**SAN DIEGO, California – March 9, 2023** – Guild Holdings Company (NYSE: GHLA) (“Guild” or the “Company”), a growth-oriented mortgage company that employs a relationship-based loan sourcing strategy to execute on its mission of delivering the promise of homeownership, today announced results for the fourth quarter and full year ended December 31, 2022.

“Guild’s differentiated business model delivered another year of profitability in 2022 as we leveraged our product mix, technology, servicing capabilities, and network of local loan officers. We demonstrated our proven ability to effectively navigate through a more challenging industry market and interest rate environment. This resilience was a direct result of our strategy, as more than 80% of our originated loans were purchase mortgages in 2022, including targeting first time buyer and diverse markets,” stated Mary Ann McGarry, Chief Executive Officer.

“From a capital allocation perspective, we continue to invest in our business to add value, both organically and through accretive acquisitions. In the fourth quarter and subsequent to year-end, we acquired two high quality mortgage companies as we execute on our strategy to grow both in existing markets and by entering new ones with selective acquisitions. Our business is scalable and repeatable, and with a well-capitalized balance sheet we are positioned to continue to invest in our growth. While the current rising rate environment is creating a more challenging backdrop in the near term, we remain focused on building long-term shareholder value.”

#### Origination Segment Results

Origination segment net loss was \$26.6 million in the fourth quarter compared to net income of \$1.5 million in the prior quarter primarily driven by lower origination volumes as a result of higher interest rates. Gain on sale margins on originations declined 23 bps quarter-over-quarter to 331 bps. Gain on sale margins on pull-through adjusted locked volume increased 2 bps quarter-over-quarter to 351 bps and total pull-through adjusted locked volume was \$2.8 billion compared to \$4.4 billion in the prior quarter.

#### Servicing Segment Results

Net income attributed to the servicing segment was \$21.5 million compared to \$96.8 million in the prior quarter. The Company retained mortgage servicing rights ("MSRs") for 89% of total loans sold in the fourth quarter of 2022.

Net revenue totaled \$34.8 million compared to \$104.1 million in the prior quarter primarily due to adjustments to the fair value of the Company's MSR. In the fourth quarter of 2022, fair value adjustments with respect to the Company's MSR totaled a loss of \$29.9 million, compared to a gain of \$41.8 million in the prior quarter. Guild's purchase recapture rate was 25% in the fourth quarter of 2022, which reinforces the Company's focus on customer service and synergistic business model.

## Forward-Looking Statements

This press release contains forward-looking statements, including statements about the Company's scalable and repeatable business model, ability to capitalize on M&A opportunities, ability to increase shareholder value, and ability to continue to repurchase shares of the Company's Class A common stock pursuant to its share repurchase program. These forward-looking statements reflect our current views with respect to, among other things, future events and our financial performance. These statements are often, but not always, made through the use of words or phrases such as "may," "should," "could," "predict," "potential," "believe," "will likely result," "expect," "continue," "will," "anticipate," "seek," "estimate," "intend," "plan," "projection," "would" and "outlook," or the negative version of those words or other comparable words or phrases of a future or forward-looking nature. These forward-looking statements are not historical facts and are based on current expectations, estimates and projections about our industry, management's beliefs and certain assumptions made by management, many of which, by their nature, are inherently uncertain and beyond our control. Accordingly, we caution you that any such forward-looking statements are not guarantees of future performance and are subject to risks, assumptions and uncertainties that are difficult to predict. Although we believe that the expectations reflected in these forward-looking statements are reasonable as of the date made, actual results may prove to be materially different from the results expressed or implied by the forward-looking statements.

Important factors that could cause our actual results to differ materially from those indicated in these forward-looking statements include, but are not limited to, the following: any disruptions in the secondary home loan market and their effects on our ability to sell the loans that we originate; any changes in macroeconomic and U.S. residential real estate market conditions; any changes in certain U.S. government-sponsored entities and government agencies, and any organizational or pricing changes in these entities, their guidelines or their current roles; any changes in prevailing interest rates or U.S. monetary policies; the effects of any termination of our servicing rights; the effects of our existing and future indebtedness on our liquidity and our ability to operate our business; any disruption in the technology that supports our origination and servicing platform; our failure to identify, develop and integrate acquisitions of other companies or technologies; the effects of the ongoing COVID-19 pandemic; pressure from existing and new competitors; any failure to maintain or grow our historical referral relationships with our referral partners; any delays in recovering service advances; inaccuracies in the estimates of the fair value of the substantial portion of our assets that are measured on that basis (including our MSR's); any failure to adapt to and implement technological changes; the failure of the internal models that we use to manage risk and make business decisions to produce reliable or accurate results; the degree of business and financial risk associated with certain of our loans; any cybersecurity breaches or other vulnerability involving our computer systems or those of certain of our third-party service providers; our inability to secure additional capital, if needed, to operate and grow our business; the impact of operational risks, including employee or consumer fraud, the obligation to repurchase sold loans in the event of a documentation error, and data processing system failures and errors; any repurchase or indemnification obligations caused by the failure of the loans that we originate to meet certain criteria or characteristics; the seasonality of the mortgage origination industry; any failure to protect our brand and reputation; any non-compliance with the complex laws and regulations governing our mortgage loan origination and servicing activities; our control by, and any conflicts of interest with, McCarthy Capital Mortgage Investors, LLC; the risks related to our status as a "controlled company"; the significant influence on our business that members of our board and management team are able to exercise as stockholders; our dependence, as a holding company, upon distributions from Guild Mortgage Company LLC to meet our obligations; the risks related to the trading market of our Class A common stock due to our dual class common stock structure; our ability to complete repurchases under the share repurchase program in the amount authorized or at all and the impact of the share repurchase program on our business and financial condition; the identification of material weaknesses in our internal control over financial reporting; and the other risks, uncertainties and factors set forth under Item IA. – Risk Factors and all other disclosures appearing in Guild's Annual Report on Form 10-K for the year ended December 31, 2021, Quarterly Report on Form 10-Q for the quarter ended September 30, 2022 as well as other documents Guild files from time to time with the Securities and Exchange Commission.

The foregoing factors should not be construed as exhaustive and should be read together with the other cautionary statements included in this press release. If one or more events related to these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may differ materially from what we anticipate. Many of the important factors that will determine these results are beyond our ability to control or predict. Accordingly, you should not place undue reliance on any such forward-looking statements.

Any forward-looking statement speaks only as of the date on which it is made, and, except as otherwise required by law, we undertake no obligation to update any forward-looking statement made in this press release to reflect events or circumstances after the date of this press release or to reflect new information or the occurrence of unanticipated events. We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements and you should not place undue reliance on our forward-looking statements. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures, or investments we may make.

## Non-GAAP Financial Measures

To supplement our financial statements presented in accordance with GAAP and to provide investors with additional information regarding our GAAP financial results, we disclose certain financial measures for our consolidated and operating segment results on both a GAAP and a non-GAAP (adjusted) basis. The non-GAAP financial measures disclosed should be viewed in addition to, and not as an alternative to, results prepared in accordance with GAAP. These non-GAAP financial measures are not based on any standardized methodology prescribed by GAAP and are not necessarily comparable to similarly titled measures presented by other companies.

**Adjusted Net Income.** We define Adjusted Net Income as earnings attributable to Guild before the change in the fair value measurements related to our MSRs, contingent liabilities related to completed acquisitions due to changes in valuation assumptions, amortization of acquired intangible assets and stock-based compensation. We exclude these items because we believe they are non-cash expenses that are not reflective of our core operations or indicative of our ongoing operations. Adjusted Net Income is also adjusted by applying an estimated effective tax rate to these adjustments. In addition we exclude the change in the fair value of MSRs due to changes in model inputs and assumptions from Adjusted Net Income and Adjusted EBITDA below because we believe this non-cash, non-realized adjustment to net revenues is not indicative of our operating performance or results of operations but rather reflects changes in model inputs and assumptions (e.g., prepayment speed, discount rate and cost to service assumptions) that impact the carrying value of the Company's MSRs from period to period.

**Adjusted Earnings Per Share.** We define Adjusted Earnings Per Share as our adjusted net income divided by the basic weighted average shares outstanding of our Class A and Class B common stock.

**Adjusted EBITDA.** We define Adjusted EBITDA as earnings before interest (without adjustment for net warehouse interest related to loan fundings and payoff interest related to loan prepayments), taxes, depreciation and amortization and net income attributable to the non-controlling interest exclusive of any change in the fair value measurements of the MSRs due to valuation assumptions, contingent liabilities from business acquisitions and stock-based compensation. We exclude these items because we believe they are non-cash expenses that are not reflective of our core operations or indicative of our ongoing operations.

**Adjusted Return on Equity.** We define Adjusted Return on Equity as annualized Adjusted Net Income as a percentage of average beginning and ending stockholders' equity during the period.

We use these non-GAAP financial measures to evaluate our operating performance, to establish budgets and to develop operational goals for managing our business. These non-GAAP financial measures are designed to evaluate operating results exclusive of fair value adjustments that are not indicative of management's operating performance. Accordingly, we believe that these financial measures provide useful information to investors and others in understanding and evaluating our operating results, enhancing the overall understanding of our past performance and future prospects.

Our non-GAAP financial measures are not prepared in accordance with GAAP and should not be considered in isolation of, or as an alternative to, measures prepared in accordance with GAAP. There are a number of limitations related to the use of these non-GAAP financial measures rather than net income (loss) or net income (loss) attributable to Guild, which are the most directly comparable financial measures calculated and presented in accordance with GAAP for Adjusted Net Income and Adjusted EBITDA, and Return on Equity, which is the most directly comparable financial measure calculated and presented in accordance with GAAP for Adjusted Return on Equity. These limitations include that these non-GAAP financial measures are not based on a comprehensive set of accounting rules or principles and many of the adjustments to the GAAP financial measures reflect the exclusion of items that are recurring and may be reflected in the Company's financial results for the foreseeable future. In addition, other companies may use other measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparison.

For more information on these non-GAAP financial measures, please see the "GAAP to Non-GAAP Reconciliations" included at the end of this release.

<sup>(1)</sup> Includes retail and correspondent loans and excludes brokered loans.

<sup>(2)</sup> Brokered loans are defined as loans we originate in the retail channel that are processed by us but underwritten and closed by another lender. These loans are typically for products we choose not to offer in-house.

<sup>(3)</sup> Represents loan origination fees and gain on sale of loans, net divided by total in-house origination to derive basis points.

<sup>(4)</sup> Pull-through adjusted locked volume is equal to total locked volume multiplied by pull-through rates of 93.4%, 94.6% and 91.5% as of December 31, 2022, September 30, 2022, and December 31, 2021, respectively. We estimate the pull-through rate based on changes in pricing and actual borrower behavior using a historical analysis of loan closing data and "fallout" data with respect to the number of commitments that have historically remained unexercised.

<sup>(5)</sup> Represents loan origination fees and gain on sale of loans, net divided by pull-through adjusted locked volume.

<sup>(6)</sup> Purchase recapture rate is calculated as the ratio of (i) UPB of our clients that originated a new mortgage with us for the purchase of a home in a given period, to (ii) total UPB of our clients that paid off their existing mortgage as a result of selling their home in a given period.

<sup>(7)</sup> Refinance recapture rate is calculated as the ratio of (i) UPB of our clients that originated a new mortgage loan for the purpose of refinancing an existing mortgage with us in a given period, to (ii) total UPB of our clients that paid off their existing mortgage as a result of a refinance in the same period.
