to receive a payment under the Plan shall be physically, mentally or legally incapable of receiving or acknowledging receipt of such payment, the Committee, upon the receipt of satisfactory evidence of his incapacity and satisfactory evidence that another person or institution is maintaining him and that no guardian or committee has been appointed for him, may

cause any payment otherwise payable to him to be made to such person or institution so maintaining him. Payment to such person or institution shall be in full satisfaction of all claims by or through the Participant to the extent of the amount thereof.

Section 13. Beneficiary:

The Participant's Beneficiary shall be the person, persons, entity or entities designated by the Participant on the Beneficiary designation form provided by and filed with the Committee or its designee. If the Participant does not designate a Beneficiary, the Beneficiary shall be his Surviving Spouse. If the Participant does not designate a Beneficiary and has no Surviving Spouse, the Beneficiary shall be the Participant's estate. The designation of a Beneficiary may be changed or revoked only by filing a new Beneficiary designation form with the Committee or its designee. If a Beneficiary (the "primary Beneficiary") is receiving or is entitled to receive payments under the Plan and dies before receiving all of the payments due him, the balance to which he is entitled shall be paid to the contingent Beneficiary, if any, named in the Participant's current Beneficiary designation form. If there is no contingent Beneficiary, the balance shall be paid to the estate of the primary Beneficiary. Any Beneficiary may disclaim all or any part of any benefit to which such Beneficiary shall be entitled hereunder by filing a written disclaimer with the Committee before payment of such benefit is to be made. Such a disclaimer shall be made in a form satisfactory to the Committee and shall be irrevocable when filed. Any benefit disclaimed shall be payable from the Plan in the same manner as if the Beneficiary who filed the disclaimer had predeceased the Participant.

Section 14. Amendment and Termination of Plan:

The Company may amend any provision of the Plan or terminate the Plan at any time; provided, that in no event shall such amendment or termination reduce the balance in any Participant's Deferred Compensation Account as of the date of such amendment or termination, nor shall any such amendment materially adversely affect the Participant relating to the payment of such Deferred Compensation Account. Notwithstanding the foregoing, the following special provisions shall apply:

14.1 Termination in the Discretion of the Employer. Except as otherwise provided in Sections 14.2, the Company in its discretion may terminate the Plan and distribute benefits to Participants subject to the following requirements and any others specified under Section 409A of the Code:

14.1.1 All arrangements sponsored by the Employer that would be aggregated with the Plan under Section 1.409A-1(c) of the Treasury Regulations are terminated.

14.1.2 No payments other than payments that would be payable under the terms of the Plan if the termination had not occurred are made within 12 months of the termination date.

14.1.3 All benefits under the Plan are paid within 24 months of the termination date.

14.1.4 The Employer does not adopt a new arrangement that would be aggregated with the Plan under Section 1.409A-1(c) of the Treasury Regulations providing for the deferral of compensation at any time within 3 years following the date of termination of the Plan.

14.1.5 The termination does not occur proximate to a downturn in the financial health of the Employer.

14.2 Termination Upon Change in Control Event. If the Company terminates the Plan within thirty days preceding or twelve months following a Change in Control Event, the Deferred Compensation Account of each Participant shall become

payable to the Participant in a lump sum within twelve months following the date of termination, subject to the requirements of Section 409A of the Code.

Section 15. Communication to Participants:

The Employer shall make a copy of the Plan available for inspection by Participants and their beneficiaries during reasonable hours at the principal office of the Employer.

Section 16. Claims Procedure:

The following claims procedure shall apply with respect to the Plan:

16.1 Filing of a Claim for Benefits. If a Participant or Beneficiary (the "claimant") believes that he is entitled to benefits under the Plan which are not being paid to him or which are not being accrued for his benefit, he shall file a written claim therefore with the Committee.

16.2 Notification to Claimant of Decision. Within 90 days after receipt of a claim by the Committee (or within 180 days if special circumstances require an extension of time), the Committee shall notify the claimant of the decision with regard to the claim. In the event of such special circumstances requiring an extension of time, there shall be furnished to the claimant prior to expiration of the initial 90-day period written notice of the extension, which notice shall set forth the special circumstances and the date by which the decision shall be furnished. If such claim shall be wholly or partially denied, notice thereof shall be in writing and worded in a manner calculated to be understood by the claimant, and shall set forth: (i) the specific reason or reasons for the denial; (ii) specific reference to pertinent provisions of the Plan on which the denial is based; (iii) a description of any additional material or information necessary for the claimant to perfect

the claim and an explanation of why such material or information is necessary; and (iv) an explanation of the procedure for review of the denial and the time limits applicable to such procedures, including a statement of the claimant's right to bring a civil action under ERISA following an adverse benefit determination on review. Notwithstanding the foregoing, if the claim relates to a disability determination, the Committee shall notify the claimant of the decision within 45 days (which may be extended for an additional 30 days if required by special circumstances).

16.3 Procedure for Review. Within 60 days following receipt by the claimant of notice denying his claim, in whole or in part, or, if such notice shall not be given, within 60 days following the latest date on which such notice could have been timely given, the claimant may appeal denial of the claim by filing a written application for review with the Committee. Following such request for review, the Committee shall fully and fairly review the decision denying the claim. Prior to the decision of the Committee, the claimant shall be given an opportunity to review pertinent documents and to submit issues and comments in writing.

16.4 Decision on Review. The decision on review of a claim denied in whole or in part by the Committee shall be made in the following manner:

16.4.1 Within 60 days following receipt by the Committee of the request for review (or within 120 days if special circumstances require an extension of time), the Committee shall notify the claimant in writing of its decision with regard to the claim. In the event of such special circumstances requiring an extension of time, written notice of the extension shall be furnished to the claimant prior to the commencement of the extension. Notwithstanding the foregoing, if the claim relates to a disability determination, the Committee shall notify the claimant of the decision within 45 days (which may be extended for an additional 45 days if required by special circumstances).

16.4.2 With respect to a claim that is denied in whole or in part, the decision on review shall set forth specific reasons for the decision, shall be written in a manner calculated to be understood by the claimant, and shall set forth:

(i) the specific reason or reasons for the adverse determination;

(ii) specific reference to pertinent Plan provisions on which the adverse determination is based;

(iii) a statement that the claimant is entitled to receive, upon request and free of charge, reasonable access to, and copies of, all documents, records, and other information relevant to the claimant's claim for benefits; and

(iv) a statement describing any voluntary appeal procedures offered by the Plan and the claimant's right to obtain the information about such procedures, as well as a statement of the claimant's right to bring an action under ERISA section 502(a).

16.4.3 The decision of the Committee shall be final and conclusive.

16.5 Action by Authorized Representative of Claimant. All actions set forth in this Section 16 to be taken by the claimant may likewise be taken by a representative of the claimant duly authorized by him to act in his behalf on such matters. The Committee may require such evidence of the authority to act of any such representative as it may reasonably deem necessary or advisable.

Section 17. Miscellaneous Provisions:

17.1 Set off. The Employer may at any time offset a Participant's Deferred Compensation Account by an amount up to $5,000 to collect the amount of any loan, cash advance, extension of other credit or other obligation of the Participant to the Employer that is then due and payable in accordance with the requirements of Section 409A of the Code.

17.2 Notices. Each Participant who is not in Service and each Beneficiary shall be responsible for furnishing the Committee or its designee with his current address for the mailing of notices and benefit payments. Any notice required or permitted to be given

to such Participant or Beneficiary shall be deemed given if directed to such address and mailed by regular United States mail, first class, postage prepaid. If any check mailed to such address is returned as undeliverable to the addressee, mailing of checks will be suspended until the Participant or Beneficiary furnishes the proper address. This provision shall not be construed as requiring the mailing of any notice or notification otherwise permitted to be given by posting or by other publication.

17.3 Lost Distributees. A benefit shall be deemed forfeited if the Committee is unable to locate the Participant or Beneficiary to whom payment is due by the fifth anniversary of the date payment is to be made or commence; provided, that the deemed investment rate of return pursuant to Section 8.2 shall cease to be applied to the Participant's account following the first anniversary of such date; provided further, however, that such benefit shall be reinstated if a valid claim is made by or on behalf of the Participant or Beneficiary for all or part of the forfeited benefit.

17.4 Reliance on Data. The Employer and the Committee shall have the right to rely on any data provided by the Participant or by any Beneficiary. Representations of such data shall be binding upon any party seeking to claim a benefit through a Participant, and the Employer and the Committee shall have no obligation to inquire into the accuracy of any representation made at any time by a Participant or Beneficiary.

17.5 Headings. The headings and subheadings of the Plan have been inserted for convenience of reference and are to be ignored in any construction of the provisions hereof.

17.6 Continuation of Employment. The establishment of the Plan shall not be construed as conferring any legal or other rights upon any Employee or any persons for

continuation of employment, nor shall it interfere with the right of the Employer to discharge any Employee or to deal with him without regard to the effect thereof under the Plan.

17.7 Merger or Consolidation; Assumption of Plan. No Employer shall consolidate or merge into or with another corporation or entity, or transfer all or substantially all of its assets to another corporation, partnership, trust or other entity (a "Successor Entity") unless such Successor Entity shall assume the rights, obligations and liabilities of the Employer under the Plan and upon such assumption, the Successor Entity shall become obligated to perform the terms and conditions of the Plan. Nothing herein shall prohibit the assumption of the obligations and liabilities of the Employer under the Plan by any Successor Entity.

17.8 Construction. The Employer shall designate in the Adoption Agreement the state according to whose laws the provisions of the Plan shall be construed and enforced, except to the extent that such laws are superseded by ERISA and the applicable requirements of the Code.

17.9 Taxes. The Employer or other payor may withhold a benefit payment under the Plan or a Participant's wages, or the Employer may reduce a Participant's Deferred Compensation Account balance, in order to meet any federal, state, or local or employment tax withholding obligations with respect to Plan benefits, as permitted under Section 409A of the Code. The Employer or other payor shall report Plan payments and other Plan-related information to the appropriate governmental agencies as required under applicable laws.

NOTE: Execution of this Adoption Agreement creates a legal liability of the Employer with significant tax consequences to the Employer and Participants. Principal Life Insurance Company disclaims all liability for the legal and tax consequences which result from the elections made by the Employer in this Adoption Agreement.

GUILD MORTGAGE COMPANY
EXECUTIVE
PERFORMANCE INCENTIVE PLAN

Revised June 13, 2018

GUILD MORTGAGE COMPANY
EXECUTIVE PERFORMANCE INCENTIVE PLAN

A. PURPOSE

The purpose of the Performance Incentive Plan ("Plan") is to provide performance-based incentives to participants for individual, departmental and/or company performance goals and to promote employee retention.

B. DEFINITIONS

Whenever the following terms are used in the Plan, with their initial letter(s) capitalized, they shall have the meanings set forth below:

(a) "Incentive Payment" means any lump sum cash payment.

(b) "Performance Period" is defined in Exhibit A and might be fiscal month, fiscal quarter or fiscal year.

(c) "GUILD" means Guild Mortgage Company.

(d) "Employee" means any person who is treated as an Employee by GUILD.

(e) "Plan" means the Guild Mortgage Company Performance Incentive Plan, as amended from time to time.

C. REVISION DATE

The Plan was last revised on June 13, 2018.

D. ELIGIBILITY

To be eligible for any incentive payment as a "Participant" in the Plan, an Employee must meet the qualifications of sub-paragraphs 1, 2, and 3 below, as well as any other eligibility requirements set forth in the Plan.

1. The Employee must be classified as an active employee of GUILD.
2. The Employee must not be eligible to participate in any other annual performance incentive plan offered by GUILD.
3. The Employee must be performing at a satisfactory level at the time any Incentive Payment is scheduled to be made under the plan, as determined by the employee's supervisor.

E. INCENTIVE DETERMINATION

Subject to the eligibility requirements in Section D, a Participant may receive an Incentive Payment, if any, for performance achievement as specified in Exhibit A.

F. INCENTIVE PAYMENTS

It is anticipated that Participants may receive an Incentive Payment, if any to be made, no later than 120 days following the end of the fiscal year for which the incentive payment is intended. The Incentive Payment will be a lump sum cash payment. No Participant has a vested right to any Incentive Payment under this Plan and no Incentive Payment will be considered earned until it is actually paid to the Participant.

G. LESS THAN FULL PERFORMANCE PERIOD PARTICIPATION

Subject to the provisions of Sections H, I, and J, an employee who becomes a Participant (or who becomes ineligible to participate) in accordance with Section D for a portion of the fiscal year, may be eligible for a prorated Incentive Payment per days worked in the Performance Period. Determination of any Incentive Payment will be made at the end of the Performance Period.

H. LEAVE OF ABSENCE

Subject to the eligibility requirements in section D, if a Participant is on a leave of absence of any nature for more than four weeks

during the Period, the Participant may receive a prorated Incentive Payment per days worked in the Performance Period.

I. TERMINATION OF A PARTICIPANT

Because this is also a retention incentive, no Incentive Payment will be considered earned unless an Employee is employed on the payout date. Unless otherwise required by law, a Participant, whose employment terminates voluntarily or involuntarily prior to the distribution of any Incentive Payment, will not be eligible to earn any Incentive Payment.

J. PLAN REVISION

The Human Resources Department, and subject to approval of the Senior Management, upon determining that the purpose and intent of the Plan is not being fulfilled, may terminate, alter, suspend or amend the Plan at any time as deemed necessary to further the best interests of GUILD. Such actions may be effective for any Performance Period and with respect to any Incentive Payment which has not been made. Amendments during the Performance Period will be effective immediately unless otherwise stated.

K. PLAN INTERPRETATION

If any provision of the Plan is contrary to or inconsistent with applicable law, that provision shall be disregarded or interpreted so that the Plan is fully consistent with the law.

L. EMPLOYMENT DURATION/EMPLOYMENT RELATIONSHIP

The Plan does not, and the policies and practices of GUILD in administering this Plan will not, constitute a contract or other agreement concerning the duration of any Participant's employment with GUILD. The employment relationship of each Participant is "at will" and may be terminated at any time by GUILD, or by the Participant with or without cause. A Participant who accepts any Incentive Payment under the Plan is agreeing that the Participant's employment is "at will".

Performance Metrics:
Your incentive plan is 100% based on specific, measurable and achievable performance objectives to reward you for your achievement of predetermined performance metrics relevant your current role and to incentivize retention.

At the beginning of each fiscal year, your manager will review and may revise your annual performance metrics and communicate to you. Within each metric, multiple objectives may be included and the total weight of all objectives will always equal to 100%. Each performance metric will be accompanied with a description detailing the performance that is necessary to achieve the goal.

Performance Metric Name	Weight	Performance Levels		
		Under 60% of Goal	60% to 99% of Goal	100% of Goal

Individual/Team/Department Goal(s)	40%	0%	1% – 19%	20%

Achievement for each performance metric independently must be at least 60%. If either performance metric does not meet the 60% threshold, there will be no incentive payment made to the participant regardless of the achievement of the other performance metric. Scenarios to illustrate:

1. If the company goal is not achieved at a minimum 60%, there will not be any incentive payment made to the participant for that fiscal year overall.
2. If the company goal is achieved at 60% or higher, but the individual/team/department goal is not achieved at a minimum 60%, then there will not be any incentive payment to the participant for that fiscal year overall.

Seller may request Transactions in excess of the Aggregate Transaction Limit and Buyer may, from time to time, in its sole and absolute discretion, consent to a Temporary Increase of the Aggregate Transaction Limit in accordance with Section 2.10.

2.2 **Transaction Limits**. The Aggregate Transaction Limit and each Type Sublimit shall be as set forth in the Transactions Terms Letter. Buyer shall have the right, in its sole and good faith discretion, to reduce, whether permanently or temporarily, and without refund of any fee or other amount previously paid by Seller, the Aggregate Transaction Limit and/or each Type Sublimit by an amount up to the Uncommitted Amount. In the event of any reduction pursuant to this Section 2.2, Buyer shall give Guild Parties five (5) Business Days' prior notice thereof, which notice shall designate (a) the effective date of any such reduction, (b) the amount of the reduction and (c) the Transaction and/or Type Sublimit limit(s) to which such reduction amount shall apply. Buyer shall not be liable to any Guild Party for any costs, losses or damages arising from or relating to a reduction by Buyer in the Aggregate Transaction Limit or any Type Sublimit.

2.3 **Description of Underlying Assets**. With respect to each Transaction, Seller shall cause to be subject to such Transaction with Buyer Underlying Assets with an Asset Value not less than, at any date, the related Purchase Price for such Transaction. With respect to each Transaction, the type of Underlying Asset shall be the type of Asset as specified in the Transactions Terms Letter as the Type, and in each case shall consist of the type of mortgage loans, mortgage related securities, or interests therein as described in Bankruptcy Code Section 101(47)(A). If there is uncertainty as to the Type of an Underlying Asset, Buyer, in its sole and good faith discretion, shall determine the correct Type for such Underlying Asset.

2.4 **Maximum Transaction Amounts**. The Purchase Price for each proposed Transaction shall not exceed the lesser of:

(a) the Aggregate Outstanding Purchase Price for the applicable Type Sublimit (after giving effect to all Transactions then subject to the Agreement), as determined by the Type of Underlying Asset;

(b) the Aggregate Transaction Limit (as such amount may be increased from time to time in the sole discretion of Buyer as provided in Section 2.10), minus the Aggregate Outstanding Purchase Price of all other Transactions outstanding, if any; and

(c) the Asset Value of the related Underlying Asset(s).

2.5 **Use of Proceeds**. Guild Parties shall use the Purchase Price of each Transaction solely for the purpose of originating and/or acquiring the related Purchased Asset(s) and Underlying Assets, as applicable.

2.6 **Price Differential**.

(a) Price Differential. Notwithstanding that Buyer and Seller intend that the Transactions hereunder be sales by Seller to Buyer of the Purchased Assets for all purposes except accounting and tax purposes, Seller shall pay Buyer interest on the Purchase Price for each Purchased Asset from the Purchase Date until, but not including, the date on which the Repurchase Price is paid, at an annual rate equal to the Price Differential; provided that if the Repurchase Price for a Transaction is not paid by Seller when due (whether at the Repurchase Date, upon acceleration or otherwise), the Repurchase Price shall bear a Price Differential from the date due until paid in full at an annual rate equal to the Default Rate. For the avoidance of doubt, from and after the date on which a Purchased Asset is deemed to be a Noncompliant Asset, the Purchase Price for such Purchased Asset shall bear a Price Differential at an annual rate equal to the sum of the Applicable Pricing Rate plus the Type Margin for a Noncompliant Asset.

(b) Time for Payment. Price Differential with respect to any Purchased Asset shall be due and payable on the Payment Date occurring in the second month following the related Purchase Date and thereafter on each subsequent Payment Date. On the date that the Repurchase Price for such Purchased Asset is paid, all accrued Price Differential not otherwise paid by the Seller with respect to such Purchased Asset shall be due and payable. Notwithstanding anything to the contrary in this Section 2.6(b), in the event the Asset Value of any Underlying Asset is marked to zero and a Guild Party requests Buyer to release its security interest in such Purchased Asset relating to such Underlying Asset, and such Underlying Asset or any Purchased Items related thereto, Buyer shall not release any such security interest therein unless and until Seller shall have paid to Buyer the Repurchase Price for such Purchased Asset.

(c) Computations. All computations of Price Differential and fees payable hereunder shall be based upon the actual number of days (including the first day but excluding the last day) occurring in the relevant period, and a three-hundred sixty (360)-day year.

2.7 **All Transactions Are "Servicing Released"**. Each Participation Certificate sold by Seller to Buyer pursuant to Transactions under this Agreement includes the participation interests in the related Servicing Rights related to the related Underlying Assets and all Transactions under this Agreement are "servicing released" purchase and sale transactions for all intents and purposes, it being understood that the Purchase Price paid by Buyer to Seller for each such Participation Certificate includes a premium that compensates Seller for such Servicing Rights related to such

Underlying Asset and upon payment of the Purchase Price by Buyer to Seller, Buyer becomes the owner of the Participation Interests which represent the [***] beneficial ownership of the related Underlying Asset, and the Servicing Rights related thereto.

2.8 **Terms and Conditions of Transactions**. The terms and conditions of the Transactions as set forth in the Transactions Terms Letter, this Agreement or otherwise may be changed from time to time by Buyer at its sole and good faith discretion by providing prior notice to Guild Parties.

2.9 **Guaranty and/or Additional Security Agreements**. As may be determined necessary by Buyer from time to time in its sole and good faith discretion, Guild Parties agree to cause to be executed and delivered to Buyer the Guaranty and such other additional security agreements as may be agreed by the parties hereto as additional support for Guild Parties' obligations hereunder, which Guaranty and/or additional security agreements shall be considered "a security agreement or other arrangement or other credit enhancement" that is "related to" the Agreement and Transactions hereunder within the meaning of Bankruptcy Code Sections 101(38A)(A), 101(47)(a)(v) and 741(7)(A)(x).

2.10 **Temporary Increase of Aggregate Transaction Limit** Seller may request a temporary increase of the Aggregate Transaction Limit (a "**Temporary Increase**") by submitting to Buyer an executed request for Temporary Increase in the form of Exhibit O hereto (a "**Request for Temporary Increase**"), setting forth the requested increased Aggregate Transaction Limit (such increased amount, the "**Temporary Aggregate Transaction Limit**"), the effective date of such Temporary Increase and the date on which such Temporary Increase shall terminate. Buyer may from time to time, in its sole and absolute discretion, consent to such Temporary Increase, which consent shall be in writing as evidenced by Buyer's delivery to Guild Parties of a countersigned Request for Temporary Increase. At any time that a Temporary Increase is in effect, the Aggregate Transaction Limit shall equal the Temporary Aggregate Transaction Limit for all purposes of this Agreement and all calculations and provisions relating to the Aggregate Transaction Limit shall refer to the Temporary Aggregate Transaction Limit, including without limitation, Type Sublimits and the Minimum Over/Under Account Balance. Upon the termination of a Temporary Increase, Seller shall repurchase Purchased Assets in order to reduce the Aggregate Outstanding Purchase Price to the Aggregate Transaction Limit (as reduced by the termination of such Temporary Increase) in accordance with Section 4.2(k).

ARTICLE 3
PROCEDURES FOR REQUESTING AND ENTERING INTO TRANSACTIONS

3.1 **Policies and Procedures**. In connection with the Transactions contemplated hereunder, each Guild Party shall comply with all applicable policies and procedures of Buyer as may currently exist or as hereafter created. Such policies and procedures may be in writing, published on Buyer's website(s) or otherwise contained in the Handbook. Buyer shall have the right to change, revise, amend or supplement its policies and procedures and the Handbook from time to time to conform to current legal requirements or Buyer practices by giving prior notice to Guild Parties of such changes, revisions, amendments or supplements. To the extent of any conflict between the terms of this Agreement and the terms of the Handbook, this Agreement shall control.

3.2 **Request for Transaction; Asset Data Record.**

(a) Request for Transaction. Seller shall request a Transaction by delivering to Buyer, electronically or in writing, an Asset Data Record for each Underlying Asset intended to be the subject of the Transaction no later than 4:00 p.m. (New York City time); provided

that Buyer shall use its best efforts to accept Asset Data Records delivered after 4:00 p.m. but before 6:00 p.m. (New York City time). Buyer shall be under no obligation to enter into any Transaction or Transactions requested by Seller if the Purchase Price relates to the Uncommitted Amount. Assuming the satisfaction of all conditions precedent set forth in Article 7 and otherwise in this Agreement, Buyer may, for any Transaction with respect to the Uncommitted Amount and shall, for any Transaction with respect to the Committed Amount, confirm to Seller the terms of Transactions electronically or in writing. Buyer reserves the right to reject any Transaction request that Buyer determines, in its sole and good faith discretion, fails to comply with the terms and conditions of this Agreement or Buyer's then current policies and procedures.

(b) Failure to Enter into Transaction; Cancellation of Transaction. If Seller fails [***] or more to enter into a Transaction, in each case after Seller has requested a Transaction and submitted an Asset Data Record in connection with such request, for each Transaction requested by Seller thereafter for which Seller fails to enter into such Transaction after Seller has requested such Transaction and submitted an Asset Data Record in connection with such request, Seller shall pay Buyer any breakage fees and reimburse Buyer for any reasonable out-of-pocket losses, costs and expenses incurred by Buyer in connection with such failure to enter into the Transaction, including, without limitation, costs relating to re-employment of funds obtained by Buyer and fees payable to terminate the arrangements through which such funds were obtained. In addition, with respect to any Transaction, including the initial Transaction, if following disbursement by Buyer of the Purchase Price relating to such Transaction, Seller cancels such Transaction, regardless of the number of Transactions Seller has previously cancelled, in each case, Seller shall pay Buyer a Price Differential on such Purchase Price from the Purchase Date until, but not including, the date the Purchase Price is returned to Buyer.

(c) Form of Asset Data Record. Buyer shall have the right to revise or supplement the form of the Asset Data Record from time to time by giving prior notice thereof to Seller.

3.3 Delivery of Mortgage Loan Documents.

(a) Dry Mortgage Loans. Prior to any Transaction the subject of which is a Purchased Asset related to a Dry Mortgage Loan (including eMortgage Loans), Guild Parties shall deliver to Buyer or its Custodian, or authorize and direct the Closing Agent to deliver to Buyer or its Custodian, the related Mortgage Loan Documents in accordance with and pursuant to the terms of Section 7.2 hereof and the Custodial Agreement; provided that, with respect to an eMortgage Loan, Guild Parties shall deliver to DB Custodian each of Buyer's and Guild Parties' MERS Org IDs, and shall cause (i) the Authoritative Copy of the related eNote to be delivered to the eVault via a secure electronic file, (ii) the Controller status of the related eNote to be transferred to Buyer, (iii) the Location status of the related eNote to be transferred to DB Custodian, and (iv) the Delegatee status of the related eNote to be transferred to DB Custodian, in each case using MERS eDelivery and the MERS eRegistry (collectively, the "**eNote Delivery Requirements**").

(b) Wet Mortgage Loans. With respect to a Transaction the subject of which is a Purchased Asset related to a Wet Mortgage Loan, (i) Guild Parties shall deliver to Buyer or its Custodian, any Mortgage Loan Documents in a Guild Party's possession, and (ii) Guild Parties shall authorize and direct the Closing Agent to deliver the related Mortgage Loan Documents to Guild Parties, for delivery to Buyer or its Custodian, in each case, within

the Maximum Dwell Time in accordance with the terms of Section 7.2 hereof, Exhibit B hereof and the Custodial Agreement.

(c) Pooled Mortgage Loans. With respect to a Transaction the subject of which is a Purchased Asset related to a Pooled Mortgage Loan, Guild Parties shall deliver to Buyer or its Custodian, as applicable, the related Agency Documents in accordance with and pursuant to the terms of Section 7.2(e) hereof and the Custodial Agreement and Guild Parties shall cause the Custodian to deliver a trust receipt to Buyer with respect to such Mortgage Loans in accordance with the terms of the Custodial Agreement. In addition, Guild Parties shall deliver to Buyer a duly executed Trade Assignment together with a true and complete copy of the Purchase Commitment with respect to the related Mortgage-Backed Security in accordance with and pursuant to the terms of Section 7.2(b) and Section 7.2(e).

(d) Government Mortgage Loans. With respect to a Transaction the subject of which is a Purchased Asset related to a Government Mortgage Loan, Guild Parties shall, at the request of Buyer, deliver to Buyer or its Custodian, within forty five (45) calendar days following the Purchase Date for such Purchased Asset, the FHA Mortgage Insurance Contract, the VA Loan Guaranty Agreement or the RD Loan Guaranty Agreement, as applicable, or evidence of such insurance or guaranty, as applicable, including proof of payment of the premium and the case number so Buyer can access the information on the computer system maintained by FHA, the VA or the RD.

(e) Mortgage Loan Documents in Guild Parties' Possession. At all times during which the Mortgage Loan Documents related to any Underlying Asset are in the possession of Guild Parties, and until such Underlying Asset is released by Buyer from the related Transaction hereunder, Guild Parties shall hold such Mortgage Loan Documents in trust separate and apart from Guild Parties' own documents and assets and for the exclusive benefit of Buyer and shall act only in accordance with Buyer's written instructions thereto. Such Mortgage Loan Documents should be clearly marked as subject to delivery to Buyer.

(f) Other Mortgage Loan Documents in Guild Parties' Possession. With respect to each Underlying Asset, until such Underlying Asset is released by Buyer from the related Transaction hereunder, Guild Parties shall hold in trust separate and apart from Guild Parties' own documents and assets and for the exclusive benefit of Buyer all mortgage loan documents related to such Underlying Asset and not delivered to Buyer, including, without limitation, the Other Mortgage Loan Documents, as applicable. All such mortgage loan documents shall be clearly marked as subject to delivery to Buyer.

(g) Pooled Mortgage Loans. With respect to a Transaction the subject of which is a Purchased Asset related to a Pooled Mortgage Loan, in addition to satisfying the other relevant delivery requirements specified in this Section 3.3, Guild Parties shall comply with the conditions to the eligibility of Pooled Mortgage Loans and the related Mortgage-Backed Securities specified in the Transactions Terms Letter.

3.4 **Haircut**. With respect to each Transaction for which the related Purchase Price is being remitted by Buyer to one or more Approved Payees, Seller shall ensure that there are sufficient funds on deposit in the Over/Under Account such that following the withdrawal of the related Haircut by Buyer, the balance of the Over/Under Account is equal to or greater than the Minimum Over/Under Account Balance, as set forth in the Transactions Terms Letter.

3.5 Over/Under Account.

(a) Minimum Balance. Seller shall at all times maintain a balance in the Over/Under Account of not less than the Minimum Over/Under Account Balance, as set forth in the Transactions Terms Letter. The Over/Under Account shall be used to assist in settling the Transactions and any other obligations under this Agreement. Buyer shall not be required to segregate and hold funds deposited by or on behalf of Seller in the Over/Under Account separate and apart from Buyer's own funds or funds deposited by or held for others. Upon the occurrence of a Potential Default or an Event of Default, Buyer shall have the right, in its sole and good faith discretion, to increase the Minimum Over/Under Account Balance Seller is required to maintain in the Over/Under Account by giving notice to Seller thereof. If Seller fails to deposit funds in the Over/Under Account to comply with any such required increase within the time frame required by Buyer, Buyer shall have the right, in its sole and good faith discretion, to retain in the Over/Under Account any amounts received by Buyer on behalf of Seller or otherwise credited to the Over/Under Account to comply with any such required increases, including, without limitation, any purchase proceeds received by Buyer from any Approved Investor pursuant to Section 4.7. Buyer shall not be liable to Seller for any costs, losses or damages arising from or relating to the increase of the Minimum Over/Under Account Balance that Seller is required to maintain in the Over/Under Account or retention of excess funds by Buyer to comply with any such increase.

(b) Deposits.

(i) Seller. Seller shall deposit margin in the form of funds in the Over/Under Account in accordance with the terms of this Agreement, including, without limitation, Section 3.4 and Section 3.5(a).

(ii) Buyer. Buyer shall credit to the Over/Under Account all amounts in excess of those amounts due to Buyer in accordance with the Principal Agreements on the date Buyer receives or has received both (1) a payment by Seller or an Approved Investor pursuant to a Purchase Commitment and (2) a Purchase Advice relating to such payment without discrepancy; provided, however, that funds and Purchase Advices received by Buyer after 4:00 p.m. (New York City time), shall be deemed to have been received on the next Business Day. Buyer shall use reasonable efforts to notify Seller if there is a discrepancy between a wire transfer and the related Purchase Advice, and thereafter, Seller shall notify Buyer as to whether Buyer should accept such settlement payment despite the discrepancy between the amount received and the related Purchase Advice; provided, however, that if an Event of Default or Potential Default has occurred and is continuing, Buyer is not obligated to receive approval from Seller prior to accepting any amounts received and releasing the related Purchased Assets.

(iii) Settlement Statement. Buyer shall deliver to Guild Parties via facsimile or make available to Seller via the internet within one (1) Business Day following settlement of a Transaction, or as soon thereafter as is reasonably possible, a settlement statement, which includes an explanation of all amounts credited by Buyer to the Over/Under Account to settle the Transaction.

(c) **Withdrawals**.

(i) Seller. If the amount credited to the Over/Under Account creates a balance in excess of the Minimum Over/Under Account Balance pursuant to Section 3.5(a) above, provided that no Potential Default or Event of Default has occurred and is continuing, Seller may submit a written request to Buyer for return or payment of such excess funds. If any such request is received by Buyer prior to 1:00 p.m. (New York City time) on a Business Day, Buyer shall use commercially reasonable efforts to wire such requested excess funds to Seller by the end of such Business Day and in no event no later than two (2) Business Days after Buyer's receipt of such request. Notwithstanding anything contained in this Section 3.5(c)(i) to the contrary, Buyer reserves the right to reject any request for excess funds from the Over/Under Account if Buyer determines, in its sole and good faith discretion, that such excess funds shall be used to satisfy Seller's outstanding obligations under this Agreement or are subject to other rights as provided in this Agreement.

(ii) Buyer. Buyer may, from time to time and without separate authorization by Seller or notice to Seller, withdraw funds from the Over/Under Account to settle amounts owed in accordance with the terms of this Agreement or to otherwise satisfy Seller's obligations under this Agreement, including, without limitation:

(1) with respect to any Transaction with respect to which the Purchase Price is being paid to one or more Approved Payees on behalf of Guild Parties, to deliver the Haircut to the Closing Agent;

(2) to reimburse itself for any reasonable costs and expenses incurred by Buyer in connection with this Agreement, as permitted herein;

(3) to pay itself any Price Differential on a Purchase Price that is due and owing;

(4) to Seller as provided in Section 3.5(c)(i);

(5) as security for the performance of Seller's obligations hereunder;

(6) without limiting the generality of Section 3.5(c)(ii)(5), to satisfy any outstanding Margin Deficit as provided in Section 6.3(b); and

(7) in the exercise of Buyer's or its Affiliates' rights under Section 6.3(d) or Section 11.9.

(d) Failure to Maintain Balance. If, at any time, Seller fails to maintain in the Over/Under Account the Minimum Over/Under Account Balance as required hereunder, in addition to any other rights and remedies that Buyer may have against Seller, Buyer shall have the right, at its sole and good faith discretion, to immediately stop entering into Transactions with Seller and/or to charge Seller accrued interest on that portion of the Minimum Over/Under Account Balance that Seller has failed to maintain, at the Default Rate, from the time that such balance failed to be maintained until the time that funds are deposited into or held in the Over/Under Account to comply with such Minimum Over/Under Account Balance requirements hereunder. Without limiting the generality of the foregoing, it is understood and agreed that should the balance in the Over/Under Account become negative, Seller will continue to owe Buyer accrued interest as provided herein.

(e) Security Interest. Any funds of Seller at any time deposited or held in the Over/Under Account, whether such funds are required to be deposited and held in the Over/Under Account pursuant to this Section 3.5 or otherwise, are hereby pledged by Seller as security for its obligations under this Agreement, and Seller hereby grants a security interest in such funds to Buyer, and such pledge and security interest shall be considered "a security agreement or other arrangement or other credit enhancement" that is "related to" the Agreement and Transactions hereunder within the meaning of Bankruptcy Code Sections 101(38A)(A), 101(47)(a)(v) and 741(7)(A)(x).

3.6 Payment of Purchase Price.

(a) Payment of Purchase Price. On the Purchase Date for each Transaction, the Purchased Assets, including the Participation Interests in the Servicing Rights related to the Underlying Assets (including on account of any Purchase Price Increase), shall be transferred to Buyer against the simultaneous transfer of the Purchase Price to Seller or on behalf of Guild Parties to an Approved Payee, as applicable, simultaneously with the delivery to Buyer of the Purchased Assets relating to each Transaction. With respect to the Purchased Assets being sold by Seller on the Purchase Date, Seller hereby sells, transfers, conveys and assigns to Buyer or its designee without recourse, but subject to the terms of this Agreement, all of Seller's right, title and interest in and to the Purchased Assets, including the Participation Interests in the Servicing Rights related to the related Underlying Assets, together with all right, title and interest of Seller in and to all amounts due and payable under the terms of such Underlying Assets.

(b) Methods of Payment. On the Purchase Date for each Transaction:

(i) Buyer shall pay the Purchase Price for all Transactions by wire transfer in accordance with Seller's wire instructions set forth on Exhibit J. Notwithstanding the foregoing, Buyer shall not be obligated to pay the Purchase Price under any method of payment to any Closing Agent, third party institutional originator or warehouse lender that is not an Approved Payee. Further, the payment of the Purchase Price by Buyer to any Closing Agent, third party institutional originator or warehouse lender that is not an Approved Payee shall not make such Closing Agent, third party institutional originator or warehouse lender an Approved Payee. Any funds disbursed by Buyer to Seller or its Approved Payee shall be subject to all applicable federal, state and local laws, including, without limitation, regulations and policies of the Board of Governors of the Federal Reserve System on Reduction of Payments System Risk. Seller acknowledges that as a result of such applicable laws, regulations and policies, equipment malfunction, Buyer's approval procedures or circumstances beyond the reasonable control of Buyer, the payment of a Purchase Price using one or more of the methods described above may be delayed. Buyer shall not be liable to Seller for any costs, losses or damages arising from or relating to any such delays, or

(ii) Notwithstanding the foregoing, where a Purchased Asset or an Underlying Asset is the subject of third party financing, Buyer may pay all or any portion of the Purchase Price directly to the warehouse lender or other lender that has a security interest in such Purchased Asset or Underlying Asset, as applicable, to satisfy the related indebtedness and obtain a release of such security interest.

(c) Transaction Limitations and Other Restrictions Relating to Closing Agents . Notwithstanding that a particular Transaction request will not exceed the Aggregate Transaction Limit or applicable Type Sublimit, if the payment of the Purchase Price for such Transaction to the related Closing Agent will violate Buyer's applicable policies and procedures (as contained in the Handbook or otherwise) regarding payments to Closing Agents, Buyer may refuse to pay the Purchase Price to such Closing Agent.

(d) Return of Purchase Price. If a Wet Mortgage Loan related to a Purchased Asset subject to a Transaction is not closed on the same day on which the Purchase Price was funded, Seller shall immediately return, or cause to be immediately returned (but in any event within forty-eight (48) hours), the Purchase Price (or such greater amount that shall have been remitted by Buyer, if applicable) with respect to such Purchased Asset to Buyer by wire transfer in accordance with Buyer's wire instructions set forth on Exhibit B. Further, Seller shall pay Buyer all fees and expenses incurred by Buyer in connection with the funding of the Purchase Price for such Purchased Asset and, from the date of such funding up to but excluding the date such Purchase Price is returned to Buyer, Seller shall also pay Buyer any Price Differential accrued on such Purchase Price immediately upon notification from Buyer; provided, however, that Price Differential shall continue to accrue until the Purchase Price is returned to Buyer.

3.7 Approved Payees.

(a) Closing Agents. In order for a Closing Agent to be designated an Approved Payee with respect to any Purchase Price for new origination Wet Mortgage Loans or Dry Mortgage Loans as to which the origination funds are being remitted to the closing table, Seller shall submit to Buyer the following documents:

(i) if the title company issuing the title policy that covers the applicable Underlying Asset has not issued to Buyer a blanket Closing Protection Letter, which covers closings conducted by this Closing Agent in the jurisdiction where this closing will take place:

(1) a valid blanket Closing Protection Letter, in a form acceptable to Buyer, issued to Seller or Buyer by the title company, which is issuing the title insurance policy that covers the related Underlying Asset and is an Acceptable Title Insurance Company, that covers closings conducted by the Closing Agent in the jurisdiction where this closing will take place and if applicable, an assignment to Buyer of such Closing Protection Letter, substantially in the form of Exhibit F hereto; or

(2) a valid Closing Protection Letter, in a form acceptable to Buyer, issued to Seller or Buyer by the title company, which is issuing the title insurance policy that covers the related Underlying Assets and is an Acceptable Title Insurance Company, that covers the closing of this specific Underlying Asset and if applicable, an assignment to Buyer of such Closing Protection Letter, substantially in the form of Exhibit F hereto; or

(3) with respect to those jurisdictions outlined in the Handbook for which Closing Protection Letters are not available or are limited in their applicability, any other documents Buyer may require, including without

limitation, a duly executed, valid and enforceable assignment to Buyer of Seller's rights under its fidelity bond and errors and omissions policy maintained pursuant to Section 9.9; and

(ii) evidence that the Irrevocable Closing Instructions, in the applicable form and signed by Seller and Buyer, have been delivered to such Closing Agent.

(b) Warehouse Lenders. In order for a warehouse lender to be designated an Approved Payee with respect to any Purchase Price, Seller shall submit to Buyer a written request, including the name and address of the warehouse lender, demonstrating a need for such designation. Notwithstanding the foregoing, Buyer reserves the right to refuse to designate any warehouse lender as an Approved Payee, or, alternatively, to require additional terms and conditions in order for Buyer to pay a Purchase Price to a warehouse lender.

(c) Approval Process. Buyer shall review the applicable documents and notify Seller within two (2) Business Days as to whether such Closing Agent or warehouse lender has been designated by Buyer, in its sole and good faith discretion, to be an Approved Payee with respect to such Purchase Price. Buyer may withdraw its approval of any Closing Agent or warehouse lender as an Approved Payee if Buyer becomes aware of any facts or circumstances at any time related to such Closing Agent or warehouse lender which Buyer determines, in its sole and good faith discretion, materially and adversely affects the Closing Agent or warehouse lender or otherwise makes the Closing Agent or warehouse lender unacceptable as an Approved Payee.

3.8 **Delivery of Purchased Securities**. With respect to Underlying Assets that are Pooled Mortgage Loans, Buyer shall release its interests in such Underlying Assets simultaneously with the Settlement Date of the related Mortgage-Backed Security backed by a Pool containing such Underlying Assets. Provided that such Mortgage-Backed Security has been issued in the name of Buyer or Buyer's nominee, from and after such Settlement Date, the Mortgage-Backed Security shall replace the related Underlying Assets as the asset that is subject to the Participation Interests subject to the related Transaction.

ARTICLE 4
REPURCHASE

4.1 **Repurchase Price**.

(a) Payment of Repurchase Price. The Repurchase Price for each Purchased Asset shall be payable in full and by wire transfer in accordance with Buyer's wire instructions set forth on Exhibit B or Exhibit J, as applicable, upon the earliest to occur of (i) the Repurchase Date of the related Transaction, (ii) the occurrence of any Repurchase Acceleration Event with respect to such Transaction (iii) at Buyer's sole option, upon the occurrence or during the continuance of an Event of Default, or (iv) the Expiration Date. Such obligation to repurchase exists without regard to any prior or intervening liquidation or foreclosure with respect to any Purchased Asset or Underlying Asset. While it is anticipated that Seller will repurchase each Purchased Asset on its related Repurchase Date, Seller may repurchase any Purchased Asset (or obtain the release of any Underlying Asset) hereunder on demand without any prepayment penalty or premium.

(b) Effect of Payment of Repurchase Price. On the Repurchase Date (or such other date on which the Repurchase Price is received in full by Buyer), termination of the related Transaction will be effected by the repurchase by Seller or its designee of the Purchased Assets (and release of the related Underlying Assets) and the simultaneous transfer of the Repurchase Price to an account of Buyer, or transfer to Buyer of additional Participation Interests related to Additional Underlying Assets (in each case subject to the provisions of Section 6.5), and all of Buyer's rights, title and interests therein shall then be conveyed to Seller or its designee; provided that Buyer shall not be deemed to have terminated or conveyed its interests in such Purchased Assets or related Underlying Assets if an Event of Default shall then be continuing or shall be caused by such repurchase or if such repurchase gives rise to or perpetuates a Margin Deficit that is not satisfied in accordance with Section 6.3(b). With respect to Underlying Assets related to Purchased Assets, Guild Parties are obligated to obtain the related Mortgage Loan Documents from Custodian at Guarantor's expense on the Repurchase Date.

4.2 **Repurchase Acceleration Events**. The occurrence of any of the following events shall be a Repurchase Acceleration Event with respect to one or more Purchased Assets, as the case may be:

(a) Buyer in its sole and good faith discretion has determined that the related Underlying Asset is a Defective Asset;

(b) [***] elapse from the date a related Mortgage Loan Documents relating to an Underlying Asset associated with such Purchased Assets were delivered to an Approved Investor and such Approved Investor has not returned such Mortgage Loan Documents or purchased the Underlying Asset, unless an extension is granted by Buyer, in its sole and good faith discretion;

(c) [***] elapse from the date a related Mortgage Loan Document relating to an Underlying Asset associated with such Purchased Assets were delivered to a Guild Party for correction or completion or for servicing purposes, without being returned to Buyer or its designee;

(d) with respect to an Underlying Asset that is a Wet Mortgage Loan, Guild Parties fail to deliver to Buyer the related Mortgage Loan Documents relating to an Underlying Asset associated with such Purchased Assets within the applicable Maximum Dwell Time or any Mortgage Loan Document delivered to Buyer, upon examination by Buyer, is found not to be in compliance with the requirements of this Agreement or the related Purchase Commitment and is not corrected within the applicable Maximum Dwell Time;

(e) regardless of whether an Underlying Asset associated with such Purchased Assets is a Defective Asset, a foreclosure or similar type of proceeding is initiated with respect to the Underlying Asset;

(f) the further sale of the Underlying Asset associated with such Purchased Assets by Guild Parties to any party other than an Approved Investor;

(g) (1) with respect to any Underlying Asset associated with such Purchased Assets that has been pooled to support a Mortgage-Backed Security issued by Guarantor and fully guaranteed by Ginnie Mae for which Buyer has executed a Form HUD 11711A, the Custodian ceases to hold the Mortgage Loan File and the related Mortgage Loan Documents in respect thereof for the sole and exclusive benefit of Buyer at any time prior

to the issuance of the related Mortgage-Backed Security, or (2) with respect to all other Underlying Assets, the Custodian ceases to hold the related Mortgage Loan File and all Mortgage Loan Documents in respect thereof for the sole and exclusive benefit of Buyer at any time;

(h) with respect to any Pooled Mortgage Loan or Mortgage-Backed Security, if the Guild Parties have failed to deliver the related Trade Assignment to Buyer in accordance with the requirements set forth in Section 7.2(i);

(i) with respect to any Underlying Assets that are Pooled Mortgage Loans, if the Applicable Agency has not issued the related Mortgage-Backed Security to the Depository in the name of Buyer or Buyer's nominee on the related Settlement Date;

(j) with respect to any Purchased Securities, if Buyer has not received the related Takeout Price from the Approved Investor on the related Settlement Date; or

(k) following the termination of a Temporary Increase, the Aggregate Outstanding Purchase Price exceeds the Aggregate Transaction Limit (as reduced by the termination of such Temporary Increase).

4.3 **Reduction of Asset Value as Alternative Remedy**. In Buyer's sole and good faith discretion, in lieu of requiring full repayment of the Repurchase Price upon the occurrence of a Repurchase Acceleration Event, Buyer may elect to reduce the Asset Value of the related Purchased Asset or Underlying Asset, as applicable, to as low as zero and accordingly require a full or partial repayment of such Repurchase Price or the delivery of other funds or collateral, which additional assets shall be "margin payments" or "settlement payments" as such terms are defined in Bankruptcy Code Sections 741(5) and (8), respectively.

4.4 **Designation as Noncompliant Asset as Alternative Remedy**. In Buyer's sole and good faith discretion, in lieu of requiring full repayment of the Repurchase Price upon the occurrence of a Repurchase Acceleration Event, Buyer may elect to deem the related Underlying Asset a Noncompliant Asset, provided that (a) after such Underlying Asset is deemed to be a Noncompliant Asset, the aggregate original Asset Value of all Noncompliant Assets does not exceed the Type Sublimit for Noncompliant Assets; (b) the Asset Value of the Noncompliant Asset is greater than the Repurchase Price or Seller provides additional Participation Interests related to Additional Underlying Assets or repays part of the Repurchase Price as provided in Section 6.3 in each case as a "margin payment" as such term is defined in Bankruptcy Code Section 741(5); and (c) Guild Parties deliver to Buyer all documentation relating to the Purchased Asset and related Underlying Assets reasonably requested by Buyer.

4.5 **Illegality or Impracticability**. Notwithstanding anything to the contrary in this Agreement, if Buyer determines in its sole and good faith discretion that any law, regulation, treaty or directive or any change therein or in the interpretation or application thereof, or any circumstance materially and adversely affecting the London interbank market, the repurchase market for mortgage loans or mortgage-backed securities or the source or cost of Buyer's funds, shall make it unlawful, impractical or commercially unreasonable for Buyer to enter into or maintain Transactions as contemplated by this Agreement (a) the commitment of Buyer hereunder to enter into or to continue to maintain Transactions shall be cancelled and (b) the Repurchase Price for each Transaction then outstanding shall be due and payable upon the earlier to occur of (i) the date required by any financial institution providing funds to Buyer or, solely in the case of impracticability, within ten (10) days thereafter, (ii) sale of the Purchased Assets in accordance

with the terms of this Agreement, and (iii) the date as of which Buyer determines that such Transactions are unlawful or impractical or commercially unreasonable to maintain; provided that Buyer shall not be liable to any Guild Party for any costs, losses or damages arising from or relating from any actions taken by Buyer pursuant to this Section 4.5.

4.6 Increased Costs.

(a) Notwithstanding anything to the contrary in this Agreement, if Buyer determines in its sole good faith discretion that any change in any law, treaty, rule or regulation or determination of an arbitrator or a court or other Governmental Authority or any change in the interpretation or application thereof or compliance by Buyer with any request or directive (whether or not having the force of law) from any central bank or other Governmental Authority made subsequent to the date hereof (i) subjects Buyer to any tax of any kind whatsoever with respect to this Agreement or any Purchased Asset (excluding Excluded Taxes) or materially changes the basis of taxation of payments to Buyer in respect thereof, (ii) imposes, materially modifies or holds applicable any reserve, special deposit, compulsory advance or similar requirement against assets held by deposits or other liabilities in or for the account of Transactions or extensions of credit by, or any other acquisition of funds by any office of Buyer which is not otherwise included in the determination of the Applicable Pricing Rate hereunder, or (iii) imposes on Buyer any other condition, the result of which is to increase the cost to Buyer, by an amount which Buyer deems to be material, of effecting or maintaining purchases hereunder, or to reduce any amount receivable hereunder in respect thereof, then, in any such case, Guild Parties shall promptly pay Buyer such additional amount or amounts as will compensate Buyer for such increased cost or reduced amount receivable thereafter incurred.

(b) If Buyer has determined in its sole good faith discretion that the adoption of or any change in any law, treaty, rule or regulation or determination of an arbitrator or a court or other Governmental Authority regarding capital adequacy or in the interpretation or application thereof or compliance by Buyer or any corporation controlling Buyer with any request or directive regarding capital adequacy (whether or not having the force of law) from any Governmental Authority made subsequent to the date hereof has the effect of reducing the rate of return on Buyer's or such corporation's capital as a consequence of its obligations hereunder to a level below that which Buyer or such corporation but for such adoption, change or compliance (taking into consideration Buyer's or such corporation's policies with respect to capital adequacy) by an amount deemed by Buyer to be material, then from time to time, Seller shall promptly pay to Buyer such additional amount or amounts as will thereafter compensate Buyer for such reduction.

(c) If Buyer becomes entitled to claim any additional amounts pursuant to this Section 4.6, it shall promptly notify Guild Parties of the event by reason of which it has become so entitled. A certificate as to any additional amounts payable pursuant to this subsection submitted by Buyer to Guild Parties shall be conclusive in the absence of manifest error or bad faith by Buyer.

4.7 Payments Pursuant to Sale to Approved Investors. Guild Parties shall direct each Approved Investor purchasing an Underlying Asset to pay directly to Buyer, by wire transfer of immediately available funds, the applicable Takeout Price in full and without set-off on the date set forth in the applicable Purchase Commitment. In addition, Guild Parties shall provide Buyer with a Purchase Advice relating to such payment. Guild Parties shall not direct the Approved

Investor to pay to Buyer an amount less than the full Takeout Price or modify or otherwise change the wire instructions for payment of the Takeout Price provided to Approved Investor by Buyer. Buyer shall apply all amounts received from an Approved Investor for the account of Seller in accordance with Section 4.8 below and credit all amounts due Seller to the Over/Under Account in accordance with Section 3.5(b)(ii) above. Buyer may reject any amount received from an Approved Investor and not release the related Underlying Asset if (a) Buyer does not receive a Purchase Advice in respect of any wire transfer, (b) Buyer does not receive the full Takeout Price, without set-off, or (c) the amount received is not sufficient to pay the related Repurchase Price in full. Alternatively, in lieu of rejecting an amount received by Buyer from an Approved Investor, at Buyer's sole option and discretion, if the amount received from the Approved Investor does not equal or exceed the related Repurchase Price, Buyer may accept the amount received from the Approved Investor and deduct the remaining amounts owed by Seller from the Over/Under Account or demand payment of such remaining amount from Seller. If a Guild Party receives any funds intended for Buyer, such Guild Party shall segregate and hold such funds in trust for Buyer and immediately pay to Buyer all such amounts by wire transfer of immediately available funds together with providing Buyer with a settlement statement for the transaction.

4.8 **Application of Payments from Guild Parties or Approved Investors**. Unless Buyer determines otherwise, payments made directly by a Guild Party or an Approved Investor to Buyer shall be applied in the following order of priority:

(a) first, to any amounts due and owing to Buyer pursuant to Section 6.3;

(b) second, to all costs, expenses and fees incurred or charged by Buyer under this Agreement that are due and owing and related to the Transaction in connection with which the payment is made;

(c) third, to all costs, expenses and fees incurred or charged by Buyer under this Agreement that are due and owing and not related to a specific Transaction;

(d) fourth, to the Price Differential then due and owing and the outstanding Purchase Price, in each case, on the Purchased Asset (and allocated to the related Underlying Asset in connection with which the payment is made);

(e) fifth, to the Price Differential due and owing and the outstanding Purchase Prices, in each case, on any other Purchased Assets (and related Underlying Assets); and

(f) sixth, to the amount of all other obligations then due and owing by Seller to Buyer under this Agreement and the other Principal Agreements.

Buyer and Guild Parties intend and agree that all such payments shall be "settlement payments" as such term is defined in Bankruptcy Code Section 741(8). After the settlement payments have been applied as set forth above, Buyer shall deposit in the Over/Under Account any amounts that remain.

4.9 **Method of Payment**. Except as otherwise specifically provided herein, all payments hereunder must be received by Buyer on the date when due and shall be made in United States dollars by wire transfer of immediately available funds in accordance with Buyer's wire instructions set forth on Exhibit B or Exhibit J, as applicable. Whenever any payment to be made hereunder shall be stated to be due on a day that is not a Business Day, the due date thereof shall be extended to the next succeeding Business Day, and with respect to payments of the Purchase Price, the Price

Differential thereon shall be payable at the Applicable Pricing Rate during such extension. All payments made by or on behalf of Seller with respect to any Transaction shall be applied to Seller's account in accordance with Section 3.5(b)(ii) and Section 4.8 above and shall be made in such amounts as may be necessary in order that all such payments after withholding for or on account of any present or future Taxes imposed by any Governmental Authority, other than any Excluded Taxes, compensate Buyer for any additional cost or reduced amount receivable of making or maintaining Transactions as a result of such Taxes. All payments to be made by or on behalf of Seller with respect to any Transaction shall be made without set-off, counterclaim or other defense.

4.10 **Reserved**.

4.11 **Authorization to Debit**. In addition to any other authorizations to and rights of Buyer hereunder, Guild Parties hereby expressly authorize Buyer, upon the occurrence and during the continuation of a Potential Default, Event of Default or Servicer Termination Event, to debit any account maintained by any Guild Party with any depository institution into which any funds related to the Underlying Assets or related Purchased Items have been deposited (other than escrow accounts maintained for the benefit of the related Mortgagors), including without limitation, any operating, settlement or custodial account, for any and all amounts due Buyer hereunder. For the avoidance of doubt, the foregoing debit rights of Buyer shall not apply to Purchased Assets which have been repurchased by Seller pursuant to Section 6.5.

4.12 **Book Account**. Buyer and Guild Parties shall maintain an account on their respective books of all Transactions entered into between Buyer and Seller and for which the Repurchase Price has not yet been paid. As a courtesy to Guild Parties, Buyer shall provide such information to Guild Parties via the Internet or by telephone or facsimile, if Guild Parties are unable to access the information via the Internet. Notwithstanding the foregoing, Guild Parties shall be responsible for maintaining their own book accounts and records of Transactions entered into with Buyer, amounts due to Buyer in connection with such Transactions and for paying such amounts when due. Failure of Buyer to provide Guild Parties with information regarding any Transaction shall not excuse Guild Parties' timely performance of all obligations under this Agreement, including, without limitation, payment obligations under this Agreement.

4.13 **Full Recourse**. The obligations of Guild Parties from time to time to pay the Repurchase Price, Margin Deficit payments, settlement payments and all other amounts due under this Agreement shall be full recourse obligations of Guild Parties.

4.14 **Alternative Rate**. If prior to any Payment Date, Buyer determines in its sole and reasonable discretion that: (i) adequate and reasonable means do not exist for ascertaining One-Month LIBOR, including, without limitation, because One-Month LIBOR is not available or published on a current basis, and such circumstances are unlikely to be temporary; (ii) the administrator of One-Month LIBOR or a Governmental Authority having jurisdiction over Buyer has made a public statement identifying a specific date after which One-Month LIBOR shall no longer be made available, or used for determining the interest rate of loans, provided that, at the time of such statement, there is no successor administrator that is satisfactory to Buyer, that will continue to provide One-Month LIBOR after such specific date (such specific date, the "Scheduled Unavailability Date"); or (iii) mortgage loan financing facilities similar to this facility, currently being executed, or that include language similar to that contained in this Section 4.14, are being executed or amended (as applicable) to incorporate or adopt a new benchmark interest rate to replace One-Month LIBOR, Buyer shall give prompt notice thereof to Guild Parties, whereupon the Applicable Pricing Rate from the date specified in such notice, which may be the Scheduled

Unavailability Date, for such period, and for all subsequent periods until such notice has been withdrawn by Buyer, shall be based on (x) one or more SOFR-Based Rates or (y) another alternative benchmark rate giving due consideration to any evolving or then existing convention for similar U.S. dollar denominated mortgage loan financing facilities for such alternative benchmark rates and, in each case, including any mathematical or other adjustments to such benchmark rates giving due consideration to any evolving or then existing convention for similar U.S. dollar denominated mortgage loan financing facilities for such benchmark rates, which adjustment or method for calculating such adjustment shall be published on an information service as selected by Buyer from time to time in its sole discretion and may be periodically updated) (any such rate, a "**Successor Rate**"). Such Successor Rate shall be applied in a manner consistent with market practice; provided that to the extent such market practice is not administratively feasible for Buyer, such Successor Rate shall be applied in a manner as otherwise determined by Buyer in its sole discretion. In connection with the implementation of a Successor Rate, Buyer shall have the right to make Successor Rate Conforming Changes, as determined by Buyer in its sole and reasonable discretion from time to time and, notwithstanding anything to the contrary herein or in any other Principal Agreement, any amendments implementing such Successor Rate Conforming Changes shall become effective without any further action or consent of any other party to this Agreement.

ARTICLE 5
FEES

5.1 **Payment of Fees**. Seller shall pay to Buyer those fees set forth in this Agreement and the Transactions Terms Letter when they become due and owing. Without limiting the generality of the foregoing, the Facility Fee shall be deemed due, earned and payable in full on the Effective Date and shall be payable in quarterly installments, with the first installment to be paid on the Effective Date, and the remaining quarterly installments to be paid on the fifth (5th) day of the month immediately following the quarterly anniversary of the Effective Date or if such date is not a Business Day, the Business Day immediately preceding such fifth (5th) day of the month, and if this Agreement is renewed, thereafter as provided in the Transactions Terms Letter. Buyer shall be entitled to withdraw from the Over/Under Account or retain from payments made by Seller or an Approved Investor, subject to Section 4.6, or set off against any Purchase Prices to be paid by Buyer any fees permitted under this Agreement that are due and owing. If such amounts on deposit in the Over/Under Account or payments received in connection with a Transaction or Purchase Prices to be paid by Buyer are not sufficient to pay Buyer all fees owed, Buyer shall notify Seller and Seller shall pay to Buyer, within one (1) Business Day, all unpaid fees.

ARTICLE 6
SECURITY; SERVICING; MARGIN ACCOUNT MAINTENANCE; CUSTODY OF MORTGAGE LOAN DOCUMENTS; REPURCHASE TRANSACTIONS; DUE DILIGENCE

6.1 **Precautionary Grant of Security Interest in Purchased Assets**. With respect to the Purchased Assets, although the parties intend that all Transactions hereunder be sales and purchases (other than for accounting and tax purposes) and not loans, and without prejudice to the provisions of Section 6.6 and the expressed intent of the parties, if any Transactions are deemed to be loans, as security for the performance of all of Seller's obligations hereunder, Seller hereby pledges, assigns and grants to Buyer a continuing first priority security interest in and lien upon the Purchased Assets and related Purchased Items and Buyer shall have all the rights and remedies of a "secured party" under the Uniform Commercial Code with respect to the Purchased Assets and related Purchased Items. Possession of any promissory notes, instruments or documents by the

Custodian shall constitute possession on behalf of Buyer, and Control of an eNote by the DB Custodian shall constitute Control on behalf of Buyer.

As security for the performance of all of Pledgor's obligations hereunder and as a precautionary measure in the event that the conveyance of any Purchased Asset or Participation Interests in any Underlying Assets by Pledgor to Seller is determined not to be a true sale or contribution or the separate existence of Seller from Pledgor is otherwise disregarded at any point, Pledgor hereby pledges, assigns and grants to Buyer a continuing first priority security interest in and lien upon the Purchased Assets and related Underlying Asset Collateral and Buyer shall have all the rights and remedies of a "secured party" under the Uniform Commercial Code with respect to the Purchased Assets and related Underlying Asset Collateral. Possession of any promissory notes, instruments or documents by the Custodian shall constitute possession on behalf of Buyer.

Each Guild Party acknowledges that it has no rights to the Servicing Rights or the Participation Interests in the Servicing Rights related to any Underlying Asset (including Certified Mortgage Loans). Without limiting the generality of the foregoing and for the avoidance of doubt, if any determination is made that the Participation Interests in the Servicing Rights related to such Underlying Asset were not sold by Seller to Buyer or that the Participation Interests in the Servicing Rights are not an interest in such Underlying Assets and are severable from the Underlying Assets despite Buyer's and Guild Parties' express intent herein to treat them as included in the purchase and sale transaction, Pledgor hereby pledges, assigns and grants to Buyer a continuing first priority security interest in and lien upon the Servicing Rights related to such Underlying Assets and Seller hereby pledges, assigns and grants to Buyer a continuing first priority security interest in and lien upon the Participation Interests in the Servicing Rights related to such Underlying Assets, and Buyer shall have all the rights and remedies of a "secured party" under the Uniform Commercial Code with respect thereto. In addition, each Guild Party, as applicable, further grants, assigns and pledges to Buyer a first priority security interest in and lien upon (i) all documentation and rights to receive documentation related to such Servicing Rights and the Participation Interests in the Servicing Rights and the servicing of each of the Underlying Assets, (ii) all Income related to the Purchased Assets and Underlying Assets received by Guild Parties, (iii) all rights to receive such Income, (iv) all other Purchased Assets and Underlying Assets, and (v) all products, proceeds and distributions relating to or constituting any or all of the foregoing (collectively, and together with the pledge of the Servicing Rights and the Participation Interests in the Servicing Rights in the immediately preceding sentence, the "**Related Credit Enhancement**"). The Related Credit Enhancement is hereby pledged as further security for Guild Parties' obligations to Buyer hereunder.

At any time and from time to time, upon the written request of Buyer, and at the sole expense of Guild Parties, Guild Parties will promptly and duly execute and deliver, or will promptly cause to be executed and delivered, such further instruments and documents and take such further action as Buyer may request for the purpose of obtaining or preserving the full benefits of this Agreement and of the rights and powers herein granted, including, without limitation, the filing of any financing or continuation statements under the Uniform Commercial Code in effect in any jurisdiction with respect to the Purchased Assets and related Purchased Items and Underlying Asset Collateral and the liens created hereby. Guild Parties also hereby authorize Buyer to file any such financing or continuation statement in a manner consistent with this Agreement to the extent permitted by applicable law. For purposes of the Uniform Commercial Code and all other relevant purposes, this Agreement shall constitute a security agreement.

If Seller shall, as a result of its ownership of the Participation Interests, become entitled to receive or shall receive any certificate evidencing any Participation Interest, any option rights, whether in

addition to, in substitution for, as a conversion of, or in exchange for the Participation Interests, or otherwise in respect thereof, Seller shall accept the same as the Buyer's agent, hold the same in trust for the Buyer and deliver the same forthwith to the Buyer in the exact form received, duly indorsed by Seller to the Buyer, if required, together with an undated transfer power, if required, covering such certificate duly executed in blank, or if requested, deliver the Participation Interests, re-registered in the name of Buyer, to be held by the Buyer subject to the terms hereof as additional security for the obligations of Seller hereunder. Any sums paid upon or in respect of the Participation Interests upon the liquidation or dissolution of Seller, or otherwise shall be paid over to the Buyer as additional security for the obligations of Seller hereunder. If any sums of money or property so paid or distributed in respect of the Participation Interests shall be received by Seller, Seller shall, until such money or property is paid or delivered to the Buyer, hold such money or property in trust for the Buyer segregated from other funds of Seller as additional security for the obligations of Seller hereunder.

Buyer shall exercise all voting and member rights with respect to the Participation Interests. Notwithstanding the foregoing and consistent with the provisions hereof, prior to the occurrence of an Event of Default which is continuing, Buyer shall notify and consult with Seller prior to the exercise of any rights under this paragraph; provided, however, Buyer may in its sole discretion (x) remove a Servicer or terminate a Servicing Agreement in connection with a Servicing Termination Event or (y) consent to a waiver of a material breach or consent to a material modification of a Servicing Agreement. In no event shall Buyer be required to cast or exercise a vote or other action taken which would impair the Participation Interests, or which would be inconsistent with or result in a violation of any provision of this Agreement. Without limiting the generality of the foregoing, Buyer shall have no obligation to, (i) vote to enable, or take any other action to permit the Seller to issue any interests of any nature or to issue any other interests convertible into or granting the right to purchase or exchange for any interests of such entity, or (ii) sell, assign, transfer, exchange or otherwise dispose of, or grant any option with respect to, the Participation Interests or (iii) create, incur or permit to exist any Lien or option in favor of, or any claim of any Person with respect to, Pledgor's interest in the Participation Interest except for the Lien provided for by this Agreement, or (iv) enter into any agreement or undertaking restricting the right or ability of Pledgor or Buyer to sell, assign or transfer the Participation Interests.

The parties acknowledge that the Participation Interests have been sold by Pledgor to Seller pursuant to a Participation Agreement. Notwithstanding the foregoing, each Guild Party acknowledges and agrees that their respective rights with respect to the Purchased Assets, Purchased Items and Underlying Asset Collateral (including without limitation its security interest in the Purchased Items and Underlying Asset Collateral) are and shall continue to be at all times junior and subordinate to the rights of Buyer under this Agreement. The parties further acknowledge that the Buyer shall enter into Transactions and Purchase Price Increases hereunder with respect to Purchased Assets, Purchased Items and Residual Collateral, free and clear of any obligations under the Participation Agreement and that such Participation Agreement shall not confer any obligations or liabilities on Buyer to any Guild Party. For the sake of clarity, if Buyer releases its security interest granted by Seller to Buyer hereunder in any Purchased Assets or other Purchased Items in accordance with the terms hereof, Buyer's security interest in the related Underlying Assets and related Residual Collateral granted by Pledgor to Buyer hereunder shall be released concurrently therewith.

6.2 Servicing.

(a) Servicing Rights Owned by Buyer; Buyer's Right to Appoint Servicer. In recognition that each Participation Interest (including the related Servicing Rights of the Underlying

Assets) is sold by Seller to Buyer on a servicing released basis and Buyer is the owner of the Servicing Rights related to each such Underlying Asset, Buyer shall have the sole right to appoint the Servicer for each Underlying Asset.

(b) Appointment of Servicer. Subject to Buyer's right to appoint a successor Servicer at its sole discretion, Buyer hereby appoints Guild Servicer as the Servicer to subservice the Underlying Assets on behalf of Buyer as agent for Buyer for the period between the Purchase Date and the Repurchase Date of the Purchased Assets relating to such Underlying Assets. The right of Guild Servicer to service the Underlying Assets is on an interim basis only and does not provide or confer a contractual, ownership or other right for Guild Servicer to service the Underlying Assets, it being understood that upon payment of the Purchase Price, Buyer owns the Participation Interests in the related Servicing Rights and may assume servicing or appoint a Successor Servicer at any time. Further, the fact that Guild Servicer may be entitled to a servicing fee for interim servicing of the Underlying Assets or that Buyer may provide a separate notice of default to Guild Servicer regarding the servicing of the Underlying Assets shall not affect or otherwise change Buyer's ownership of the Participation Interests related to the Servicing Rights related to the Underlying Assets.

(c) Interim Servicing Period; No Servicing Fee or Income. For each Transaction, Guild Servicer's right to interim service an Underlying Asset shall commence on the related Purchase Date and shall automatically terminate without notice on the earlier of (i) [***] after the Purchase Date for the related Purchased Asset or (ii) the Repurchase Date. If the interim servicing period expires with respect to any Underlying Asset for any reason other than Seller repurchasing such Purchased Asset and obtaining the release of such Underlying Asset, then such interim servicing period shall automatically terminate if not renewed by Buyer. In connection with any such renewal, Seller or the Servicer, as applicable, shall continue to interim service the Underlying Asset for a [***] extension period. Absent any such extension of the interim servicing period, Guild Servicer shall transfer servicing of the Underlying Asset (which shall include the delivery of all Servicing Records related to such Underlying Asset) to Buyer or its designee in accordance with the instructions of Buyer and any other applicable requirements of this Agreement. For the avoidance of doubt, upon expiration of the interim servicing period (including the expiration of any extension period) with respect to any Underlying Asset, Guild Servicer shall have no right to service the related Underlying Asset nor shall Buyer have any obligation to extend the interim servicing period (or continue to extend the interim servicing period), it being understood that upon such expiration, Guild Servicer shall promptly transfer the servicing of the related Underlying Asset to Buyer or its designee in accordance with the instructions of Buyer and any other applicable requirements of this Agreement. Buyer shall have no obligation to pay Guild Servicer, nor shall Guild Servicer have any right to deduct or retain, any servicing fee or similar compensation in connection with the interim servicing of an Underlying Asset.

(d) Servicing Agreement. If there is a Servicer of the Underlying Assets, other than a Guild Party, Buyer or an Affiliate of Buyer, Guild Parties shall enter into a Servicing Agreement with the Servicer on behalf of Buyer, which such Servicing Agreement shall be on terms acceptable to Buyer in its discretion, and which shall include, at a minimum, (i) a recognition by the Servicer of Buyer's interests and rights to the Participation Interests in the Underlying Assets as provided under this Agreement, including, without limitation, Buyer's ownership of the Participation Interests in the Servicing Rights related to the Underlying Assets; (ii) an obligation for the Servicer to subservice the Underlying

Assets consistent with the degree of skill and care that the Servicer customarily requires with respect to similar Mortgage Loans owned or managed by it but in no event no less than in accordance with Accepted Servicing Practices; (iii) an obligation to comply with all applicable federal, state and local laws and regulations; (iv) an obligation to maintain all state and federal licenses necessary for it to perform its subservicing responsibilities; (v) an obligation not to impair the rights of Buyer in any Underlying Asset or any payment thereon and (vi) an obligation to collect all Income in respect of the Underlying Assets on behalf of Buyer, in trust, in segregated custodial accounts and remit such Income to the Custodial Account within [***] of receipt. Further, such Servicing Agreement shall contain express reporting requirements and other rights to allow Buyer to inspect the records of the Servicer with respect to the Underlying Assets. Buyer may terminate the subservicing of any Underlying Asset with the then existing Servicer in accordance with either Section 6.2(f) or Section 6.2(n).

(e) Servicing Obligations of Guild Servicer. To the extent Guild Servicer shall subservice any Underlying Asset on behalf of Buyer, Guild Servicer shall:

(i) Subservice and administer the Underlying Assets on behalf of Buyer in accordance with prudent mortgage loan servicing standards and procedures generally accepted in the mortgage banking industry and in accordance with the degree of care and servicing standards generally prevailing in the industry, including all applicable requirements of the Agency Guides, applicable law, FHA Regulations, VA Regulations and RD Regulations, the requirements of any Insurer, as applicable, and the requirements of any applicable Purchase Commitment and the related Approved Investor, so that neither the eligibility of the Underlying Asset and any related Mortgage-Backed Security for purchase under such Purchase Commitment nor the FHA Mortgage Insurance, VA Loan Guaranty Agreement, RD Loan Guaranty Agreement or any other applicable insurance or guarantee in respect of any such Underlying Asset, if any, is voided or reduced by such servicing and administration;

(ii) Subject to Section 6.2(g), and to the extent not otherwise held by the Custodian, Guild Servicer shall at all times maintain and safeguard the Mortgage Loan File for the Underlying Asset in accordance with applicable law and lending industry custom and practice and shall hold such Mortgage Loan File in trust for Buyer, and in any event shall maintain and safeguard photocopies of the documents delivered to Buyer pursuant to Section 3.3, and accurate and complete records of its servicing of the Underlying Asset; Guild Servicer's possession of such Mortgage Loan File is for the sole purpose of subservicing such Underlying Asset and such retention and possession by Guild Servicer is in a custodial capacity only;

(iii) Buyer may, at any time during Guild Servicer's business hours on reasonable notice, examine and make copies of such documents and records, or require delivery of the originals of such documents and records to Buyer or its designee;

(iv) Guild Servicer shall deliver to Buyer all such reports with respect to the Underlying Assets required in the Transactions Terms Letter and herein at the times and on the dates set forth therein and herein. In addition, at Buyer's request, Guild Servicer shall promptly deliver to Buyer reports regarding the status of any Underlying Asset being subserviced by it, which reports shall

include, but shall not be limited to, a description of any default thereunder for more than [***] or such other circumstances that could reasonably be expected to cause a material adverse effect with respect to such Underlying Asset, Buyer's title to such Underlying Asset or the collateral securing such Underlying Asset; Guild Servicer is required to deliver such reports until the repurchase of the Underlying Asset by Seller; and

(v) Guild Servicer shall immediately notify Buyer if Guild Servicer becomes aware of any payment default that occurs under an Underlying Asset.

(f) Sale or Transfer of Servicing Rights by Buyer. Buyer may sell or transfer any rights to service an Underlying Asset without the prior written consent of Guild Parties or any Servicer.

(g) Release of Mortgage Loan Files. Guild Servicer shall release its custody of the contents of any Mortgage Loan File only in accordance with the written instructions of Buyer, except when such release is required (1) as incidental to Guild Servicer's subservicing of the related Underlying Asset, (2) to complete the Purchase Commitment, or (3) by law.

(h) Right to Appoint Successor Servicer. Buyer reserves the right, in its sole discretion, to appoint a successor servicer to subservice any Underlying Asset (each a "**Successor Servicer**"). In the event of such an appointment, Guild Parties or the Servicer, as applicable, shall perform all acts and take all action so that any part of the Mortgage Loan File and related Servicing Records held by Guild Parties or the Servicer, together with all funds in the Custodial Account and other receipts relating to such Underlying Asset, are promptly delivered to the Successor Servicer. Guild Parties shall have no claim for servicing fees, lost profits or other damages if Buyer appoints a Successor Servicer hereunder.

(i) [Reserved].

(j) Location of Custodial Account. Seller shall not change the identity or location of a Custodial Account without thirty (30) days prior notice to Buyer. Seller shall from time to time, at its own cost and expense, execute such directions to the depository Eligible Bank, and other papers, documents or instruments as may be reasonably requested by Buyer to reflect Buyer's ownership interest in each Custodial Account.

(k) Accounting of Custodial Account. If Buyer so requests, Seller shall promptly notify Buyer of each deposit in the Custodial Account, and each withdrawal from the Custodial Account, made by it with respect to the Underlying Assets. Seller shall promptly deliver to Buyer photocopies of all periodic bank statements and other records relating to the Custodial Account as Buyer may from time to time request.

(l) Servicer Notice. As a condition precedent to Buyer funding the Purchase Price in respect of any Underlying Asset subserviced by a Servicer other than a Guild Party, Buyer, or an Affiliate of Buyer, Guild Parties shall provide to Buyer (i) a Servicer Notice addressed to and agreed to by the Servicer, advising the Servicer of such matters as Buyer may reasonably request, including, without limitation, recognition by the Servicer of Buyer's interest in such Underlying Assets and ownership of the Participation Interests in the Servicing Rights related thereto and the Servicer's agreement that upon receipt of notice

of an Event of Default from Buyer, it will follow the instructions of Buyer with respect to the subservicing of the related Underlying Assets.

(m) Notification of Servicer Defaults. If a Guild Party should discover that, for any reason whatsoever, any entity responsible to a Guild Party by contract for managing or servicing any such Underlying Asset has failed to perform fully a Guild Party's obligations with respect to the management or servicing of such Underlying Asset as required under this Agreement or any of the obligations of such entities with respect to the Underlying Assets, as delegated by such Guild Party pursuant to any Servicing Agreement such Guild Party shall promptly notify Buyer.

(n) Termination. Buyer shall have the right at any time to immediately terminate the Guild Parties' or any Servicer's (as applicable) right to subservice the Underlying Assets due to a Servicer Termination Event or for any other reason without payment of any penalty or termination fee. Guild Parties shall cooperate, or cause the Servicer to cooperate, in transferring the servicing of the Underlying Assets to a successor servicer appointed by Buyer in its sole and good faith discretion. For the avoidance of doubt any termination of the Servicer's rights to service by the Buyer as a result of a Servicer Termination Event or an Event of Default shall be deemed part of an exercise of the Buyer's rights to cause the liquidation, termination or acceleration of this Agreement.

(o) Buyer's Right to Service. After providing thirty (30) days' notice to Seller (unless an Event of Default has occurred and is continuing), Buyer or its designee, at the Buyer's sole discretion, shall be entitled to service some or all of the Underlying Assets, including, without limitation, receiving and collecting all sums payable in respect of same. Upon Buyer's determination and written notice to Guild Parties or the Servicer, as applicable, that Buyer desires to service some or all of the Underlying Assets, Guild Parties shall promptly cooperate, or shall cause the Servicer to promptly cooperate, with all instructions of Buyer and do or accomplish all acts or things necessary to effect the transfer of the servicing to Buyer or its designee, at Guild Parties' sole expense. Upon Buyer's or its designee's servicing of the Underlying Assets, (i) Buyer may, in its own name or in the name of Guild Parties or otherwise, demand, sue for, collect or receive any money or property at any time payable or receivable on account of or in exchange for the Underlying Asset(s), but shall be under no obligation to do so; (ii) Guild Parties shall, if Buyer so requests, pay to Buyer all amounts received by Guild Parties upon or in respect of the Underlying Asset(s) or other Purchased Items, advising Buyer as to the source of such funds; and (iii) all amounts so received and collected by Buyer shall be held by it as part of the Purchased Items or applied against any outstanding Repurchase Price owed Buyer.

6.3 Margin Account Maintenance.

(a) Asset Value. Buyer shall have the right to determine the Asset Value of each Purchased Asset and its related Underlying Asset at any time. For the avoidance of doubt, the Asset Value of a Purchased Asset shall be determined with respect to the Asset Value of the related Underlying Asset; provided that if a Purchased Asset fails to qualify as an Eligible Participation Interest, Buyer may mark the Asset Value of such Purchased Asset (and all related Underlying Assets) to zero.

(b) Margin Deficit and Margin Call. If Buyer shall determine at any time that (A) the Asset Value of a Purchased Asset (or any related Underlying Asset) subject to a Transaction is

less than the related Purchase Price for such Purchased Asset (or such related Underlying Asset, as applicable), (B) the aggregate Asset Value of all Purchased Assets subject to each Transaction is less than the Aggregate Outstanding Purchase Price for such Transaction, or (C) the aggregate Asset Value of all Purchased Assets subject to all such Transactions is less than the Aggregate Outstanding Purchase Price for such Transactions (in any such case, a "**Margin Deficit**"), then Buyer may, at its sole option and by notice to Guild Parties (as such notice is more particularly set forth below, a "**Margin Call**"), require Guild Parties to either:

(i) transfer to Buyer or its designee cash or, at Buyer's sole option, additional Participation Interests related to Eligible Underlying Assets approved by Buyer ("**Additional Underlying Assets**") so that (A) the individual Asset Value of the Purchased Asset (and related Underlying Assets), (B) the aggregate Asset Value of all Purchased Assets subject to each Transaction, or (C) the aggregate Asset Value of all Mortgage Loans subject to Transactions, as the case may be, including any such cash or additional Participation Interests related to Additional Underlying Assets tendered by the Seller, will thereupon equal or exceed the individual or Aggregate Outstanding Purchase Price(s) as applicable; or

(ii) pay one or more Repurchase Prices, as applicable, in an amount sufficient to reduce the related Purchase Price so that the related Purchase Price (or the related Aggregate Outstanding Purchase Price) is less than or equal to the Asset Value of the Purchased Asset (and related Underlying Asset(s) (or the aggregate Asset Value of the Purchased Assets (and related Underlying Asset(s), as applicable).

If Buyer delivers a Margin Call to Seller on or prior to 12:00 p.m. (New York City time) on any Business Day, then Guild Parties shall transfer cash to Buyer or additional Participation Interests related to Additional Underlying Assets, as applicable, no later than 5:00 p.m. (New York City time) that same day. If Buyer delivers a Margin Call to Seller after 12:00 p.m. (New York City time) on [***] Business Day, Guild Parties shall be required to transfer cash or Additional Underlying Assets no later than 5:00 p.m. (New York City time) on the [***]. Notice of a Margin Call may be provided by Buyer to Guild Parties electronically or in writing, such as via electronic mail or posting such notice on Buyer's customer website(s).

(c) Buyer's Discretion. Buyer's election not to make a Margin Call at any time there is a Margin Deficit shall not in any way limit or impair its right to make a Margin Call at any time a Margin Deficit exists.

(d) Over/Under Account. Buyer may, in its sole and good faith discretion, withdraw from the Over/Under Account amounts equal to any Margin Deficit which is not otherwise satisfied by Seller within the time frames provided in this Section 6.3.

(e) Credit to Repurchase Price. Any cash transferred to Buyer pursuant to this Section 6.3 shall be credited to the Repurchase Price of the related Transaction(s).

6.4 Custody of Mortgage Loan Documents.

(a) Custodial Arrangements. With respect to Underlying Assets related to Purchased Assets, Buyer may appoint any Person to act as the Custodian to hold possession of the Mortgage Loan Documents and the Agency Documents (or a portion thereof) and to take actions at

the direction of Buyer. If any Person other than Buyer is appointed as Custodian, it shall be a condition precedent to Buyer entering into any Transactions hereunder that Guild Parties, Buyer and Custodian enter into a Custodial Agreement acceptable to Buyer. Guild Parties hereby consent to any and all such appointments and agrees to deliver the Mortgage Loan Documents and certain of the Agency Documents to the Custodian upon the direction of Buyer. Guild Parties further agree that (i) the Custodian shall be exclusively the agent, bailee and/or custodian of Buyer; (ii) receipt of the Mortgage Loan Documents by the Custodian shall be constructive receipt by Buyer of the Mortgage Loan Documents; (iii) Guild Parties shall not have and shall not attempt to exercise any degree of control over the Custodian or any Mortgage Loan Document held by the Custodian; and (iv) Buyer shall not be liable for any act or omission by the Custodian selected by Buyer with reasonable care.

(b) Temporary Withdrawal of Mortgage Loan Documents for Correction. Buyer may, in its sole and good faith discretion, permit Guild Parties to withdraw, for a period not to exceed ten (10) Business Days, specified Mortgage Loan Documents for the purpose of correcting or completing such documents or servicing the related Underlying Assets; provided, however, that unless otherwise agreed to by Buyer in writing, in no event shall more than [***] Mortgage Loan Files (or Mortgage Loan Documents from more than [***] Mortgage Loan Files) shall be released from Custodian's possession at any one time; provided, further, that any Mortgage Loan Documents that are withdrawn by or at the request of a Guild Party and delivered to a Person other than a Guild Party shall at all times be covered by one or more Bailee Agreements, true and complete and fully executed copies of which shall be delivered to Buyer. Notwithstanding the foregoing, Buyer shall be deemed to be in possession of any Mortgage Loan Documents released pursuant to this Section 6.4(b), and the interest of Buyer in the related Underlying Asset shall continue unimpaired until the Mortgage Loan Documents are returned to, or the Repurchase Prices with respect thereto are received by, Buyer.

(c) Delivery of Mortgage Loan Documents to Approved Investors. Provided that no Potential Default or Event of Default has occurred and is continuing, upon the written request of Guild Parties, Buyer may, at its option and in its sole and good faith discretion, deliver to an Approved Investor set forth in the related Purchase Commitment, or its custodian, the Mortgage Loan Documents relating to a specified Underlying Asset. All such Underlying Assets and the related Mortgage Loan Documents shall at all times be covered by one or more Bailee Agreements, and Buyer or its designee will not release Mortgage Loan Documents to an Approved Investor unless Buyer or its Custodian has received a true and complete and fully executed Bailee Agreement from the Approved Investor. Notwithstanding the foregoing, Buyer shall be deemed to be in possession of any Mortgage Loan Documents released pursuant to this Section 6.4(c), and the interest of Buyer in the related Underlying Asset shall continue unimpaired until the Mortgage Loan Documents are returned to, or the Repurchase Prices with respect thereto are received by, Buyer. If the Approved Investor does not purchase an Underlying Asset as contemplated by the related Purchase Commitment, Guild Parties shall, upon the request of Buyer, assist Buyer in the recovery of any Mortgage Loan Documents not returned by the Approved Investor to Buyer.

(d) Delivery of Mortgage Loan Documents Relating to Mortgage-Backed Securities. Upon the written request of Guild Parties, Buyer may, at its option and in its sole and good faith discretion, deliver to the certifying custodian, or permit the delivery to the certifying custodian of, the Mortgage Loan Documents relating to those Underlying Assets that are

or will be Pooled Mortgage Loans. All such Underlying Assets and the related Mortgage Loan Documents shall at all times be covered by a Bailee Agreement, and Buyer or its designee will not release Mortgage Loan Documents to a certifying custodian unless Buyer or its designee has received a signed tri-party custodial agreement from such custodian, in a form acceptable to Buyer. Buyer shall have no obligation to release or permit the release of any Mortgage Loan Documents to any certifying custodian that will not sign a custodial agreement acceptable to Buyer. Notwithstanding the foregoing, Buyer shall be deemed to be in possession of any Mortgage Loan Documents released pursuant to this Section 6.4(d), and the interest of Buyer in the related Underlying Asset shall continue unimpaired until the Mortgage Loan Documents are returned to, or proceeds thereof are received by, Buyer. Guild Parties shall pay for all costs of the certifying custodian and use its best efforts to ensure that the issuer delivers the Mortgage-Backed Securities to the Depository in the name of Buyer or Buyer's nominee on the related Settlement Date.

6.5 **Repurchase and Release of Purchased Assets**. Provided that no Event of Default or Potential Default has occurred and is continuing, Seller may repurchase a Purchased Asset (or obtain the release of related Underlying Assets, as applicable) by either:

(a) paying, or causing an Approved Investor to pay, to Buyer, subject to Sections 4.7 and 4.8 above, the Repurchase Price; or

(b) transferring to Buyer cash and/or additional Participation Interests relating to Underlying Assets satisfactory to Buyer, in aggregate amounts sufficient to cover the amount by which the aggregate amount of Transactions then outstanding hereunder (plus accrued interest and accrued fees with respect thereto) exceeds the Asset Value of the existing Purchased Assets, excluding the Purchased Assets (and related Underlying Assets) to be released; provided that (i) such additional Participation Interests shall be deemed part of a new Transaction, and (ii) the conditions precedent in Section 7.2 shall be satisfied prior to any such transfer.

Upon receipt of the applicable amount, as set forth above, Buyer shall (i) with respect to Underlying Assets, deliver or shall cause the Custodian to deliver the related Mortgage Loan Documents to Guild Parties or Guild Parties' designee, if such documents have not already been delivered pursuant to a Bailee Agreement and (ii) with respect to related Purchased Securities, deliver the Purchased Security to the applicable Guild Party or Approved Investor, as applicable, on a delivery versus payment basis. If any such release gives rise to or perpetuates a Margin Deficit, Buyer shall notify Seller of the amount thereof and Seller shall thereupon satisfy the Margin Call in the manner specified in Section 6.3(b). Buyer shall have no obligation to release a repurchased an Underlying Asset or Purchased Security or terminate its security interest in such Underlying Asset or Purchased Security until such Margin Call is satisfied.

6.6 **Repurchase Transactions**. Beginning on the related Purchase Date and prior to the related Repurchase Date for a Transaction, Buyer shall have free and unrestricted use of all related Purchased Assets (and related Underlying Assets) and may in its sole discretion and without notice to Guild Parties engage in repurchase transactions with respect to any or all of such Purchased Assets or otherwise pledge, hypothecate, assign, transfer or convey any or all of such Purchased Assets (and related Underlying Assets) (such transactions, "Repurchase Transactions"). Nothing contained in this Agreement shall obligate Buyer to segregate any Purchased Asset or Purchased Item delivered to Buyer by Guild Parties. Guild Parties shall not be responsible for any additional obligations, costs or fees in connection with such Repurchase

Transactions. Seller shall not take any action inconsistent with Buyer's ownership of a Purchased Asset (representing the Participation Interests in the related Underlying Assets) and shall not claim any legal, beneficial or other interest in such a Purchased Asset other than the limited right and obligations to provide servicing of such Underlying Assets (representing the Participation Interests in the related Underlying Assets) where Buyer designates Guild Servicer as servicer as provided in Section 6.2.

6.7 **Periodic Due Diligence**. Guild Parties acknowledge that Buyer has the right at any time during the term of this Agreement to perform continuing due diligence reviews with respect to the Purchased Assets and the Underlying Assets, for purposes of verifying compliance with the representations, warranties, covenants and specifications made hereunder or under any other Principal Agreement, or otherwise, and Guild Parties agree that upon reasonable (but no less than five (5) Business Day's) prior notice to Guild Parties (provided that upon the occurrence of a Potential Default or an Event of Default, no such prior notice shall be required), Buyer or its authorized representatives will be permitted during normal business hours to examine, inspect, make copies of, and make extracts of, the Mortgage Loan Files, the Servicing Records and any and all documents, records, agreements, instruments or information relating to such Purchased Assets in the possession, or under the control, of any Guild Party, Custodian or Servicer. Further, Guild Parties will make available to Buyer a knowledgeable financial or accounting officer and will instruct such officer to answer candidly and fully, at no cost to Buyer, any and all questions that any authorized representative of Buyer may address to them in reference to the Mortgage Loan Files, Purchased Assets and Underlying Assets. Without limiting the generality of the foregoing, Guild Parties acknowledge that Buyer shall purchase Assets from Seller based solely upon the information provided by Guild Parties to Buyer in the Asset Data Records and the representations, warranties and covenants contained herein, and that Buyer, at its option, has the right, at any time to re-underwrite any of the Underlying Assets itself or engage a third party underwriter to perform such re-underwriting. Guild Parties agree to cooperate with Buyer and any third party underwriter in connection with such re-underwriting, including, but not limited to, providing Buyer and any third party underwriter with access to any and all documents, records, agreements, instruments or information relating to such Purchased Assets in the possession, or under the control, of any Guild Party. Guild Parties and Buyer further agree that all out-of-pocket costs and expenses incurred by Buyer in connection with Buyer's activities pursuant to this Section 6.7 shall be paid by Seller.

ARTICLE 8
REPRESENTATIONS AND WARRANTIES

8.1 **Representations and Warranties Concerning Guild Parties**. Each Guild Party represents and warrants to and covenants with Buyer that the following representations and warranties hereto are true and correct as of the Effective Date through and until the date on which all obligations of Guild Parties under this Agreement are fully satisfied.

(a) Due Formation and Good Standing. Each Guild Party is (i) duly organized, validly existing and in good standing under the laws of the jurisdiction of its organization, (ii) has the full legal power and authority and has all governmental licenses, authorizations, consents and approvals, necessary to own its property and to carry on its business as currently conducted, and (iii) is duly qualified to do business and is in good standing in each jurisdiction in which the transaction of its business makes such qualification necessary.

(b) Authorization. The execution, delivery and performance by each Guild Party of the Principal Agreements and all other documents and transactions contemplated thereby, are within such Guild Party's corporate powers, have been duly authorized by all necessary corporate action and do not constitute or will not result in (i) a breach of any of the terms, conditions or provisions of any Guild Party's articles or certificate of incorporation or bylaws (or corresponding organizational documents if a Guild Party is not a corporation); (ii) a material breach of any legal restriction or any agreement or instrument to which any Guild Party is now a party or by which it is bound; (iii) a material default or an acceleration under any of the foregoing; or (iv) the violation of any law, rule, regulation, order, judgment or decree to which any Guild Party or its property is subject.

(c) Enforceable Obligation. The Principal Agreements and all other documents contemplated thereby constitute legal, binding and valid obligations of each Guild Party, enforceable against such Guild Party in accordance with their respective terms, except as limited by bankruptcy, insolvency or other similar laws affecting the enforcement of creditor's rights.

(d) Approvals. The execution and delivery of the Principal Agreements and all other documents contemplated thereby and the performance of each Guild Party's obligations thereunder do not require any license, consent, approval, authorization or other action of any Governmental Authority or any other Person, or if required, such license, consent, approval, authorization or other action has been obtained prior to the Effective Date.

(e) Compliance with Laws. Each Guild Party is not in violation of any of its articles or certificate of incorporation or bylaws (or corresponding organizational documents if such Guild Party is not a corporation), of any provision of any applicable law, or of any judgment, award, rule, regulation, order, decree, writ or injunction of any court or public regulatory body or authority that might have a Material Adverse Effect with respect to such Guild Party.

(f) Financial Condition. All financial statements of Guarantor delivered to Buyer fairly and accurately present the financial condition of the parties for whom such statements are submitted. The financial statements of Guarantor have been prepared in accordance with GAAP consistently applied throughout the periods involved, and there are no contingent liabilities not disclosed thereby that would adversely affect the financial condition of Guarantor. Since the close of the period covered by the latest financial statement delivered to Buyer with respect to Guarantor, there has been no material adverse change in the assets, liabilities or financial condition of Guarantor nor is Guarantor aware of any facts that, with or without notice or lapse of time or both, would or could result in any such material adverse change. No event has occurred, including, without limitation, any litigation or administrative proceedings, and no condition exists or, to the knowledge of Guarantor, is threatened, that (i) might render such Guarantor unable to perform its obligations under the Principal Agreements and all other documents contemplated

thereby; (ii) would constitute a Potential Default or Event of Default; or (iii) might have a Material Adverse Effect with respect to such Guarantor.

(g) Credit Facilities. The only credit facilities, including repurchase agreements for mortgage loans and mortgage-backed securities, of each Guild Party that are presently in effect and are secured by mortgage loans or provide for the purchase, repurchase or early funding of mortgage loan sales, are either (i) with Persons disclosed to Buyer at the time of application, or thereafter disclosed to and approved by Buyer, and, if required by Buyer, such Persons have executed and delivered an Intercreditor Agreement (or will execute and deliver an Intercreditor Agreement within sixty (60) days following the Effective Date in accordance with Section 7.3) or (ii) warehouse lenders that are Approved Payees.

(h) Title to Assets. Each Guild Party has good, valid, insurable (in the case of real property) and marketable title to all of its properties and other assets, whether real or personal, tangible or intangible, reflected on the financial statements delivered to Buyer with respect to such Guild Party, except for such properties and other assets that have been disposed of in the ordinary course of business of such Guild Party's mortgage banking business, and all such properties and other assets are free and clear of all liens except as disclosed in such financial statements.

(i) Litigation. There are no actions, claims, suits, investigations or proceedings pending, or to the knowledge of any Guild Party, threatened or reasonably anticipated against or affecting any Guild Party, or any of its Subsidiaries or Affiliates or any of the property thereof in any court or before or by any arbitrator, government commission, board, bureau or other administrative agency that, if adversely determined, may reasonably be expected to result in a Material Adverse Effect.

(j) Payment of Taxes. Each Guild Party has timely filed all Tax returns and reports required to be filed and has paid all taxes, assessments, fees and other governmental charges levied upon it or its property or income (whether or not shown on such Tax returns) that are due and payable, including interest and penalties, or has provided adequate reserves for the payment thereof in accordance with GAAP. Any Taxes, fees and other governmental charges payable by each Guild Party in connection with a Transaction and the execution and delivery of the Principal Agreements have been paid.

(k) No Defaults. No Guild Party is in default under any indenture, mortgage, deed of trust, agreement or other instrument or contractual or legal obligation to which it is a party or by which it is bound in any respect that may reasonably be expected to result in a Material Adverse Effect.

(l) ERISA. Each Guild Party and each Plan is in compliance in all material respects with the requirements of ERISA and the Code, and no Reportable Event has occurred with respect to any Plan maintained by each Guild Party or any of its ERISA Affiliates. The present value of all accumulated benefit obligations under each Plan subject to Title IV of ERISA or Section 412 of the Code (based on the assumptions used for purposes of Accounting Standards Codification (ASC) 715) did not, as of the date of the most recent financial statements reflecting such amounts, exceed the fair market value of the assets of such Plan, and the present value of all accumulated benefit obligations of all Plans (based on the assumptions used for purposes of ASC 715) did not, as of the date of the most recent financial statements reflecting such amounts, exceed the fair market value of the assets of

all such Plans. Each Guild Party and its Subsidiaries and their ERISA Affiliates do not provide any material medical or health benefits to former employees other than as required by the Consolidated Omnibus Budget Reconciliation Act, as amended, or similar state or local law (collectively, "**COBRA**") at no cost to the employer. The assets of each Guild Party are not "plan assets" within the meaning of 29 CFR 2510.3-101 as modified by Section 3(42) of ERISA.

(m) Approved Mortgagee. Guarantor is an approved FHA, VA, RD, Ginnie Mae, Fannie Mae and/or Freddie Mac seller, issuer, mortgagee and/or servicer and is in good standing with these agencies.

(n) True and Complete Disclosure. The information, reports, financial statements, exhibits and schedules furnished in writing by or on behalf of each Guild Party or any of its Subsidiaries to Buyer in connection with the negotiation, preparation or delivery of this Agreement and the other Principal Agreements or included herein or therein or delivered pursuant hereto or thereto, when taken as a whole, do not contain any untrue statement of material fact or omit to state any material fact necessary to make the statements herein or therein, in light of the circumstances under which they were made, not misleading. All written information furnished after the date hereof by or on behalf of each Guild Party or any of its Subsidiaries to Buyer in connection with this Agreement and the other Principal Agreements and the transactions contemplated hereby and thereby will be true, complete and accurate in every material respect, or (in the case of projections) based on reasonable estimates, on the date as of which such information is stated or certified. There is no fact known to any Guild Party that, after due inquiry, could reasonably be expected to have a Material Adverse Effect that has not been disclosed herein, in the other Principal Agreements or in a report, financial statement, exhibit, schedule, disclosure letter or other writing furnished to Buyer for use in connection with the transactions contemplated hereby or thereby.

(o) Ownership; Priority of Liens. Seller owns the Participation Interests in all Mortgage Loans identified in the Transactions Terms Letter that are to become Underlying Assets, and any Transaction shall convey all of Seller's right, title and interest in and to the Participation Interests in such Underlying Assets, including the Servicing Rights related thereto, and other Purchased Items to Buyer, including with respect to each Underlying Asset, the Participation Interests in the Servicing Rights related thereto. This Agreement creates in favor of Buyer, a valid, enforceable first priority lien and security interest in the Purchased Assets and other Purchased Items and Underlying Asset Collateral, prior to the rights of all third Persons and subject to no other liens.

Schedule 1 hereto sets forth all of the jurisdictions and filing offices in which a financing statement should be filed in order for Buyer to perfect its security interest in the Purchased Assets and other Purchased Items and Underlying Asset Collateral. Schedule 2 hereto sets forth all of the states or other jurisdictions in which Guarantor originates or has originated Mortgage Loans in its own name or through brokers on or prior to the date of this Agreement.

(r) Seller Solvent; Fraudulent Conveyance. As of the date hereof and immediately after giving effect to each Transaction, the fair value of the assets of each Guild Party is greater than the fair value of the liabilities (including, without limitation, contingent liabilities if and to the extent required to be recorded as a liability on the financial statements of each Guild Party in accordance with GAAP) of each Guild Party and each Guild Party is and will be solvent, is and will be able to pay its debts as they mature and does not and will not have an unreasonably small capital to engage in the business in which it is engaged and proposes to engage. Each Guild Party does not intend to incur, or believe that it has incurred, debts beyond its ability to pay such debts as they mature. Each Guild Party is not contemplating the commencement of insolvency, bankruptcy, liquidation or consolidation proceedings or the appointment of a receiver, liquidator, conservator, trustee or similar official in respect of each Guild Party or any of its assets. Each Guild Party is not transferring any Asset with any intent to hinder, delay or defraud any of its creditors.

(y) Agency Approvals. Each Guild Party has all requisite Approvals and is in good standing with each Agency, with no event having occurred or each Guild Party having any reason whatsoever to believe or suspect will occur, including, without limitation, a change in insurance coverage which would either make each Guild Party unable to comply with the eligibility requirements for maintaining all such applicable approvals or require notification to the relevant Agency or to HUD, FHA, VA or RD.

(z) Custodian. If the Custodian is a Person other than Buyer, such Custodian is an eligible custodian under each applicable Agency Guide and Agency Program, and is not an Affiliate of any Guild Party.

(aa) No Adverse Actions. No Guild Party has received from any Agency, HUD, the FHA, the VA or the RD a notice of extinguishment or a notice indicating material breach, default or material non-compliance which Buyer reasonably determines may entitle such Agency or HUD, the FHA, the VA or the RD to terminate, suspend, sanction or levy penalties against such Guild Party, or a notice from any Agency, HUD, the FHA, the VA or the RD indicating any adverse fact or circumstance in respect of such Guild Party which Buyer reasonably determines may entitle such Agency or HUD, the FHA, the VA or the RD, as the case may be, to revoke any Approval or otherwise terminate, suspend such Guild Party as an approved issuer, seller or servicer, as applicable, or with respect to which such adverse fact or circumstance has caused any Agency, HUD, the FHA, the VA or the RD to terminate such Guild Party.

(bb) Accuracy of Wire Instructions. Further, if a Potential Default or an Event of Default shall have occurred and for as long as such is occurring, no Guild Party shall, either directly or indirectly, without the prior written consent of Buyer, make any payment of any kind thereafter

on such Debt or Subordinated Debt until all obligations of Guild Parties hereunder have been paid and performed in full.

10.6 **Loans to Officers, Employees and Shareholders**. 10.7 **Liens on Purchased Assets and Purchased Items**. Each Guild Party acknowledges that with respect to each Transaction it shall have sold the Purchased Assets and related Purchased Items and Underlying Asset Collateral and shall have granted to Buyer a first priority security interest in such assets in the event such Transaction is deemed a loan. Accordingly, each Guild Party shall not create, incur, assume or suffer to exist any lien upon the Purchased Assets or the Purchased Items, other than as granted to Buyer herein.

10.8 **Transactions with Affiliates**. 10.9 **Consolidation, Merger, Sale of Assets and Change of Control**. No Guild Party shall, directly or indirectly, (a) wind up, liquidate or dissolve its affairs; (b) enter into any transaction of merger or consolidation with any Person; (c) convey, sell, lease or otherwise dispose of, or agree to do any of the foregoing at any future time, all or substantially all of its property or assets, (d) form or enter into any partnership, joint venture, syndicate or other combination which could have a Material Adverse Effect; or (e) allow a Change of Control to occur with respect to such Guild Party, without prior written consent of Buyer; provided, however, that such Guild Party may, without the prior written consent of Buyer, and provided that a Potential Default or an Event of Default is not existing and will not occur as a result thereof: (i) merge or consolidate with any Person if such Guild Party is the surviving and controlling entity and (ii) in the ordinary course of Guarantor's mortgage banking business, sell equipment that is uneconomic or obsolete and acquire Mortgage Loans for resale and sell Mortgage Loans.

10.10 **Payment of Dividends and Retirement of Stock**. If a Potential Default or an Event of Default has occurred and is continuing or will occur as a result of such payments, Guild Parties shall not pay any dividends or distributions with respect to any capital stock or other equity interests in Guild Parties, whether now or hereafter outstanding, or make any other distribution in respect thereof, either directly or indirectly, whether in cash or property or in obligations of Guild Parties.

10.11 **Purchased Items**. 10.12 **Secondary Marketing, Underwriting, Third Party Origination and Interest Rate Risk Management Practices**. Guarantor shall not, without the prior written approval of Buyer, which shall not be unreasonably withheld, change in any material respect any secondary marketing, underwriting, third party origination and interest rate risk management practices of Guarantor that exist as of the Effective Date. By way of example but not limitation, any material change to Guarantor's hedging strategy or any change to add third party origination shall be considered material changes subject to the prior written approval of Buyer. The fact that Guarantor may from time to time disclose to Buyer in writing proposed changes in such practices after the date hereof shall not be deemed Buyer's consent to or written approval thereof unless Buyer has indicated written approval of such changes. It shall be deemed an Event of Default hereunder if Guarantor changes any of the foregoing practices without having obtained such prior written approval from Buyer.

10.13 **[Reserved].**

10.14 **Regulation W**. No Guild Party shall use the proceeds from the transfer of funds from Buyer to any Guild Party to effect transactions with any affiliate (as defined in 12 CFR §223.2 or 12 USC §371c) of Buyer.

With respect to any Event of Default which requires a determination to be made as to whether such Event of Default has occurred, such determination shall be made in Buyer's reasonable discretion and each Guild Party hereby agrees to be bound by and comply with any such

determination by Buyer. An Event of Default shall be deemed to be continuing unless expressly waived by Buyer in writing.

11.2 **Remedies**. Upon the occurrence of an Event of Default, Buyer may, by notice to Guild Parties, declare all or any portion of the Repurchase Prices related to the outstanding Transactions to be immediately due and payable whereupon the same shall become immediately due and payable, and the obligation of Buyer to enter into Transactions shall thereupon terminate; provided that the acceleration of all Repurchase Prices and termination of Buyer's obligation to enter into Transactions shall immediately occur upon the occurrence of an Event of Default under Section 11.1(h), (m), or (n), notwithstanding that Buyer may not have provided any such notice to Guild Parties. Further, it is understood and agreed that upon the occurrence of an Event of Default, each Guild Party shall strictly comply with the negative covenants contained in Article 10 hereunder and in no event shall any Guild Party declare and pay any dividends, incur additional Debt or Subordinated Debt, make payments on existing Debt or Subordinated Debt or otherwise distribute or transfer any of any Guild Party's property and assets to any Person without the prior written consent of Buyer. Upon the occurrence of any Event of Default, Buyer may also, at its option, exercise any or all of the following rights and remedies:

(a) enter the office(s) of any Guild Party and take possession of any of the Purchased Assets and Underlying Assets and Underlying Asset Collateral including any records relating thereto;

(b) communicate with and notify Mortgagors of the Underlying Assets and obligors under other Underlying Assets or on any portion thereof, whether such communications and notifications are in verbal, written or electronic form, including, without limitation, communications and notifications that the Underlying Assets have been assigned to Buyer and that all payments thereon are to be made directly to Buyer or its designee; settle compromise, or release, in whole or in part, any amounts owing on the Underlying Assets or any portion of the Underlying Assets, on terms acceptable to Buyer; enforce payment and prosecute any action or proceeding with respect to any and all Underlying Assets; and where any Underlying Asset is in default, foreclose upon and enforce security interests in, such Underlying Asset by any available judicial procedure or without judicial process and sell property acquired as a result of any such foreclosure;

(c) collect payments from Mortgagors and/or assume servicing of, or contract with a third party to subservice, any or all Underlying Assets requiring servicing and/or perform any obligations required in connection with Purchase Commitments, with all of any such third party's fees to be paid by Guild Parties. In connection with collecting payments from Mortgagors and/or assuming servicing of any or all Underlying Assets, Buyer may take possession of and open any mail addressed to any Guild Party, remove, collect and apply all payments for any Guild Party, sign any Guild Party's name to any receipts, checks, notes, agreements or other instruments or letters or appoint an agent to exercise and perform any of these rights. If Buyer so requests, Guild Parties shall promptly forward to Buyer or its designee, all further mail and all "trailing" documents, such as title insurance policies, deeds of trust, and other documents, and all loan payment histories, both in paper and electronic format, in each case, as same relate to the Underlying Assets;

(d) proceed against any Guild Party under this Agreement or against any Guarantor(s) under their respective Guaranty, or both;

(e) either (x) sell, without notice or demand of any kind, at a public or private sale and at such price or prices as Buyer may deem to be commercially reasonable for cash or for future delivery without assumption of any credit risk, any or all or portions of the Purchased Items or Underlying Asset Collateral on a servicing-retained or servicing-released basis; provided that Buyer may purchase any or all of the Purchased Items or Underlying Asset Collateral at any public or private sale; provided, further, that any Guild Party shall remain liable to Buyer for any amounts that remain owing to Buyer following any such sale and/or credit; or (y) in its sole discretion elect, in lieu of selling all or a portion of such Purchased Items or Underlying Asset Collateral, to give any Guild Party credit for such Purchased Items or Underlying Asset Collateral (including credit for the Servicing Rights in respect of sales on a servicing-retained basis) in an amount equal to the Market Value of the Underlying Assets against the aggregate unpaid Repurchase Price and any other amounts owing by Guild Parties hereunder. Guild Parties shall remain liable to Buyer for any amounts that remain owing to Buyer following a sale and/or credit under the preceding sentence;

(f) enter into one or more hedging arrangements covering all or a portion of the Purchased Items or Underlying Asset Collateral; and/or

(g) pursue any rights and/or remedies available at law or in equity against any Guild Party.

11.3 **Treatment of Custodial Account**. During the existence of a Potential Default or an Event of Default, notwithstanding any other provision of this Agreement, no Guild Party shall have the right to withdraw or release any funds in the Custodial Account to itself or for its benefit, nor shall it have any right to set-off any amount owed to it by Buyer against funds held by it for Buyer in the Custodial Account. During the existence of an Event of Default, Guild Parties shall promptly remit to or at the direction of Buyer all funds related to the Purchased Assets in the Custodial Account.

11.4 **Sale of Purchased Assets**. Following an Event of Default, Buyer may securitize or otherwise sell the Purchased Assets with no obligation to reacquire title as provided in Section 6.6 and Buyer shall incur no liability as a result of such transaction. For the avoidance of doubt, Buyer may sell the Purchased Assets as part of a pool comprised of, all or part of, the Purchased Assets and other mortgage loans owned by Buyer; in such instance, the value of the Purchased Assets shall be determined on a pro rata basis. Each Guild Party hereby waives any claims it may have against Buyer arising by reason of the fact that the price at which the Purchased Assets may have been sold at such private sale was less than the price which might have been obtained at a public sale or was less than the aggregate Repurchase Price amount of the outstanding Transactions, even if Buyer accepts the first offer received and does not offer the Purchased Assets, or any part thereof, to more than one offeree.

11.5 **No Obligation to Pursue Remedy**. Buyer shall have the right to exercise any of its rights and/or remedies without presentment, demand, protest or further notice of any kind other than as expressly set forth herein, all of which are hereby expressly waived by Guild Parties. Guild Parties further waive any right to require Buyer to (a) proceed against any Person, (b) proceed against or exhaust all or any of the Purchased Assets or Underlying Asset Collateral or pursue its rights and remedies as against the Purchased Assets or Underlying Asset Collateral in any particular order, or (c) pursue any other remedy in its power. Buyer shall not be required to take any steps necessary to preserve any rights of Guild Parties against holders of mortgages prior in lien to the lien of any Purchased Items or Underlying Asset Collateral or to preserve rights against prior parties. No failure on the part of Buyer to exercise, and no delay in exercising, any right,

power or remedy provided hereunder, at law or in equity shall operate as a waiver thereof; nor shall any single or partial exercise by Buyer of any right, power or remedy provided hereunder, at law or in equity preclude any other or further exercise thereof or the exercise of any other right, power or remedy. Without intending to limit the foregoing, all defenses based on the statute of limitations are hereby waived by Guild Parties. The remedies herein provided are cumulative and are not exclusive of any remedies provided at law or in equity.

11.6 **No Judicial Process**. Buyer may enforce its rights and remedies hereunder without prior judicial process or hearing, and Guild Parties hereby expressly waive, to the extent permitted by law, any right Guild Parties might otherwise have to require Buyer to enforce its rights by judicial process. Guild Parties also waive, to the extent permitted by law, any defense Guild Parties might otherwise have to its obligations under this Agreement arising from use of nonjudicial process, enforcement and sale of all or any portion of the Purchased Assets or from any other election of remedies. Guild Parties recognize that nonjudicial remedies are consistent with the usages of the trade, are responsive to commercial necessity and are the result of a bargain at arm's length.

11.7 **Reimbursement of Costs and Expenses**. Buyer may, but shall not be obligated to, advance any sums or do any act or thing necessary to uphold and enforce the lien and priority of, or the security intended to be afforded by, any Purchased Items or Underlying Asset Collateral, including, without limitation, payment of delinquent Taxes or assessments and insurance premiums. All advances, charges, reasonable costs and expenses, including reasonable attorneys' fees and disbursements and losses resulting from any hedging arrangements entered into by Buyer pursuant to Section 11.2(f), incurred or paid by Buyer in exercising any right, power or remedy conferred by this Agreement, or in the enforcement hereof, together with interest thereon, at the Default Rate, from the time of payment until repaid, shall become a part of the Repurchase Price.

11.8 **Application of Proceeds**. The proceeds of any sale or other enforcement of Buyer's interest in all or any part of the Purchased Assets or Underlying Asset Collateral shall be applied by Buyer:

(a) first, to the payment of the costs and expenses of such sale or enforcement, including reasonable compensation to Buyer's agents and counsel, and all expenses, liabilities and advances made or incurred by or on behalf of Buyer in connection therewith;

(b) second, to the costs of cover and/or related hedging transactions;

(c) third, to the payment of any other amounts due under this Agreement other than the aggregate Repurchase Price;

(d) fourth, to the payment of the aggregate Repurchase Price;

(e) fifth, to all other obligations owed by Guild Parties under this Agreement and the other Principal Agreements; and

(f) sixth, in accordance with Buyer's exercise of its rights under Section 11.9 hereof.

11.9 **Rights of Set-Off**. Buyer shall have the following rights of set-off:

(a) If Guild Parties shall default in the payment or performance of any of its obligations under this Agreement, Buyer shall have the right, at any time, and from time to time, to set-off claims and to appropriate or apply any and all deposits of money or property or

any other indebtedness at any time held or owing by Buyer to or for the credit of the account of Seller against and on account of the obligations and liabilities of any Guild Party under this Agreement, irrespective of whether or not Buyer shall have made any demand hereunder and whether or not said obligations and liabilities shall have become due; provided, however, that the aforesaid right to set-off shall not apply to any deposits of escrow monies being held on behalf of the Mortgagors related to the Underlying Assets or other third parties. Without limiting the generality of the foregoing, Buyer shall be entitled to set-off claims and apply property held by Buyer with respect to any Transaction against obligations and liabilities owed by any Guild Party to Buyer with respect to any other Transaction. Buyer may set off cash, the proceeds of any liquidation of the Purchased Items and Underlying Asset Collateral and all other sums or obligations owed by Buyer to such Guild Party against all of Guild Parties' obligations to Buyer, whether under this Agreement, under a Transaction, or under any other agreement between the parties, or otherwise, whether or not such obligations are then due, without prejudice to Buyer's right to recover any deficiency. Buyer agrees promptly to notify Guild Parties after any such set-off and application made by Buyer; provided that the failure to give such notice shall not affect the validity of such set-off and application.

(b) In addition to the rights in subsection (a), Buyer and its Affiliates (collectively, the " **Bank of America Related Entities**"), shall have the right to set-off and to appropriate or apply any and all deposits of money or property or any other indebtedness at any time held or owing by the Bank of America Related Entity to or for the credit of the account of each Guild Party and its Affiliates against and on account of the obligations of Guild Parties under any agreement(s) between a Guild Party and/or its Affiliates, on the one hand, and the Bank of America Related Entity, on the other hand, irrespective of whether or not the Bank of America Related Entity shall have made any demand hereunder and whether or not said obligations shall have matured. In exercising the foregoing right to set-off, any Bank of America Related Entity shall be entitled to withdraw funds in the Over/Under Account which are being held for or owing to Seller to set-off against any amounts due and owing by Seller to the Bank of America Related Entity. If a Bank of America Related Entity other than Buyer intends to exercise its right to set-off in this subsection (b), such Bank of America Related Entity shall provide Guild Parties prior notice thereof, and upon Guild Parties' receipt of such notice, if the basis for such right to set-off is a Guild Party's breach or default of its obligations to the Bank of America Related Entity, Guild Parties shall have [***] to cure any such breach or default in order to avoid such set-off.

11.10 **Reasonable Assurances**. If, at any time during the term of the Agreement, Buyer has reason to believe that any Guild Party is not conducting its business in accordance with, or otherwise is not satisfying: (i) all applicable statutes, regulations, rules, and notices of federal, state, or local governmental agencies or instrumentalities, all applicable requirements of Approved Investors and Insurers and prudent industry standards or (ii) all applicable requirements of Buyer, as set forth in this Agreement, then, Buyer shall have the right to demand, pursuant to notice from Buyer to Guild Parties specifying with particularity the alleged act, error or omission in question, reasonable assurances from Guild Parties that such a belief is in fact unfounded, and any failure of Guild Parties to provide to Buyer such reasonable assurances in form and substance reasonably satisfactory to Buyer, within the time frame specified in such notice, shall itself constitute an Event of Default hereunder, without a further cure period. Guild Parties hereby authorize Buyer to take such actions as may be necessary or appropriate to confirm the continued eligibility of Guild Parties for Transactions hereunder, including without limitation (i) ordering credit reports and/or appraisals with respect to any Underlying Asset, (ii) contacting Mortgagors, licensing

authorities and Approved Investors or Insurers, and (iii) performing due diligence reviews on the Underlying Assets and related Mortgage Loan Files pursuant to Section 6.7.

ARTICLE 12
INDEMNIFICATION

12.1 **Indemnification**. Each Guild Party shall indemnify and hold harmless each of the Bank of America Related Entities and any of their respective officers, directors, employees, agents and advisors (each, an "**Indemnified Party**") from and against any and all liabilities, obligations, losses, damages, penalties, judgments, suits, costs, expenses and disbursements of any kind whatsoever (including reasonable fees and disbursements of its counsel) that may be imposed upon, incurred by or asserted against such Indemnified Party in any way relating to or arising out of the Principal Agreements, any other document referred to therein or any of the transactions contemplated thereby, or any Purchased Items or Underlying Asset Collateral or any Guild Party's obligations thereunder, unless caused by the gross negligence or willful misconduct of the Bank of America Related Entities. Each Guild Party also agrees to reimburse an Indemnified Party as and when billed by such Indemnified Party for all such Indemnified Party's costs and expenses incurred in connection with the enforcement or the preservation of such Indemnified Party's rights under this Agreement, any other Principal Agreement (provided that if the terms of any Principal Agreement conflict with the foregoing, the terms of the Principal Agreement shall control) or any transaction contemplated hereby or thereby, including without limitation the reasonable fees and disbursements of its counsel.

12.2 **Reimbursement**. Guild Parties shall reimburse the Bank of America Related Entities for all expenses required in the Transactions Terms Letter to be reimbursed when they become due and owing. In addition, Guild Parties agree to pay as and when billed by Buyer all of the out-of pocket costs and expenses incurred by Buyer in connection with (i) the consummation and administration of the transactions contemplated hereby including, without limitation, all the due diligence, inspection, testing and review costs and expenses incurred by Buyer with respect to Purchased Assets or the Underlying Assets or Underlying Asset Collateral prior to the Effective Date or pursuant to Section 6.7, or otherwise, (ii) the development, preparation and execution of, and any amendment, supplement or modification to, any Principal Agreement or any other documents prepared in connection therewith, and (iii) all the reasonable fees, disbursements and expenses of counsel to Buyer incurred in connection with any of the foregoing.

12.3 **Payment of Taxes**

(a) All payments made by any Guild Party under this Agreement shall be made free and clear of, and without deduction or withholding for or on account of, any present or future taxes, levies, imposts, duties, deductions, charges, assessments, fees or withholdings (including backup withholdings), and all liabilities (including penalties, interest and additions to tax) with respect thereto imposed by any Governmental Authority (collectively, "**Taxes**"), but excluding income taxes (however denominated), branch profits taxes and franchise taxes imposed by the United States, a state or a foreign jurisdiction under the laws of which Buyer is organized or of its applicable lending office, or any political subdivision thereof (such exclusions from Taxes, "**Excluded Taxes**"), all of which shall be paid by a Guild Party for its own account not later than the date when due. If any Guild Party is required by law or regulation to deduct or withhold any Taxes from or in respect of any amount payable hereunder, it shall: (i) make such deduction or withholding; (ii) pay the amount so deducted or withheld to the appropriate Governmental Authority not later than the date when due; (iii) deliver to Buyer, promptly, original tax receipts and other evidence

satisfactory to Buyer of the payment when due of the full amount of such Taxes; and (iv) pay to Buyer such additional amounts as may be necessary so that such Buyer receives, free and clear of all Indemnified Taxes (as defined below), a net amount equal to the amount it would have received under this Agreement, as if no such deduction or withholding had been made. In addition, Guild Parties agree to timely pay to the relevant Governmental Authority in accordance with applicable law any current or future stamp, court or documentary taxes, intangible, filing, excise, property or similar Taxes (including, without limitation, mortgage recording taxes, transfer taxes and similar fees) imposed by any Governmental Authority that arise from any payment made hereunder or from the execution, delivery, performance or registration of, from the receipt or perfection of a security interest under, or otherwise with respect to, this Agreement ("**Other Taxes**"). Taxes other than Excluded Taxes shall be referred to in this Agreement as "**Indemnified Taxes**."

(b) Each Guild Party shall, within ten (10) days after demand therefor, indemnify and hold Buyer harmless from and against the full amount of any and all Indemnified Taxes (including any Indemnified Taxes imposed or asserted on or attributable to amounts payable under this Section) and Other Taxes arising with respect to the Purchased Assets, the Principal Agreements and other documents related thereto and fully indemnify and hold Buyer harmless from and against any and all liabilities or expenses with respect to or resulting from any delay or omission to pay such Taxes, whether or not such Indemnified Taxes or Other Taxes were correctly or legally imposed or assessed by the relevant Governmental Authority. A certificate as to the amount of any payment or liability of Buyer with respect to such Indemnified Taxes or Other Taxes delivered to any Guild Party by Buyer shall be conclusive absent manifest error.

(c) Any Buyer that is not incorporated under the laws of the United States, any State thereof, or the District of Columbia (a "**Foreign Buyer**") and that is entitled to an exemption from or reduction of withholding Tax with respect to payments made under this Agreement shall provide Seller with properly completed United States Internal Revenue Service ("**IRS**") Form W-8BEN, W-8BEN-E, W-8IMY or W-8ECI or any successor form prescribed by the IRS, certifying that such Foreign Buyer is entitled to benefits under an income tax treaty to which the United States is a party which reduces or eliminates the rate of withholding Tax on payments of interest or certifying that the income receivable pursuant to this Agreement is effectively connected with the conduct of a trade or business in the United States on or prior to the date upon which each such Foreign Buyer becomes a Buyer. If an IRS form previously delivered expires or becomes obsolete or inaccurate in any respect, each Foreign Buyer will update such form or promptly notify Guild Parties of its legal inability to do so. For any period with respect to which a Foreign Buyer has failed to provide Guild Parties with the appropriate IRS forms prescribed by this Section 12.3(c) (unless such failure is due to a change in treaty, law, or regulation occurring subsequent to the date on which such form originally was required to be provided), such Foreign Buyer shall not be entitled to any "gross-up" of Indemnified Taxes or indemnification under Section 12.3(b) with respect to Taxes imposed by the United States; provided, however, that should a Foreign Buyer, which is otherwise exempt from a withholding tax, become subject to Taxes because of its failure to deliver an IRS form required hereunder, Guild Parties shall take such steps as such Foreign Buyer shall reasonably request to assist such Foreign Buyer to recover such Taxes.

(d) Nothing contained in this Section 12.3 shall require Buyer to make available any of its tax returns or other information that it deems to be confidential or proprietary or otherwise subject Buyer to any material unreimbursed cost or expense or materially prejudice the legal or commercial position of Buyer.

12.4 **Buyer Payment**. If any Guild Party fails to pay when due any costs, expenses or other amounts payable by it under this Article 12, such amount may be paid on behalf of such Guild Party by Buyer, in its discretion and Guild Parties shall remain liable for any such payments by Buyer. No such payment by Buyer shall be deemed a waiver of any of Buyer's rights under any of the Principal Agreements.

12.5 **Agreement Not to Assert Claims**. Each Guild Party agrees not to assert any claim against any Indemnified Party, on any theory of liability, for special, indirect, consequential or punitive damages arising out of or otherwise relating to the Principal Agreements, the actual or proposed use of the proceeds of the Transactions, this Agreement or any of the transactions contemplated hereby or thereby. THE FOREGOING INDEMNITY AND AGREEMENT NOT TO ASSERT CLAIMS EXPRESSLY APPLIES, WITHOUT LIMITATION, TO THE NEGLIGENCE (BUT NOT GROSS NEGLIGENCE OR WILLFUL MISCONDUCT) OF THE INDEMNIFIED PARTIES.

12.6 **Survival**. Without prejudice to the survival of any other agreement of Guild Parties hereunder, the covenants and obligations of each Guild Party contained in this Article 12 shall survive the payment in full of the Repurchase Prices and all other amounts payable hereunder and delivery of the Purchased Items by Buyer against full payment therefor.

ARTICLE 13
TERM AND TERMINATION

13.1 **Term**. Provided that no Event of Default or Potential Default has occurred and is continuing, and except as otherwise provided for herein, this Agreement shall commence on the Effective Date and continue until the Expiration Date. Following expiration or termination of this Agreement, all amounts due Buyer under the Principal Agreements shall be immediately due and payable without notice to Guild Parties and without presentment, demand, protest, notice of protest or dishonor, or other notice of default, and without formally placing Guild Parties in default, all of which are hereby expressly waived by each Guild Party.

13.2 **Termination.**

(a) Buyer may, with or without cause, terminate this Agreement at any time by providing [***] notice to Guild Parties. Each Guild Party acknowledges and understands that Buyer is under no obligation whatsoever to continue the term of this Agreement for any period of time and may terminate this Agreement at any time for any reason. By way of example but not limitation, Buyer may immediately terminate this Agreement by providing notice to Guild Parties if (i) this Agreement or any Transaction is deemed by a court or by statute to not constitute a "repurchase agreement," a "securities contract," or a "master netting agreement," as each such term is defined in the Bankruptcy Code, (ii) payments or security offered hereunder are deemed by a court or by statute not to constitute "settlement payments" or "margin payments" as each such term is defined in the Bankruptcy Code, (iii) this Agreement or any Transaction is deemed by a court or by statute not to constitute an agreement to provide financial accommodations as described in Bankruptcy Code Section 365(c)(1) or (iv) Buyer

determines that there has been fraud, misrepresentation or any similar intentional conduct on behalf of any Guild Party, its officers, directors, employees, agents and/or its representatives with respect to any of any Guild Parties' obligations, responsibilities or actions undertaken in connection with this Agreement. Further, Buyer may, without cause and for any reason whatsoever, terminate this Agreement with respect to the Uncommitted Amount at any time pursuant to Section 2.1.

(b) Upon termination of this Agreement for any reason, all outstanding amounts due to Buyer under the Principal Agreements shall be immediately due and payable without notice to Guild Parties and without presentment, demand, protest, notice of protest or dishonor, or other notice of default, and without formally placing Guild Parties in default, all of which are hereby expressly waived by each Guild Party. Further, any termination of this Agreement shall not affect the outstanding obligations of Guild Parties under this Agreement or any other Principal Agreement and all such outstanding obligations and the rights and remedies afforded Buyer in connection therewith, including, without limitation, those rights and remedies afforded Buyer under this Agreement, shall survive any termination of this Agreement. Buyer shall not be liable to Guild Parties for any costs, loss or damages arising from or relating to a termination by Buyer in accordance with any subsection of this Section 13.2.

13.3 **Extension of Term**. Upon mutual agreement of Guild Parties and Buyer, the term of this Agreement may be extended. Such extension may be made subject to the terms and conditions hereunder and to any other terms and conditions as Buyer, in its sole and good faith discretion, may determine to be necessary or advisable. Under no circumstances shall such an extension by Buyer be interpreted or construed as a forfeiture by Buyer of any of its rights, entitlements or interest created hereunder. Each Guild Party acknowledges and understands that Buyer is under no obligation whatsoever to extend the term of this Agreement beyond the initial term.

ARTICLE 14
GENERAL

14.1 **Integration; Servicing Provisions Integral and Non-Severable**. This Agreement, together with the other Principal Agreements, and all other documents executed pursuant to the terms hereof and thereof, constitute the entire agreement between the parties with respect to the subject matter hereof and supersedes any and all prior or contemporaneous oral or written communications with respect to the subject matter hereof, all of which such communications are merged herein. All Transactions hereunder constitute a single business and contractual relationship and each Transaction has been entered into in consideration of the other Transactions. Accordingly, each of Buyer and the Guild Parties agree that payments, deliveries, and other transfers made by either of them in respect of any Transaction shall be deemed to have been made in consideration of payments, deliveries, and other transfers in respect of any other Transactions hereunder, and the obligations to make any such payments, deliveries, and other transfers may be applied against each other and netted. Without limiting the generality of the foregoing, the provisions of this Agreement related to the servicing and Servicing Rights of the Underlying Assets are integral, interrelated, and are non-severable from the purchase and sale provisions of the Agreement. Buyer has relied upon such provisions as being integral and non-severable in determining whether to enter into this Agreement and in determining the Purchase Price methodology for such Mortgage Loans. The integration of these servicing provisions is necessary to enable Buyer to obtain the maximum value from the sale of the Underlying Assets by having the ability to sell the Servicing Rights related to such Underlying Assets free from any claims or encumbrances. Further, the fact that Seller or the Servicer may be entitled to a servicing fee for interim servicing

of the Underlying Assets or that Buyer may provide a separate notice of default to Seller or the Servicer regarding the servicing of the Underlying Assets shall not affect or otherwise change the intent of Guild Parties and Buyer regarding the integral and non-severable nature of the provisions in the Agreement related to servicing and Servicing Rights nor will such facts affect or otherwise change Buyer's ownership of the Participation Interests in the Servicing Rights related to the Underlying Assets.

14.2 **Amendments**. No modification, waiver, amendment, discharge or change of this Agreement shall be valid unless the same is in writing and signed by the party against whom the enforcement of such modification, waiver, amendment, discharge or change is sought.

14.3 **No Waiver**. No failure or delay on the part of Guild Parties or Buyer in exercising any right, power or privilege hereunder and no course of dealing between Guild Parties and Buyer shall operate as a waiver thereof nor shall any single or partial exercise of any right, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege hereunder.

14.4 **Remedies Cumulative**. The rights and remedies herein expressly provided are cumulative and not exclusive of any rights or remedies that Guild Parties or Buyer would otherwise have. No notice or demand on Guild Parties in any case shall entitle Guild Parties to any other or further notice or demand in similar or other circumstances or constitute a waiver of the rights of Buyer to any other or further action in any circumstances without notice or demand.

14.5 **Assignment**. The Principal Agreements may not be assigned by any Guild Party. The Principal Agreements, along with Buyer's right, title and interest, including its security interest, in any or all of the Purchased Assets and other Purchased Items and Underlying Asset Collateral, may, at any time, be transferred or assigned, in whole or in part, by Buyer, and upon providing notice to Guild Parties of such transfer or assignment, any transferee or assignee thereof may enforce the Principal Agreements and such security interest directly against Guild Parties.

14.6 **Successors and Assigns**. The terms and provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns.

14.7 **Participations**. Buyer may from time to time sell or otherwise grant participations in this Agreement, and the holder of any such participation, if the participation agreement so provides, (i) shall, with respect to its participation, be entitled to all of the rights of Buyer and (ii) may exercise any and all rights of set-off or banker's lien with respect thereto, in each case as fully as though Guild Parties were directly obligated to the holder of such participation in the amount of such participation; provided, however, that Guild Parties shall not be required to send or deliver to any of the participants other than Buyer any of the materials or notices required to be sent or delivered by it under the terms of this Agreement, nor shall it have to act except in compliance with the instructions of Buyer.

14.8 **Invalidity**. In case any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provisions hereof, and this Agreement shall be construed as if such invalid, illegal or unenforceable provision had not been included.

14.9 **Additional Instruments**. Guild Parties shall execute and deliver such further instruments and shall do and perform all matters and things necessary or expedient to be done or observed for the

purpose of effectively creating, maintaining and preserving the security and benefits intended to be afforded by this Agreement.

14.10 **Survival**. All representations, warranties, covenants and agreements herein contained on the part of Guild Parties shall survive any Transaction and shall be effective so long as this Agreement is in effect or there remains any obligation of Guild Parties hereunder to be performed.

14.11 **Notices**.

(a) All notices, demands, consents, requests and other communications required or permitted to be given or made hereunder in writing shall be mailed (first class, return receipt requested and postage prepaid) or delivered in person or by overnight delivery service or by facsimile, addressed to the respective parties hereto at their respective addresses set forth below or, as to any such party, at such other address as may be designated by it in a notice to the other:

14.14 **Waiver of Jury Trial**. Each of Guild Parties and Buyer hereby irrevocably waives, to the fullest extent permitted by applicable law, any and all right to trial by jury in any legal proceeding arising out of or relating to this Agreement, any other Principal Agreement or the transactions contemplated hereby or thereby.

14.15 **Counterparts**. This Agreement and any document, amendment, approval, consent, information, notice, certificate, request, statement, disclosure or authorization related to this Agreement (each a "**Communication**") may be in the form of an Electronic Record and may be executed using Electronic Signatures (including, without limitation, facsimile and .pdf) and shall be considered an original, and shall have the same legal effect, validity and enforceability as a paper record.

This Agreement may be executed simultaneously in as many counterparts as necessary or convenient, including both paper and electronic counterparts, but each counterpart shall be deemed to be an original and all such counterparts shall constitute one and the same agreement. For the avoidance of doubt, the authorization under this paragraph may include, without limitation, use or acceptance by Buyer of a manually signed paper Communication which has been converted into electronic form (such as scanned into PDF format), or an electronically signed Communication converted into another format, for transmission, delivery and/or retention. To the extent there is more than one Person which is named as a Seller under this Agreement, each such Person shall be jointly and severally liable for the rights, covenants, obligations and warranties and representations of "Seller" as contained herein and the actions of any Person (including another Seller) or third party shall in no way affect such joint and several liability. Each such Seller acknowledges and agrees that (a) a Potential Default or an Event of Default is hereby considered a Potential Default or an Event of Default by each Seller, and (b) the Buyer shall have no obligation to proceed against one Seller before proceeding against the other Seller. Each such Seller hereby waives any defense to its obligations under this Agreement or any other Principal Agreement based upon or arising out of the disability or other defense or cessation of liability of one Seller versus the other. A Seller's subrogation claim arising from payments to Buyer shall constitute a capital investment in another Seller (1) subordinated to any claims of Buyer, and (2) equal to a ratable share of the equity interests in such Seller.

14.18 **Confidential Information**. To effectuate this Agreement, Buyer and Guild Parties may disclose to each other certain confidential information relating to the parties' operations, computer systems, technical data, business methods, and other information designated by the disclosing party or its agent to be confidential, or that should be considered confidential in nature by a reasonable person given the nature of the information and the circumstances of its disclosure (collectively the "**Confidential Information**"). Confidential Information can consist of information that is either oral or written or both, and may include, without limitation, any of the following: (i) any reports, information or material concerning or pertaining to businesses, methods, plans, finances, accounting statements, and/or projects of either party or their affiliated or related entities; (ii) any of the foregoing related to the parties or their related or affiliated entities and/or their present or future activities and/or (iii) any term or condition of any agreement (including this Agreement) between either party and any individual or entity relating to any of their business operations. If any party or any of its successors, Subsidiaries, officers, directors, employees, agents and/or representatives, including, without limitation, its insurers, sureties and/or attorneys, breaches its respective duty of confidentiality under this Agreement, the nonbreaching party(ies) shall be entitled to all remedies available at law and/or in equity, including, without limitation, injunctive relief.

14.19 **Intent**. Guild Parties and Buyer recognize and intend that:

In the event of any inconsistencies between this Agreement and the terms of the Protocol, the Bilateral Agreement or the Bilateral Terms (each, the "**QFC Stay Terms**"), as applicable, the QFC Stay Terms will govern. Terms used in this paragraph without definition shall have the meanings assigned to them under the QFC Stay Rules. For purposes of this paragraph, references to "this Agreement" include any related credit enhancements entered into between the parties or provided by one to the other. In addition, the parties agree that the terms of this paragraph shall be incorporated into any related covered affiliate credit enhancements, with all references to Buyer replaced by references to the covered affiliate support provider.

Accordingly, all of the agreements and obligations incurred pursuant to the terms of the Original Agreement are hereby ratified and affirmed by the parties hereto and remain in full force and effect. For the avoidance of doubt, it is the intent of Buyer and Guarantor that the security interests and liens granted in the Purchased Assets pursuant to Section 6.1 of the Original Agreement shall continue in full force and effect. All references to the Original Agreement in any Principal Agreement or other document or instrument delivered in connection therewith shall be deemed to refer to this Agreement and the provisions hereof. As between Buyer and Guild Parties, notwithstanding that one or more Principal Agreements may refer to the Guarantor as the seller thereunder, such reference shall not impact the validity or enforceability of such Principal Agreement in any respect, and to the extent necessary in the context thereof, such reference shall be deemed to refer to the applicable Guild Party hereunder.

(b) Sales of Purchased Assets to Approved Investors . The Custodian may ship Purchased Asset Files to an Approved Investor (or its trustee or documents custodian, which may be the Custodian) under cover of a suitable bailee letter (or, if the Custodian is also documents custodian for the Approved Investor, such custodian shall deliver a suitable bailee letter to the Agent) prior to the related Assets' repurchase by Seller and purchase by such Approved Investor. The proceeds of the sale or other disposition of Purchased Assets must be paid directly by the Approved Investor to the Settlement Account, or only if the affected Purchased Assets are being securitized, paid to a third party disbursement agent who is obligated pursuant to written agreement to receive and disburse to the Agent (for the benefit of Buyers) the cash amount (which shall be equal to the Repurchase Price for such Purchased Assets) specified in a conditional (as hereinafter provided) release and relinquishment agreement executed by the Agent that conditions such release and relinquishment of the Agent's interests in such Purchased Assets on payment of such specified amount to the Agent (for the benefit of Buyers.) Seller must give notice to Agent in an electronic format acceptable to Agent of the Purchased Assets for which proceeds have been received from either the purchasing Approved Investor or such third party disbursement agent (to enable Seller to reconcile payments received with Purchased Assets sold.) Upon receipt of Seller's Notice, Agent will apply any proceeds deposited into the Settlement Account to the Repurchase Price of the Purchased Assets identified by Seller in its Notice, and those Purchased Assets will be deemed and considered to have been repurchased by such Seller immediately prior to such purchase by the Approved Investor. The Agent and the Buyers are entitled to rely upon Seller's affirmation that deposits in the Settlement Account represent payments from Approved Investors (whether paid directly or by a third party disbursement agent) for the purchase of the Purchased Assets specified by Seller in its Notice. If the payment from an Approved Investor or disbursing agent for the purchase of Purchased Assets is less than the Repurchase Price for the Purchased Assets identified by Seller in its Notice, Seller must pay to Agent, and Seller authorizes Agent to charge the Operating Account for, an amount equal to that deficiency. Overdraft Funds advanced by BNY Mellon on any Business Day for Purchased Assets shall be repaid by Sellers the same Business Day from the funding of a Swing Line Transaction or regular Transaction for such Purchased Assets as provided in

Sections 3.2 and 3.3, respectively, of the Administration Agreement. Provided that no Default or Event of Default exists, Agent will pay over to Seller by depositing into the Operating Account the excess amount (if any) paid by an Approved Investor (either directly or through such a third party disbursement agent) for Purchased Assets over the sum of the Repurchase Price for those Assets, provided that any Overdraft Funds which have not been repaid as aforesaid shall first be repaid from such excess by the Agent's crediting the applicable account of BNY Mellon and thereafter such excess net of such payment shall be deposited into the Operating Account. To the extent that any Overdraft Funds are not so repaid, following an Event of Default, then such Overdraft Funds shall be repaid pursuant to Section 15(a). In the event that a repurchase described in this Section occurs on a date other than a Payment Date, the Agent may elect to defer Seller's payment of the accrued Price Differential in respect of the Purchased Assets so repurchased until the next Payment Date.

(c) Redemptions. The Sellers may repurchase Purchased Assets without penalty or premium (whether for release and retransfer to Seller or for transfer to another one of Seller's warehousing or repurchase facilities permitted pursuant to this Repurchase Agreement), subject to the last sentence of this Section 4(c), on any date. The Repurchase Price payable for the repurchase of any such Purchased Asset shall be reduced as provided in Section 6(i). If the Sellers intend to make such a repurchase, then by 1:00 p.m. (New York City time) on the requested Repurchase Date (which must be a Business Day) Seller shall both (i) deliver to the Agent a Repurchase Request, substantially in the form of Exhibit G, and (ii) either (x) remit to the Agent in collected funds the Repurchase Price for the Purchased Asset(s) to be redeemed or (y) request shipment of Purchased Asset Files for such Purchased Assets to the other lender or repo counterparty and provide the contact information and address to which they are to be shipped under cover of an appropriate bailee letter (or if the Custodian is also documents custodian for such other lender or repo counterparty, have such custodian deliver to the Agent an appropriate bailee letter in form and substance acceptable to the Agent.) The amounts set forth on the Repurchase Request shall be applied to the Repurchase Price for the designated Purchased Assets. In the event that a repurchase described in this Section occurs on a date other than a Payment Date, the Agent may elect to defer Seller's payment of the accrued Price Differential in respect of the Purchased Assets so repurchased until the next Payment Date.

(d) All Repurchases. On the Repurchase Date, termination of the Transaction will be effected by reassignment to Seller or its designee of any Purchased Assets being redeemed against the simultaneous transfer of the Repurchase Price (other than accrued Price Differential if the Agent has elected to defer payment thereof to the next Payment Date) to an account of the Agent for the benefit of the Buyers. The Sellers are obligated to obtain the Purchased Asset Files from the Custodian at the Sellers' expense on the Repurchase Date.

(e) Delivery of Additional Mortgage Loans. From time to time the Sellers may deliver Eligible Assets to the Agent without entering into a new transaction, and such Eligible Assets shall be treated as Purchased Assets subject to the existing Transactions, as if delivered in the immediately preceding Transaction.

(f) Revaluation of Purchased Assets. Agent reserves the right, but shall have no obligation, to revalue any Purchased Asset to its market value, as determined by the Agent (in cooperation with the Custodian), based upon whole loan prices currently available, whereupon

the Asset Value of such Purchased Asset shall be the lesser of (x) its Asset Value as determined in accordance with the definition of that term, without regard to the provisions of this Section 4(f), and (y) the applicable Purchase Price Percentage times such market value. If any such revaluation results in a Margin Deficit, Seller shall pay it in accordance with the requirements of Section 5(a).

(g) Increase in Maximum Purchase Price. By written notice to the Agent before the Termination Date, the Sellers may request an increase to the existing Maximum Purchase Price to an amount up to [***]. No such request shall be made following the occurrence and during the continuance of a Default or Event of Default. The Agent's obligations with respect to such notice and the participation by one or more Buyers, at their option, in such increase will be governed by the terms of the Administration Agreement.

Section 5. Margin Amount Maintenance.

(a) If at any time the aggregate Asset Value of all Purchased Assets subject to all outstanding Transactions is less than the aggregate Repurchase Price for all such Transactions (a "Margin Deficit"), then the Agent shall by notice to the Sellers (as such notice is more particularly set forth below, a "Mark-to-Market"), require the Sellers to transfer to the Custodian or other designee of the Agent, for the benefit of Buyers, cash or Eligible Assets approved by the Agent in its sole discretion (" Additional Purchased Assets") so that the aggregate Asset Value of the Purchased Assets, including any such Additional Purchased Assets or cash, will thereupon equal or exceed the aggregate Repurchase Price for all Transactions. For purposes of the calculation of the Mark-to-Market, the Agent will exclude accrued and unpaid Price Differential that is otherwise included in the aggregate Repurchase Price (which, if so excluded, will be due on the next Payment Date). If the Agent delivers a Mark-to-Market to Seller at or before 4:00 p.m. (New York City time) on any Business Day, then the Sellers shall transfer cash or Additional Purchased Assets to the Custodian or other designee of the Agent, for the benefit of Buyers, on the next Business Day after the Business Day on which a Mark-to-Market is delivered to the Sellers. If the Agent delivers a Mark-to-Market to Seller after 4:00 p.m. (New York City time) on any Business Day, the Sellers shall be required to transfer cash or Additional Purchased Assets on the second Business Day thereafter.

(b) The Agent's election, in its sole and absolute discretion, not to make a Mark-to-Market at any time there is a Margin Deficit shall not in any way limit or impair its right to make a Mark-to-Market at any time a Margin Deficit exists.

(c) Any cash transferred to the Agent pursuant to Section 5(a) above shall be credited to the Repurchase Price of the related Transactions.

(d) On any day, the aggregate amount of Transactions outstanding under the Repurchase Agreement shall in no event exceed the Maximum Purchase Price. If notice is given at or before 10:00 a.m. (New York City time), then by 2:00 p.m. on that same Business Day (or if notice is given after 10:00 a.m., then by 2:00 p.m. on the next Business Day) the Sellers shall repurchase enough Purchased Assets that the Repurchase Price equals or is less than the Maximum Purchase Price.

(e) On any day on which the aggregate Asset Value of the Purchased Assets subject to Transactions exceeds the then outstanding aggregate Repurchase Price of all Transactions (a "Margin Excess"), provided that no Default or Event of Default has occurred and is continuing or would exist after such action by the Agent, the Agent, upon receipt of written request from Seller, shall remit cash or release Purchased Assets to Seller, as requested by the Sellers, in either case in an amount equal to the lesser of (i) the amount requested by the Sellers and (ii) such Margin Excess. To the extent that the Agent remits cash to the Sellers, such cash shall be additional Purchase Price with respect to the Transactions (but any such additional Purchase Price paid pursuant to this Section 5(e) shall not be included in the Repurchase Price for any Purchased Assets and no Price Differential shall accrue on any such additional Purchase Price paid pursuant to this Section 5(e)). Any request received by the Agent after 11:30 a.m. (New York City time) shall be remitted by the Agent on the next Business Day.

(f) The Agent shall not be obligated to remit an amount or release Purchased Assets requested pursuant to a request for Margin Excess which (i) Agent determines is based on erroneous information or would result in a Transaction other than in accordance with the terms of this Repurchase Agreement; (ii) does not reflect the current determination of Asset Value as provided in the definition thereof; (iii) exceeds the Available Purchase Price or (iv) would result in any Buyer's Available Commitment being exceeded.

Section 6. Periodic Advance Repurchase Payments: Income.

(a) Notwithstanding that the Agent, the Buyers and the Sellers intend that the Transactions hereunder be sales to the Agent for the benefit of the Buyers of the Purchased Assets, the Sellers shall pay to the Agent for the benefit of the Buyers on each Payment Date (i) the accrued and unpaid Price Differential and (ii) the amount of any unpaid Margin Deficit (each such payment of Margin Deficit, a "Periodic Advance Repurchase Payment"). Notwithstanding the preceding sentence, if the Sellers fail to pay all or part of any Periodic Advance Repurchase Payment due by 1:00 p.m. (New York City time on any Payment Date or the date that is two (2) Business Days after the Sellers' receipt of notice from the Agent that such Periodic Advance Repurchase Payment has become due, whichever is earlier, the Pricing Rate shall be equal to the Post-default Rate until the Periodic Advance Repurchase Payment is received in full by the Agent (any such amounts in excess of the standard Price Differential, the "Late Payment Fee"). Any payment received after 1:00 p.m. (New York City time shall be deemed to have been received by the Agent on the next Business Day.

(b) The Pricing Rate applicable to the Purchase Price for one or more Transactions or portions thereof may be initially set forth in a Transaction Request. Any ABR Transaction, Eurodollar Transaction or LlBOR Transaction shall continue as an ABR Transaction, Eurodollar Transaction or LIBOR Transaction, respectively, until (i) with respect to Eurodollar Transactions the Interest Period with respect thereto ends, and (ii) with respect to an ABR Transaction or LIBOR Transaction, the Agent receives a Pricing Designation notifying the Agent of a change in the applicable Pricing Rate. At the end of an Interest Period with respect to any Eurodollar Transaction, such Eurodollar Transaction shall be automatically converted into an ABR Transaction unless a Seller shall have given the Agent a new Pricing Designation establishing a new Pricing Rate with respect to the Purchase Price amounts previously subject to such Eurodollar Transaction. A Seller must give the Agent a Pricing Designation not later than

(i) 11:00 a.m. on the date that a Pricing Designation is to take effect in the case of a requested ABR Transactions or LIBOR Transactions, and (ii) 11:00 a.m. at least three Business Days prior to the date that a Pricing Designation is to take effect in the case of a requested Eurodollar Transaction. Each Pricing Designation shall be irrevocable.

(c) Notwithstanding the provisions of Section 6(b), a Seller and any individual Buyer (a " Buy-Down Buyer") may notify the Agent in writing that such Seller and such Buy-Down Buyer have entered into a Buy-Down Agreement with respect to all (or any part of, as designated in such notice) LIBOR Transactions from time to time outstanding and held by such Buy-Down Buyer, and, that, pursuant to said Buy-Down Agreement, the Pricing Rate applicable to such LIBOR Transactions during any calculation period shall be the Buy-Down Rate (or such other rate as the Buy-Down Buyer and the Sellers may agree to under the Buy-Down Agreement) and shall be based on the assumption that such Seller shall maintain sufficient Available Deposits with such Buy-Down Buyer. The Agent shall (until otherwise notified by such Seller and such Buy-Down Buyer to the contrary) compute each Pricing Differential payable pursuant to Section 6(a) consistently with the provisions of this Section 6(c). The Agent shall have no obligation to verify the amount of any Available Deposits supporting such pricing. Such Seller shall pay all deficiency fees or other amounts payable under its Buy-Down Agreement with each Buy-Down Buyer directly to such Buy-Down Buyer within [***] calendar days of receipt of a billing statement from such Buy-Down Buyer and all such amounts shall be deemed to be Obligations hereunder.

(d) Before the occurrence of any Event of Default, the Sellers (or their Servicer) shall collect all Income and properly allocate all such Income from the Purchased Assets to the Purchased Assets in its consolidated books and records.

(e) After the occurrence of an Event of Default, the Sellers shall hold all Income then in its hands or in the hands of any Servicer, and all Income thereafter received by either, in trust for the Agent (for the benefit of Buyers), all such Income shall constitute the property of the Agent (for the benefit of Buyers) and shall not be commingled with other property of the Sellers or any Affiliate of any Seller, and the Sellers shall transfer all such Income from Sellers' master clearing account to the Collection Account with the Agent within [***] Business Days after receipt. Funds deposited in the Collection Account during any month shall be held therein, in trust for the Agent for the benefit of the Buyers, until the next Payment Date.

(f) With respect to each Payment Date on or after the occurrence of an Event of Default, funds on deposit in the Collection Account shall be applied as follows:

(i) first, to the payment of all costs and fees (including Late Payment Fees) payable by the Sellers pursuant to this Repurchase Agreement;

(ii) second, to the Agent for the benefit of Buyers in payment of any accrued and unpaid Price Differential;

(iii) third, without limiting the rights of the Agent under Section 5, to the Agent for the benefit of the Buyers, in the amount of any unpaid Margin Deficit; and

(iv) the balance shall be retained in the Collection Account and applied as provided above on the next Payment Date unless the Agent has declared in writing that any and all Events of Default have been cured or waived, in which case the balance shall be paid to Sellers.

(g) If and to the extent any payment is not made when due under this Repurchase Agreement or any of the other Repurchase Documents, the Sellers authorize the Agent for the benefit of the Buyers to charge any amounts so due and unpaid against any or all of the Sellers' accounts with the Agent or any Buyer; provided that such right to charge the Sellers' accounts shall not apply to (i) any deposit of escrow monies being held on behalf of the mortgagors under Purchased Assets or on behalf of other third Persons that are not Affiliates of Seller, (ii) securities issued by any Seller or any Affiliate of a Seller for which the Agent or such Buyer is acting as underwriter or placement agent, (iii) investment assets that are held by the Agent or such Buyer acting as securities intermediary for a Seller but that are not Purchased Assets or (iv) any assets of a special purpose entity formed by a Seller to hold real estate or to issue asset-backed securities and that are held in an account designated in writing as such when the account was established. The Agent agrees to use reasonable efforts to promptly advise the Sellers of any charge made pursuant to this Section 6(g), but its failure to do so will not affect the validity or collectability of such charge.

(h) Any funds from an Approved Investor's purchase of a Purchased Asset shall be sent to the Settlement Account and the Agent shall promptly (i) apply any funds to that Purchased Asset's Repurchase Price and, unless a Default or an Event of Default shall have occurred and be continuing, (ii) transfer any funds in excess of such Repurchase Price to the Operating Account.

(i) The Agent shall offset against the Repurchase Price of each such Transaction all Income (if any) and Periodic Advance Repurchase Payments (if any) actually received by the Agent pursuant to Section 6(a), excluding any Late Payment Fees paid pursuant to Section 6(a).

Section 7. Requirements of Law; Indemnification.

(a) If any Requirement of Law (other than with respect to that Buyer, any amendment made to the Buyer's certificate of incorporation and by-laws or other organizational or governing documents) or any change in the interpretation or application thereof or compliance by any Buyer with any request or directive (whether or not having the force of law) from any central bank or other Governmental Authority made subsequent to the date hereof:

(i) shall subject the Buyer to any Tax or increased Tax of any kind whatsoever with respect to this Repurchase Agreement or any Transaction or change the basis of taxation of payments to the Buyer in respect thereof;

(ii) shall impose, modify or hold applicable any reserve, special deposit, compulsory loan or similar requirement against assets held by, deposits or other liabilities in or for the account of, advances, or other extensions of credit by, or any other acquisition of funds by, any office of the Buyer which is not otherwise included in the determination of LIBOR or Eurodollar Rate herein; or

(iii) shall impose on the Buyer any other condition;

and the result of any of the foregoing is to increase the cost to the Buyer, by an amount which the Buyer reasonably deems to be material, of entering, continuing or maintaining any Transaction or to reduce any amount due or owing hereunder in respect thereof, then, in any such case, the Sellers shall promptly pay the Buyer such additional amount or amounts as calculated by the Buyer in good faith as will compensate the Buyer for such increased cost or reduced amount receivable equal to such increased costs or additional amounts reasonably determined by the Buyer. Notwithstanding anything herein to the contrary, (i) the Dodd-Frank Wall Street Reform and Consumer Protection Act and all requests, rules, guidelines or directives thereunder, issued in connection therewith or in implementation thereof, and (ii) all requests, rules, guidelines and directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or United States or foreign regulatory authorities, shall in each case be deemed to be a basis for compensation under this Section 7(a), regardless of the date enacted, adopted, issued or implemented.

(b) If any Buyer shall have determined that the adoption of or any change in any Requirement of Law (other than with respect to that Buyer, any amendment made to the Buyer's certificate of incorporation and by-laws or other organizational or governing documents) regarding capital adequacy or in the interpretation or application thereof or compliance by the Buyer or any corporation controlling the Buyer with any request or directive regarding capital adequacy (whether or not having the force of law) from any Governmental Authority made subsequent to the date hereof shall have the effect of reducing the rate of return on the Buyer's or such corporation's capital as a consequence of its obligations hereunder to a level below that which the Buyer or such corporation could have achieved but for such adoption, change or compliance (taking into consideration the Buyer's or such corporation's policies with respect to capital adequacy) by an amount deemed by the Buyer to be material, then from time to time, the Sellers shall promptly pay to the Buyer such additional amount or amounts as will compensate the Buyer for such reduction. Notwithstanding anything herein to the contrary, (i) the Dodd-Frank Wall Street Reform and Consumer Protection Act and all requests, rules, guidelines or directives thereunder, issued in connection therewith or in implementation thereof, and (ii) all requests, rules, guidelines and directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or United States or foreign regulatory authorities, shall in each case be deemed to be a basis for compensation under this Section 7(b), regardless of the date enacted, adopted, issued or implemented.

(c) Notwithstanding anything contained herein to the contrary, if a Eurodollar Transaction shall be terminated for any reason prior to the last day of the Interest Period applicable thereto, or if any repurchase of a Eurodollar Transaction is made by the Sellers for any reason on a date which is prior to the last day of the Interest Period applicable thereto, the

Sellers agree to indemnify the Agent and the Buyers against, and to pay on demand directly to the Agent and the Buyers the amount (as reasonably determined by the Agent or Buyers requiring indemnification) equal to any loss or out-of-pocket expense suffered by the Agent or Buyers as a result of such failure to borrow or convert, or such termination, repayment or prepayment, including any loss, cost or expense suffered by the Agent or Buyers in liquidating or employing deposits acquired to fund or maintain the funding of such Eurodollar Transaction, or redeploying funds prepaid or repaid, in amounts which correspond to such Eurodollar Transaction, and any internal processing charge customarily charged by the Agent or Buyers in connection therewith. A statement setting forth the calculations of any additional amounts payable pursuant to this Section submitted by the Agent or Buyers requiring indemnification to the Sellers shall be conclusive absent manifest error.

(d) If any Buyer becomes entitled to claim any additional amounts pursuant to this Section, the Agent shall notify the Sellers of the event by reason of which it has become so entitled. A certificate as to any additional amounts payable pursuant to this Section submitted by such Buyer shall be conclusive in the absence of manifest error and the Sellers agree to pay the Buyer the amount shown as due on any such certificate within [***] after the receipt by the Sellers of such certificate.

(e) The Sellers may elect to reduce the Maximum Purchase Price or terminate this Repurchase Agreement by giving an irrevocable written notice to the Agent specifying as the date of reduction or termination date a date no earlier than [***] and no later than [***] after the date of the notice, and on the date so specified, provided that (i) in the case of a reduction of the Maximum Purchase Price, the amount of Obligations that exceed aggregate Asset Value of the Purchased Assets shall be paid to the Agent in full (together with all accrued and unpaid Pricing Differential thereon) in immediately available funds, and (ii) in the case of a termination of this Repurchase Agreement, the Obligations (including all accrued and unpaid Pricing Differential and the Facility Fee accrued through such termination date) shall be paid to the Agent in full in immediately available funds, in which event this Repurchase Agreement shall terminate and the Facility Fee shall cease to accrue after the specified termination date, although all accrued and unpaid Facility Fee through the specified termination date shall be earned and shall be due and payable on such termination date and no refund of the Facility Fee shall be required.

Section 8. Taxes.

(a) Any and all payments by the Sellers under or in respect of this Repurchase Agreement or any other Repurchase Documents to which a Seller is a party shall be made free and clear of, and without deduction or withholding for or on account of, any and all present or future taxes, levies, imposts, deductions, charges or withholdings, and all liabilities (including penalties, interest and additions to tax) with respect thereto, whether now or hereafter imposed, levied, collected, withheld or assessed by any taxation authority or other Governmental Authority (collectively, "Taxes"), unless required by law. If a Seller shall be required under any applicable Requirement of Law to deduct or withhold any Taxes from or in respect of any sum payable under or in respect of this Repurchase Agreement or any of the other Repurchase Documents to any Buyer, (i) such Seller shall make all such deductions and withholdings in respect of Taxes, (ii) such Seller shall pay the full amount deducted or withheld in respect of

Taxes to the relevant taxation authority or other Governmental Authority in accordance with any applicable Requirement of Law, and (iii) the sum payable by such Seller shall be increased as may be necessary so that after Sellers have made all required deductions and withholdings (including deductions and withholdings applicable to additional amounts payable under this Section 8) such Buyer receives an amount equal to the sum it would have received had no such deductions or withholdings been made in respect of Non-excluded Taxes. For purposes of this Repurchase Agreement the term "Non-excluded Taxes" are Taxes other than, in the case of a Buyer, (i) Taxes that are imposed on its overall net income (and franchise taxes imposed in lieu thereof) by the jurisdiction under the laws of which such Buyer is organized or of its applicable lending office, or any political subdivision thereof, unless such Taxes are imposed as a result of such Buyer having executed, delivered or performed its obligations or received payments under, or enforced, this Repurchase Agreement or any of the other Repurchase Documents (in which case such Taxes will be treated as Non-excluded Taxes), and (ii) any U.S. Federal withholding Taxes imposed under FATCA.

(b) In addition, Sellers hereby agree to pay any present or future stamp, recording, documentary, excise, property or value-added taxes, or similar taxes, charges or levies that arise from any payment made under or in respect of this Repurchase Agreement or any other Repurchase Document or from the execution, delivery or registration of, any performance under, or otherwise with respect to, this Repurchase Agreement or any other Repurchase Document (collectively, "Other Taxes").

(c) The Sellers, jointly and severally, will indemnify such Buyer for, and hold it harmless against, the full amount of Non-excluded Taxes and Other Taxes, and the full amount of Taxes of any kind imposed by any jurisdiction on amounts payable under this Section 8 imposed on or paid by such Buyer and any liability (including penalties, additions to tax, interest and expenses) arising therefrom or with respect thereto. The indemnity by the Sellers provided for in this Section 8 shall apply and be made whether or not the Non-excluded Taxes or Other Taxes for which indemnification hereunder is sought have been correctly or legally asserted (but the Sellers reserve the right to make a claim against such Buyer in the event they determines that the amount of such indemnity is incorrect). Amounts payable by the Sellers under the indemnity set forth in this Section 8 shall be paid within [***] from the date on which such Buyer makes written demand therefor.

(d) Within thirty (30) days after the date of any payment of Taxes, the Sellers (or any Person making such payment on behalf of Sellers) shall furnish to the Agent (for such Buyer) a certified copy of the original official receipt evidencing payment thereof or give a written notice to the Agent stating the date and amount of Taxes paid, to whom paid and that Seller (or such Person making such payment on behalf of Sellers) has not received any official receipt therefor.

(e) For purposes of Section 8(e), the terms "United States" and "United States person" shall have the meanings specified in Section 7701 of the Internal Revenue Code. Each Buyer (including for avoidance of doubt any assignee, successor or participant) that either (i) is not incorporated under the laws of the United States, any State thereof, or the District of Columbia or (ii) whose name does not include "Incorporated," "Inc.," "Corporation," "Corp.," "P.C.," "insurance company," or "assurance company" (a "Nonexempt Buyer") shall deliver or

cause to be delivered to the Sellers the following properly completed and duly executed documents:

(i) in the case of a Nonexempt Buyer that is not a United States person, a complete and executed (x) U.S. Internal Revenue Form W-8BEN with Part II completed in which such Buyer claims the benefits of a tax treaty with the United States providing for a zero or reduced rate of withholding (or any successor forms thereto), including all appropriate attachments or (y) a U.S. Internal Revenue Service forms W-8ECI (or any successor forms thereto); or

(ii) in the case of an individual, (x) a complete and executed U.S. Internal Revenue Service Form W-8BEN (or any successor forms thereto) or (y) a complete and executed U.S. Internal Revenue Service Form W-9 (or any successor forms thereto) (each a "Tax Treatment Certificate"); or

(iii) in the case of a Nonexempt Buyer that is organized under the laws of the United States, any State thereof, or the District of Columbia, a complete and executed U.S. Internal Revenue Service Form W-9 (or any successor forms thereto), including all appropriate attachments; or

(iv) in the case of a Nonexempt Buyer that (x) is not organized under the laws of the United States, any State thereof, or the District of Columbia and (y) is treated as a corporation for U.S. federal income tax purposes, a complete and executed U.S. Internal Revenue Service Form W-8BEN claiming a zero rate of withholding (or any successor forms thereto) and a Tax Treatment Certificate; or

(v) in the case of a Nonexempt Buyer that (A) is treated as a partnership or other non-corporate entity, and (B) is not organized under the laws of the United States, any State thereof, or the District of Columbia, (x)(i) a complete and executed U.S. Internal Revenue Service Form W-8IMY (or any successor forms thereto) (including all required documents and attachments) and (ii) a Tax Treatment Certificate, and (y) without duplication, with respect to each of its beneficial owners and the beneficial owners of such beneficial owners looking through chains of owners to individuals or entities that are treated as corporations for U.S. federal income tax purposes (all such owners, "beneficial owners"), the documents that would be required by clause (i), (ii), (iii), (iv), (vi), (vii) and/or this clause (v) of this Section 8(e) with respect to each such beneficial owner if such beneficial owner were such Buyer, provided, however, that no such documents will be required with respect to a beneficial owner to the extent the actual Buyer is determined to be in compliance with the requirements for certification on behalf of its beneficial owner as may be provided in applicable U.S. Treasury regulations, or the requirements of this clause (v) are otherwise determined to be unnecessary, all such determinations under this clause (v) to be made in the sole discretion of the Sellers, provided, however, that such Buyer shall be provided an opportunity to establish such compliance as reasonable; or

(vi) in the case of a Nonexempt Buyer that is disregarded for U.S. federal income tax purposes, the document that would be required by clause (i), (ii), (iii), (iv), (v), (vii) and/or this clause (vi) of this Section 8(e) with respect to its beneficial owner if such beneficial owner were such Buyer; or

(vii) in the case of a Nonexempt Buyer that (A) is not a United States person and (B) is acting in the capacity as an "intermediary" (as defined in U.S. Treasury Regulations), (x)(i) a U.S. Internal Revenue Service Form W-8IMY (or any successor form thereto) (including all required documents and attachments) and (ii) a Tax Treatment Certificate, and (y) if the intermediary is a "non-qualified intermediary" (as defined in U.S. Treasury Regulations), from each person upon whose behalf the "non-qualified intermediary" is acting the documents that would be required by clause (i), (ii), (iii), (iv), (v), (vi), and/or this clause (vii) of this Section 8(e) with respect to each such person if each such person were such Buyer.

If the forms referred to above in this Section 8(e) that are provided by a Buyer at the time it first becomes a party as a Buyer to this Repurchase Agreement or, with respect to a grant of a participation, the effective date thereof, indicate a United States interest withholding tax rate in excess of zero, withholding tax at such rate shall be treated as Taxes other than "Non-excluded Taxes" ("Excluded Taxes") and shall not qualify as Non-excluded Taxes unless and until such Buyer provides the appropriate form certifying that a lesser rate applies, whereupon withholding tax at such lesser rate shall be considered Excluded Taxes solely for the periods governed by such form. If, however, on the date a Person becomes an assignee, successor or participant to this Repurchase Agreement, the Buyer transferor was entitled to indemnification or additional amounts under this Section 8, then the Buyer assignee, successor or participant shall be entitled to indemnification or additional amounts to the extent (and only to the extent), that the Buyer transferor was entitled to such indemnification or additional amounts for Non-excluded Taxes, and the Buyer assignee, successor or participant shall be entitled to additional indemnification or additional amounts for any other or additional Non-excluded Taxes.

(f) For any period with respect to which a Buyer has failed to provide the Sellers with the appropriate form, certificate or other document described in Section 8(e) (other than (i) if such failure is due to a change in any applicable Requirement of Law, or in the interpretation or application thereof, occurring after the date on which a form, certificate or other document originally was required to be provided, (ii) if such form, certificate or other document otherwise is not required under Section 8(e), or (iii) if it is legally inadvisable or otherwise commercially disadvantageous for such Buyer to deliver such form, certificate or other document), such Buyer shall not be entitled to indemnification or additional amounts under Section 8(a) or Section 8(c) with respect to Non-excluded Taxes imposed by the United States by reason of such failure; provided, however, that should a Buyer become subject to Non-excluded Taxes because of its failure to deliver a form, certificate or other document required hereunder, the Sellers shall take such steps as such Buyer shall reasonably request, to assist such Buyer in recovering such Non-excluded Taxes.

(g) Without prejudice to the survival of any other agreement of the Sellers hereunder, the agreements and obligations of the Sellers contained in this Section 8 shall survive

the termination of this Repurchase Agreement. Nothing contained in this Section 8 shall require any Buyer to make available any of its tax returns or any other information that it deems to be confidential or proprietary.

Section 9. Security Interest.

ARTICLE 2.
THE CREDITS

Section 2.1 The Loan.

(a) The Loan. On the Effective Date, subject to the satisfaction of the conditions of Section 4.1, each Lender shall (i) buy and sell interests in the Outstanding Balance under the Prior Loan Agreement among themselves as determined by the Administrative Agent such that after giving effect thereto each Lender shall own its Commitment Percentage of the Outstanding Balance, and (ii) fund its Commitment Percentage of the Additional Advance. The Outstanding Balance, together with the Additional Advance, shall comprise the Initial Advance. The Initial Advance, any advances by the Lenders of the Committed Additional Availability and any advances under any Commitment Increase, are referred to herein, in the aggregate, as the "Loan."

(b) Initial Advance. By executing and delivering this Agreement, the Borrowers hereby request that on the Effective Date the Lenders fund the Additional Advance to the Administrative Agent and the Administrative Agent disburse the Additional Advance to the Borrowers, subject to the terms and conditions herein (including, without limitation, the Borrowers' satisfaction of the conditions of Section 4.1), and the Lenders severally agree to advance their respective Commitment Percentages of the Additional Advance for the account of the Borrowers in accordance with this Agreement. The Additional Advance shall initially be made as an Alternate

Base Rate Advance unless by 11:00 A.M. three Business Days prior to the date for Initial Advance the Borrowers shall have notified the Administrative Agent that such advance shall be made as one or more Eurodollar Advances, specifying the portion thereof to constitute such Eurodollar Advance(s). All Advances comprising the Outstanding Balance that are of a particular Type under and as defined in the Prior Loan Agreement shall continue as the same Type under this Agreement and, in the case of Eurodollar Advances, for the remainder of the Interest Period applicable thereto.

(c) Advances of the Committed Additional Availability. From time to time during the Committed Additional Availability Period, subject to the terms and conditions herein (including, without limitation, the conditions of Section 4.2, the Lenders severally agree to advance their respective Commitment Percentages of the Committed Additional Availability. Advances of the Committed Additional Availability shall be requested by the Borrowers and funded by the Lenders and disbursed by the Administrative Agent pursuant to Section 2.1(h).

(d) Advances under any Commitment Increase. During the Commitment Increase Period, any Commitment Increase shall be requested by the Borrowers pursuant to the provisions of Section 2.11. Subject to the satisfaction of the conditions of Section 2.11 for any such requested Commitment Increase, the Increased Commitment Lenders who have committed to such Commitment Increase shall fund their respective committed shares of such Commitment Increase to the Administrative Agent, and the Administrative Agent shall disburse the same to the Borrowers, in accordance with Section 2.11.

(e) Limitations. Notwithstanding the provisions of Sections 2.1(b), (c) and (d): (i) no Lender shall be obligated to advance more than its Commitment Percentage of the Loan, and (ii) at no time shall (a) the aggregate outstanding principal amount of such Lender's loans exceed such Lender's Commitment Amount, or (b) the aggregate outstanding principal amount of the Loan (after giving effect to any advance of the Committed Additional Availability or any Commitment Increase) exceed the lesser of (x) the Borrowing Base or (y) the Aggregate Commitment at such time.

(f) Prepayments. Any prepayment of the Loan in whole or in part shall not be re-advanced (meaning, for avoidance of doubt, that any prepayment of the Loan shall not increase or replenish the Committed Additional Availability).

(g) Types. Subject to the provisions of Section 2.3, the Loan and advances hereunder may be made and maintained as (x) Alternate Base Rate Advances, (y) Eurodollar Advances or (z) any combination thereof. Each Eurodollar Advance shall be in an aggregate principal amount equal to [***] or such amount plus a whole multiple of [***] in excess thereof.

(h) Procedure for Borrowing the Committed Additional Availability.

i . Time for Notice; Etc. During the Committed Additional Availability Period, the Borrowers may request advances from the Committed Additional Availability on any Business Day; provided, however, that the Borrowers shall deliver a Borrowing Notice to the Administrative Agent in the form of Exhibit E by 11:00 A.M., three Business Days prior to the requested date for such advance in the case of Eurodollar Advances, or 11:00 A.M., on such requested date, in the case of Alternate Base Rate Advances specifying (i) the aggregate principal amount of such advance, (ii) the requested date of such advance, and (iii) if such advance is to consist of one or more Eurodollar Advances, the portion thereof to constitute such Eurodollar Advance(s). Each such Borrowing Notice shall be irrevocable. Simultaneously with the delivery to the Administrative Agent of such Borrowing Notice, the Borrowers shall also deliver to the Administrative Agent a current Borrowing Base Report. By delivering a Borrowing Notice and Borrowing Base Report to the Administrative Agent, the Borrowers shall be deemed to have represented that the Borrowing Base set forth in such Borrowing Base Report is true and correct, and the Administrative Agent and each Lender shall be entitled to presume that the Borrowing Base is true and correct. Based solely on the Borrowing Base Report delivered in connection with a Borrowing Notice, and a review of its records regarding the total outstanding amount of the Loan and the unfunded Committed Additional Availability, the Administrative Agent shall confirm the amount of the requested advance.

i i . Disbursement of the Advance. Upon receipt of each of Borrowing Notice hereunder from the Borrowers, the Administrative Agent shall promptly notify each Lender of the aggregate amount of such advance. Each Lender will make the amount of its Commitment Percentage of each advance available to the Administrative Agent, for the account of the Borrowers at the office of the Administrative Agent designated by the Administrative Agent not later than 1:00 P.M., New York City time, on the requested date for such advance, in funds immediately available to the Administrative Agent at such office. The amounts so made available to the Administrative Agent will then, subject to the satisfaction of the terms and conditions of this Agreement, as determined by the Agent, be disbursed by the Administrative Agent on such date to the Borrowers.

iii. Administrative Agent's Assumptions. Unless the Administrative Agent shall have received notice, prior to 1:00 P.M. on the applicable date for such advance, from a Lender (by telephone or otherwise, such notice to be promptly confirmed by telecopy or other writing) that such Lender will not make available to the Administrative Agent an amount equal to such Lender's Commitment Percentage of the requested advance, the Administrative Agent may assume that such Lender has made such amount available to the Agent on the relevant advance date in accordance with this Section, and the Administrative Agent may, in reliance upon such assumption, make available to

the Borrowers on such date a corresponding amount. If and to the extent that the Administrative Agent shall have so made such amount available to the Borrowers, such Lender and the Borrowers severally agree to pay to the Administrative Agent forthwith on demand such corresponding amount (to the extent not previously paid by the other), together with interest thereon for each day from the date such amount is made available to the Borrowers until the date such amount is paid to the Administrative Agent, at a rate per annum equal to, in the case of the Borrower, the Alternate Base Rate, and, in the case of such Lender, the Federal Funds Effective Rate in effect on each such day (as determined by the Administrative Agent). Such payment by the Borrowers, however, shall be without prejudice to its rights against such Lender. If such Lender shall pay to the Administrative Agent such corresponding amount, such amount so paid shall constitute such Lender's advance as part of the Loan for purposes of this Agreement, which advance shall be deemed to have been made by such Lender on the applicable borrowing date for such advance.

Section 2.2 Fees.

The Borrowers shall pay the following fees (the "Fees"):

(a) Administrative Agent Fees. The fees payable to the Administrative Agent (including fees for the account of the Lenders) pursuant to the Borrowers' separate agreement with the Administrative Agent.

(b) Non-Usage Fee. The Borrowers agree to pay to the Administrative Agent, for the pro rata account of the Lenders in accordance with each such Lender's Commitment Percentage, a nonrefundable fee (the "Non-Usage Fee"), during the Committed Additional Availability Period, equal to [***] per annum of the average daily unadvanced amount of the Committed Additional Availability. The Non-Usage Fee shall be payable quarterly in arrears on the first day of each April, July and October, and the second day of each January commencing on the first such date following the Effective Date, and ending on the date that the Commitments shall expire or otherwise terminate. The Non-Usage Fee shall be calculated on the basis of a 360-day year for the actual number of days elapsed.

(c) Amendment Fees. The Borrowers agree to pay an amendment fee in connection with any amendment of this Agreement or the other Loan Documents requested by the Borrowers, the same to be negotiated at the time any such amendment is requested.

Section 2.3 Conversion and Continuation of Outstanding Advances.

An Alternate Base Rate Advance shall continue as an Alternate Base Rate Advance unless and until such Alternate Base Rate Advance is converted into a Eurodollar Advance in accordance with the terms hereof. Each Eurodollar Advance shall

continue as a Eurodollar Advance until the end of the then applicable Interest Period therefor, at which time such Eurodollar Advance shall be automatically converted into an Alternate Base Rate Advance unless the Borrowers shall have given the Administrative Agent a Conversion/Continuation Notice requesting that, at the end of such Interest Period, such Eurodollar Advance either continue as a Eurodollar Advance for the same or another Interest Period or be converted to an Alternate Base Rate Advance. The Borrowers may elect from time to time to convert all or any part of an Advance of any Type into any other Type or Types of Advances; provided that any conversion of any Eurodollar Advance shall be made on, and only on, the last day of the Interest Period applicable thereto and shall be in a minimum amount of [***] or such amount plus a whole multiple of [***]. The Borrowers shall give the Administrative Agent irrevocable notice (a "Conversion/Continuation Notice") of each conversion of an Alternate Base Rate Advance or conversion or continuation of a Eurodollar Advance not later than (i) 11:00 a.m. on the date of the requested conversion, in the case of a conversion into an Alternate Base Rate Advance or (ii) 11:00 a.m. at least three Business Days prior to the date of the requested conversion into or continuation of a Eurodollar Advance, specifying:

(i) the requested date which shall be a Business Day, of such conversion or continuation,

(ii) the aggregate amount (which must be an integral multiple of [***], and if a Eurodollar Advance, a minimum amount of [***]) and Type of the Advance which is to be converted or continued, and

(iii) the amount and Type(s) of Advance(s) into which such Advance is to be converted or continued and, in the case of a conversion into or continuation of a Eurodollar Advance, the duration of the Interest Period applicable thereto.

Section 2.4 Principal Payments.

(a) Required Loan Amortization Payments. The Borrowers shall make periodic amortization payments in respect of the principal balance of the Loan that is outstanding on the last day of the Committed Additional Availability Period in accordance with this Section 2.4(a). Commencing on October 1, 2020, and thereafter on the first Business Day of each January, April, July and October thereafter (each such date a "Principal Payment Date"), the Borrowers shall make principal amortization payments to the Administrative Agent for the account of the Lenders in equal installments, each such installment being an amount equal to [***] of the aggregate principal amount of the Loan that is outstanding on the last day of the Committed Additional Availability Period, which amortization payments shall be applied to the outstanding principal balance of the Loan as and when received by the Administrative Agent. The Administrative Agent shall distribute to the Lenders each Lender's Commitment Percentage thereof in accordance with this Agreement. The

entire outstanding unpaid principal amount of the Loan, accrued and unpaid interest thereon and all other unpaid Obligations, shall, unless required to be paid earlier pursuant to the terms hereof, be paid in full by the Borrowers on the Maturity Date.

(b) Optional Principal Payments. The Borrowers may from time to time upon prior written notice to the Administrative Agent pre-pay in whole or in part (but in a minimum aggregate amount of [***] or any integral multiple of [***] in excess thereof to the extent any Eurodollar Advance is being prepaid) subject to the requirements of this Section 2.4(b). Such payments shall be distributed to the Lenders pro rata in accordance with each Lender's Commitment Percentage of such payment. All optional principal payments shall be applied to the Type of Advance designated by a Borrower when making such payment, provided that any payments received during the continuance of a Default or Event of Default shall be applied on a pro rata basis to all Advances then outstanding. With respect to the prepayment of Eurodollar Advances, the Borrowers shall give the Administrative Agent written notice of such repayment three Business Days prior to the date of such intended prepayment with respect to the prepayment of Eurodollar Advances. Prepayments of the Loan may be made without penalty or premium, provided that with respect to the prepayment of Eurodollar Advances the Borrowers shall pay any funding indemnification amounts required by Section 3.4.

(c) Required Payments Related to Borrowing Base. On any date that the outstanding principal amount of the Loan is in excess of the then-current Borrowing Base, the Borrowers shall, prior to the close of business on such date make a mandatory payment to the Administrative Agent for the benefit of the Lenders in the amount of such excess. Any such payment shall be allocated to Advances as directed by the Borrowers, provided that (i) with respect to the prepayment of Eurodollar Advances the Borrowers shall pay any funding indemnification amounts required by Section 3.4, and (ii) during the continuance of a Default or Event of Default any payments received shall be applied on a pro rata basis to all Advances then outstanding.

Section 2.5 Interest Rates.

Interest shall accrue on the Loan as follows:

(i) Each Alternate Base Rate Advance shall bear interest on the outstanding principal amount thereof, for each day from and including the date such Advance is made or is automatically converted from a Eurodollar Advance into an Alternate Base Rate Advance pursuant to Section 2.3, to but excluding the date it is paid or is converted into a Eurodollar Advance pursuant to Section 2.3 hereof, at a rate per annum equal to the Alternate Base Rate for such day. Changes in the rate of interest on any portion of the Loan maintained as an Alternate Base Rate Advance and changes in the rate of interest the Loan based on a change in the Applicable Margin as a result of a change in the Leverage Ratio shall, in each case, become effective as of the opening of business on the day on which such change shall become effective. The Borrowers, the

Lenders and the Administrative Agent acknowledge that to the extent interest payable on the Advances is based on the Prime Rate, the Prime Rate is only one of the bases for computing interest on loans made by the Lenders, and by basing interest payable on such Advances on the Prime Rate, the Lenders have not committed to charge, and the Borrower has not in any way bargained for, interest based on a lower or the lowest rate at which any Lender may now or in the future make extensions of credit to other Persons.

(ii) Each Eurodollar Advance shall bear interest on the outstanding principal amount thereof from and including the first day of the Interest Period applicable thereto to (but not including) the last day of such Interest Period at the Eurodollar Rate determined by the Administrative Agent as applicable to such Eurodollar Advance based upon the Borrower's selections under Section 2.3 and otherwise in accordance with the terms hereof. Not more than [***] different Interest Periods may be in effect at any time and no Interest Period may end after the Maturity Date.

Section 2.6 Rates Applicable After Default.

Notwithstanding anything to the contrary contained in Sections 2.3, during the continuance of a Default or Event of Default the Required Lenders may, at their option, by notice to the Borrower (which notice may be revoked at the option of the Required Lenders notwithstanding any provision of Section 9.1 requiring unanimous consent of the Lenders to reductions in interest rates), declare that no portion of the Loan may be maintained as, converted into or continued as a Eurodollar Advance. During the continuance of an Event of Default the Required Lenders may, at their option, by notice to the Borrower (which notice may be revoked at the option of the Required Lenders notwithstanding any provision of Section 9.1 requiring unanimous consent of the Lenders to reductions in interest rates), declare that (i) each Eurodollar Advance shall bear interest for the remainder of the applicable Interest Period at the rate otherwise applicable to such Interest Period plus [***] per annum and (ii) the portion of the Loan not accruing interest at the rate under clause (i) above shall bear interest at a rate per annum equal to the Alternate Base Rate plus the Applicable Margin plus [***] per annum; provided that, during the continuance of an Event of Default under Section 7(f) or 7(g), the interest rates set forth in clauses (i) and (ii) above shall be applicable to all Advances without any election or action on the part of the Administrative Agent or any Lender. Upon the occurrence and during the continuance of an Event of Default, all interest shall be payable on demand.

Section 2.7 Interest Payment Dates; Interest and Fee Basis.

Subject to Section 2.6, interest shall be payable in accordance with the following provisions:

(i) Interest shall be payable on each Payment Date.

(ii) Payments of interest shall commence on the first such date to occur in clause (i) above after the date hereof. All accrued and unpaid interest due on the Maturity Date or earlier maturity (by acceleration or otherwise) shall be due and payable in full on such date.

(iii) All interest (other than interest calculated with reference to the Prime Rate) shall be calculated on the basis of a 360-day year for the actual number of days elapsed, and all interest determined with reference to the Prime Rate shall be calculated on the basis of a 365/366-day year for the actual number of days elapsed. Interest shall be payable from the day the Loan is made but not for the day of any payment on the amount paid if payment is received at the place of payment prior to the time required for payment as set forth in Section 2.8. If any payment of principal of, or interest on, the Loan shall become due on a day which is not a Business Day, such payment shall be made on the next succeeding Business Day and, in the case of a principal payment, such extension of time shall be included in computing interest in connection with such payment.

Section 2.8 Method of Payment.

All payments of the Obligations hereunder shall be made, without setoff, deduction, or counterclaim, in immediately available funds to the Administrative Agent at the Administrative Agent's address specified pursuant to Article 13, or at any other Lending Installation of the Administrative Agent specified in writing by the Administrative Agent to the Borrowers, on the date when due by 1:00 p.m. Payments of interest shall be applied in accordance with Section 2.7. Each payment delivered to the Administrative Agent for the account of any Lender shall be delivered promptly by the Administrative Agent to such Lender in the same type of funds that the Administrative Agent received at its address specified pursuant to Article 13 or at any Lending Installation specified in a notice received by the Administrative Agent from such Lender. The Administrative Agent is hereby authorized to charge the account of the Borrower maintained with BNY Mellon for each payment of principal, interest and fees as it becomes due hereunder.

Section 2.9 Noteless Agreement; Evidence of Indebtedness.

(i) Each Lender shall maintain in accordance with its usual practice an account or accounts evidencing the indebtedness of the Borrowers to such Lender resulting from such Lender's funding of its Commitment Percentage of the Loan, including the amounts of principal and interest payable and paid to such Lender from time to time hereunder.

(ii) Subject to Section 2.3, the Administrative Agent shall also maintain accounts in which it will record (a) the Type thereof and the Interest Period with respect to each Advance, (b) the amount of any principal or interest due and payable or to become due and payable from the Borrowers to each Lender hereunder, and (c) the

amount of any sum received by the Administrative Agent hereunder from the Borrowers and each Lender's share thereof.

(iii) The entries maintained in the accounts maintained pursuant to paragraphs (i) and (ii) above shall be *prima facie* evidence of the existence and amounts of the Obligations therein recorded; provided, however, that the failure of the Administrative Agent or any Lender to maintain such accounts or any error therein shall not in any manner affect the obligation of the Borrower to repay the Obligations in accordance with their terms.

(iv) Any Lender may request that its interest in the Loan be evidenced by a Note. In such event, the Borrower shall prepare, execute and deliver to such Lender a Note payable to the order of such Lender. Thereafter, the interest of such Lender in the Loan and all interest thereon shall at all times (including after any assignment pursuant to Section 12.3) be represented by one or more Notes payable to the order of the payee named therein or any assignee pursuant to Section 12.3, except to the extent that any such Lender or assignee subsequently returns any such Note for cancellation and requests that its interest in the Loan once again be evidenced as described in paragraphs (i) and (ii) above.

Section 2.10 Telephonic Notices.

Each Borrower hereby authorizes the Lenders and the Administrative Agent to extend, convert or continue Advances, effect selections of Types of Advances and to transfer funds based on telephonic or facsimile notices made by any person or persons the Administrative Agent or any Lender in good faith believes to be acting on behalf of such Borrower, it being understood that the foregoing authorization is specifically intended to allow Conversion/Continuation Notices to be given telephonically or by facsimile. The Borrowers agree to deliver promptly to the Administrative Agent a written confirmation, if such confirmation is requested by the Administrative Agent or any Lender, of each telephonic notice signed by an Authorized Officer. If the written confirmation differs in any material respect from the action taken by the Administrative Agent and the Lenders, the records of the Administrative Agent and the Lenders shall govern absent manifest error.

Section 2.11 Commitment Increase.

(a) Procedure for Commitment Increases. Subject to the terms of this Section 2.11, if the entire Committed Additional Availability shall have been advanced to the Borrowers pursuant to Section 2.1, then at any time and from time to time during the Commitment Increase Period, provided that no Default or Event of Default exists, the Borrowers may by delivering to the Administrative Agent a Commitment Increase Notice in the form of Exhibit F (a "Commitment Increase Notice") request that the Total Commitment Amount be increased by either (A) one or more of the existing Lenders increasing its existing Commitment (it being understood that no Lender shall have the

obligation to increase its Commitment to achieve such increased Total Commitment Amount), or (B) the establishment of a new Commitment by a new Lender who is acceptable to the Borrower and the Administrative Agent (each such increase in the Total Commitment Amount, by either means, being a "Commitment Increase", and each new Lender, or existing Lender increasing its existing Commitment, being an "Increased Commitment Lender"). Each existing Lender shall have the option (exercisable prior to a new Commitment with a new Lender pursuant to clause (B) being established) to participate in each Commitment Increase pro-rata in accordance with its interest in the Total Commitment Amount (determined without giving effect to such Increase). Simultaneously with the delivery of such Commitment Increase Notice, the Borrowers shall also deliver to the Administrative Agent a current Borrowing Base Report. By delivering a Commitment Increase Notice and Borrowing Base Report to the Administrative Agent, the Borrowers shall be deemed to have represented that the Borrowing Base set forth in such Borrowing Base Report is true and correct, and the Administrative Agent and each Lender shall be entitled to presume that the Borrowing Base is true and correct. Based solely on the Borrowing Base Report delivered in connection with a Commitment Increase Notice, and a review of its records regarding the total outstanding amount of the Loan, the Administrative Agent shall confirm the amount of the requested Commitment Increase shall not cause the total Commitment Amount (after giving effect to such Commitment Increase) to exceed the Borrowing Base. No Commitment Increase shall become effective until such Business Day (the "Increase Effective Date") as all of the following conditions precedent shall have been fulfilled:

(i) no Default or Event of Default shall have occurred and be continuing on the Increase Effective Date,

(ii) the Borrowers, the Administrative Agent and each Increased Commitment Lender shall have executed and delivered an agreement, dated the Increase Effective Date, substantially in the form of Exhibit H (each a "Commitment Increase Supplement") with respect to such Commitment Increase,

(iii) such increase in the Total Commitment Amount shall not violate any provision of the charter or other organizational documents of either Borrower, and if required by the Administrative Agent, the Administrative Agent shall have received evidence thereof satisfactory to it, and

(iv) the Borrowers shall have satisfied all the conditions of Section 4.2.

(b) Procedure for Funding the Commitment Increase. On the Increase Effective Date, the Administrative Agent shall notify the Borrowers and the Increased Commitment Lenders that the Commitment Increase has become effective. Each Increased Commitment Lender will thereupon make the amount of its committed share of each such Commitment Increase available to the Administrative Agent (which for all purposes of this Agreement shall be deemed to be included in the Loan) for the account

of the Borrowers at the office of the Administrative Agent on such day. The amounts so made available to the Administrative Agent will then, subject to the satisfaction of the terms and conditions of this Agreement, as determined by the Administrative Agent, be disbursed by the Administrative Agent on such date to the Borrowers. The advances under a Commitment Increase shall initially be made as Alternate Base Rate Advances unless by 11:00 A.M. three Business Days prior to the date for such advance the Borrowers shall have notified the Administrative Agent that such advance shall be made as one or more Eurodollar Advances, specifying the portion thereof to constitute such Eurodollar Advance(s). The Borrowers shall be irrevocably obligated to accept the amount of any advance made following its delivery of a Commitment Increase Notice to the Administrative Agent.

(c) Agent's Duties. The Administrative Agent is hereby directed to amend Schedule 1 on each Increase Effective Date to reflect (i) the Commitment Amount of each Lender (including any new Lender) as of such Increase Effective Date, and (ii) the Lending Offices and address for notices of any Increased Commitment Lender which was not previously a Lender, and to deliver a copy thereof to each party hereto.

(d) Maximum Total Commitment Amount. Any Commitment Increase shall be in the amount of [***] or an integral multiple of [***]. In no event shall a Commitment Increase be permitted hereunder if such Commitment Increase, when added to the Total Commitment Amount prior to giving effect thereto would exceed [***].

Section 2.12 Lending Installations.

Each Lender may book its interest in the Loan at any Lending Installation selected by such Lender and may change its Lending Installation from time to time. All terms of this Agreement shall apply to any such Lending Installation and the interest of each Lender in the Loan and any Note issued hereunder to such Lender shall be deemed held by each Lender for the benefit of such Lending Installation. Each Lender may, by written notice to the Administrative Agent and the Borrower in accordance with Article 13, designate replacement or additional Lending Installations for whose account payments on its interest in the Loan are to be made.

Section 2.13 [Reserved].

Section 2.14 Defaulting Lender.

(a) Generally. If for any reason any Lender (a "Defaulting Lender") shall fail or refuse to perform any of its obligations under this Agreement or any other Loan Document to which it is a party within the time period specified for performance of such obligation or, if no time period is specified, if such failure or refusal continues for a period of [***] after notice from the Administrative Agent, then,

in addition to the rights and remedies that may be available to the Administrative Agent or the Borrowers under this Agreement or any applicable Law, such Defaulting Lender's right to participate in the administration of the Loan, this Agreement and the other Loan Documents, including without limitation, any right to vote in respect of, to consent to or to direct any action or inaction of the Administrative Agent taken or to be taken into account in the calculation of Required Lenders, shall be suspended during the pendency of such failure or refusal. If for any reason a Lender fails to make timely payment to the Administrative Agent of any amount required to be paid to the Administrative Agent hereunder (without giving effect to any notice or cure periods), in addition to other rights and remedies which the Administrative Agent or the Borrowers may have under the immediately preceding provisions or otherwise, the Administrative Agent shall be entitled (i) to collect interest from such Defaulting Lender on such delinquent payment for the period from the date on which the payment was due until the date on which the payment is made at the Federal Funds Effective Rate, (ii) to withhold or setoff and to apply in satisfaction of the defaulted payment and any related interest, any amounts otherwise payable to such Defaulting Lender under this Agreement or any other Loan Document and (iii) to bring an action or suit against such Defaulting Lender in a court of competent jurisdiction to recover the defaulted amount and any related interest. Any amounts received by the Administrative Agent in respect of a Defaulting Lender's interest in the Loan shall not be paid to such Defaulting Lender and shall be held uninvested by the Administrative Agent and either applied to cure the Defaulting Lender's default or paid to such Defaulting Lender upon the Defaulting Lender's curing of its default. Notwithstanding anything in this Section 2.14(a) to the contrary, the suspension of a Defaulting Lender's right to vote in respect of, to consent to or to direct any action or inaction of the Administrative Agent taken or to be taken into account in the calculation of Required Lenders or in respect of any supplemental agreement, amendment or waiver which requires the consent of each Lender as set forth in Section 9.1 hereof, shall not apply to any decision to: (i) waive, forgive or reduce the principal amount of any of the Obligations owing to such Defaulting Lender (unless all other Lenders affected thereby are treated similarly), (ii) extend the final maturity date(s) of such Defaulting Lenders' portion of any the Obligations, or (iii) otherwise modify the Loan Documents if such modification requires the consent of all Lenders or the Lender(s) affected thereby which affects such Defaulting Lender more adversely than the other affected Lenders (other than a modification which results in a repayment of any amounts owing to such Defaulting Lender on a non pro-rata basis). During any period that a Lender is a Defaulting Lender, such Defaulting Lender shall not be entitled to any portion of the Non-Usage Fee for such period.

(b) Purchase or Cancellation of Defaulting Lender's Interest in the Loan. Any Lender who is not a Defaulting Lender shall have the right, but not the obligation, in its sole discretion, to acquire by assignment all of a Defaulting Lender's interest in the Loan. Any Lender desiring to exercise such right shall give written notice thereof to the Administrative Agent and the Borrower no sooner than two (2) Business Days and not later than five (5) Business Days after such Defaulting Lender became a

Defaulting Lender. If more than one Lender exercises such right, each such Lender shall have the right to acquire an amount of such Defaulting Lender's interest in the Loan in proportion to the percentage interest in the Loan of the other Lenders exercising such right. If after such fifth Business Day, the Lenders have not elected to acquire all of the interest in the Loan of such Defaulting Lender, then the Borrowers may, by giving written notice thereof to the Administrative Agent, such Defaulting Lender and the other Lenders, demand that such Defaulting Lender assign its interest in the Loan to a assignee subject to and in accordance with the provisions of Section 12.3(b) for the purchase price provided for below, whereupon such Defaulting Lender shall no longer be a party hereto or have any right or obligation whatsoever to initiate any such replacement or to assist in finding an assignee of its interest. Upon any such assignment, the Defaulting Lender's interest in the Loan and its rights hereunder (but not its liability in respect thereof or under the Loan Documents to the extent the same relate to the period prior to the effective date of the purchase) shall terminate on the date of purchase, and the Defaulting Lender shall promptly execute all documents reasonably requested to surrender and transfer such interest to the Purchaser or assignee thereof, including an appropriate Assignment and Assumption Agreement and, notwithstanding Section 12.3(b), shall pay to the Administrative Agent an assignment fee in the amount of [***]. Subject to the Defaulting Lender's compliance with the foregoing, all unpaid interest and fees accrued to the Defaulting Lender's interest in the Loan shall be paid on the date such assignment is effective. The purchase price for the interest in the Loan of a Defaulting Lender shall be equal to the amount of the principal balance of its interest in the Loan outstanding and owed by the Borrower to the Defaulting Lender. Prior to payment of such purchase price to a Defaulting Lender, the Administrative Agent shall apply against such purchase price any amounts retained by the Administrative Agent pursuant to the last sentence of the immediately preceding subsection (a). When the same are received by Administrative Agent, the Defaulting Lender shall receive any amount owed to it by the Borrower under the Loan Documents which accrued prior to the date of the default by the Defaulting Lender, to the extent the same are received by the Administrative Agent from or on behalf of the Borrowers. There shall be no recourse against any Lender or the Administrative Agent for the payment of such sums except to the extent of the receipt of payments from any other party or in respect of the Loan.

ARTICLE 3.
CHANGE IN CIRCUMSTANCES

Section 3.1 Yield Protection.

(a) If any Requirement of Law or any change in the interpretation or application thereof or compliance by any Lender with any request or directive (whether or not having the force of law) from any central bank or other Governmental Authority made subsequent to the date hereof:

(i) shall subject such Lender to any Tax or increased Tax of any kind whatsoever with respect to this Agreement, any Advance or change the basis of taxation of payments to such Lender in respect thereof;

(ii) shall impose, modify or hold applicable any reserve, special deposit, compulsory loan or similar requirement against assets held by, deposits or other liabilities in or for the account of, advances, or other extensions of credit by, or any other acquisition of funds by, any office of such Lender which is not otherwise included in the determination of LIBOR herein; or

(iii) shall impose on such Lender or the London interbank market any other condition, cost or expense affecting this Agreement or the Loan;

and the result of any of the foregoing is to increase the cost to such Lender, by an amount which such Lender reasonably deems to be material, of entering, continuing or maintaining the interest of such Lender in the Loan or to reduce any amount due or owing hereunder in respect thereof, then, in any such case, the Borrowers shall promptly pay such Lender such additional amount or amounts as calculated by such Lender in good faith as will compensate such Lender for such increased cost or reduced amount receivable equal to such increased costs or additional amounts reasonably determined by such Lender. Notwithstanding anything herein to the contrary, (i) the Dodd-Frank Wall Street Reform and Consumer Protection Act and all requests, rules, guidelines or directives thereunder, issued in connection therewith or in implementation thereof, and (ii) all requests, rules, guidelines and directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or United States or foreign regulatory authorities, shall in each case be deemed to be a basis for compensation under this Section 3 .1, regardless of the date enacted, adopted, issued or implemented.

Section 3.2 Changes in Capital Adequacy and Liquidity Regulations.

If any Lender shall have determined that the adoption of or any change in any Requirement of Law regarding capital adequacy or liquidity requirements or in the interpretation or application thereof or compliance by the Lender or any corporation controlling the Lender with any request or directive regarding capital adequacy or liquidity requirements (whether or not having the force of law) from any Governmental Authority made subsequent to the date hereof shall have the effect of reducing the rate of return on such Lender's or such corporation's capital as a consequence of its obligations hereunder to a level below that which such Lender or such corporation could have achieved but for such adoption, change or compliance (taking into consideration such Lender's or such corporation's policies with respect to capital adequacy or liquidity) by an amount deemed by such Lender to be material, then from time to time, the Borrowers shall promptly pay to such Lender such additional amount or amounts as will compensate such Lender for such reduction. Notwithstanding anything herein to the contrary, (i) the Dodd-Frank Wall Street Reform and Consumer Protection Act and all requests, rules,

guidelines or directives thereunder, issued in connection therewith or in implementation thereof, and (ii) all requests, rules, guidelines and directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or United States or foreign regulatory authorities, shall in each case be deemed to be a basis for compensation under this Section 3.2, regardless of the date enacted, adopted, issued or implemented.

Section 3.3 Availability of Types of Advances.

(a) If any Lender determines that any Law has made it unlawful, or that any Governmental Authority has asserted that it is unlawful, for any Lender or its applicable lending office to make, maintain, or fund Advances whose interest is determined by reference to the Eurodollar Base Rate, or to determine or charge interest rates based upon the Eurodollar Base Rate, or any Governmental Authority has imposed material restrictions on the authority of such Lender to purchase or sell, or to take deposits of, Dollars in the London interbank market, then, upon notice thereof by such Lender to the Borrower (through the Administrative Agent), (a) any obligation of such Lender to make or continue Eurodollar Advances or to convert Alternate Base Rate Advances to Eurodollar Advances shall be suspended, and (b) if such notice asserts the illegality of such Lender making or maintaining Alternate Base Rate Advances the interest rate on which is determined by reference to the Eurodollar Base Rate component of the Alternate Base Rate, the interest rate on which Alternate Base Rate Advances of such Lender shall, if necessary to avoid such illegality, be determined by the Administrative Agent without reference to the Eurodollar Base Rate component of the Alternate Base Rate, in each case until such Lender notifies the Administrative Agent and the Borrower that the circumstances giving rise to such determination no longer exist. Upon receipt of such notice, (i) the Borrower shall, upon demand from such Lender (with a copy to the Administrative Agent), prepay or, if applicable, convert all Eurodollar Advances of such Lender to Alternate Base Rate Advances (the interest rate on which Alternate Base Rate Advances of such Lender shall, if necessary to avoid such illegality, be determined by the Administrative Agent without reference to the Eurodollar Base Rate component of the Alternate Base Rate), either on the last day of the Interest Period therefor, if such Lender may lawfully continue to maintain such Eurodollar Advances to such day, or immediately, if such Lender may not lawfully continue to maintain such Eurodollar Advances and (ii) if such notice asserts the illegality of such Lender determining or charging interest rates based upon the Eurodollar Base Rate, the Administrative Agent shall during the period of such suspension compute the Alternate Base Rate applicable to such Lender without reference to the Eurodollar Base Rate component thereof until the Administrative Agent is advised in writing by such Lender that it is no longer illegal for such Lender to determine or charge interest rates based upon the Eurodollar Base Rate. Upon any such prepayment or conversion, the Borrower shall also pay accrued interest on the amount so prepaid or converted, together with any additional amounts required pursuant to Section 3.4.

(b) Unless and until a Replacement Rate is implemented in accordance with Section 3.3(c) below, if prior to the commencement of any Interest Period for a Eurodollar Advance:

(i) the Administrative Agent determines (which determination shall be conclusive and binding absent manifest error) that adequate and reasonable means do not exist for ascertaining the Eurodollar Base Rate for such Interest Period; or

(ii) the Administrative Agent is advised by the Required Lenders that (A) Dollar deposits are not being offered to banks in the London interbank eurodollar market for the applicable amount and Interest Period, or (B) the Eurodollar Base Rate for such Interest Period will not adequately and fairly reflect the cost to such Lenders of making or maintaining their Eurodollar Advances for such Interest Period;

then the Administrative Agent shall give notice thereof to the Borrower and the Lenders as promptly as practicable thereafter and, until the Administrative Agent notifies the Borrower and the Lenders (upon the instruction of the Required Lenders with respect to notice given pursuant to clause (ii) above) that the circumstances giving rise to such notice no longer exist, (i) any Conversion/Continuation Notice that requests the conversion of any Alternate Base Rate Advance to, or continuation of any Eurodollar Advance as, a Eurodollar Advance shall be ineffective, and (ii) if any Borrowing Notice requests a Eurodollar Advance, such Advance shall be made as an Alternate Base Rate Advance. Any Eurodollar Advances outstanding at the commencement of any such suspension shall be converted at the end of the then current Interest Period for such Eurodollar Advances into Alternate Base Rate Advances unless such suspension has then ended.

(c) Notwithstanding anything to the contrary in Section 3.3(b) above, if the Administrative Agent has made the determination (such determination to be conclusive and binding absent manifest error) that (i) the circumstances described in Section 3.3(b)(i) have arisen and that such circumstances are unlikely to be temporary, (ii) Eurodollar Base Rate is no longer a widely recognized benchmark rate for newly originated loans in the U.S. syndicated loan market in the applicable currency or (iii) the applicable supervisor or administrator (if any) of Eurodollar Base Rate or any Governmental Authority having, or purporting to have, jurisdiction over the Administrative Agent has made a public statement identifying a specific date after which Eurodollar Base Rate shall no longer be used for determining interest rates for loans in the U.S. syndicated loan market, then the Administrative Agent may, to the extent practicable, in consultation with and with the consent of the Borrowers and as determined by the Administrative Agent to be consistent with market practice generally, establish a replacement benchmark rate (the "Replacement Rate"), in which case, the Replacement Rate shall, subject to the next two sentences, replace Eurodollar Base Rate for all purposes under the Loan Documents unless and until (A) an event described in Section 3.3(b)(i), (c)(i), (c)(ii) or (c)(iii) occurs with respect to the Replacement Rate or

(B) the Administrative Agent (upon the instruction of the Required Lenders) notifies the Borrowers that the Replacement Rate does not adequately and fairly reflect the cost to such Lenders of funding Advances bearing interest at a rate based on the Replacement Rate, and in which case, the provisions of the last paragraph of Section 3.3(b) shall apply to any Advances accruing interest at a rate based on the Replacement Rate in the same manner as would apply to Eurodollar Advances affected by the same circumstances; provided that, if the Replacement Rate shall be less than zero, such rate shall deemed to be zero for the purpose of this Agreement. In connection with the establishment of the Replacement Rate, this Agreement and the other Loan Documents shall be amended to effect the provisions of this Section 3.3(c) (but, for the avoidance of doubt, such amendment shall not include a reduction of the Applicable Margin). Notwithstanding anything to the contrary in this Agreement or the other Loan Documents, such amendment shall become effective without any further action or consent of any party other than the Administrative Agent and the Borrowers so long as the Administrative Agent shall not have received, within five (5) Business Days of the delivery of such amendment to the Lenders, written notices from such Lenders that in the aggregate constitute Required Lenders, with each such notice stating that such Lender objects to such amendment (which such notice shall note with specificity the particular provisions of the amendment to which such Lender objects), it being understood that, if the Required Lenders object to any such amendment, the Administrative Agent and the Borrowers shall be permitted to continue to establish a Replacement Rate and provide one or more additional notices hereunder until an amendment pursuant to this clause (c) has become effective. To the extent the Replacement Rate is approved by the Administrative Agent in connection with this clause (c), the Replacement Rate shall be applied in a manner consistent with market practice generally; provided that, to the extent such market practice is not administratively feasible for the Administrative Agent, such Replacement Rate shall be applied as otherwise reasonably determined by the Administrative Agent without the consent of, or consultation with, the Borrowers or any of the Lenders.

Section 3.4 Funding Indemnification.

If a Eurodollar Advance shall be terminated for any reason prior to the last day of the Interest Period applicable thereto, or if any repurchase of a Eurodollar Advance is made by the Borrowers for any reason on a date which is prior to the last day of the Interest Period applicable thereto, the Borrowers agree to indemnify the Administrative Agent and the Lenders against, and to pay on demand directly to the Administrative Agent and the Lenders the amount (as reasonably determined by the Administrative Agent or Lenders requiring indemnification) equal to any loss or out-of-pocket expense suffered by the Administrative Agent or Lenders as a result of such failure to borrow or convert, or such termination, repayment or prepayment, including any loss, cost or expense suffered by the Agent or Lenders in liquidating or employing deposits acquired to fund or maintain the funding of such Eurodollar Advance, or redeploying funds prepaid or repaid, in amounts which correspond to such Eurodollar Advance, and any

internal processing charge customarily charged by the Administrative Agent or Lenders in connection therewith. A statement setting forth the calculations of any additional amounts payable pursuant to this Section submitted by the Administrative Agent or Lenders requiring indemnification to the Borrowers shall be conclusive absent manifest error.

Section 3.5 Taxes.

(a) Any and all payments by the Borrowers under or in respect of this Agreement or any other Loan Documents to which a Borrower is a party shall be made free and clear of, and without deduction or withholding for or on account of, any and all present or future taxes, levies, imposts, deductions, charges or withholdings, and all liabilities (including penalties, interest and additions to tax) with respect thereto, whether now or hereafter imposed, levied, collected, withheld or assessed by any taxation authority or other Governmental Authority (collectively, "Taxes"), unless required by law. If a Borrower shall be required under any applicable Requirement of Law to deduct or withhold any Taxes from or in respect of any sum payable under or in respect of this Agreement or any of the other Loan Documents to any Lender, (i) such Borrower shall make all such deductions and withholdings in respect of Taxes, (ii) such Borrower shall pay the full amount deducted or withheld in respect of Taxes to the relevant taxation authority or other Governmental Authority in accordance with any applicable Requirement of Law, and (iii) the sum payable by such Borrower shall be increased as may be necessary so that after Borrowers have made all required deductions and withholdings (including deductions and withholdings applicable to additional amounts payable under this Section 3.5) such Lender receives an amount equal to the sum it would have received had no such deductions or withholdings been made in respect of Non-excluded Taxes. For purposes of this Agreement the term "Non-excluded Taxes" are Taxes other than, in the case of a Lender, (A) Taxes that are imposed on its overall net income (and franchise taxes imposed in lieu thereof) by the jurisdiction under the laws of which such Lender is organized or of its applicable lending office, or any political subdivision thereof, unless such Taxes are imposed as a result of such Lender having executed, delivered or performed its obligations or received payments under, or enforced, this Agreement or any of the other Loan Documents (in which case such Taxes will be treated as Non-excluded Taxes), and (B) any U.S. Federal withholding Taxes imposed under FATCA.

(b) In addition, Borrowers hereby agree to pay any present or future stamp, recording, documentary, excise, property or value-added taxes, or similar taxes, charges or levies that arise from any payment made under or in respect of this Agreement or any other Loan Document or from the execution, delivery or registration of, any performance under, or otherwise with respect to, this Agreement or any other Loan Document (collectively, "Other Taxes").

(c) The Borrowers, jointly and severally, will indemnify each Lender for, and hold it harmless against, the full amount of Non-excluded Taxes and Other Taxes, and the full amount of Taxes of any kind imposed by any jurisdiction on amounts payable under this Section 3.5 imposed on or paid by such Lender and any liability (including penalties, additions to tax, interest and expenses) arising therefrom or with respect thereto. The indemnity by the Borrowers provided for in this Section 3.5 shall apply and be made whether or not the Non-excluded Taxes or Other Taxes for which indemnification hereunder is sought have been correctly or legally asserted (but the Borrowers reserve the right to make a claim again such Lender in the event that the amount of such indemnity is incorrect). Amounts payable by the Borrowers under the indemnity set forth in this Section 3.5 shall be paid within ten (10) days from the date on which such Lender makes written demand therefor.

(d) Each Lender shall severally indemnify the Administrative Agent, within 10 days after demand therefor, for (i) any Non-excluded Taxes attributable to such Lender (but only to the extent that the Borrower has not already indemnified the Administrative Agent for such Non-excluded Taxes and without limiting the obligation of the Borrower to do so), (ii) any Taxes attributable to such Lender's failure to comply with the provisions of Section 12.2(d) relating to the maintenance of a Participant Register and (iii) any Taxes attributable to such Lender, in each case, that are payable or paid by the Administrative Agent in connection with any Loan Document, and any reasonable expenses arising therefrom or with respect thereto, whether or not such Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to any Lender by the Administrative Agent shall be conclusive absent manifest error. Each Lender hereby authorizes the Administrative Agent to set off and apply any and all amounts at any time owing to such Lender under any Loan Document or otherwise payable by the Administrative Agent to the Lender from any other source against any amount due to the Administrative Agent under this subsection (d).

(e) Within thirty (30) days after the date of any payment of Taxes, the Borrowers (or any Person making such payment on behalf of Borrowers) shall furnish to the Agent (for such Lender) a certified copy of the original official receipt evidencing payment thereof or give a written notice to the Agent stating the date and amount of Taxes paid, to whom paid and that Borrower (or such Person making such payment on behalf of Borrowers) has not received any official receipt therefor.

(f) For purposes of Section 3.5(c), the terms "United States" and "United States person" shall have the meanings specified in Section 7701 of the Internal Revenue Code. Each Lender (including for avoidance of doubt any assignee, successor or participant) that either (i) is not incorporated under the laws of the United States, any State thereof, or the District of Columbia or (ii) whose name does not include "Incorporated," "Inc.," "Corporation," "Corp.," "P.C.," "insurance company," or

"assurance company" (a "Nonexempt Lender") shall deliver or cause to be delivered to the Borrowers the following properly completed and duly executed documents:

(i) in the case of a Nonexempt Lender that is not a United States person, a complete and executed (x) U.S. Internal Revenue Form W-8BEN with Part II completed in which such Lender claims the benefits of a tax treaty with the United States providing for a zero or reduced rate of withholding (or any successor forms thereto), including all appropriate attachments or (y) a U.S. Internal Revenue Service Form W-8ECI (or any successor forms thereto); or

(ii) in the case of an individual, (x) a complete and executed U.S. Internal Revenue Service Form W-8BEN (or any successor forms thereto) or (y) a complete and executed U.S. Internal Revenue Service Form W-9 (or any successor forms thereto) (each a "Tax Treatment Certificate"); or

(iii) in the case of a Nonexempt Lender that is organized under the laws of the United States, any State thereof, or the District of Columbia, a complete and executed U.S. Internal Revenue Service Form W-9 (or any successor forms thereto), including all appropriate attachments; or

(iv) in the case of a Nonexempt Lender that (x) is not organized under the laws of the United States, any State thereof, or the District of Columbia and (y) is treated as a corporation for U.S. federal income tax purposes, a complete and executed U.S. Internal Revenue Service Form W-8BEN claiming a zero rate of withholding (or any successor forms thereto) and a Tax Treatment Certificate; or

(v) in the case of a Nonexempt Lender that (A) is treated as a partnership or other non-corporate entity, and (B) is not organized under the laws of the United States, any State thereof, or the District of Columbia, (x)(i) a complete and executed U.S. Internal Revenue Service Form W-8IMY (or any successor forms thereto) (including all required documents and attachments) and (ii) a Tax Treatment Certificate, and (y) without duplication, with respect to each of its beneficial owners and the beneficial owners of such beneficial owners looking through chains of owners to individuals or entities that are treated as corporations for U.S. federal income tax purposes (all such owners, "beneficial owners"), the documents that would be required by clause (i), (ii), (iii), (iv), (vi), (vii) and/or this clause (v) of this Section 3.5(e) with respect to each such beneficial owner if such beneficial owner were such Lender; provided, however, that no such documents will be required with respect to a beneficial owner to the extent the actual Lender is determined to be in compliance with the requirements for certification on behalf of its beneficial owner as may be provided in applicable U.S. Treasury regulations, or the requirements of this clause (v) are otherwise determined to be unnecessary, all such determinations under this clause (v) to be made in the sole discretion of the Borrowers; provided, however, that such Lender shall be provided an opportunity to establish such compliance as reasonable; or

(vi) in the case of a Nonexempt Lender that is disregarded for U.S. federal income tax purposes, the document that would be required by clause (i), (ii), (iii), (iv), (v), (vii) and/or this clause (vi) of this Section 3.5(e) with respect to its beneficial owner if such beneficial owner were such Lender; or

(vii) in the case of a Nonexempt Lender that (A) is not a United States person and (B) is acting in the capacity as an "intermediary" (as defined in U.S. Treasury Regulations), (x)(i) a U.S. Internal Revenue Service Form W-8IMY (or any successor form thereto) (including all required documents and attachments) and (ii) a Tax Treatment Certificate, and (y) if the intermediary is a "non-qualified intermediary" (as defined in U.S. Treasury Regulations), from each person upon whose behalf the "non-qualified intermediary" is acting the documents that would be required by clause (i), (ii), (iii), (iv), (v), (vi), and/or this clause (vii) of this Section 3.5(e) with respect to each such person if each such person were such Lender.

If the forms referred to above in this Section 3.5(e) that are provided by a Lender at the time it first becomes a party as a Lender to this Agreement or, with respect to a grant of a participation, the effective date thereof, indicate a United States interest withholding tax rate in excess of zero, withholding tax at such rate shall be treated as Taxes other than "Non-excluded Taxes" ("Excluded Taxes") and shall not qualify as Non-excluded Taxes unless and until such Lender provides the appropriate form certifying that a lesser rate applies, whereupon withholding tax at such lesser rate shall be considered Excluded Taxes solely for the periods governed by such form. If, however, on the date a Person becomes an assignee, successor or participant to this Agreement, the Lender transferor was entitled to indemnification or additional amounts under this Section 3.5, then the Lender assignee, successor or participant shall be entitled to indemnification or additional amounts to the extent (and only to the extent), that the Lender transferor was entitled to such indemnification or additional amounts for Non-excluded Taxes, and the Lender assignee, successor or participant shall be entitled to additional indemnification or additional amounts for any other or additional Non-excluded Taxes.

(g) For any period with respect to which a Lender has failed to provide the Borrowers with the appropriate form, certificate or other document described in Section 3.5(e) (other than (i) if such failure is due to a change in any applicable Requirement of Law, or in the interpretation or application thereof, occurring after the date on which a form, certificate or other document originally was required to be provided, (ii) if such form, certificate or other document otherwise is not required under Section 3.5(e), or (iii) if it is legally inadvisable or otherwise commercially disadvantageous for such Lender to deliver such form, certificate or other document), such Lender shall not be entitled to indemnification or additional amounts under Section 3.5(a) or Section 3.5(c) with respect to Non-excluded Taxes imposed by the United States by reason of such failure; provided, however, that should a Lender become subject to Non-excluded Taxes because of its failure to deliver a form, certificate or

other document required hereunder, the Borrowers shall take such steps as such Lender shall reasonably request, to assist such Lender in recovering such Non-excluded Taxes.

(h) Without prejudice to the survival of any other agreement of the Borrowers hereunder, the agreements and obligations of the Borrowers contained in this Section 3.5 shall survive the termination of this Agreement. Nothing contained in this Section 3.5 shall require any Lender to make available any of its tax returns or any other information that it deems to be confidential or proprietary.

Section 3.6 Lender Statements; Survival of Indemnity.

To the extent reasonably possible, each Lender shall designate an alternate Lending Installation with respect to its Eurodollar Advances to reduce any liability of a Borrower to such Lender under Sections 3.1, 3.2 and 3.5 or to avoid the unavailability of a Type of Advance under Section 3.3, so long as such designation is not, in the judgment of such Lender, disadvantageous to such Lender. Each Lender shall deliver a written statement of such Lender to the Borrowers (with a copy to the Administrative Agent) as to the amount due, if any, under Section 3.1, 3.2, 3.4 or 3.5. Such written statement shall set forth in reasonable detail the calculations upon which such Lender determined such amount and shall be final, conclusive and binding on the Borrowers in the absence of manifest error. Determinations of amounts payable under such Sections in connection with a Eurodollar Advance shall be calculated as though each Lender funded its Eurodollar Advance through the purchase of a deposit of the type and maturity corresponding to the deposit used as a reference in determining the applicable Eurodollar Rate, whether in fact that is the case or not. Unless otherwise provided herein, the amount specified in the written statement of any Lender shall be payable on demand after receipt by the Borrowers of such written statement. The obligations of the Borrowers under Sections 3.1, 3.2, 3.4 and 3.5 shall survive payment of the Obligations and termination of this Agreement.

ARTICLE 4.
CONDITIONS PRECEDENT

Section 4.1 Conditions to Lenders' Obligations.

On the Effective Date, and as a condition to the Lenders' obligations hereunder (including the obligations of the Lenders to advance amounts pursuant to Sections 2.1(a) and (b)), the Borrowers shall furnish or caused to be furnished to the Administrative Agent (with sufficient copies for the Lenders) the following:

(c) An incumbency certificate, executed by the Secretary or Assistant Secretary of each Borrower, which shall identify by name and title and bear the signatures of the Authorized Officers and any other officers of each Borrower authorized to sign the Loan Documents to which such Borrower is a party, upon which certificate the Administrative Agent and the Lenders shall be entitled to rely until informed of any change in writing by a Borrower.

(d) A certificate, dated the Effective Date and signed by the chief financial officer of each Borrower, stating that no Default or Event of Default (as such terms are defined in the Prior Loan Agreement) has occurred and is continuing.

(e) A written opinion of each Borrower's counsel, addressed to the Administrative Agent and Lenders in substantially the form of Exhibit B hereto.

(l) A copy of the "on-site review report," "limited review report" or "audit report," as the case may be prepared by HUD, FNMA and FHLMC in respect of each Borrower and its operations, most recently received by such Borrower as of the Effective Date.

(m) Such other documents as any Lender or its counsel may through the Administrative Agent have reasonably requested.

Section 4.2 Conditions to Advances of the Committed Additional Availability or Commitment Increase.

Subject to the satisfaction of the requirements of Section 4.1, on each date that the Borrowers request either (i) an advance of the Committed Additional Availability pursuant to Section 2.1 or (ii) a Commitment Increase pursuant to Section 2.11, the funding thereof shall in each case be subject to the following conditions:

(a) The Administrative Agent shall have received a Borrowing Base Report indicating that the Borrowing Base exceeds the amount of the Loan;

(b) The Administrative Agent shall have received a Borrowing Notice in compliance with Section 2.1 or a Commitment Increase Notice in compliance with Section 2.11, as the case may be;

addressed to Administrative Agent and the Required Lenders covering any matters of law applicable to the transactions under this Agreement as any of them may require.

Each Borrowing Notice and Commitment Increase Notice shall constitute a representation and warranty by the Borrowers that the Pledged Servicing included in the Borrowing Base constitutes Eligible Mortgage Servicing Rights, and that the then current Borrowing Base is equal to or greater than the Loan (after giving effect to the requested advance).

ARTICLE 5.
REPRESENTATIONS AND WARRANTIES

The Borrowers represent and warrant to the Lenders that:

Section 5.1 Existence and Standing.

Each of the Borrowers and their Subsidiaries is a corporation, partnership (in the case of Subsidiaries only) or limited liability company duly and properly incorporated or organized, as the case may be, validly existing and (to the extent such concept applies to such entity) in good standing under the laws of its jurisdiction of incorporation or organization and has all requisite power and authority to own or lease its property and to conduct its business in each jurisdiction in which its business is conducted.

Section 5.2 Authorization and Validity.

The Borrowers have the power and authority and legal right to execute and deliver the Loan Documents, to consummate the transactions therein contemplated and to perform its obligations thereunder. The execution and delivery by the Borrowers of the Loan Documents, the consummation of the transactions therein contemplated and the performance of its obligations thereunder have been duly authorized by proper corporate, partnership or limited liability company proceedings, and the Loan Documents to which any of the Borrowers is a party constitute legal, valid and binding obligations of such Borrower enforceable against such Borrower in accordance with their terms, except as enforceability may be limited by bankruptcy, insolvency or similar laws affecting the enforcement of creditors' rights generally.

Section 5.3 No Conflict; Government Consent.

Neither the execution and delivery by the Borrowers of the Loan Documents, nor the consummation of the transactions therein contemplated, nor compliance with the provisions thereof will violate (i) any law, rule, regulation, order, writ, judgment, injunction, decree or award binding on any of the Borrowers or any of their Subsidiaries or (ii) any Borrower's or any Subsidiary's articles or certificate of incorporation, partnership agreement, certificate of partnership, articles or certificate of organization, by-laws, or operating or other management agreement, as the case may be, or (iii) the

provisions of any indenture, instrument or agreement to which a Borrower or any of its Subsidiaries is a party or is subject, or by which it, or its Property, is bound, or conflict with or constitute a default thereunder, or result in, or require, the creation or imposition of any Lien in, of or on the Property of any Borrower or a Subsidiary pursuant to the terms of any such indenture, instrument or agreement. special, indirect, punitive or consequential damages suffered by the Borrowers in connection with, arising out of, or in any way related to the Loan Documents or the transactions contemplated thereby.

Section 9.9 Severability of Provisions.

Any provision in any Loan Document that is held to be inoperative, unenforceable, or invalid in any jurisdiction shall, as to that jurisdiction, be inoperative, unenforceable, or invalid without affecting the remaining provisions in that jurisdiction or the operation, enforceability, or validity of that provision in any other jurisdiction, and to this end the provisions of all Loan Documents are declared to be severable.

Section 9.10 Numbers of Documents.

All statements, notices, closing documents, and requests hereunder shall be furnished to the Administrative Agent with sufficient counterparts so that the Administrative Agent may, and the Administrative Agent agrees that it will, furnish one to each of the Lenders.

Section 9.11 Accounting.

Except as provided to the contrary herein, all accounting terms used herein shall be interpreted and all accounting determinations hereunder shall be made in accordance with Agreement Accounting Principles, except that any calculation or determination which is to be made on a consolidated basis shall be made for the Borrowers and all their Subsidiaries, including those Subsidiaries, if any, which are unconsolidated on the Borrowers' audited financial statements.

Section 9.12 Confidentiality.

Each Lender agrees to hold any confidential information which it may receive from the Borrowers (including, without limitation, any information of or relating to the Borrowers' customers or investors) pursuant to this Agreement in confidence, except for disclosure (i) to its Affiliates and to other Lenders and their respective Affiliates, (ii) to legal counsel, accountants, and other professional advisors to such Lender or to a Transferee, (iii) to regulatory officials, (iv) to any Person as requested pursuant to or as required by law, regulation, or legal process, (v) to any Person in connection with any legal proceeding to which such Lender is a party, (vi) to such Lender's direct or indirect contractual counterparties in swap agreements or to legal counsel, accountants and other professional advisors to such counterparties, (vii) permitted by Section 12.4, and (viii) to rating agencies if requested or required by such agencies in connection with a rating of such lender or an Affiliate of such Lender.

Section 9.13 Nonreliance.

Each Lender hereby represents that it is not relying on or looking to any margin stock (as defined in Regulation U) for the repayment of the Loan.

Section 9.14 Disclosure.

The Borrowers and each Lender hereby (i) acknowledge and agree that BNY Mellon and/or its Affiliates from time to time may hold investments in, make other loans to or have other relationships with the Borrowers and their Affiliates, and (ii) waive any liability of BNY Mellon or such Affiliate of BNY Mellon to the Borrowers or any Lender, respectively, arising out of or resulting from such investments, loans or relationships other than liabilities arising out of the gross negligence or willful misconduct of BNY Mellon or its Affiliates.

Section 9.15 Patriot Act.

The Administrative Agent hereby notifies each of the Borrowers that, pursuant to the requirements of the Patriot Act, the Lenders are required to obtain, verify and record information that identifies the Borrowers, which information includes the name and address of the Borrowers and other information that will allow them to identify the Borrowers in accordance with the Patriot Act. The Borrowers agree to provide to the Administrative Agent or any Lender, promptly after any request by the Administrative Agent or such Lender, such information as the Administrative Agent or such Lender shall require for purposes of complying with the requirements of the Patriot Act, the federal regulations issued pursuant to the Patriot Act and any customer identification program established by the Administrative Agent or such Lender pursuant to the Patriot Act and such regulations.

ARTICLE 10.
THE ADMINISTRATIVE AGENT

Section 10.1 Appointment; Nature of Relationship.

Each Lender hereby irrevocably designates BNY Mellon as Administrative Agent to act as specified herein and in the other Loan Documents. Each Lender hereby irrevocably authorizes the Administrative Agent to take such action on its behalf under the provisions of this Agreement, the other Loan Documents and any other instruments and agreements referred to herein or therein and to exercise such powers and to perform such duties hereunder and thereunder as are specifically delegated to or required of the Administrative Agent by the terms hereof and thereof and such other powers as are reasonably incidental thereto. The Administrative Agent may perform any of its duties hereunder or under any of the Loan Documents by or through its officers, directors, agents or employees and shall be entitled to rely upon the advice of counsel concerning all matters pertaining to such duties. Notwithstanding any provision to the contrary

elsewhere in this Agreement or any Loan Document, the Administrative Agent shall not have any duties or responsibilities, except those expressly set forth therein, or any fiduciary relationship with any Lender, and no implied covenants, functions, responsibilities, duties, obligations or liabilities shall be read into this Agreement or the other Loan Documents or otherwise exist against the Agent. Each of the Lenders hereby agrees to assert no claim against the Administrative Agent on any agency theory or any other theory of liability for breach of fiduciary duty, all of which claims each Lender hereby waives.

Section 10.2 Nature of Duties.

The Administrative Agent shall have no duties or responsibilities hereunder except those expressly set forth in this Agreement and the Security Agreement. Neither the Administrative Agent nor any of its officers, directors, agents or employees shall be liable for any action taken or omitted by it or them hereunder or under any other Loan Document or in connection herewith or therewith, except to the extent caused solely by its or their gross negligence or willful misconduct, as determined by a court of competent jurisdiction in a final, non-appealable judgment or order of such court. The duties of the Administrative Agent shall be mechanical and administrative in nature; the Administrative Agent shall not have by reason of this Agreement or any other Loan Document a fiduciary relationship in respect of any Lender; and nothing in this Agreement or any other Loan Document, expressed or implied, is intended to or shall be so construed as to impose upon the Administrative Agent any obligations in respect of this Agreement or any other Loan Document except as expressly set forth herein.

Section 10.3 Independent Investigation.

Independently and without reliance upon the Administrative Agent or the Lead Arranger, each Lender, to the extent it deems appropriate, has made and shall continue to make (i) its own independent investigation of the financial condition and affairs of the Borrowers in connection with the funding of its Commitment Percentage of the Loan and the taking or not taking of any action in connection herewith and (ii) its own appraisal of the creditworthiness of the Borrowers and, except as expressly provided in this Agreement, neither the Administrative Agent nor the Lead Arranger shall have any duty or responsibility, either initially or on a continuing basis, to provide any Lender with any credit or other information with respect thereto, whether coming into its possession before the funding of the Loan or at any time or times thereafter. The Administrative Agent shall not be under any liability or responsibility whatsoever, as Administrative Agent, to the Borrowers or any other Person as a consequence of any failure or delay in performance, or any breach, by any Lender of any of its obligations under this Agreement or any other Loan Document. Except for notices, reports and other documents expressly required to be furnished to the Lenders by the Administrative Agent hereunder, the Administrative Agent shall not have any duty or responsibility to provide any Lender with any credit or other information concerning the business, operations, property,

financial and other condition or creditworthiness of the Borrowers which may come into the possession of the Agent or any of its officers, directors, employees, agents, attorneys-in-fact or affiliates.

Section 10.4 General Immunity.

Neither the Administrative Agent, the Lead Arranger nor any of their directors, officers, agents or employees shall be liable to the Borrowers, the Lenders or any Lender for any action taken or omitted to be taken by it or them hereunder or under any other Loan Document or in connection herewith or therewith, whether sounding in tort, contract or otherwise except to the extent such action or inaction is determined in a final non-appealable judgment by a court of competent jurisdiction to have arisen from the gross negligence or willful misconduct of such Person.

Section 10.5 No Responsibility for Loan, Recitals, etc.

Neither the Administrative Agent nor any of its directors, officers, Administrative Agents or employees shall be responsible for or have any duty to ascertain, inquire into, or verify (i) any statement, warranty or representation made in connection with any Loan Document or any borrowing hereunder; (ii) the performance or observance of any of the covenants or agreements of any obligor under any Loan Document, including, without limitation, any agreement by an obligor to furnish information directly to each Lender, (iii) the satisfaction of any condition specified in Article 4, except receipt of items required to be delivered solely to the Administrative Agent; (iv) the existence or possible existence of any Default or Event of Default; (v) the validity, enforceability, effectiveness, sufficiency or genuineness of any Loan Document or any other instrument or writing furnished in connection therewith; (vi) the value, sufficiency, creation, perfection or priority of any Lien on any collateral security; or (vii) the financial condition of the Borrowers or any guarantor of any of the Obligations or of any of the Borrowers' or any such guarantor's respective Subsidiaries. The Administrative Agent shall have no duty to disclose to the Lenders information that is not required to be furnished by the Borrowers to the Administrative Agent at such time, but is voluntarily furnished by the Borrowers to the Administrative Agent (either in its capacity as Administrative Agent or in its individual capacity).

Section 10.6 Action on Instructions of Lenders.

The Administrative Agent shall in all cases be fully protected in acting, or in refraining from acting, hereunder and under any other Loan Document in accordance with written instructions signed by the Required Lenders (or to the extent required hereunder, all of the Lenders), and such instructions and any action taken or failure to act pursuant thereto shall be binding on all of the Lenders. The Lenders hereby acknowledge that the Administrative Agent shall be under no duty to take any discretionary action permitted to be taken by it pursuant to the provisions of this Agreement or any other Loan Document unless it shall be requested in writing to do so by the Required Lenders. The

Administrative Agent shall be fully justified in failing or refusing to take any action hereunder and under any other Loan Document unless it shall first be indemnified to its satisfaction by the Lenders pro rata against any and all liability, cost and expense that it may incur by reason of taking or continuing to take any such action. Without limiting the foregoing, no Lender shall have any right of action whatsoever against the Administrative Agent as a result of the Administrative Agent acting or refraining from acting hereunder or under any other Loan Document in accordance with the instructions of the requisite Lenders.

Section 10.7 Employment of Administrative Agents and Counsel.

The Administrative Agent may execute any of its duties as Administrative Agent hereunder and under any other Loan Document by or through employees, agents, and attorneys-in-fact and shall not be answerable to the Lenders, except as to money or securities received by it or its authorized agents, for the default or misconduct of any such agents or attorneys-in-fact selected by it with reasonable care. The Administrative Agent shall be entitled to advice of counsel concerning the contractual arrangement between the Administrative Agent and the Lenders and all matters pertaining to this Agreement and the other Loan Documents and the Administrative Agent's duties hereunder and under any other Loan Document.

Section 10.8 Reliance on Documents; Counsel.

The Administrative Agent shall be entitled to rely, and shall be fully protected in relying, upon any note, writing, resolution, notice, statement, certificate, telex, teletype or telecopier message, "email," cablegram, radiogram, order or other document or telephone message that the Administrative Agent reasonably believed to be genuine and that was signed, sent or made by any Person that the Administrative Agent believed to be the proper Person, and, with respect to all legal matters pertaining to this Agreement and any other Credit Document and its duties hereunder and thereunder, upon advice of counsel selected by it, which counsel may be employees of the Administrative Agent.

Section 10.9 Administrative Agent's Reimbursement and Indemnification.

The Lenders agree to reimburse and indemnify the Administrative Agent ratably in proportion to their respective Commitments (or, if the Commitments have been terminated, in proportion to their Commitments immediately prior to such termination) (i) for any amounts not reimbursed by the Borrowers for which the Administrative Agent is entitled to reimbursement by the Borrowers under the Loan Documents, (ii) for any other expenses incurred by the Administrative Agent on behalf of the Lenders not reimbursed by the Borrowers for which the Administrative Agent is entitled to reimbursement by the Borrowers, in connection with the preparation, execution, delivery, administration and enforcement of the Loan Documents (including, without limitation, for any expenses incurred by the Administrative Agent in connection with any dispute between the Administrative Agent and any Lender or between two or more of the Lenders) and (iii) to

the extent not reimbursed by the Borrowers for which the Administrative Agent is entitled to reimbursement by the Borrowers, for any liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind and nature whatsoever which may be imposed on, incurred by or asserted against the Administrative Agent in any way relating to or arising out of the Loan Documents or any other document delivered in connection therewith or the transactions contemplated thereby, including, without limitation, any amounts paid to the Lenders (through the Administrative Agent or otherwise) by the Borrowers pursuant to the terms of the Loan Documents that are subsequently rescinded or avoided, or must otherwise be restored or returned, and including any amounts incurred by or asserted against the Administrative Agent in connection with any dispute between the Administrative Agent and any Lender or between two or more of the Lenders, or the enforcement of any of the terms of the Loan Documents or of any such other documents, provided that no Lender shall be liable for any of the foregoing to the extent any of the foregoing is found in, a final non-appealable judgment by a court of competent jurisdiction to have resulted from the gross negligence or willful misconduct of the Administrative Agent. The obligations of the Lenders under this Section 10.9 shall survive payment of the Obligations and termination of this Agreement.

Section 10.10 Notice of Default.

The Administrative Agent shall not be deemed to have knowledge or notice of the occurrence of any Default or Event of Default hereunder unless the Administrative Agent has received written notice from a Lender or a Borrower referring to this Agreement describing such Default or Event of Default and stating that such notice is a "notice of default". In the event that the Administrative Agent receives such a notice, the Administrative Agent shall give prompt notice thereof to the Lenders.

Section 10.11 Rights as a Lender.

In the event the Administrative Agent is a Lender, the Administrative Agent shall have the same rights and powers hereunder and under any other Loan Document with respect to its Commitment and its Commitment Percentage of the Loan as any Lender and may exercise the same as though it were not the Administrative Agent, and the term "Lender" or "Lenders" shall, at any time when the Administrative Agent is a Lender, unless the context otherwise indicates, include the Administrative Agent in its individual capacity. The Administrative Agent and its Affiliates may accept deposits from, lend money to, and generally engage in any kind of trust, debt, equity or other transaction, in addition to those contemplated by this Agreement or any other Loan Document, with a Borrower or any of its Subsidiaries in which such Borrower or such Subsidiary is not restricted hereby from engaging with any other Person. The Administrative Agent, in its individual capacity, is not obligated to remain a Lender.

Section 10.12 Successor Administrative Agent.

The Administrative Agent may resign at any time by giving written notice thereof to the Lenders and the Borrowers, such resignation to be effective upon the appointment of a successor Administrative Agent or, if no successor Administrative Agent has been appointed, forty-five days after the retiring Administrative Agent gives notice of its intention to resign. Upon any such resignation, the Required Lenders shall have the right to appoint, on behalf of the Borrowers and the Lenders, a successor Administrative Agent. If no successor Administrative Agent shall have been so appointed by the Required Lenders within thirty days after the resigning Administrative Agent's giving notice of its intention to resign, then the resigning Administrative Agent may appoint, on behalf of the Borrowers and the Lenders, a successor Administrative Agent. Notwithstanding the previous sentence, the Administrative Agent may at any time without the consent of the Borrowers or any Lender, appoint any of its Affiliates which is a commercial bank as a successor Administrative Agent hereunder. If the Administrative Agent has resigned and no successor Administrative Agent has been appointed, the Lenders may perform all the duties of the Administrative Agent hereunder and the Borrowers shall make all payments in respect of the Obligations to each applicable Lender and for all other purposes shall deal directly with the Lenders. No successor Administrative Agent shall be deemed to be appointed hereunder until such successor Administrative Agent has accepted the appointment. Any such successor Administrative Agent shall be a commercial bank having capital and retained earnings of at least [***]. Upon the acceptance of any appointment as Administrative Agent hereunder by a successor Administrative Agent, such successor Administrative Agent shall thereupon succeed to and become vested with all the rights, powers, privileges and duties of the resigning Administrative Agent. Upon the effectiveness of the resignation of the Administrative Agent, the resigning Administrative Agent shall be discharged from its duties and obligations hereunder and under the Loan Documents. After the effectiveness of the resignation of an Administrative Agent, the provisions of this Article 10 shall continue in effect for the benefit of such Administrative Agent in respect of any actions taken or omitted to be taken by it while it was acting as the Administrative Agent hereunder and under the other Loan Documents. In the event that there is a successor to the Administrative Agent by merger, or the Administrative Agent assigns its duties and obligations to an Affiliate pursuant to this Section 10.12, then the term "Prime Rate" as used in this Agreement shall mean the prime rate, base rate or other analogous rate of the new Administrative Agent.

Section 10.13 Delegation to Affiliates.

The Borrowers and the Lenders agree that the Administrative Agent may delegate any of its duties under this Agreement to any of its Affiliates. Any such Affiliate (and such Affiliate's directors, officers, Administrative Agents and employees) which performs duties in connection with this Agreement shall be entitled to the same benefits

of the indemnification, waiver and other protective provisions to which the Administrative Agent is entitled under Articles 9 and 10.

Section 10.14 Collateral Releases.

The Lenders hereby empower and authorize the Administrative Agent to execute and deliver to the Borrowers on their behalf any agreements, documents or instruments as shall be necessary or appropriate to effect any releases of Collateral which shall be permitted by the terms hereof or of any other Loan Document or which shall otherwise have been approved by the Required Lenders (or, if required by the terms of Section 9.1, all of the Lenders) in writing.

ARTICLE 11.
SETOFF; RATABLE PAYMENTS

Section 11.1 Setoff.

In addition to, and without limitation of, any rights of the Lenders under applicable law, if a Borrower becomes insolvent, however evidenced, or any Event of Default occurs, any and all deposits (including all account balances, whether provisional or final and whether or not collected or available) and any other Debt at any time held or owing by any Lender or any Affiliate of any Lender to or for the credit or account of such Borrower may be offset and applied toward the payment of the Obligations owing to such Lender, whether or not the Obligations, or any part hereof, shall then be due.

Section 11.2 Ratable Payments.

If any Lender, whether by setoff or otherwise, has payment made to it upon the Loan (other than payments received pursuant to Section 3.1, 3.2, 3.4 or 3.5) in a greater proportion than that received by any other Lender (based on the Lender's Commitment Percentages), such Lender agrees, promptly upon demand, to purchase a portion of the Loan held by the other Lenders so that after such purchase each Lender will hold its Commitment Percentage of the Loan. If any Lender, whether in connection with setoff or amounts which might be subject to setoff or otherwise, receives collateral or other protection for its Obligations or such amounts which may be subject to setoff, such Lender agrees, promptly upon demand, to take such action necessary such that all Lenders share in the benefits of such collateral ratably in proportion to their Commitment Percentages. In case any such payment is disturbed by legal process, or otherwise, appropriate further adjustments shall be made.

Section 11.3 Custodial Accounts.

The Borrowers agree that funds received and held by any Borrower as custodian for FNMA, GNMA or other mortgage pools which are deposited into accounts with any Lender shall be clearly identified as custodial accounts, and each Lender agrees that each

provision of the foregoing subsections of this Article 11 shall not apply to such custodial accounts. The Borrowers shall not deposit any of its general funds in any custodial accounts or otherwise commingle funds in any custodial accounts.

ARTICLE 12.
ASSIGNMENTS AND PARTICIPATIONS

Section 12.1 Successors and Assigns.

The terms and provisions of the Loan Documents shall be binding upon and inure to the benefit of the Borrowers and the Lenders and their respective successors and assigns, except that (i) the Borrowers shall not have the right to assign its rights or obligations under the Loan Documents without the consent of all Lenders and (ii) any assignment by any Lender must be made in compliance with Section 12.3. The parties to this Agreement acknowledge that clause (ii) of this Section 12.1 relates only to absolute assignments and does not prohibit assignments creating security interests, including, without limitation, any pledge or assignment by any Lender of all or any portion of its rights under this Agreement and any Note to a Federal Reserve Bank; provided, however, that no such pledge or assignment creating a security interest shall release the transferor Lender from its obligations hereunder unless and until the parties hereto have complied with the provisions of Section 12.3. Any assignee of the rights to any portion of the Loan or any Note agrees by acceptance of such transfer or assignment to be bound by all the terms and provisions of the Loan Documents. Any request, authority or consent of any Person, who at the time of making such request or giving such authority or consent is the owner of the rights to any portion of the Loan (whether or not a Note has been issued in evidence thereof), shall be conclusive and binding on any subsequent holder or assignee of the rights to such portion of the Loan.

Section 12.2 Participations.

(a) Permitted Participants: Effect. Any Lender may, in the ordinary course of its business and in accordance with applicable law, at any time sell to one or more banks or other entities ("Participants") participating interests in the portion of the Loan owing to such Lender, any Note held by such Lender or any other interest of such Lender under the Loan Documents. In the event of any such sale by a Lender of participating interests to a Participant, such Lender's obligations under the Loan Documents shall remain unchanged, such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations, such Lender shall remain the owner of its interest in the Loan and the holder of any Note issued to it in evidence thereof for all purposes under the Loan Documents, all amounts payable by the Borrowers under this Agreement shall be determined as if such Lender had not sold such participating interests, and the Borrowers and the Administrative Agent shall continue to deal solely and directly with such Lender in connection with such Lender's rights and obligations under the Loan Documents.

(b) Voting Rights. Each Lender shall retain the sole right to approve, without the consent of any Participant, any amendment, modification or waiver of any provision of the Loan Documents other than any amendment, modification or waiver with respect to the portion of the Loan or Commitment in which such Participant has an interest which forgives principal, interest or fees or reduces the interest rate or fees payable with respect to any such portion of the Loan or Commitment, extends the Maturity Date, postpones any date for a required payment of principal of, or interest or fees on, any such portion of the Loan or Commitment, releases any guarantor of any such Loan or releases all or substantially all of the Collateral (other than as expressly permitted pursuant to the Loan Documents).

(c) Benefit of Setoff. The Borrowers agree that each Participant shall be deemed to have the right of setoff provided in Section 11.1 in respect of its participating interest in amounts owing under the Loan Documents to the same extent as if the amount of its participating interest were owing directly to it as a Lender under the Loan Documents, provided that each Lender shall retain the right of setoff provided in Section 11.1 with respect to the amount of participating interests sold to each Participant. The Lenders agree to share with each Participant, and each Participant, by exercising the right of setoff provided in Section 11.1, agrees to share with each Lender, any amount received pursuant to the exercise of its right of setoff, such amounts to be shared in accordance with Section 11.2 as if each Participant were a Lender.

(d) Participant Register. Each Lender that sells a participation shall, acting solely for this purpose as an agent of the Borrower, maintain a register on which it enters the name and address of each Participant and the principal amounts (and stated interest) of each Participant's interest in the Loan or other obligations under the Loan Documents (the "Participant Register"); provided that no Lender shall have any obligation to disclose all or any portion of the Participant Register (including the identity of any Participant or any information relating to a Participant's interest in any commitments, loans, letters of credit or its other obligations under any Loan Document) to any Person except to the extent that such disclosure is necessary to establish that such Commitment, loan, letter of credit or other obligation is in registered form under Section 5f.103-1(c) of the United States Treasury Regulations. The entries in the Participant Register shall be conclusive absent manifest error, and such Lender shall treat each Person whose name is recorded in the Participant Register as the owner of such participation for all purposes of this Agreement notwithstanding any notice to the contrary. For the avoidance of doubt, the Administrative Agent (in its capacity as Administrative Agent) shall have no responsibility for maintaining a Participant Register.

Section 12.3 Assignments.

(a) Permitted Assignments. Any Lender may, in the ordinary course of its business and in accordance with applicable law, at any time assign to one or more

banks or other entities ("Purchasers") all or any part of its rights and obligations under the Loan Documents. Such assignment shall be substantially in the form of Exhibit G hereto or in such other form as may be agreed to by the parties thereto. The consent of the Borrowers and the Administrative Agent shall be required prior to an assignment becoming effective with respect to a Purchaser which is not a Lender or an Affiliate thereof; provided, however, that if an Event of Default has occurred and is continuing, the consent of the Borrowers shall not be required. Such consent shall not be unreasonably withheld or delayed. Each such assignment shall (unless it is to a Lender or an Affiliate thereof or each of the Borrowers and the Administrative Agent otherwise consents) be in an amount not less than the lesser of (i) [***] (unless approved by Administrative Agent) or (ii) the remaining amount of the assigning Lender's Commitment (calculated as at the date of such assignment).

(b) Effect; Effective Date. Upon (i) delivery to the Administrative Agent of a notice of assignment, substantially in the form attached as **Annex "I"** to Exhibit G hereto (a "Notice of Assignment"), together with any consents required by Section 12.3(a), and (ii) payment of a [***] fee ([***] if a Defaulting Lender) to the Administrative Agent for processing such assignment, such assignment shall become effective on the effective date specified in such Notice of Assignment. The Notice of Assignment shall contain a representation by the Purchaser to the effect that none of the consideration used to make the purchase of the interest in the Loan under the applicable assignment agreement are "plan assets" as defined under ERISA and that the rights and interests of the Purchaser in and under the Loan Documents will not be "plan assets" under ERISA. On and after the effective date of such assignment, such Purchaser shall for all purposes be a Lender patty to this Agreement and any other Loan Document executed by or on behalf of the Lenders and shall have all the rights and obligations of a Lender under the Loan Documents, to the same extent as if it were an original party hereto, and no further consent or action by the Borrowers, the Lenders or the Administrative Agent shall be required to release the transferor Lender with respect to the percentage of the Aggregate Commitment and interest in the Loan assigned to such Purchaser. Upon the consummation of any assignment to a Purchaser pursuant to this Section 12.3(b), the transferor Lender, the Administrative Agent and the Borrowers shall, if the transferor Lender or the Purchaser desires that its interest in the Loan be evidenced by a Note, make appropriate arrangements so that a new Note or, as appropriate replacement Note is issued to such transferor Lender and a new Note or, as appropriate, replacement Note, is issued to such Purchaser, in each case in principal amounts reflecting their respective Commitment Percentages, as adjusted pursuant to such assignment. In addition, within a reasonable time after the effective date of any assignment, the Administrative Agent shall, and is hereby authorized and directed to, revise Schedule 1 reflecting the revised commitments and percentages of each of the Lenders and shall distribute such revised Schedule 1 to each of the Lenders and the Borrowers, whereupon such revised Schedule shall replace the old Schedule and become part of this Agreement.

Section 12.4 Dissemination of Information.

The Borrowers authorize each Lender to disclose to any Participant or Purchaser or any other Person acquiring an interest in the Loan Documents by operation of law (each a "Transferee") and any prospective Transferee any and all information in such Lender's possession concerning the creditworthiness of the Borrowers and their Subsidiaries, including without limitation any information contained in any Reports; provided that each Transferee and prospective Transferee agrees to be bound by Section 9.12 of this Agreement.

Section 12.5 Tax Treatment.

If any interest in any Loan Document is transferred to any Transferee which is organized under the laws of any jurisdiction other than the United States or any State thereof, the transferor Lender shall cause such Transferee, concurrently with the effectiveness of such transfer, to comply with the provisions of Section 3.5.

ARTICLE 13.
NOTICES

Section 13.1 Notices.

All notices, requests and other communications to any party hereunder shall be in writing (including bank wire, facsimile transmission or similar writing) and shall be given to such party: (x) in the case of the Borrowers, the Administrative Agent or any Lender, at its address or facsimile number set forth on the signature pages hereof, (y) in the case of any party, at such other address or facsimile number as such party may hereafter specify in accordance with the provisions of Section 13.2. Each such notice, request or other communication shall be effective (i) if given by facsimile transmission, when transmitted to the facsimile number specified in this Section and confirmation of receipt is received, (ii) if given by mail, 72 hours after such communication is deposited in the mails with first class postage prepaid, addressed as aforesaid or (iii) if given by any other means, when delivered at the address specified in this Section; provided that notices to the Administrative Agent under Article 2 shall not be effective until received.

The Borrowers, the Administrative Agent and any Lender may each change the address for service of notice upon it by a notice in writing to the other parties hereto.

ARTICLE 14.

This Agreement may be executed in any number of counterparts, all of which taken together shall constitute one agreement, and any of the parties hereto may execute

this Agreement by signing any such counterpart. This Agreement shall be effective when it has been executed by the Borrowers, the Administrative Agent and the Lenders and each party has notified the Administrative Agent by facsimile transmission or telephone, that it has taken such action.

Section 15.1 CHOICE OF LAW.

THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES HEREUNDER AND THEREUNDER SHALL BE CONSTRUED IN ACCORDANCE WITH AND BE GOVERNED BY THE LAW OF THE STATE OF NEW YORK WITHOUT REGARD TO ITS PRINCIPLES OF CONFLICT OF LAWS.

Section 15.2 CONSENT TO JURISDICTION.

THE BORROWERS HEREBY IRREVOCABLY SUBMIT TO THE NON-EXCLUSIVE JURISDICTION OF ANY COURTS OF THE STATE OF NEW YORK, OR THE DISTRICT COURT OF THE UNITED STATES FOR THE SOUTHERN DISTRICT OF NEW YORK IN ANY ACTION OR PROCEEDING ARISING OUT OF OR RELATING TO ANY LOAN DOCUMENTS AND THE BORROWERS HEREBY IRREVOCABLY AGREE THAT ALL CLAIMS IN RESPECT OF SUCH ACTION OR PROCEEDING MAY BE HEARD AND DETERMINED IN ANY SUCH COURT AND IRREVOCABLY WAIVES ANY OBJECTION IT MAY NOW OR HEREAFTER HAVE AS TO THE VENUE OF ANY SUCH SUIT, ACTION OR PROCEEDING BROUGHT IN SUCH A COURT OR THAT SUCH COURT IS AN INCONVENIENT FORUM. NOTHING HEREIN SHALL LIMIT THE RIGHT OF THE ADMINISTRATIVE AGENT OR ANY LENDER TO BRING PROCEEDINGS AGAINST ANY BORROWER IN THE COURTS OF ANY OTHER JURISDICTION. ANY JUDICIAL PROCEEDING BY A BORROWER AGAINST THE ADMINISTRATIVE AGENT OR ANY LENDER OR ANY AFFILIATE OF THE ADMINISTRATIVE AGENT OR ANY LENDER INVOLVING, DIRECTLY OR INDIRECTLY, ANY MATTER IN ANY WAY ARISING OUT OF, RELATED TO, OR CONNECTED WITH ANY LOAN DOCUMENT SHALL BE BROUGHT ONLY IN A COURT OF THE STATE OF NEW YORK, OR THE DISTRICT COURT OF THE UNITED STATES FOR THE SOUTHERN DISTRICT OF NEW YORK.

Section 15.4 Joint and Several Obligations.

The obligations of the Borrowers under this Agreement and the other Loan Documents are the joint and several obligations of the Borrowers.

Section 15.5 Acknowledgement and Consent to Bail-In of EEA Financial Institutions.

(a) the application of any Write-Down and Conversion Powers by an EEA Resolution Authority to any such liabilities arising hereunder which may be payable to it by any party hereto that is an EEA Financial Institution; and

(b) the effects of any Bail-in Action on any such liability, including, if applicable:

(c) a reduction in full or in part or cancellation of any such liability;

(d) a conversion of all, or a portion of, such liability into shares or other instruments of ownership in such EEA Financial Institution, its parent undertaking, or a bridge institution that may be issued to it or otherwise conferred on it, and that such shares or other instruments of ownership will be accepted by it in lieu of any rights with respect to any such liability under this Agreement or any other Loan Document; or

WAIVER NO. 1 TO AMENDED AND RESTATED TERM LOAN AGREEMENT

THIS WAIVER NO. 1 TO AMENDED AND RESTATED TERM LOAN AGREEMENT (the " Waiver") is made and entered into as of April 29, 2020, among Guild Mortgage Company, a California corporation ("GMC") and Guild Mortgage Company, LLC, a Delaware limited liability company ("GMCLLC"; GMC and GMCLLC are each a "Borrower" and are, collectively, the "Borrowers"), the Lenders who are parties hereto, and The Bank of New York Mellon as Administrative Agent (the "Administrative Agent").

RECITALS:

A. The Borrowers, the Administrative Agent and each of the Lenders entered into that certain Amended and Term Loan Agreement dated as of September 30, 2019 (as amended, the "Loan Agreement"; capitalized terms used in this Waiver which are not otherwise defined herein shall have the meaning ascribed to such terms in the Loan Agreement).

B. Pursuant to Section 2.4(c) of the Loan Agreement, on any date that the outstanding principal amount of the Loan is in excess of the then-current Borrowing Base, the Borrowers are required, to make a mandatory payment to the Administrative Agent for the benefit of the Lenders in the amount of such excess (a "Mandatory Borrowing Base Prepayment").

C. The Borrowers have requested that, effective as the date hereof through the close of business on September 30, 2020 (the "Waiver Period"), the Administrative Agent and the Lenders waive the requirement for the payment of any Mandatory Borrowing Base Prepayment as long as the Borrowing Base percentage does not exceed [***] of the Appraised Value of the Eligible Mortgage Servicing Rights (currently, a Mandatory Borrowing Base Prepayment is required if such Borrowing Base percentage is more than [***]).

D. Subject to the terms of this Waiver the Administrative Agent and the Lenders are agreeable to the Borrowers' request.

THEREFORE, In consideration of the covenants, conditions and agreements hereinafter set forth, and for other good and valuable consideration, the receipt and adequacy of which are acknowledged, it is agreed as follows:

1. During the Waiver Period, compliance with the provisions of Section 2.4(c) and the requirement for a Mandatory Borrowing Base Prepayment, are hereby waived *so long as* the Borrowing Base, as of any date during the Waiver Period, is not greater than [***] of the Appraised Value of the Eligible Mortgage Servicing Rights as of such date, as

set forth in the Borrowing Base Report most recently delivered to the Administrative Agent pursuant to Loan Agreement as of such date. Accordingly, during the Waiver Period, and solely with respect to the requirements of Section 2.4(c), the percentage in the definition of "Borrowing Base" shall be [***].

2. For all other purposes of the Loan Agreement, including for purposes of Section 2.1(e) of the Loan Agreement and the determination of whether the conditions for an advance of the Loan have been satisfied, the definition of "Borrowing Base" shall be unchanged, and for all such other purposes the percentage in such definition shall continue to be [***]. Accordingly, at any time that the Borrowing Base exceeds [***] of the Appraised Value of the Eligible Mortgage Servicing Rights, the Borrowers shall not be entitled to any advances of the Loan.

3. Notwithstanding anything in the Loan Agreement to the contrary (including, without limitation the provisions of Section 6.11), during the Waiver Period the Borrowers will not, nor will they permit any Subsidiary to, declare or pay any dividends or make any distributions on their capital stock or redeem, repurchase or otherwise acquire or retire any of their capital stock at any time outstanding.

4. In order to induce the Administrative Agent and the Lenders to execute this Waiver, the Borrowers hereby (i) certify that, immediately after giving effect to this Waiver, all representations and warranties contained in the Loan Agreement shall not have materially and adversely changed in such a way that would prevent the giving of such representations and warranties as of the date hereof and, except for the events that are waived herein, that no Default or Event of Default exists under the Loan Agreement, (ii) reaffirm and admit the validity and enforceability of the Loan Documents and their obligations thereunder, and (iii) agree and admit that none of them has a valid defense to or offset against any of its obligations under the Loan Documents as of the date hereof.

5. This Waiver may be executed in any number of counterparts, each of which shall be an original and all of which shall constitute one agreement. It shall not be necessary in making proof of this Waiver to produce or account for more than one counterpart containing the signature of the party to be charged.

6. This Waiver is being delivered in and is intended to be performed in the State of New York and shall be construed and is enforceable in accordance with, and shall be governed by, the internal laws of the State of New York without regard to principles of conflict of laws.

7. This Waiver shall be subject to such conditions and limitations as are specified herein, and the rights of the parties under the Loan Agreement and all other Loan Documents.

[Remainder of Page is Intentionally Blank]

IN WITNESS WHEREOF, the parties hereto have caused their duly authorized officers to execute and deliver this Waiver No. 1 to the Amended and Restated Term Loan Agreement as of the date first above written.
